Healing Techniques and Divine Tantras

Teaching in the Baba Temple

January 5, 2000

Good evening guys.

I was already told about the tantric, divine tantric energy. What is mean by tantric? If you go through the tantric energy - mantra, yantra, tantra, the mantra when you start giving chanting and chanting and chanting in your mind certain forms of the energy homes, energy bonds, energy circles, energy angles, it forms as a home. The spirits, the holy man's souls, the angels when it starting to appearing to you before when it is coming we can see as with a clear mind, with a different type of, the jig jag with a beautiful structure angles. Same like that when we started to chanting the mantras, when we're in the highest deepest trance we can see some visions of the yantras.

Suppose when I am doing Mother Divine meditation, when I want to suck the Mother Divine energy through the Sri Chakra, the vision immediately in my mind, I will started to draw. When you start to draw, the Sri Chakra in your mind, you're complete from your Brahma Consciousness, entire your body started to vibrates, to giving vibrations, you feel so hot - little heat, little warm and little high energetic. Your breathing and your breathing out, it is complete different than what you are in normal. At the position when you have such strong, high energy flowing in you, the ability flowing in you, that is the right moment time you can use the tantric energy to send somebody to heal.

How it works? We can come the point. When you are so high

energetic, yourself, you are chanting Gayatri mantra, you're chanting Sri Maha Lakshmi yantra, sorry... you're chanting Sri Lakshmi mantra. You're chanting Shiva mantra – high, high, high energy flowing in you. As a normal person before, then after you're chanting the middle of, when you're chanting that vibrations, that energy is complete different. At the time a person, how he have to handle that? How he have to send that energy? Where it exactly the tantric energy started to come to begin, it means... when you have such type of strong energy, I recommend you to hold that yantra, whatever that yantra you have, or you draw in your mind, or if you are a Master you draw that yantra in your mind.

When you draw that mantra, when you reach that high energy stage, that yantra until to the energy can discharge in you, that yantra a long time, one hour, one and a half hour, two hours, it stays in your mind as a photograph. As a printing photograph, it stays there complete in your Brahma Consciousness as a kundalini, it stays there that yantra. Just you are completely seeing on that. It means you are so connected with mantra, after the mantra, you are also learning that same yantra very powerfully.

After you have two parts of mantra and yantra, you have huge commanding on that both of. Then, you're holding that yantra, you are complete in the huge trance. No more thoughts. At the time you are in the Brahmhananda. When you are in the Brahmhananda, that is the highest position, situation time that entire chakra energy you can send to your friend who was really want help from you. That when you are sending that energy, that chakra started to rotating in your brain, in your mind, then it moves as a chakra. Then it goes to wherever that person is there, the long distance, wherever he is. It goes to, it hits him. That energy enters into his body, that chakra energy it enters in his body. That's tantric energy.

Not sending the mantra energy, using the mantra energy, hooking with yantra, pushing with the mantra energy, the yantra, throwing the yantra on the person. When you throw the yantra energy on the person, it called tantric. Here you are not using the mantra. You're creating the mantra energy, you're bringing, you're drawing the yantra, you're holding there and you're bringing up high speed and one fraction of moments, you're completely blessing with your Brahma Consciousness to the person. That yantra energy huge effects than the mantra energy, that mantra energy huge effects, than the

normal mantra energy. You see the difference? So what I recommend even though whatever you learn a few yantras... the yantra is one thousand times powerful than the mantra. The yantra is one thousand times powerful than the mantra. The mantra, there is a millions of millions of millions of mantras is there. The yantras, only like a few hundreds - less than few hundreds. In the few hundreds, top one, top two, top three, top four, like maybe ten. Period.

To working that yantra mechanism like a triggering, like a triggering, the exact mantra is very important. For to this yantra, which mantra exactly hits that yantra it works the people. That triggering mantra is very important. You know triggering one? What type of triggering mantras? I already gave that eighteen mantras. That mantras huge triggering mantras in the world you can operate any yantra in the universe like that. It belongs to Shiva, Mother Divine, Subramanyam, Ganesh, Surya, Moon, Papa, Ganga, all the I gave, I covered big huge.

That triggering mantras you can use, Sri Chakra, Moon, Sun - three is enough entire your life. You can learn more if you want but Sri Chakra is one of the topest important because of Sri Maha Lakshmi, the prosperity. It's very, very important now-a-days in this yuga, the earth is rotating herself. You know rotating? And also it's a joke and also the earth is also rotating with the wealthy man. You understand? Is it make sense? Who is a richest person entire all almost the world will listen his word. Even though it is, rotating serves the earth but it rotates to the wealthy man also. Is means the wealthy, the prosperity is so, so, so, so important.

The Sri Chakra what you've drawn, maybe different people have different confusions, "Swami, we've seen different Sri Chakra, we've seen different Sri chakra, we've see different chakra.". Ridiculous! Swami can say only one word "ridiculous". What I drawn, what I seen, it's my personal experience, you can say all the mantras, all the yantras is complete new author, new Maha Sri Swami Kaleshwar, new saint Swami Kaleshwar mantras and yantras. We no need to follow the ancient, crazy, very different hard traditions - now-a-days it doesn't fit. You understand? Doesn't fit.

The previous days the people, they has to go in the middle of the water. They will sit until to here, they are meditating for days and days. If I say that tradition now to the everybody... any one person can do that? Impossible. They have to stand with one leg and

meditating for hours. Is it possible to meditate like that? Some people with the stand handing, meditating with the srishasana, in asanas, in yogas, under the head standing. They'll do with the different Kundalini chakras to opening. They will do the stuff. Is it possible? In this, especially in this new millennium, it is so, so, so important. It's not possible nowadays has to do, is no need... this why I'm mentioning the yantras... the highest energetic persons, not persons, energetic things in the universe- one is the sun next is the moon. Nowadays, what we are practically receiving the vibrations, the energy entire in the universe, one of the main parts, the main instruments, is the moon and sun. Especially sun is high powerful person who was giving high energy to this planet. In the sun energy incredible energy is there. We have to suck his energy in our own way to utilizing that energy in our benefits in a smooth process.

The tantrics people, who was going to do the negativity - negative process - suppose the black magicians. Whatever they say, even I don't want to talk on the subject, even I don't know about the subject for sure. Different Saints, different people, they started to talk to me but "Hey," I said "shut-up don't tell to me. No more comments on that. I don't want to listen." But whatever any person in the universe who was having fear on the negativity somebody did a black magic. I'm going to tell very short tantric techniques, high divine tantric techniques- good symptoms. High- it means Okay, we can talk. Any black magician did any black magic to somebody, any negative souls is hanging in the cosmic, how to use the divine tantric energy to heal that. Is the only tantric energy, it's only tantric energy, only tantric energy how to take care through giving the healings. How to take care? Listen.

The evils, the negative spirits, anything in the universe that it will afraid to the light. Number one fundamental symbol. If there is a light... even in the forest if a big tiger is attacking on you, if you have a little fire, flash, torch, is a tiger comes on you? I'm talking seriously, be honest, Cindy is it comes on you?

Cindy: No.

**Swami:** Have you ever tried on the tiger?

Student: Never.

**Swami:** You ever tried?

Student: No.

**Swami:** But how you know that?

Student: I want to try.

**Swami:** You want to try? Your wife is not here. Most-of-ly any negative vibrations in the light, in the fire, such type of abilities, mostly there is not one hundred percent guarantee but I can give one hundred percent guarantee to on the negative souls and negative spirits - we no need to fear. If you have a candle or torch in your hand it never comes to you. It is thousand times powerful than the big cross, powerful cross holding in your hand. The flash burning, that burning, also it has to be carry, not to fall down on the floor.

Suppose you are walking in a forest, you're walking, your car is broken, you has to walk three miles to your friend's house. It is an old castle. You know but you have some fear that there is some negative spirits is living there but you have to go there. Even if you have a flashlight, you know flashlight? Go with flashlight it never comes to you. If you turn off your flashlight there is a chance that negative energies can little affect you. Even though it's not affecting on you, in our heart it automatically creates the fear. When you are giving the chance in your heart to create the fear, that small fear it goes to (*motioning hand up and up and up*) you can't breathe, then you go really crazy big shouting then, "Oh my God" coming blood out of your mouth, coming blood your nose. It's very scareable

What I'm saying here. Every person know the mantras, and every person know about the yantras. Even the yantra, if you started to think on your yantra in your mind, just simply think on your yantra, "Hey, how to draw the Moon mantra? Hey how to draw the Sri Chakra?" Just you started to think... there is a big chance the fear never comes and touch you. Even though the fear it comes, even the big black magician he can do huge black miracles, he can send the spirits, you're simply sitting. You know about Sri Chakra, you know about Moon yantra, you know about Surya yantra, you know the Gayatri mantra, you know about Mother Divine songs, you know about Mother Divine bijaksharas, you know about Shiva prayers, just you simply sit there. Then use your tantric energy, divine tantric energy. Just simply sit.

A person who is really got hurted, who was really got hurted who

was really suffering with a person a negative spirits is really bothering him. You first you have to check if he is a psychiatric patient or not. Number one, you have to do. Don't create him as a big psychiatric patient. Listen, very, very important, I'm talking, (snaps fingers) attention. A person came... suppose Lothar came, "Oh, Swami, everyday I'm getting huge fear some negative spirit is coming to me." You have to study his file, what circumstances he living, who was around he's living? Is he really has some psychiatric problems or he have a good attention, good brain he's talking very as a normal person very friendly and everything is...he's fine. But he's talking with his heart, definitely some energy is bothering him.

When you seen that, then you started to give healing. If you see way of his talking, way of his behaving, way of his actions, if you see he's little mind is little damaged- it is my sincere strict advice: try to bring him to the psychiatric hospital. Don't try on him, wasting of your energy. You are in the big problem, your Swami name and fame will go down then you will get the bad karma. It's not good. One hundred percent you are doing the crime. You understand? One hundred percent you are doing the crime. Period. So you have to be very careful, you have to watch the person, is it right or not? Look very carefully and seriously, if he's really the energy is bothering him (snaps) try to make him to sit in front of you. Simply you have to tell the person, "Hey, watch me without blinking you eyes complete look to me." Then you sit in your meditation.

When you are sitting in meditation, you have to do: Take a leaves, big leaves, sit on the leaves with East face. When you are making the leaves, if you are a really good Master, you can draw the Moon yantra, or Sri Chakra yantra or Surya yantra, you can draw in your mind perfect, no problem. Then you sit on the leaves, you draw the yantra. Complete bring that energy in the eighteen mantras and your personal mantra try to chanting. At the same time to the person who was sitting with you he has to completely watch your face. When you are sitting this side and this side, try to put the two candles. Even though the tears is coming out, doesn't matter, he has to look straightly to you.

He has huge crazy nature, he can't sit, period no problem, let him to sit...take fifteen minutes, twenty-five minutes, thirty minutes, forty-five minutes, doesn't matter. Even though his eyes is little burning, he can make the blinking one time. Again he has to stop. Then you

started to bring with the, hook the trigger mantra, any mantra.

Suppose took the Gayatri, "Om Bhur Bhuva Suvaha Tat Savitur Varenyam..." took that (snap) chanting and chanting and chanting and chanting, draw the Surya yantra. You stay there. You stay there little while. With that yantra though your Brahma Consciousness command on his negative spirit, "Right now, you come out from him. Right moment I'm healing this person. Right moment I'm sending the divine energy by help of the God. Please God try to help this man. Really, really he need your help. I am doing my maximum best. Here is your son, here is your daughter, she is really feeling left out. Kindly, please try to heal this person. Use me, help him."

You have to bring that consciousness there. You have to bring that consciousness, in your Brahma Consciousness, throw that entire the Sri Chakra or Surya or the Moon yantra energy in him. Don't touch, just you send it. When you are sending him, when you are feeling to sending him, at that time you open the eyes straightly you look your eyes to his eyes, chht, like three to four, five minutes straightly look. Send your energy to him by the grace of the God. At the time you are feeling so peaceful. At the same time he's also feeling so, so, so peaceful.

You can use this process for any type of problems in the universe, especially mainly who was really suffering with the negative spirits or somebody did a black magic. Entire their family is suffering with a somebody like a hundred years back or fifty years back somebody did some black magic, still that energy's continuing some negative spirits is bothering in their family, at that time send it out.

That is one tradition, one path. Suppose entire in their home, having a, they can't move from their home. They want to stay in their home but they have huge negative experiences in their... negative spirits energy is there in their home. Many, many healers they tried to help their home. It's not helping. At the time... (snaps) listen, very important, don't write, it almost all recording everything, don't write, listen.

Take a silver sheet or copper sheet. Full moon day at midnight times, go to the nature with that who was really want your help, who really want, that person, your help. Bring that man. Take a silver sheet or copper sheet, it has to be metal, or gold sheet, fine. Go in the deepest nature. Go in front of ocean wherever it is. You have to write

minimum two yantras, to draw the yantras in the peaceful nature. Put the person sit there and make the candles like two flames, you know torches, two big torches. You have to write that yantras only in the fire, not like a normal fire... two torches, not small candles put a big torches, draw it. Then that two sheets put your two hands and you meditate very, very peacefully. That two sheets bring that back to their home, in the northeast corner or east corner, in their place anyplace in their home or in the garden. In the northeast or east, dig little bit, this much, put it, put some flowers, put some flowers, bury it. Two yantras bury it. Where you buried it, you put some rose plants on that - nobody can't walk, very, very important - bury it!

There is a lot of ground vibrations. That vibrations, it entire whatever in their property, it is significance in Indian tradition they says it sucks entire the negativity. When you are writing that yantra make sure you're writing one hundred percent perfect. Same time make sure you're not at the time there is no meat, no fish, no mutton in your stomach. Make sure in that home they're not cooking the chicken, mutton in their home. Make sure that same, that family member who was with you not eating any chicken, mutton or anything stuff. He has to be in that light when you are writing. He's the one of the person witnessing, he's sitting there, he really want help from you. God grace you are writing and he's there. Like a you went a church, the priest is doing the pujas on your name. He is putting some water and he is putting you a cup on you. You understand? Here our priest is doing. Same you are doing with the tradition one process there. Same process with the torches in front of nature or a ocean or in a beautiful garden in the forest.

When you are writing, if any person is seeing that you're writing or any person came, "Hey, what you doing Martin? Hey Lothar what you doing?" (snaps) Finish, you can't help it. Next day you can't help it, third day you can't help it. Your plans to write two yantras, you've already done one yantra, you're writing second yantra, a person came, "Hey, how are you Martin?" That two yantras is super failure. You can't help that person family anymore. That person is breaking that energy, chht.. In the nature it has to be you and that person - only two person.

That yantras when you are bringing, entire their family members can see that. Not any neighbors, any friends, anybody, no permission to see that yantras. But when you are hiding that yantras it has to be

make sure only in that family one or two persons has to be only known that two yantras is hidden in that place. Don't tell to any person. Don't put the rocks or anything there just put some flowers, garden, rose plants, some plants grown it. You understand what I'm saying? It is the deepest secrecy energy making preparing. It is very important - that one type of tradition.

Go third one. No need to write, listen. Everybody want to write? It's very easy man to understand. What? Not necessary to remember?

Clint: She's afraid she can't remember.

Michelle M: It's not easy to remember, you give us so much information.

Student: It's not easy to remember every detail.

Jonathan: We will have the tapes.

**Swami:** Hey, lot of tapes is recording here, doesn't matter. This same talk, if everybody is writing and making break it takes minimum one hour, in a thirty-five minutes we done it. It's two traditions almost three traditions in a thirty-five minutes we done it. If you're going writing and questioning it goes to like two hours easily - swaha. No Okay just go, another one.

If you really seeing the angels, divine angels, you're really seeing a person, a holy man having a huge energy you know he has power, how to receive from him or your seeing some power is walking, some angels is going this way, you know that for sure. How to suck that energy? Many people saying in this castle, in this church, in this temple a father four hundred years back, a father's soul is still living in this church. He have enormous energy, still he sometimes, still he is walking in this church.

It's my personal experience. When I went to one time to Mysore, it's is a beautiful old church near the Mysore. It's a small village. I went to my friend's party, wedding party. In India you know lot of mosquitoes. My biggest allergy is mosquitoes. You can't find a small mosquito in my bedrooms. Always the mosquito coils burning day and night. Period. A lot of mosquitoes, all my friends sleeping, "Gosh, I can't sleep." At 1:30, 2:00 a.m. I wake up. Church that small old church. It's a small village, like a hundred houses, small church is

there. There is not enough doors to close it. It's open. Just I wake up I walk to the church. Walking in the street.

A person having a white dress, long robe and he is sitting to the cross bending his head, something he's reading. There is no lights at all, complete dark. Entire in the darkness only I'm seeing him. In one corner there is a small oil lamp, like this oil lamp is there. There is no chance he can read clearly the letters, it is very distance.

Suppose the oil lamp is there from there you can read that? No chance. He is reading. I'm little foolish at the time. Who is this man reading now like 1:00 a.m. or 1:30 a.m.? I thought anyhow it is not my business. He is doing something. He's doing something prayers. Then again the dogs barking, just little, that distance. Then I turn I started to say, "Hey", before I saying, "Hey" again I felt maybe I am giving disturbance to him. Just I turn to say, "Hey" to the dog, again I turn back maybe I'm disturbing this guy, I watching him. That person who was sitting on this side, in a second he is sitting on that side. Not even 3 to 4 seconds. I am 100% positive. Then I shout, "Hey, look..." Here he is today in my hands, he can't escape. I got, I bring up my energy very strongly, he can't escape from me. "Come on."

Suppose if you seen something there- how can we say that? You are a good hunter in an open ground there is a deer. Beautiful open ground with all walls, with very open you have many bullets. Any bullet you can hit it. Like that with my energy I am so confident. Such a huge confident I brought up. How to bring that confidence I will explain that process also. Look this funny guy, that Father he's like 450 years back still he want to, his desire, when he connected to the Jesus his desire, he wants to stay forever and ever, forever and ever in that place to everyday connect with the Jesus and the angels. That's his desire he don't want to go next life. He want to hanging in that church, but he never developed that church, he never focus the energy on the people to make it bigger one because of he don't like too much negativity coming and throwing on that churches...that church. Okay, that's... next matter...

Simply watched that guy. Immediately he moved that, that side in a second. Then I get shock, okay, how to suck divine energy from him? How I can communicate with him? How the beginning stage to handle with him? I can't go straightly, "Hey, I'm so and so." Immediately in a seconds he will go disappear or big. There is no

more thought in my mind simply, he know I'm there, 100% he know. He's reading and then he's saying, "Kaleshwar?" I open my heart, "Please, I want to talk to you. Give me permission. I want to little more, I want to do conversation with you. I am so happy, I'm so glad I'm here. Thank you for giving darshan. Thank you for appearing to me but I want to see your face. I want to see your face." At the time, actually I'm expecting something, to get something from him but again my mind changed, "I don't want expect anything from you. I don't want to give trouble to your prayers. Just I want to see your face. I want to spend little time with you like face to face." like that, in my soul talking.

When I started to think in my heart. You have to observe very carefully why I'm saying this... Then he started, "Kaleshwar, welcome." I'm trying to walk to near to him - so heavy my legs to move too near to him. Such strong brave person I am on the moments psychologically fear attacking me. That fear it's growing and growing. It is becoming huge bigger. Then again I prayed on my Master, "Hey, Baba, what you doing here? This is the right moments. You gave a such a huge connection channels to connect, can see, can contact with the supernatural things in the universe but the right position came but I'm not able, my body is not accepting to go to near to him. Please, what is this happening there?" Do you understand my feelings there? "You gave the channels to me but I am not going to able to reach to him. Please."

Like in a second, like again free person like step each moment God wants to test you. Each step, even though you have the right time, even though the time is yours, you are the king to your kingdom but still God have power until to you reach, you sit, "Okay, I am the king." Until to you say that word, he have full power until to you reach and sit your chair, he will can test you.

Then I went very close to him. He is sitting on the table, orange table. I went like a dias just I sit on the dias and watching him. He have a big beard, until to the beard, the hairs is until to like here, he have a book. That book, I watch, that book is complete with a huge light, his hands is huge light. Okay, it's not my, I can't expect. How we say that? I can't express how power it is, how it is energy, so power.

Okay then in my life that is one of the first time taking like my two hands and doing like this (together like in prayer). Then he's

laughing, "Oh you are doing pranams to me. Oh, you are doing pranams to me." Then I start to, "Who are you?" I asking, "Who are you?" "Who am I? You don't know?" "Please I want to know who are you?" "That is not your business what do you want?" Straightly, "That's not your business, what do you want?" Just I said, "I need your love. I need your love." Immediately, his answer, "That's why I brought you here. That's why I brought you here." At the time, first time, I ask to him. It's a little private but I'll go in different way... At the first time I experience the Jesus energy with one hundred percent clearly, one hundred percent clearly like that - like a matter of fifteen seconds, ten to fifteen seconds. Next day morning just fifteen seconds after that Father disappear, that energy disappear. Wherever he sat and doing prayers, I slept there. You know my nature when I slept I wake up at like 11:00 a.m. like 12:00 noon like 1:00 p.m.

Whole that village, actually the party is at 7:30-8:00 it's a marriage vacation - I have to create the mangal sutra, you know mangal sutra? Gold chain. I have to give the two rings. I'm the main person but I am sleeping in the church. Whole... is on the bench even who walk in like the church they can't see I'm seeping there. You understand? The table it's covering. They stop the wedding entire the village they're searching for me. They're going that fields to the swimming pools, wells, maybe I went to take shower. "Hey where is the guy, where he is?" only the small kids who was playing who comes in the church, they're playing and they goes away.

Some Fridays some festivals only at that time they decorates that church some painting and do prayers, they go. Few Christians is there living, mostly the Hindus. It's an old church nobody enters that. Like 11:30a.m. I wake up like that, "What's time now? Oh, my gosh." Then I started to walking in the street like a drowsy man, drunken man. Then I said to my friends I'm so sorry I was unable to come to your wedding, I had this experience. At the time all my friends have big opinion on me, I'm a hysteria patient. My friends. But some devotees they believes on me, "Okay anyhow we are already 3 or 4 hours late, please let's celebrate now." Then I send a blessing to that couples

Why I am saying here, no doubt when your heart started to open to the God nobody can predict no body can say exactly when it has to come out, the God energy. When you like a wife and husband making the love, certain point nobody can be sure so and so year

she's getting pregnant and she's getting delivery a baby. You understand?

It has to be done at any moment. When it started to growing means in spirituality inner experience is running means like psychic intuition, somebody you are seeing, some smell, some music, it means you are pregnant. You are pregnant, no doubt, at any time the delivery will come out. I'm so sorry I'm using crazy words. You are pregnant so it means you have to be very alert. Hey, you are to the close to the God. God is flowing in you one hundred percent; God is working in you.

When you seen such a holy humble person anywhere even as in a physical form, you see a person if you go like a big egoism, "I'm big man, he's nothing" even though you have knowledge of big wisdom person, even though you have a following of ten million people what I observe in personal my practical life... even a small boy or a Saint comes to Swami ashram he gives one hundred percent respect to them. Respect means never ignore. Of course, they loves me they comes they surrenders to my feet. Even though they surrenders to my feet I takes them, "Okay you sit in the chair" like equalism. In India they never puts like making sitting equalism. Even the God energy one hundred percent he comes to test you about your egoism. No doubt at all, no doubt at all! It's very serious. If you are little egoism you are in the huge trouble.

There is one more story, real story. This king really big huge helping nature. When he's making a fort on the top of the hill, before they made, one more hill even he, one more fort when he's making on the top of the hill, he have only a small pot of water with him. Only himself that is his. This king a little crazy guy, good crazy guy only he wants to walk himself in the deepest forest. At the time in this hill huge plants huge forest no body have no guts, dareness to go in the deep forest, tigers, wild animals. He went only himself. He's so thirsty he's drinking the water. When he started to drinking the water he have only small water. A old man with a stick he came, "Can you give the water to me? I am so thirsty." The king he's so kind, "Oh you want water?" Then he hold him. Then he made him to drink. The king think maybe he can drink half, it's a little bit he can't drink all. Just the king made him to drink then entire that pot water he drank.

The king he's so thirsty he is ready to die. "Okay Grandfather, please sit take rest." Then he's also sitting under the tree relaxing. "Oh my God there's no water in the deep forest. He can't go and find the water. That's okay he's a king big strong man big personality. He's taking himself good breathing. In seconds, that old man disappeared. When after disappeared the old man, the king he saw his heart is really aching, hurting, "God, what a funny guy. You are came in my kingdom you have..." he's talking like that, that is in the clear in the history, in the people talkings many people. This is my kingdom you came and drink my water. I don't care you're drinking my water but why can't you tell the...why can't you tell the truth? Why can't you do darshan to me? I never did a harm to anybody in my life, I'm the entire big king. That's why he built it 365 temples in this area. Everyday, everyday one time, one temple he want to visit. If you go keeping on in a year, how many days - 365 temples he's visiting everyday.

Such type of strongest deepest faith he have on the God. Then immediately in the empty pot again the water came up. Then he got the message, "Hey, don't worry man. I am in your heart. I am living in your kingdom, don't worry I am in your kingdom. You have to be complete open your heart to me to do your duty. I will take care." He got the message he is so impress. Entire his prosperity, entire his everything, he's the biggest billionaire in the world at that time, four hundred and fifty years back, entire in the world. He spend all the money, all the stuff for all the temples, entire in India especially in this state all the temples if you started to build now it takes some hundreds of millions of dollars like huge temples he built it. Tiripathi this and Hampi many, many places even the villages he built big, big, big temples - he got darshan.

Why I'm saying this when our heart is open, when you are meditating with the mantra, when you can create in your mind the yantra, you are the Master. When you are creating with the yantra the God he personally comes to test you. He comes through with different persons to test you. He wants to make you little change your mind mood of. He's definitely he's giving some confusion in your mind. Hey, what is this spirituality why am I doing this mantra, why I'm doing this yantra?

Even if you're doing, whatever you're doing you're not losing anything. You're not losing anything unless if the same time if you're

using for the meditation...if you're not using for the meditation at the same time definitely you're using in the bar or gambling or with a party somewhere with a crazy activities. Instead of the activities you're taking the time thinking on the God. Is it not bad? Is it bad? One hundred percent it is good. Even though the people circumstance whatever the people they're thinking on you, you are a crazy guy, so what who cares? Take your hair, blue it. You can be like that. Such a dare and dash, big guts, never mind. Sit under the wherever you feel peaceful in the garden you have two hours time. There's a big gambling place. You no need to go and waste the time losing your money.

Go and sit under the tree. Sit in the peace of mind, chanting the prayer, draw the yantra in your mind. Then you see the result, then you see the result one hundred percent no doubt you'll get a such a happy and joy. I can't give guarantee God will come to you, God will talk to you, angels will come and angels will talk to you, you can do and you can levitate you can...I can't give guarantee, it's not in my pocket to giving to you. Some people if I really the Master thinks, really the Master thinks few people he can, "Okay, here it is my money from my pocket, I'm giving to you, you can use it." You no need to gain that power, you no need to gain the money, you no need to gain the meditation energy if the Master thinks he can give from his pocket. What he have in the treasure he can give it to you but self you have to made that.

Through the ...Why I'm saying this stuff, in the tantrics you have such type of huge energy, you can suck to drawing that...already I mentioned that... if you can draw that tantra, sorry... yantra, using with mantra, making the balancing and staying there, like one attitude, one level huge energy you can send any person. In the universe big challenge, you can do big challenge whatever he's black magic person. You can destroy his power. Like five minutes your meditation with your yantra energy thinking on the black magic person send it to destroy his energy, it destroys. He can't do anymore. I can give one hundred percent guarantee, one hundred percent not ninety-nine percent. It means I'm the professional on that my energy divine power process. Because of, you have the big heart, you're doing with good work, you understand?

So, don't get confused here, "Why is Swami talking a little emotionally here?" It means, it has to be talked that emotionally to

bring up that your energy little high to bring that... your yantra can draw in your mind. Especially it's very easy to the artist—you know artists? They can easily they can hook that. It's a God's gift to them. I'm not such a good artist but my level best. But exactly to remembering the mantras and exactly the process of how to do how to handle that; it is also one, and also how to your heart is open... these are all... it has to be equal. If you want to make a dahl, if you put more salt, if you put less spicy, if you put more oil doesn't make you good taste. The all the percentages is very important. Open heart, good memory, using good...the perfect mantra, sending process, the healing technique way of doing exactly... these are all it has to be everything in a particular level.

You no need...nowadays the Saints and the swamis they are feeling they're like a Gods, they're like Avatars, like they're avadhuts. It's okay. It is the worst feeling it is worst creation it's doing. A Master he never became a God. Everybody's Gods, every person is a God. We no need to take a person to treat him as a God. If you're doing that means you are the big demon - how come a person become a God? If you have a love, put a flower, make a garland, hug him that's okay... but thinking he's a God it means you are the demon, he's a God. Many people nowadays in the universe they are doing that, "I am a God I am an Avatara". It means he is the biggest stupid in the universe. Don't create in your hearts such a feelings.

Now I can say probably Shirdi Baba is a God because of what he did what he live simply, after he gone - he's our Master, he's our lover, he's our friend, he's a God, he's everything... he is a man of the love. Now we can say he is a God. You understand the difference there?

Today an Indian man came. I am so mad at him. He came and fall down on my feet. He have a huge love. He have huge love and affection he fall down on my feet. "Oh, thank you so much", and I put on his back my hand, "no problem." Then he say... completely from the beginning he is saying, "Oh, you are my God. Oh you are the avatar. Oh you are that..." I told very seriously and strictly, "God is in you. Don't make to me repeat again those words. God is in you. Try to find inner side. I am your just friend. You can say I am your Master, I am your Guru, that's okay." You understand the difference?

So, every person everyone here God give equal abilities. Whatever I have ability, every person have the same equal abilities. Whatever

Shirdi Baba have abilities every person have abilities. Whatever the Jesus have abilities every person have the abilities. God also came with a human body. He used the human body same like us five fingers. With the God he have no ten fingers, he have no hundred eyes. If he have hundred eyes he is a God, we can say hey he's a little personality...different personality, we can say him as a God. He have also two eyes, same fingers, same tongue, same mouth as a human body. He's also gift to us everybody born like a same way.

Love is different. Way of your ignorance you're taking that innocency creating your illusion, "He's a God, he is my life, complete he is my God." If you go like that, period, you can't get success in your life. Try your best, depend on your Master then depend on his Master. Pray to inner self to the God, to the cosmic. If you everybody feeling, "Swami Kaleshwar is God"...if I am God why am I eating the food? If I got a little temperature, "Dr. Clint can you check my temperature, maybe I have a little temperature?" Huh-un. You have to think the truth reality. Don't be again in your own illusion nets. Come out from the illusion nets. It's very important. If you're still in the illusion nets until to your death, until to your die, you can't come out the truthful, you can't recognize the truth. God is different, Master is different, love is different. That's why Indian tradition says:

Guru Brahmha Guru Vishnuu

Guru Devo Maheshwara

Guru Sakshat Para Brahmha

Tas Maisree Guru Veana Namaha.

As a Master you can love him only as a Master, not a God. I never seen Brahmha, Vishnu, Maheshwara, I have no idea who are they guys. The tradition say the Brahma means he have three heads, Shiva means he have a cobras, Vishnu he have a sudarshana chakra and with a knife all the stuff. I never seen that three guys, but, "You are my Master, you are teaching the knowledge to me, you're telling the truth to me, I love you so much, I really thankful to you. I am seeing all the three persons in the form of your knowledge. You're giving such a knowledge to me, I am feeling big love to you."

But the Masters not misuse that. I'm saying here to everybody. One day everybody going big Masters here. Don't misuse like a feeling

yourself when hundred people comes to you, if you feel, "I am a God" definitely they feels, then automatically egoism comes up. Any chance if you think, like you're feeling you are a God, there is your destroy. There is your backside a big cobra is ready to bite you. That is karma. You are doing a big crime. Love them, take a flower, take thousands of flowers on your head, they can throw on you as a big Master. Okay love them, no problem, but you are not a God. Don't improve your egoism. If you are going your egoism, any seconds God can switch off entire your power. Again you are a simple street man in the street. He can take back all your prosperity, your knowledge, your name and fame. He can create a lot of illusions in your life. He can create lot of tragedy in your life. God can do anythings if you have huge egoism. That is very important. You understand? Sometimes God can test you with the different angles. You have to stand for that. "Swami, what you are supposed to talk about tantrics, tantric energy, but you're talking about this things. The tantric energy when you develop this, these are all stuff automatically improves a lot of testings comes. That's why I'm saying these stories.

One time... I don't want to mention a person name who was one of the strongest in North India very famous Saint. I met him in Sri Sailam. I went in Sri Sailam into Shiva temple. I have good influence in Sri Sailam, am I? Am I? I stop entire the lines. All the devotees, me and my little group we went inside to Shiva temple. We're doing abhishek. He is also pretty famous, powerful Saint, old man seventy-five years. He also came at the same time in the Shiva temple. Look at this, at the same time, there is a Shiva, we are two Saints there, we want to do abhishek. Just I simply when I see him, first I put-ed the Shiva to prayer, then again I saw the person, "Oh, Master" pranam. He simply smiled... he simply smiled. We did a abhishek. We came out. In the steps when we are coming down after the Shiva temple, when we are going up to the Mother Divine temple, there is a steps you have to climb. I made him to sit on the top of the steps. I sitted the down step, I'm very happy and laughing. All my devotees, they are so angry on me, "Hey, why, what you doing? You are sitting on the floor while he is sitting on the top." He's old man, he's laughing and talking and laughing and talking. All the temple people, A to Z, they know about me. All that Sri Sailam, entire that temple, everybody know about Swami, they comes and they visits.

Again, we went to Mother Divine temple. When we are coming out,

that old Saint, that man just he simply bended his head, and he touched my feet, "Thank you so much we will see you again" he jumped in the car. Then immediately, from my eyes, the tears is started to flowing. He said, "In front of your humbleness, my knowledge, my age, I'm like your Grandfather, my age and everything, just you melted it with your love. Just you made it like sugarcane, took out squeeze it, take the sugar out. With you humbleness and with your love." Just simply my tears is coming out. Then everybody simply watching - then he jump in his car, he gone. I took my car, went out.

Look the position there. Even if somebody, your friend comes, if you both of the guys a healer, healer, seeing one hundred percent what I observe in the western people, "Oh, he is here huh, ohhhh he is going to talk now, okay what his talk?" then identifying his mistakes, "Oh, he shouldn't talk like this, he shouldn't talk like this" identifying mistakes. That is the biggest bad habit. It means your power you are losing. What is the angel's power what is growing in you, you are cutting that with your own hands. If you are mentioning somebody weak points, that's not your business. He's also one level equal to you; he is also good ability. He is sucking millions of people, he have good attraction, name and fame, much popularity. That's his karma whatever he is talking.

Fine. If you are open to him when you see him personally, maybe it's wrong to you, if you start to talk you can talk him privately, "Hey, maybe this my feeling, don't misunderstand." If you are mentioning it like a publicly, "Hey, he did this, he did this, he did this" what is your greatness there? You are the biggest stupid there, he is commenting something, you are also commenting something. Two big stupids, fighting eachothers. There is no more God. There is no more spirituality. There is no more happy. There is no more fragrance. There is a dirty fragrance is growing there. Unnecessarily it is throwing on the millions of people, innocent people, they are receiving it. Two people, they are doing big crime there.

Why I'm saying this, you have to develop the such abilities to simply accept a truth, even though if you know it's not truth, but you have to see the right time, the right moment to say, to explain the process is it true or not. You have to choose that time using your sense of humor. That's very important. If you have no sense of humor, even though you are so powerful man, you have huge destroy in your life.

One day it will bite you. There is no more life to you. Especially, this is very, very important in spiritual, successful lives. Why the spiritual successful life people, they're getting failure means because of these reasons. They never use with their sense of humor in the right times. Just they are talking and talking and talking. Okay, I think it's time to do Baba's arathi. He's also waiting the priest is also outside talking. We can continue again tonight. Thank you so much guys, for the one hour and fifteen minutes nonstop talk.

Students: Thank you Swami, thank you for the wonderful speech you're giving.

**Swami:** It's like a ten minutes talk, whole talk is like a ten minutes. It's a beautiful tantric energy we can discussion. I hope tonight I am going to complete entire, whole workshop, then giving programming to the people to do. Goodnight.

End of Talk
