## Christmas Program 1999

Go Direct to God—End of Slavism, Part Two

Teaching at the Ashram

January 11, 2000

### *Evening Lecture*

Good evening guys.

Part Two Teaching at the Ashram January 11, 2000

...to the branch. You have to come inside the root. Don't come as a branch, come the root. See where is the beginning, the beginning. Jesus find where is his beginning—dig it. Shirdi Baba, where is his beginning? Krishna, where is his beginning? Where he studied, whom he studied. We can see in the Krishna history, he went to his master; he studied many years. He learned many, many things. That Krishna is avatar, but avatar is not surrendering to his master, they are good friends. But Krishna is Krishna-- his master is his master, his teacher. Krishna is not a completely...he doesn't gave his life to his master. He's taking the truth; he's spreading it. But he's saying one sentence, "I am so thankful to my master what he brought me, this greatness energy - enough, fine."

If you feel so love just you fall down, you hurt, you kiss, you give flower—whatever your love. Like master means, to monkey training: jump—jump, sit—sit, dance—dance. That is the slavism. Uh—uh, I

figure out that way. Master means that is...be free, happy, know the truth, spread it. The people ask in Germany, they want to form an organization, how you do. I said that is none of my business. Do what ever you want in a good way. I don't want to interfere with anything; I don't want any one single dollar from it. Who are the students making whatever, donation making whatever - forget it. Even Martin can't talk it, no chance. I don't want. I don't want to command on my students, "Hey, you should do this, you should do this, you should do this." Nothing, you do whatever you like - be happy. Be in a good way. Be good, do good, see good. Be happy.

If I started to commanding, when I'm giving training, when I'm making something, a statue, a rock, if the statue cries, if the statue thinks, "Why is he beating with his chisel? Why is he chiseling me, why?" After a little while, it's a beautiful statue. Then after, when you have that beautiful statue, then they throw the flowers on your feet, making beautiful garlands. Chiseling is so important. Now Baba statue, if someone is not chiseling him, making the legs, like cutting him making the legs, Baba never feel bad, "Why he's doing it like that?" He needs it. Now he can't anybody to know him. Now he's done. Now we are throwing flowers, some rose water, ok. You understand the difference?

Students: Yes.

Swami: The master - no, this culture - no. When he's working with somebody exactly, "What type of structure am I making?" He has in his...exactly. When he's working something, he also figures structure. What type of structure I am drawing. What type of structure I'm making this beautiful statue. Then he started to see exact that way. When he done, then he says done, go. He's so happy, the master is so happy. Where ever the statue goes, fine.

Here, why I'm saying this, in Indian tradition many, many saints, many, many supernatural systems came up. You have to understand all the things come from the root. Come from the basic, wherever it is you are so impressed. It doesn't matter—go, take, catch. Win your victory; win your victory. First you make your life so comfortable and happy. Make your family members happy, your childrens happy, yourself happy. Even though you are a little uncomfortable, that is ok, go ahead, take off.

With me, my family members, entire my family members is 100%

unhappy, especially my mother. She's saying simply, you are so untruthful to me - period. But she loves me so much. She is saying, because of she gave this body to me I have to surrender, ok, please forgive me. I can't say some truths, "What am I doing, what is my life? If I talked, I'm a big crime person. If I'm not making my mother happy, any person not making their mother happy - the person, he can't win the God's love, as that soul can't win the God's love - 1,000%.

But, when you reach one certain stage, when you can handle her energy, that's fine but, even to me her energy bothers me a lot. When she's crying um-um, period, it stops. The line it goes, it stops there, until I make her to laugh. I'm good at that, I'm good at that! Any person who is so upset, oh gosh. First I looks their position. Two days back, Anya is, for example, huge oooo. Fifteen, ten minutes, simply I putted her in the talk, talking. Then she's, "Oh, Swami, why are you doing this? Why are you doing this horrible? Why are you torturing me?"

In my administration I'm a little tough. What I gave work, what you did. Any person what I gave it, even if I'm not yelling on that, if I'm not screaming means that feelings is going in positive high way. It's not that. Swami never tells it goes fast, it's moving. You have to make sure if you are not able to do that, "Swami, it's too heavy work to me, I want some bodies help, two or three people." Then I can do that making work together.

For example, I gave a program to Myuri, "You should do like this system, this system, this system." In a while, then she gave up. Then I asked, "Are you done? You are still doing?" Now when I checked with Karpuna, you're still doing the process? He said, "Yes, still I'm doing." But he don't want anything but he wants to be up there. Still doing process, but many months he came here, many months near, near nine months or one year he came here. Still he's doing, wherever he is doing, it's a, to get one hundred marks. Even to me, I'm not afraid to give with my egoism, with my little programs. His energy is not accepting me to put in a good way. It will draw, automatically it comes, the energy. It has to go and help him. I want to talk on that very deeply. Are you sleepy guys? "No."

How the energy systems - my students sometimes, for example...is it ok if I talk, Monika L, about your life?

Monika L: Go ahead.

**Swami:** Some students, they have my pictures, even some Indians - many. They're crying, angry at me, how their works are not going smooth. Even though their works is not going well but, they're a little frustrated like they are feeling drained, they feel like they are lost, like painful for the Indians.

In Monika L's life, when I'm talking to the Philip on the phone, "How is Monika doing?" He answers, "Well, hummm, well you know that." And Monika, very deeply, just I exactly pointing, "What's going on?" If I'm ignoring that, like in a court, a person is depending on one soul like on you. That energy automatically...that poor judge, he gives you the energy, that money whatever it is. You understand?

So, automatically the people, sucks from you, then you have to suck from the God. You have to channel that. You have to make sure that personally, any person who have a, really related to you...when you feel a little sore inside, depression, angry, something painful and 1,000% that energy affects on you, vibrates on you. It pains you. You have to be, beginning stage...my sincere advice, don't promise 1,000% anything to anybody. Then, you know you are so busy person, don't give "Ok, I'm doing this, I'm making this." If you are not able to make that, even though you know you can make it but, you say diplomatically, no dilemma, what you do, don't make it.

When somebody is upset with notice or without notice, that energy vibrates on your soul. It's very, very, very important, especially personally in your life. Suppose wife and husband, if wife is so unhappy can you be happy in the home? "No." Why, she's unhappy, what happened to you? You be happy man. She's unhappy, fine, you can eat, you can drink... Is it possible?

John: When the woman's unhappy, everybody is unhappy.

**Swami:** My work is to you. Even if the husband is unhappy, the woman can be happy in the home? "No." In the family, like six persons is there, if one person is unhappy all five persons can be happy?

John: No.

**Swami:** Tell me why.

John: Everybody feels it. Disharmony. We are all connected, when one is upset, everybody is upset.

**Swami:** If somebody is connected to you, when you have somebody is upset, then you have to say you're getting painful. That painful is also coming to me. You have to use to make them understand, "You want to torture me?" I go like that with some people, the Indians. The Indians are very strong. I go to my mom, "Ok, your crying, it affects on me. Do you want to torture me? Just you're giving punishment to your son? Ok, I will take it." She says, "Ok, I don't want to worry anymore on you."

Exchanging the energy, transmission of energy is very, very - you have to notice that. If you are going a little strange it means, think, think— uh-uh, who, where, what? Who, where, what? What's wrong, where is wrong? Then notice that, even if you can't notice where it is meditate, discharge. Meditate and discharge immediately. Think on some connection points, "Where I'm going to find the cause of that, where is that?"

Ok, in the female, why she is so powerful in the universe than the man. Is it all the men can accept guys? The female is powerful or the male is powerful?

Ramakrishna: Female.

John: The woman is more powerful in the home.

**Swami:** In the home? What about outside?

John: "That's why for thousands of years they have tried to keep the woman in the home. She's out now so she is taking over the world."

**Swami:** You recognize that - oh thank you so much.

John: I love women to take over the world.

**Swami:** We don't need that point, the two points is enough. But the woman, she is silent ocean. If the ocean is silent, it is very silent. When it is starting to giving the floods, only the ocean can know how much the floods can take. The women can know, they have such a strong daresness than the men. Do you believe it?

John: We experience it.

**Swami:** We, or you? No.

John: You've been at my house.

**Swami:** The silent oceans, me especially from my personal experience, I love the women than the man because of, don't get angry on me man, they are so loving, they are easy to understand, they takes like that (snap). They never go turn down, the womens this, this, this...they focus ok, da, da, da, da done - they walks. Come to big points. The female, in the Vedic tradition, they say they have additional one chakra, actually one power spot. That is their baby creation spot, how do you say that? "Womb." The womb.

In the womb, they says, entire world, entire God creation is hidden there. Even God wants to come in this planet he has to choose a lady, he has to go in a mother womb--he has to come out to lead the world. No chance. Through that only way, he have to come out. It means it makes clear sense. The female energy is necessary even to the creation in the nature. In the Vedic tradition say, nature is the lady, the Mother - God is the Father. There is a big argue, without God there is no nature. Without nature there is no God but I won't agree. Without nature there is no God.

In the nature, we can create incredible supernatural things. Suppose I, with my knowledge, I can create supernatural things, different formulas, different souls, different incredible unbelievable things. I can make it possible to happen just using the nature. It's above the little knowledge, but no need with God.

After understanding the God, after taking the fundamentals on the God, we can take off using the nature. Why I am saying, when you go in the nature, talking yourself, I said it's a beautiful talk on that day, think one to one and one half hour I talk, how to talk on yourself. Even the tears comes out, that's fine, wash out, talk reality. You should do that program; then you see the result. Meditate with your prayers.

In the womb, when they're sucking the energy, mostly the woman, it is going to the womb. It is going to the womb. Why the male, they are getting very stronger and stronger and stronger and stronger, using the...making the happy the woman. Then he sucks back the huge cosmic. That is, the woman is always giving - she is not taking it. The woman means she is giving. She is sucking easily and she's giving to

you.

The male thinking, "Ok, we are giving," one hundred percent wrong. She is giving to you but there is a different channels...you can give to the woman very easily, very powerfully like that. Through that process, in Vedic tradition, they created many, many supernatural stuff. Easy to get the enlightenment, easy get to charge your soul high powerful, different stuff. I don't want to talk on that deeply. Just I'm jumping on that subject.

In the womb, when a mother, she is carrying a baby, first beginning stage, the new creation starting inside. Whatever the doctor saying, whatever the stuff they are saying, that's different. Her entire energy is different. That mother can easily, can pray to the God, to the angels, different prayers sucking and sending to the baby.

The Bhakta Prahalabha, the story...ok I will teach a five minutes story: A big demon is very, very angry on the Lord Krishna—rakshasa. He's a big king. His wife is so beautiful. All the rakshasas is dying in the Krishna's hand. He's so frustrated. His wife is one month pregnant; he went to the forest to meditate on the Shiva. All the rakshasas, they choose the Shiva. Shiva is perfect judge, like good judgement. He can give very beautiful judgement. Beautiful judgement means: whatever you ask, he will give it. Krishna he is very master on the knowledge. "Wait a minute." "What?" "Wait a minute," then he goes.

He pretends he didn't listen. Keeping on, keeping on, he changes you. That is his nature, entire his life history. Then Shiva, he went to meditation, he's sucking highest Shiva power. His wife is carrying baby. Then the Narada, a Saint Maharshi, he came to his wife. Then everyday she's getting bored. Nighttime somebody wants to her to take care. The Maharshi already coming when she's sleeping, he's talking and talking. When she's sleeping he's talking about Krishna's greatness - inside, baby he's channeling to inside baby.

Entire the kingdom, everybody hates Krishna. The rakshasas huge kingdom, they hates Krishna but that rakshasas' son is growing. The Narada starting to giving greatness about Krishna. All Krishna life history he teach. When she's sleeping, then he's started to telling, then he sat inside hm, hm, hm, hm talking and talking, talking and talking. Early morning then he goes out. Nighttime coming and she's talking normal things, when she gets sleepy, the he's talking on the

Krishna things. When the baby come out, he's crying, "Krishna, Krishna." At that time the baby little grown, his mother little worried. "Oh my God, if the father comes, he will kill his son, first like that."

Then the father got boon from Shiva. Whatever he ask the Shiva, in the earth, in the sky, in the home, outside of the home, anywhere, there is no die to me, animals, tigers. Daytime, nighttime, no killing, either male or female, either animal or man, no killing, no chance--no. Shiva bless, then he came small boy, "Krishna Mukunda, Krishna Mukunda," he's started to sing. "Oh my God, what a crazy son, hey, hey." he's screaming on Krishna, "Where are you, I will kill you now." You can't. Then he started to kill all the devatas. Then he went, taking huge revenge, killing.

All the Gods, the angels, all the positive people much died. They all went, many people they went to Krishna, "You are only one person to solve this problem, because of Shiva gave power to him. You should take care, please, he's completely misusing." "No problem, I already started, created, his son is big enemy. Now he's growing." Then he made the son little growing. He putted the poison, made him to drink. Nothing happens. Making him under the elephants to kicking. Nothing happens. Huge valleys, throwing, nothing happening - he tried maximum best, nothing happening. One day, "My dear son, please, he is our enemy. He killed my brother, our grandfather, all of our kingdom, many, many people he killed us. He's our best enemy. Please don't chant his name. Otherwise, I want to kill myself. Please. Otherwise, you show me where he is."

He went to Krishna place. The Krishna ran away. Seriously, he ran away. He left his place. Little fear. Then screaming, "Ok, where he is?" Then he's asking, "Can you show your Krishna place? Ok, I know his energy flowing in you 100%. I can't kill you with my hands, but I tried. It's failed, many, many times. You sure?" Then he said, "Ok, you want to talk my Krishna, then I will show you." "That is biggest gift you try to give to me. I am so happy. Either he or me."

"Then he talked to me close. Then he is in this pillar, break it. He is in this pillar." Then he take his mace, he beat in that building. Huge lion face, a lion face, a man body. He came out. He never seen such a personality anywhere. He's not man; he's not animal. When he's asking boon to Shiva, he asked, "I have no killing from either man, or either animal." He didn't inquire animal plus man—mixing. He came

as a form. He got fear, "Oh my God".

But he asked in the home, outside of the home, no chance to somebody kill. Then he feel himself so safer side. He's trying to fight. Krishna and he's fighting and fighting and fighting. Finally, he went to another step. You know on the bottom—edge—not in the home, not outside, on the middle center point. He stayed. He came there fighting, just he catch his hairs, just keep tearing his stomach--took his intestines. Then he made like music. When Krishna's making the music all the different supernatural formulas released. This is true. 1600 year-old palm leaf book, they wrote that. Supernatural formulas came out. When it's coming, some people they are writing.

Then he opened his eyes. "Krishna, you are great." Then the boy, he's praying and praying, crying, "What's going on here?" To him, to make again to bring as normal Krishna. Nobody have no daresness. He have huge, highest... like a rakshasa. He feel like the rakshasa—hot, hot— huge energy to fight the negativity. Then all the Gods, Shiva also, he appeared with his trident telling to the boy, "You pray to make him to cool down. I did a mistake. You make him to cool down." Then the boy chanted different prayers. Those also we can find. You can learn a lot of knowledge if you learn the Sanskrit. Clear knowledge.

Then he came down as a normal person. That same statue we can see in Hampi - big statue as a lion face, Shiva and a big lion face, you seen? 400-500 years back, the emperor he made it. It means how many years? Like 1000 years, 1500 years back, they're still maintaining that faith and tradition. The structure and the tradition, we can see that. We have evidence now, the statue. Before that, is not making, this century before, last century before; it is coming from there.

In the woman, when she's carrying the baby, come again to original point. She can send, she can transfer--huge she can send highest positive energy. She can prepare her son entire as a huge avatar when he comes out. When he's in the stomach, she can easily prepare. Just with open heart and asking the help and prayers. Whatever she feels.

Ok, in the womb they tells, one is Siddhi Shakti, one is Asta Siddhi Shakti. Siddhi Shakti means as a normal people we are coming out. Asta Siddhi Shakti is a soul before reservation, making reservation, purifying the mother. Making alert, with notice or without notice.

Then coming in her life, coming as a normal person to delivery, to come out - little grown, leaving the home, going out. Same history, Shirdi Baba. We'll talk about again tomorrow very deeply on Shirdi Baba.

It most affects in Asta Siddhi Process. A mother if she trying that program, Asta Siddhi programs, different channels of the energy systems prayers. Maybe I can figure out in English, it will be useful to the world one day, that prayers, huge effects. When the son comes, they can measure his energy day-by-day growing, how compared to normal people, normal children's energy—her energy. No doubt.

Why it is means, some children when they grow little bit, we can see some evidence they are so, so clever. They're telling supernatural like mathematics, some computer programming, some music things. "Hey how he got it, how it possible?" His soul is so powerful, he's not sucking any negativity when the mother is carrying. She's simply ignoring son, ignoring her pregnancy - she's not sleeping. Maybe she is staying in highest positive. Maybe she's doing highest, holy centers--she meditated. A holy person healed her - that energy protecting that baby very carefully not to sucking negativity. When it sucks, even it doesn't affect hugely. When it comes out, automatically it affects like that (snapping fingers) from the childhood days.

For example, if a mother have two babies. That two babies is like... one baby like one and a half year old another baby is like six months or three months old. This two years old baby, when the small baby she's carrying, the two years baby starting to be jealous. "You make that baby down, I want to come up." That baby don't like anything. From that time onwards, that baby start to think jealous. "Now I want that." He don't know how to lie; he don't know how to talk. He don't know what is that he don't know what is this but, he wants that, he wants to make it.

From that period onwards, that energy, that illusions is coming affecting on. Expert driver, he's driving very...he's expert, he's a master, he's driving sometimes he knows how to control exactly - he makes the accident. The mind, the energy, it like hits one time, it goes crazy. Even though he is so expert, his expertism, he can't implement on that period, on that time. Why?

Take that same example, the mother giving the love. When she's giving love, the son is receiving, two years boy. Then he wants to

reach that. Then he started to be jealous. He wants to reach there. Doesn't make much sense to the people. But if you see a beautiful person, any person, a successful person, nowadays in the world, seventy-five to eighty percent people without their notice they're creating jealous. He's not your friend, he's not your enemy but, it's natural, it comes up. Why? That's my question, why? What is the mechanism running there?

**John:** You're explaining it by saying when you're a child, you see another child having what you want, you can't have it, you become jealous. If that was your experience as a child then later in life if you see somebody being held by the mother being loved and supported and you're not, then you go, "Hey put the baby down, I want to be there. Bring the baby down." You feel jealous. Is that your point?

**Swami:** Yes. The energy, from the childhood days, it affects--the illusions. Naturally without your notice it is working there. It's growing and growing and built-upping and built-upping. What I recommend I already told. Weekly once with your children with your family, try to visit a peaceful center, a holy center, a church, anyplace hanging little while there. Come back to home - see how life goes. The churches, that place it has to be very the huge where a gathering comes. You have to visit that number one, first place or which place is really peaceful you really so impress. You go in that little period, sit in positive energy, you go back--see the result.

**John:** Like a beautiful forest?

**Swami:** Yah, fine but it won't be on your property. Today just we walk. When we walk, I felt huge energy. Just we made the two mats on the ground. I lay down; he's starting to talking and talking and talking. John, he's magnetizing me. "Shall we meditate a little while?" "Ok." How much time we be there? More than one and a half hour. Like just I slept. I went in the sleep, open nature I went, fall down, beautiful. He also meditated a little while then he lay down on the ground. I watched him, again I wake up, I watch him he's like... lay down like that... I thought, "Ok, what a guy from America he came." All ants is going I see. Ok, this is your karma man." You won't accept the karma. This is karma.

Whatever you're experiencing, the energy, what is happening that is called karma--as simple in Sanskrit as in English. I laugh to myself; I can't help you from the ants. Enjoy, I don't want put too much

attention on the guy. After little while he wake up, ok pee. It means he's doing a big program on the water! I accept one hundred percent drinking much water. It purifies our body. There is good programming, if you go to a movie, if you see some film... the people sitting next to you...

John: I have to sit in an aisle. Once you start drinking more water, your body gets used to it and you don't have to go as often. Your body will adjust to it, it does.

**Swami:** But, it's my poor Indian tradition it says, if you drink too much water, you have to go too much pee. Otherwise, where it goes? If you are making it disappear... ok, that's a miracle. Like buckets of water... gosh. So, the female... today the energy is not continuation flowing to talk - the female energy. Let's talk about male energy. We can complete today.

In moon yantra they completely dedicated to whom I told... Shiva. Shiva means linga kooti. They call as a male energy. Male energy. What is secrecy a Shiva lingam? What is secrecies there? What is the symbol? Why is it like that in India? Why are they doing abisheks? Why they are taking that symbol? The people are little crazy or what? Don?

Lothar: It is where life springs from. Where the life force is created, springing from, it's the first place where it comes from.

Swami: Exactly, anybody have any idea more clearly, John?

John: The Shiva lingam why it is worshipped? It is the source of life. It is the male energy that impregnates the female energy.

Swami: They told in the universe highest powerful, they created Shiva lingam. They can make the light, incredible, supernatural great abilities. Even when you go a touch a Shiva lingam doing some certain Vedic prayers you can suck huge energy. Especially the female (snaps fingers) they can get it. The male, they are doing prayers to the Mother Divine, they can get it. They have to go opposite forms.

John: Could you explain that a little bit more, males getting energy from the Shiva lingam, prays to Mother Divine and then gets the benefits of Shiva? Why do we visit the Shiva first before we visit the

shakti, when we go to Sri Sailam?

SWAMI: Shiva is one of the big boss. In the Vedas they put Shiva as the number one character. He's the creator - then the Mother - the mother always - she's stepping back. All the woman, if they loves a man they will do anything. Is it true? It's true.

Suppose I am talking. Don't get confused here. Ramakrishna with girlfriend, with girlfriend 100% love with Ramakrishna. Somebody shot him - the girlfriend watch. What she does? Without notice she jumps on him to protect. Or even she is ready to comes, the shot comes. That's period, it is 100% true. If something happening there she see, she immediately attacks to take care of it. If the same one process, if the female having some problem, if the male person watch, the same feelings also goes like that to protect, attack, very powerfully. It's like a 100% guarantee. If it effects, incredible more than the woman, if it doesn't effect it stays there. It's in the Vedic tradition they talk about it.

If the male energy, if it started to effect, enormous huge covering. Like a Shiva energy, he loves a rakshasa, forget it, "What do you want, who cares about the entire creation, what do you want? Tell me. You want this? You want to destroy everybody? Ok, take it." You can see entire the Vedic traditions in the Vedas. He did crazy stuff, "I loves you so much, you loves me so much." Period. "What you want? Take it." That's Shiva energy.

Krishna, female energy, 16,000 women is his Gopi girls, almost all he's female. Almost all he's female - the female energy always making doubts like goings ups and downs. What? If the husband comes in the home even though she loves him so much, like her nature little fraction of some thoughts, "Where you came from?" Is it really true or not? It's true? "Of course." Even though she is in the kitchen, he is in the office room, she's cutting the vegetables, she have some psychic powers, "What is he doing there? What is going on there?" When he comes back then she research everything in his pockets, in his brief case. She can't stop it. He's talking someone on the phone even though she's in the home, listening, one ear is there. "Ah—ah, what is going on there?"

God gave some special gifts to the woman. Krishna energy is like that. Krishna energy is like that. When he's talking to somebody, he won't trust anybody in the universe. Period. He won't trust 100%, anybody

in the universe. He loves everybody in the universe. He never give any boons, anything to anybody in his life except to the bhakti way he gives; who meditated who done--no chance. More than Krishna... Brahma. Brahma, is first creator, hard horrible character.

If Brahma appeared means, he's so incredible. Brahma never appeared to anybody, only Shiva and Mother Divine. To making appearing the female energy, it is very easy in the universe and any souls in the universe. If they do like five to six years program, they can connect easily. That program they have to do exactly like straightly, especially in this century. Even Ramakrishna Paramahansa did in a matter of twelve, fifteen years, that time period brings them - they can connect. Six years programming, don't worry about the Masters, the Gurus, whatever. You take one program, one system, connect and open your heart--do it. Your heart magnetism brings it in front of you. Nobody can stop that.

After I met in Hampi a guy, after seeing the cry in his eyes how sympathy, how kind, how love. Beginning is like tiger face. I told, "Who is this guy?" then immediately thinking, "How he know that?" We can see; we can feel in his face such peace, "It's enough thank you. It's enough to me but I want to experience more and more and more. Now I understand entire the creation. Now I know the real thing."

Is there any proof, evidences, any country 2000 years back at least 1000 years back, some manuscripts or any writings? Any country, I don't know, I am asking the question - proof of spirituality, supernatural things, some formulas, some prayers?

Group: In Egypt, Europe, the Dead Sea Scrolls. China has from 5000 years back, the Taoists, supernatural powers, very common.

Swami: In America?

Group: No, America is only 200 years old.

Philip: But there is sculptures of kundalini going up the back of people sitting there like this...that are couple thousand years old, dug up in America.

John: There are pictures in South America, Mexico, Peru. Pictures on the walls that show deities coming and talking.

Swami: 100% exact right when you did a certain perfect process,

channeling, it comes and it appears. It makes conversation with you--period. Nobody can say no. If they say no, I will say then they are hysteria. There are really weird persons. Souls is there, if souls is there, supernatural souls is there. If the supernatural souls is there, the angels is there. If the angels is there, the God power is there. When the God power is there, there is a categories one, two, three big categories— huge souls is there. It's like called Shiva, Brahma, Vishnu whatever it is, period.

You have to hook that, the reality channeling. What I gave all the prayers mostly, the angels, Mother Divine prayers and Shiva prayers. All the 18 prayers—no need to know all the meanings, just it is the angels, Mother Divine and Shiva—take off.

Use the Western terms, understand, practice, experience it, do this, do that, do this, you have huge time, twenty-four hours time everyday. Take care like a program one hour this, one-hour that, one hour this, one hour that. You have to know capability to teach the Westerners. You have to understand some people are very uncomfortable with new Sanskrit, whatever this stuff. If you call Brahma, Vishnu, Shiva they go crazy, gosh.

When I talk in Los Angeles, when I'm talking something, Shiva means, they have no idea Brahma. "Ok, Brahma, say that again. Brahma. Ok, good word Swami, what is the meaning? Venkateshwara, ok who is the guy, what is the meaning?" That type of people, it is useful to the Western prayers. Western prayers, if they are very interested, they know India. They know Sanskrit little bit, traditions they want to understand, like those persons only thirty percent. Like that persons we can see only thirty percent in the universe. Seventy percent high, modern generation that kids, whatever is going, they want Western terms. What I'm bringing, all the information, even this one, what I give is like a Western terms, small prayers exactly like high powerful pick-upping. If I gave like a hundred years back, like ten generations, everybody have to learn minimum 10,000 prayers.

In India there are hundreds of thousands of palm leaf books 2,000 years old - before that 6-7,000 years old back, comparison the traditions, the powers--what they handled. Very few people living, not like, in the deepest forest like making like huts, like a Maharshi's. In the time period of Krishna, in the time period of Rama, they're

writing on the beautiful stories. Then the people, they understand, "Ok, it's all true, it's fact". Otherwise, how that stories comes out, like entire Bhagavad Gita, like Mahabharata, everything no chance.

Thousands years old temples we can see; it means how strong we have proofs on the day, when they are built upping, when they are making the huge temple means, how much they have the strong faith in their backgrounds. They have some evidences. At that time there is no banks, no safes, only the ground, digging and burying it, lot of wars, lot of fightings, king-to-king, killing each other, throwing out. It's all hidden, hidden, hidden in the ground. They destroyed, firing - they fired. Many people tried to bring some stuff and to keep. Only twenty percent knowledge we have nowadays in India - eighty percent is gone. If all eighty percent is there, entire world would be so peaceful and happy, the supernatural things... seriously.

And the saints, crazy saints, I'm so angry at many people, why they didn't prepare strongest people, strongest souls. Make the only... they stayed only themselves. I am guru, I am Swamiji, you have to surrender to my feet, period. You have to worship my feet forever and ever. I one hundred percent disagree with that - crazy. Like a man to a man, huge deceiving and like making to the all human creation to his feet making like with his egoism and with his, "I am only great, just you be there on the floor. I will sit in the chair, just you be there, sit on the nails, sit on the thorns." That is what the saints did. I want to break that.

How he got the saint? He's not come from heaven directly, making the feathers, "Ok, I came from heaven, I have some qualities like this" - forget it. He also came as a what he born, as he born. In the world they have to understand the truth. Every person has to understand if they do certain processes, they will reach their destiny. Until to reach their destiny, you have to learn everything. Then follow year heart. Make your life so comfortable where you are, then you follow it.

No need to follow Swami Kaleshwar, "Oh Swami, what is this yantras, what is this mantra?" No need to make your life miserable and no need to be like, feel like its miserable. Fine. Take your simple way, go peacefully make your life happy. Your life is so important than making the other people happy. If you are not happy, you can't make people happy. No chance. When you are in the dark, you can't show the light, one hundred percent - period. So, first be happy.

Make people happy.

Don't struggle for the happy to be found, to researching. Take it as a simple and easy. Don't be exciting like exhausted, too much frustrated, like too much worrying, too much crazy thinking. "Oh maybe, may not be." Take it relax, easy. Do as a normal process. Do it. You have to always follow your heart. Don't ignore yourself. Bring inner master out, follow him. If you're ignoring yourself, don't follow my tradition. That's my sincere advice—a wasting of your time. I don't want to do a crime as your friend, as your master, as your teacher. Don't do, uh-uh.

Think what you're doing deeply, make sure, think, make sure, think, make sure - done. If you start to think somebody's craziness, "Swami gave this program to this guy. Oh Swami gave another same program, little different to this guy. Why Swami gave like this? Why is he making me like this?" - ego thinking, so sorry. To the mountain go different ways. Different ways. Where I born, what I learn, what I'm going through, what I been through, what I tasted one hundred percent exactly, only that in my circumstance I will tells. I never grow the boundaries out. I'm practicing the Vaastu, I'm experiencing the Vaastu then ok, I'm teaching this. If I'm not following the Vaastu - no chance, I think everybody's seeing that. How many times breaking, breaking this wall, putting there, breaking this, breaking that, ok it's fine, construct it. Huge money wasted, ok, fine that's constructed. That is important. Before, whatever you are doing, or whatever you are talking, think first, "What is this? What you're doing? Great."

In spirituality, it's really wasting your life means, you're reaching your death day-by-day. I don't want to make fear. It means I'm just noticing you. You're wasting your time cycle, closer, closer, closer. Make sure what you're doing. You can spend huge money, fine, not the time. Time is the big gold, huge jewelry don't lost it. You see, do it, three years, ten years, thirty years some person they doing meditation and meditation and nothing happening. This is the horrible. It's so horrible. No experience, nothing. Nothing is there - big crime. You're entire... making you like a prisoner in a spiritual prison. Maybe the master is wrong. Maybe yourself wrong. Maybe you have big confusion. You're huge confused. What you want to do? Nobody can make you satisfied. You can't satisfy yourself. You're not following your heart, period. You are a spiritual prisoner. Forever and ever you are a prisoner. Wasting of your time struggling,

struggling, struggling, big unhappiness there. See it's not normal - it's no good. Is it making sense Philip?

Philip: Yes, having spent twenty-five years meditating before I met you. Yes, it makes sense.

**Swami:** Can you tell, be honest, and sincere truth? Before your twenty-three years meditation, after you met Swami Kaleshwar meditation, what is the difference? What you been through, what is that, what is this?

Philip: Before I met you the only purpose of meditation was to run from the world. And after I met you I started discovering the beauty of the world and myself and how they were all interconnected. And I finally felt that I was achieving what I had always wanted in my heart.

**Swami:** What you mean by achieving?

John: Accomplish a goal.

**Swami:** Reaching... achieving, yes. Good work. Each person, especially my students, I can say very strongly like a big egoism, like my friends, like my boys, my family members they reach huge meditation like a hundred years, somebody like five-hundred years, somebody like a thousand years. In a matter of a couple years, they win it. They got it already.

That type of huge incredible processes I'm doing with them. So, it's necessary to follow your heart one hundred percent. If you're ignoring your heart, please don't do spiritual practice. First advice, then no one percent chance to follow Swami Kaleshwar process - you really go crazy, period. Nobody can help you. You go crazy that energy. Be peaceful, relax, do it. If you don't like it, stop it - fine, take different process if you like - simple way, go.

What I am teaching, it's like a university degree, PhD. Like direct Doctorate. You know Doctorate?

Students: Yes.

**Swami:** Hooking everybody but different. Different types of healing, different types of stuff, different types of traditions, what John also, he teach everything. He also from his childhood days, he also

practice beautiful spiritual practices. That energy brought him different way to get successful. Again, he came back to his home, I hope. Isn't it? He found Swami, Swami found him. Then I started to making to him teasing, like you know, real frying?

John: East came to West.

**Swami:** East came to West, yah East came to West. The sun have to go to West because he have to rest? The East only came like four or five times. The West came like thirteen, fourteen times.

John: It's because the West kicked you out, the passport people. (laughter)

**Swami:** The East sucked him here - don't go. We are the East, we are the big rising person, we no need to go. The again, "Ok, I want to go," like commanding on the fire. Like one day Sri Sailam fire yagyam? You notice that? In Sri Sailam yagyam I told, "They release your karma, will go clear. No problem," like my lawyer rakshasa. It's ok, the recording - no problem. He is very tough, tough guy on me. He is very tough on the immigration people, oh gosh - period. Then, "I love you so much, you should follow me - period." Then he win it. He came to embassy with me, Madras Immigration. They're not letting him to allow with me. They said only the client has to go inside. "I the lawyer of him, "I should go inside to talk, he don't speak good English." "If he's not able to speak good English then we can call you."

Then he's like a strong. I went. The immigration peoples started to talking to me, "Who is the person came with you? What is his name, where he live?" Before he trying, what they're going to ask. He gave a big list of questions. No doubt all the questions will be here. You have to answer. Then, hmmm, it's like same, like the before question paper. I started to giving answers. Then they went to him talking little bit. They took passport, "Come tomorrow, you got the visa, then again, wait one week." They went to New Delhi, then New Delhi, checking some stuff. "The boy, something doing miracles, da, da, da, some history is there. In India, is it possible, that traditions?" "I don't know the Indian Government what they said very easily. But, it seems to me possible." Madras people, they called here. The Embassy, the American government, they called here. "Come get your passport with your visa." Then I sent Monika L., "Ok, you go and get it." Again they wrote little wrong on the visa, "We are so sorry." Again

they gave a new visa.

It means if there is a will, there is a way. If there is a will, there is a way, pure heart to help somebody. Then if you're in your heart you want to learn something, to really want to receive something, to win successful something. The way will come automatically in front of your feet. Go and do this way, you'll get successful, one thousand percent period, exact right. Though you have to be very careful in your lives what you're doing, what's wrong, what's bad, what is this, what is that - everything, whole your great successful in your hands, taking your decisions in your life. Period.

One part if I really think right now, "Swami is like a billionaire. How many millions per a billion—1000? Swami is a billionaire." Some person, even right now, are ready. They're ready to give. I am not kidding. I'm not joking. "Just you do this work first." One level, it is good, helping millions of people, almost all. My heart is, "Forget it, be peaceful be happy." What I am enjoying, that much food, 400 Rupees dress, that's it! Why you need this millions of dollars they are ready to pay? "Go ahead, do it." Following their heart. No need to killing inside heart. So, we can stop the program. It's 12:30am now. Good night.

End of Talk
