Christmas Program 2000
Paramashiva Yoga
Divine Energies and Negative Energies
Afternoon talk at the Ashram
December 11, 2000

Swami: How many types of the divine energies are there in the universe to remove any kind of negative energies? That you can wash out like that? I don't know about the black magic powers but I know how to wash out those things. Is it a good chapter Philip Lipetz?

Philip: Yes.

Swami: From the Fifteenth Stage to Nineteenth Stage - just we are jumping Fifth to the Fifteenth then we'll discussion later on the different chapters. I thought it's very important to explain as early as possible, what do you think RK? Where are you?

RK: Great, I am here.

Swami: How many people don't believe on the black magic powers? I'm not creating fear here. How many people don't believe the dark energy? Black magic means if power is one it is like milk and yogurt. I think I told that before. Milk is like a divine power. Yogurt is like from the milk it came the negative power. It's a part of the high divine power. It's there, black magic power. What is meant by divine power or what is meant by negative power? It's a question to Clint Thompson.

Clint: I think the divine power is the cosmic energy, supernatural power. It is the power that's outside of this realm, outside of the physical.

Swami: Ok, it won't come from in our heart, huh?

Clint: And it's also the power we experience as love and joy and peace and silence. The negative power...well, I don't know where it comes from. I don't know that mechanism but I know what it feels like. It feels like absence of the divine powers. It feels like fear, anxiety, anger, wanting something and being unworthy.

Swami: That's it, huh? Monika L? In the western countries is the most very, very important chapter. You can help millions of people with this knowledge. It takes few...ten to fifteen minutes for the energy to come down to understand but you have to understand what is meant by divine power and what is meant by the negative power? Is both one or are they separate? We have to discuss that little bit from different people's opinions.

Monika L: I think ultimately it's one power. It starts as one power, one energy, everything starts as one energy.

Swami: Ok, that's right.

Monika L: But when you use the energy in the negative way, in a way to hurt other people then it turns...like you said yogurt comes from milk but it's a little spoiled. So you take the energy and you spoil it by using it in a negative way.

Swami: Exactly. So, the aghora process Philip Lipetz, what generally they talk? It's a huge subject knowledge. I think everybody know about aghora isn't it? Did everybody listen to the Paramashiva Yoga tape aghora and ghora? If you don't know aghora and ghora it means I have to sit simply in the chair and we'll talk tomorrow. Again I have to go A to Z, huh? I didn't teach that? Who didn't hear that? That's a big problem. It's a big knowledge in the Indian tradition aghora and ghora, it's a huge subject knowledge. Ok, anyhow explain.

Philip: The aghora process is a process of using black magic to gain powers. You do processes with the dead spirits, dead bodies, with the skulls of people who have recently died. You try to capture spirits and souls to make them work for you even when they don't want to. You cast yantras and spells on people to make them do various things. You take powers from other people and steal it for yourself.

Swami: Absolutely right, it's done. It's working with spirits, working with dead body's souls, working with human being's souls after they died,

working with the bones. If you watch any master in the universe, if he's carrying the skull and bone in his hand either in India or anywhere in the world you can simply say he's the man of black magic. He doesn't know the connecting the angels. Angels and everything is the divine power. With a skull and the bones sitting in the graveyard, talking with the spirits and the negative spirits and the human being's souls, that's completely black magic powers.

I am giving an idea to you what are the black magic and what are the divine powers. What is another word for opposite to black magic - the divine process. But for example, in my personal life I'm born in India and I grown in India with carrying a lot of abilities. Many people they want to destroy some of my abilities. How's it possible they can do it? I want to discussion about my personal experiences. A person...it's always possible throwing the bad intention on you sitting somewhere. There are certain prayers they created in the black magic power systems. I never, ever, even one percent concentrated on that thing to understand it but I learned one hundred percent how to destroy the negative powers. Everybody can destroy by tonight onwards any type of black magic power, even though he's a supreme, he's a genius master in the universe with black magic. You can destroy him, his powers, in ten minutes. You can wash out all his powers. I'm not making buttering too much. It's real fact what we're going in the knowledge that channels you can cut off.

Just two months back two guys, the most powerful people...my nature I go everywhere taking the haircut. I sit and openly say, "Ok cut off." And my clothes they wash and they dry somewhere. As a holy saint, with high abilities if you're carrying in you, if they have your shirt it's enough...the symptoms, the vibrations, the energy. They'll do some funny stuff. I have no idea what they clearly do there. Even if you walk with a barefoot, your step exactly on the sand, somebody took your sand, your nails, your hairs, your shirt, whatever things you used things but mostly what is grown on your body like nails and hairs. Such type of things never ever lose once you reach certain abilities unless if you know and you have powerful arrows with you.

In India it's a little difficult. They did with my hairs and my shirt. Poor guys they lost everything. How generally they do? Every new moon and full moon times they go in the graveyards. They sit in the graveyard and they making my shirt and my hairs, whatever they have making a doll, preparing it, taking the iron needles, putting it, taking a lemon, chanting with the nails like three to four hours, then putting in the lemon, then

putting as the head on the doll...something they do very funny stuff. There's still a chance...it's a kind of Indian tradition.

What I observed in America, in Los Angeles, some few people very clearly, they're the masters than the Indians. They came to suck my power. I'm sitting in the chair, "Hey Swami, can you heal me?" He's wearing instead of rudraksha or like lotus beads he's wearing small bones around his neck and he covered with a beautiful coat like an officer's. It's his way of asking the questions so intense, so intense. Then he had two rings, the most powerful he charged, the most powerful he charged. He wore these two rings and he made me to shake his hand. I said (*not wanting to shake his hand*), "It's fine." He said, "No, no, please." Finally I said, "Ok here you go." He gave. First five seconds he sucked the energy. Then he wants to take off the hand. Then I said, "No, no, no I want to shake little more." After one second, "Oh." I want to teach that technique how it really possible you can suck and you can destroy it.

I really amazed few students...sorry to say, please forgive me...who came to first stage of the Paramashiva Yoga course, and also two guys is here this course. They lost their powers but you no need to feel guilty, feel bad. Once if you really want divine power it will automatically wash out. I don't need to do that and nobody will do that. Divine power is permanent. Once if you gain the power, the divine cosmic energy in you, it will stay forever and ever with you. Nobody can steal it. If you're doing the Sai jappa: *Om Sai, Sri Sai, Jai Jai Sai* one million times you chant it, you're soul charged with the divine cosmic.

Is it possible somebody black magic person can steal your energy? No way. Divine power, no way nobody can suck it. Still there is a chance somebody can put a block on you not to grow more. They can do, something they can put a block there, you can't grow much faster. How to remove that block? Generally, once if you in the divine processes, Mahamaya she's the big black magic lady...Mother Divine. No seriously, once if you really catching her powers, once if you really want her arrows...you know arrows - her eight, siddhic powers. If you're really trying for that she won't give you, "Ok, here you go, take it." She won't accept. She wants to try on you the maximum best to make you shake your life and interrupt you.

For example, last night, I went in the meditation. All of sudden the full moon is starting to grow the energy, high powerful. I need to give shaktipats to charging each person name and instead of cutting the strings,

giving the beautiful like bracelets and rings. I have to charge. I went to the downstairs. A few Japanese they sharing the energy then they left. I'm very peak top stage to sucking the energy, almost done it. Then a big truck came with the Jesus' statue, making noise. I'm trying to avoid. Until that time pure pin drop silence, ready to just...the truck came. Oh, at least I have to say thanks to Baba I reached 98%. Simply I walked out. Of course the big boss came, the Jesus he came with a lot of noise making, "Here you go I'm here."

My point here, no matter even though you're in the devotional normal process as a bhakti way, "Swami I don't want the powers. Swami I don't want the healing abilities. Swami I don't want anything. Just I want to live my life as a peaceful devotee to the God. Peacefully devoted to the divine power. Peacefully devoted to the divinity." No matter whatever you do it's like a divine...the divine it started to split, one is positive and one is negative. It's like a two bells. Either one once if you catch, it starts to affect both. If you do this, it will start this. If you start this, it will do this. But every person has to divert to divine path. If you go negative path you can't get the divine.

If you're intention is you really want the powers...if you go that way, negative way, you're one of the highest stupid in the universe. No, believe me. If you're really onto wanting the powers, "I don't care anything, just I want the powers." You can ask the divine love and the powers but even though when you're going here...that's why in the Paramashiva Yoga stages, who goes step by step process, it is a normal like making a dal fry, delicious food. Step by step you have to grow. If all of the sudden you jump it, there's a chance you can get it, then you'll lose it, especially in the power's chapters.

It's only from the divine it started to come, then it diverted like a two parts. Even the negative souls...let's say like this, I died, all my students are sitting around me. As a divine soul and as a normal soul there is a difference. For example, Evemarie died. Her dead body is there. How many days generally that I told the spiritual law, after any person died how many days the soul will be around there? Until to nine days you can catch their soul. You can fish their soul. What they do the black magic peoples...instead of connecting the angels. (*Swami draws a chart of the stages: souls, spirits, angels, divine souls, then arrow from there up to Divine Mother.*) Who works with these two, souls and the spirits, they are the black magic people. We can call them black magic people. I told what it means by the spirit. I am going to ask the question and everybody has to

be quiet. If you don't know the meaning of the spirit then no way I can go deeper. I think I told in Paramashiva Yoga, soul and spirit.

Guenther: When the body of the soul dies, the normal soul gets to the heaven. But if a shock or a strong negative impact has happened then the soul is not able to go to heaven. It has sucked strong negative power. It becomes a spirit.

Swami: Give me an example. I think I understood but I need a little more clear here.

Guenther: An accident, a soul received an accident.

Swami: It's enough. I got it. A soul means as a normally what we are walking now we're all divine souls now...normal souls. And if somebody killed you, your blood is bleeding, you are looking at him and you really want to take revenge. You're so painful, you're really hurt and you're taking off. Painful soul is called spirit. Any painful soul it won't generally ninety percent chance it won't go back to reincarnation. It's hanging there, it stays there. To such type of things also spirits I told how to you really can send them back to reincarnation.

Generally, you have a big doubt and confusion, "Swami how is it possible, my dad died in an accident. It means he's a spirit hanging in the nature?" So-so, no guarantee, so-so, somebody killed your dad, so-so. Somebody took the poison, attempted suicide. When they're in the body so painful and they killed themselves - it's a wounded soul. You know what I'm saying? It's a wounded soul. What the black magic people do such type of wounded souls they can catch very easily, like blind fish in your water pond. You know what I'm saying? Like blind fish you can catch them. Instead of catching the angels, what they do they take the spirits and they have some channels, crazy channels, they implement the channels to work this negative spirit. Wounded souls you think will work for the good - no way, small tiny chance. Ninety-nine percent they will do always for the bad.

For example, three years back, I went to a richest family's home in India. They did a black magic on the wealthiest guy, on that owner's home. What he feels very funny... they showed him all the divine masters, swamis, gurus, healers, black magicians, powerful people they consulted. No help, swaha. Many people are coming doing agyams, yagyams, and they're

charging a lot of money. Nothing happened. What are his symptoms? It's very important.

The symptoms if you receive the black magic power... somebody doing on you, is very easy to remember, to clarify. Your skin, normally in a week your skin started to break. There's a chance you'll have a skin disease but I'm not saying normal symptoms. To your eyes, it's not a psychiatric problem, you are washing your skin and to yourself only you started to see the blood is bleeding from your skin. But to others there is no blood. Whole your body feels like somebody putting needles in you. You can't sleep, rotating, rotating on your bed. And when you're sleeping just you open your eyes and the fan started coming very close on you and it's going up. All of sudden the window is opening and it is closing. Nobody can hear any of these noises except for you in the home. In the kitchen somebody is cooking the delicious food for you but when you went there nobody is there. Does it make sense? Anybody heard like these things?

RK: Are these specific symptoms or just examples?

Swami: Just examples. Just make sure...it means the negative energy is flowing around you. It maybe completely entered into you or maybe it is around you. There is a chance it can affect on you. Just I'm going deeper. Just I'm telling around the symptoms you have to observe. Then all of sudden you started to hear lot of funny laughing, "ha ha ha ha ha." Of course everybody here is laughing same like that way sometimes! Sorry to say that Myuri, three devils I have in my life. They're always laughing like that, cracking the roof!

When I went to that rich man's house he has that very funny, like these symptoms. When he went into the toilet, he's locked inside. In his own bedroom, nobody won't come then outside somebody locking. It's clear. Then he's screaming. Then he's dialing, "Hey, somebody locked it. The front door somebody locked it." Ok they open the door and they are breaking the door. He's also inside locking bedroom then opening that. Then when he's drinking the milk he put the milk there clearly then he's writing a note. After he stopped five minutes later, there's no milk. He's very brilliant person. First three or four months he's really nervous. Then he gave up his nervous, he really wants to see what this is happening no more milk. His skin started to break and he watches clearly the blood coming out. Then when he's sleeping somebody's coming grabbing his throat. He's hearing sitting in his bed somebody screaming. It's not making him to die it's torturing. Does it make sense Clint? As a doctor

have you seen any patients like that? Not psychiatric patients but who is very smart, intelligent.

Clint: A few.

Swami: Many people who also come to me eighty-five, ninety percent they're psychiatric problems. I say, "Ok, great, fine, no problem." Then I make them consult some psychiatry doctors to give them best medicine. They are happy. A few when I checked with them it is easy we can identify their brilliantness. If it's psychiatric problem or not we can easily figure out. Sorry to say that, where is my friend Gustav, sometimes he feels, sorry, he has little psychiatry problem, "Ok Baba is telling me to do this, ok I'm doing it." It's a kind of small, creating small illusions. You know what I'm saying? I know he didn't connect the, a clear channel to Baba. I know very clearly. Just his visions are coming, "Ok, I'm seeing Baba, he's there, he's there." It's not hysteria. it's psychiatric problems. That person is clearly so brilliant, then it takes to me one week to understand the energy what is really running...what he did in his mistake. When he's coming from Hyderabad, his car is damaged. Unfortunately on the left side it is a graveyard. He didn't know that. His driver is fixing. He had three hours time so just he walked away from the car. Under the tree is a big rock. Just he slept there. One spirit entered in him. It's very hard to pull out that spirit to come out.

It's kind of fearful what I'm talking but it's one hundred percent clear many people can in this month...you no need to feel nervous, we're all here in the high divine cosmic energy. We don't even need to feel one percent nervous. I'm so sorry all of a sudden I went in the deep powerful chapter. To the new people, "Ooh what is this Swami is talking?" But in your lives you really can help many, many people. You really can help who was really having such type of hard time. Especially the Europe countries, Germany, believe me if my mission, my message can help in only one Germany country, it's enough. I'm so happiest soul in the universe. I never ever seen in my life what they like having the problems like the Germans like really up and downs. It's really affecting on them a lot. It's not their fault. It's the vibrations, the energy.

Then it takes to me one week. I pick up on new moon day...what I done my channel I want to explain that. I took the papaya black seeds. In the universe those seeds have incredible power. Those seeds and...I don't know how to explain another vegetable seeds. Some people can go in the village get the vegetable. I caught the seeds, like the colored rice it is a kind

of the same energy. I hold that and I made him to go and take sleep. I made myself protection circles chanting my personal mantra. I'm watching there the vibrations. The energy is coming.

Every new moon one hundred percent and full moon any spirit even though it's there in your house, in your body, generally it will go out that one day, then it will come back in. That's only the two best days to catch, to wash out to any person very easily. Full moon and new moon you can help them a lot. Who's having real hard time with such type of feelings...even if you have no idea anything on the divine channels just take a cross, take a Buddha's small picture, a bracelet, pray. On the full moon just you put on the person's neck. It will help a lot. Even if you put a cross on his neck, until to the cross is there, no way no negative energy can touch you because it's the full moon day. On the full and new moon day the energy is so less to especially the negative spirits. But some traditional people they say the new moon is so pretty intensive but I disagree. I tested recently. I disagree.

When I'm with that patient sitting and watching it started to come. I threw the seeds on the floor. I caught it. I caught it then I started to communicate, "Hey who are you? Why are you bothering him?" She's a lady saying, "Ok I attracted him. I came in him. I'm enjoying him. I want to bring him with me to live together." That's a really strange funny conversation. I said, "Ok fine, great." With the seeds if you put them around, once if it entered there it means no way it can run away from that place - it's like putting a cage - that's a traditional one hundred percent, it is true. If you throw the seeds...for example, if you're hearing some funny noise coming back and forth, even if you put the seeds around your home, it won't stand there. You know what I'm saying? Your intention is you really want to wash out and you meditated and prayed to the Jesus. You don't know any of the prayers...just you're praying, "Hey father Jesus something in my house. There's a funny energy running in my home. Please wash out right now. Please kick them out right now some negative spirits. Please use these holy seeds to get out all negative energy what's in my home." Just you spread them around. In a few seconds there's no chance it'll come back again.

The papaya seeds has to be black. It's very important black seeds. It's like captured thousands of seeds...if you have the huge papaya carrying thousands of seeds that will be really so powerful fruit. You know what I'm saying? You ever heard this Philip in any book that you read?

Philip: One book talked about seeds to capture angels.

Swami: There's another one for the angels, another seed. We're talking all the natural things how we can suck the angels very easily. Many people have like a doubts and confusions, "Hey Swami why are you making buttering up? Do the seeds have that much power?" Yes, absolutely they have the power. I can prove it. You can go and you can test in your houses. I will challenge that. Entire this month what I'm going to teach is one hundred percent fact. The traditional...even if you go the traditional books it is there - inner secrecy books if you go, it's there.

When I threw the seeds and I had a conversation...then I will tell, in the channel how to really charge the mantra to suck that spirit to put in a bottle. Then I made it in the bottle. Then I made the family members to see it. Everybody saw that spirit in that home. I made them to bury it for a couple of months then I sent it back to heaven. That is the real master-beyond the thoughts, beyond the science, beyond the knowledge subject what we are learning. It makes you first time, first step little uncomfortable all these things but thirty, forty percent of the world what I observe, is having lot of problem with lot of negative divine forces, the negative divine forces is working on them a lot.

For example, what happened to Philip Lipetz, poor guy he took the devotional process. He had no bad intention to suck the divine powers. He had no bad intention to suck the powers. Then he had no idea one hundred percent about what is the powers, and he had no idea one hundred percent what is meant by enlightenment. He have no idea how to connect to the angels, just he want to be in a bhakti devotional process. What happened all of a sudden in a matter of how many years to now?

Philip: Twenty-four years.

Swami: Twenty-four years he's keeping on moving with his inspiration but he lost everything. My point here...it's very good...observe. Is God unfair? If God is fair why it happened to him? He's not doing the black magic powers. He's not working with the spirits. He's not working with the souls. He's not working with the angels. Just he's praying, "God, please I really want your love." That's it? Hey, clarify me - don't lie.

Philip: That and Kundalini.

Swami: Just meditations inner experiences you want to see.

Philip: I did the Guru Gita every day.

Swami: Guru Gita-normal devotional books like reading like a bible, like Indian tradition bible. All of sudden huge negativity he received. But it's the only case what I've seen in my life twenty-four years this guy. Generally, it has to wash out in twelve years. Even if he's going in the divine process twelve years it has to be done. It means here once he's very focusing purely here (point to his chart) one hundred percent, the negative forces when he's doing here it came here like a bond-link. But what I seen in him almost all when he started the ninth year he got the experience but he doesn't know how to recognize that. Big major mistake he did himself, you know what I am saying? I'm opening now his chapter.

For example, you have a gem in your hand like something I gave a ring to you. "Hey Swami gave me a beautiful ring, la la la la la." Then you are visiting a girlfriend. You want to give something to her, "Ok here you go." Giving it, you know what I am saying? But when I'm giving the ring to you I know how much my heart and my energy, my intention I put charging it and I gave it to you. Just you went on date with a girl. Then just she made you so happy you have to give something. Then suddenly you saw your ring, "Ok take it." You know what I am saying? It means you're not recognizing the value of the ring.

After a few years after you done, any person in Paramashiva Yoga I am going to give the big chart of the symptoms once if they started to flow in you how you really have to recognize step by step in your life to recognize. Without consciousness, without inner judgment you can't feel, you can't take the judgment. You know what I'm saying? You have to bring each day, or each weekend, each full moon and new moon what is your inner experiences is growing, what changes are running in your life. You have to decide that. You're the only person to figure out yourself very clearly. You know what I'm saying?

Virginia: You have to have awareness.

Swami: Exactly. You have to recognize own awareness. You have to concentrate in a month two times like ten minutes is enough. Once if you started to catching that awareness innerly in you, here you go, you're ninety percent secure there. But he's going like a twelve years more but it's not wasted, he didn't lose anything. He's receiving more, you know what I

am saying? Whatever you do with your pure heart God is big judge even though you worship a donkey on the street.

We can see in the Indian tradition...to the new people I'm saying if you go to Sri Sailam or the big temples, even if you watch Baba, "Hey, it's simply a statue. They decorated a beautiful cobra around him with a beautiful crown. They're putting flowers." It's completely little weird to the new western people who don't know about spirituality - they come, they watch that - it doesn't make sense to them at all. Completely it doesn't make sense to them at all. In Sri Sailam huge temple, there's one small black rock. Millions of people they're going and they're worshipping, touching it to their head, "Oh Shiva bless me." It doesn't make sense to the western minds. That small black stone is carrying unbelievable strong magnetic power, exact magnetic power to wash your negativity. To your inner soul negativity, what negativity you're having in you, it's absolutely magnetic power to suck your negativity on the spot. It dissolves. That's why the Indian traditional people they found, they created everyday, making to growing that energy, high, high, high with *Vedic* prayers doing the abisheks, poojas, pranams. Many people are putting their attention then automatically it started to grow up.

Everything...it doesn't matter, "Swami I did a meditation for fourteen years, I did a meditation for twenty years, I didn't gain anything." If you made the question it means you have to decide two things, One, Who is your master, what is his channels? Channels means, what the path he showed you to go your destiny, the path, the road. You want to go from Los Angeles to Las Vegas but he showed you the path, "Go to all the way to New York then come back to Las Vegas." Depending on you choosing the master also is your greatest luck. Vivekananda he said in one statement, "Oh boys it's not that much easy to really can catch a real master in your life. It is really good fortune. It's a good luck."

Ramakrishna Paramahansa even though he's a little funny, crazy...he's a little crazy guy absolutely, no doubt. When the maggots is coming from his back side, Vivekananda has huge doubt on Ramakrishna Paramahansa. He got little bit enlightenment, he received the supernatural energies, he's healing lot of people and he has lot of inspiration. Then his master's saying everyday he's going to connecting to Mother Divine, he's talking everyday, he's so happy. Then Vivekananda has unbelievable stupid question in his heart, "If my master really having the connection with Mother Divine why can't he heal himself of the cancer huge wound?" Everyday hundreds of maggots I coming from his backside

wound. They're taking everyday putting little hot water and spirit alcohol, taking the maggots out and putting on the floor. I need to know your opinions if Vivekananda thinks, "Is he really my master or not?" What is his situation there? I'm asking the question now to the Gustav.

Gustav: If he follows his doubts he'll lose everything he's gained.

Swami: I disagree. Master - given is given, if he takes back he's not a master, you know what I'm saying? Unless if he uses that energy for the bad growing his egoism and growing his feelings, "I'm the great. Who is this person? Who is, Ramakrishna Paramahansa? He's a crazy guy...no problem." If you grow your egoism, "I'm only his friend." here you go! You're sneaking and you're telling untruth, you know what I'm saying? You're completely egoism there. It's a big knife coming on you.

But Vivekananda loves so much Ramakrishna Paramahansa but Vivekananda is a beautiful talker than Ramakrishna Paramahansa. Energy is Ramakrishna Paramahansa; putting in a beautiful good shape is Vivekananda. Ramakrishna Paramahansa he talks for only five minutes then Vivekananda talks that one, in five hours. But Vivekananda is the man of the doubts and man of the love, man of the affection - but he has doubts. How he himself is satisfied? Guess, tell me.

Gustav asks for him to repeat the question.

Swami: It's not clear Clint? Ramakrishna Paramahansa is having a huge wound in his backside. Everyday the maggots is coming from his back. He's suffering every night shouting, shouting "Hey Ma, hey Ma, hey Ma." Morning they have to clean his wound to the take the maggots out. Vivekananda is watching, "Hey man, Master, you're so powerful. We know everybody you're really connecting everybody Mother Divine. You have lot of abilities. But there's a lot of doubt in me. Please, how can I wash out this negativity, doubt in my mind? I can't decide are you really my Master or not? Sometimes, "Maybe I catch the wrong master." Is really I can go to reach my destiny or not with you? Master means you have to be so example - like a guide having so healthy, charming, so dazzling, so radiant, so brilliant, so...all abilities. But you are with lot of suffering always sitting on the cot and suffering and suffering and suffering and suffering. I can't understand you - are you really my Master? Please don't ruin my life. Can you clarify my doubt please Ramakrishna Paramahansa, oh my dear Master?" He asked but Ramakrishna

Paramahansa he never gave answer to him only, "Follow your heart. Get out." How he himself judge, reach a judgment? Guess and tell me.

Student answers but it is inaudible to the recording

Swami: No, I am not satisfied with that. Clint Thompson? Ok, let me put it this way. I am in Ramakrishna Paramahansa stage. You are in Vivekananda stage. Same thing happened to you. What is your reflecting? It's enough to me.

Clint: Master means in one way that which is beyond what the student can understand. So I think there's a level of surrender. At a certain point there is surrender to the unknown, of what can be known, and that comes from love. I think Vivekananda fell more in love to surrender.

Swami: You know Ramakrishna Paramahansa he's always screaming on the Vivekananda for simple things. You read his history, is it there in the history? Monika L. is it there?

Monika L.: He loved him very much, yes.

Philip: When Ramakrishna Paramahansa was dying, Vivekananda was saying some not so good things while he was sitting in the next room. His mind was still running.

Swami: No, just clarify me this. For example, you are Vivekananda and I am Ramakrishna Paramahansa. Give your feelings.

Clint: Well, it has to do with fairness doesn't it? Again is it fair? Is it fair Vivekananda doesn't see the Divine Mother and his master does?

Swami: No, he showed him some angels. It is not in the histories. He showed some beautiful examples, some experiences but his soul not that much ready yet. And Ramakrishna Paramahansa he saw the life span of Vivekananda is not that much long. Then he gave moksha. That's a different story.

But on that spot when he's going to decide, giving the judgment, "Is he really my master or not?" ...for example everybody here. Some people feel, "Ok, it's a beautiful knowledge he is teaching in Indian tradition." Many people feel, "Ok, why can't we follow the Christianity? It's very comfortable to our mother tongue..." they have a lot of confusion. You

know what I am saying? Maybe you have also a little confusion. It's too much to you to remember the mantras and yantras, and the processes, all this stuff. It's completely little crazy.

But even though it's completely little crazy, a lot of fragrance is there. But I can say very proudly no tradition in the world having such type of fragrance in the world except Indian Hindu tradition. Absolutely I will challenge that because of I have a beautiful friends in Christianity, some Buddhism, some Jaharastrian, some Jain...different types of the religious people I have really powerful people, saints. They can also... they are powerful healers they can demonstrate some miracles, they can connect the angels, they can connect incredible divine souls but they are all jumping into Indian Hindu tradition, like dumping, all dumping in at a time.

Clint: I hear you asking me to answer some of my own questions.

Swami: For example, let's say this way. I am coming straight to you. I don't want to go all around. Your life is going little funny up and down isn't it?

Clint: Yes.

Swami: After you met me?

Clint: Yes!

Swami: Sometimes you don't know what you are doing it but anyhow you are doing it.

Clint: Most of the time it is true.

Swami: Most of the time. Ok, what are your feelings, by long road - what is really going to happen? Do you have any fear in your path?

Clint: Any fear? Sure I think I have fear everyday of my life but I think I haven't answered your question and that is when I have doubts on you, which I have sometimes especially when I am in America, then it is because... it doesn't matter why... what it feels like is that I have no vision, I have no sight, I have no point of view to see what is happening. And sometimes I have no symptoms. I have no experiences. I'm like walking in the desert.

Swami: Sometimes.

Clint: Sometimes. That's when the doubts are coming. Then when those doubts come they used to last a lot longer than what they last now. Then what the process that happens now is there is an overwhelming awareness of what you have given me and how my life has changed. There are ups and downs for sure but the ups are higher and the downs are lower and they are closer together. But I was asking the cosmic without knowing it for the highest master. I wanted to know the truth. You are teaching me the truth. Then I have doubts because of my own weakness, my own lack of something. And when I know that the doubt goes away. The suffering doesn't - but the doubt does.

Swami: That's a good explanation. I love it. Ok, now I will clarify. Is there any limit for the doubt guys? To doubts is there any limit for doubt? No way. Here, very important. Nowadays in the world all students' kingdom has to recognize one thing. Already from the beginning onwards I am saying don't waste your life, don't ruin your life, don't go choosing your life in a funny way. For example, nowadays the masters, ninety percent what I see, I don't want to make the comment on them it's not my business... they are like hypocrites. They say be celibate but they are not celibate. Any master in the universe if they are saying, "Hey, just follow me, I am the God. I will show you the path to reach your destiny." Any his messages choosing the master's list... forget it. Then second you have to watch the master's personality. Personality means certain stuff, his number one healing abilities like breaking the coconut, like a truth, like a dare and dash. In the new age new millennium we need at least ninety percent you have to break the truth. You understand Clint Thompson? Yeah. For example a kid is so crying and crying and crying - if you really giving a talk to the kid for one day it won't help.

Let me say this way directly. Suppose a thousand women come to Swami Kaleshwar. How many women really think to the master, "Oh, he's a beautiful master. Oh, he's like a beautiful brother to me." How many women can really think that way? Philip Lipetz tell your opinion, cross your heart, tell that.

Philip: Maybe two three percent.

Swami: What? In a thousand women two, three percent of the women are thinking like a brother and sister? I am talking about western women. They are having huge blocks the feelings on the master. When the master

really want to help her giving the shaktipat, when he goes near her to touching her third-eye he feels he a father and she's a kid, a child. He really wants to help her. Her energy inside polluted, you know polluted? Polluted means... it's not good word... her energy is so attached to the master. Her energy is like the feelings falling in love with the master. Is there any way the master can help that lady for certain time period to wash out that feeling. Is it possible Paul Aryeh? I'm not asking the women but you are the man, you are very brilliant on the women because of you are also facing lot of problems so you can help me a lot... you and RK and Philip! Of course Philip Number One! I'm not blaming on the women. It's natural. Why it comes I am going to jump and again I am going to explain that. I'm not blaming on them. It's a natural human being psychology. It's a kind of energy growing up. At the time, how the master really has to be? Can you explain?

Paul: I think it is difficult for the master because it is natural for the woman to feel those emotions and to have that kind of attachment. And I think it is difficult for the master because he is there giving one type of energy and the woman is wanting a different type of energy. Is it true?

Swami: Yeah, you are right. Go ahead. Carry on.

Paul: So there is a difficulty for the master because he is looking to give this energy but it is being taken a completely different way for another purpose or another gratification. So it is difficult sometimes for the master when he is dealing with that like, "What do I do? How do I handle that?"

Swami: It's a very good point. Same part, same time when you are in that situation how can you really decide when the master's not giving you that you feel little terrible and it's very hard to wash out such type of feelings for certain time period, then you feel left out. Then you feel terrible. Then you feel, "He's not my master." It means you are losing a beautiful gem in your life. You completely jumped in the fire, in the darkness. That's your huge own defect. Master is like a mirror - whatever your jewelry you make and come in front of mirror, he will show the reflection back to you. To be honest in my personal life I am really, really, really facing horrible problems with such type of energies up and downs. But I feel I am the really, really, really master how to handle that. Is it true sister Virginia?

Virginia: Yes!

Swami: It's smooth but sometimes in my highways it is little up and down but I am in the Rolls Royce, like best car, even though they are going up and down. If they are going up and down I really makes them go very badly up and down, "Ok go!" All their back pains and head calms down, "Ok, please we don't want to throw any more on you." Then I say, " Ok come sit down. Do your process. Go the real spirituality. You have to help the world. The world definitely needs you. You have to take care hundreds of thousands of people in the universe at least."

So, never ever from your side, you stay in your boundaries, number one point before you are judging the master. Even though the energy flowing from you on the master very badly it means, number one you have no right to blame on the master. Is it true? Come on cross your hearts and tell. You no need to do with something with master with the physical. Even if you throw your feelings on him it is enough. It's enough! He can feel it, "Hey! Ooh!" It's enough. It's maximum you did it with him. Same part the man when he's a healer, for example the woman she's carrying unbelievable negativity. Ok I am talking open. She's been through two hundred men in her life. I am coming direct point...she's been through two hundred men in her life or a thousand men in her life. Its not a big deal to some people they are like that, swaha. Is it true Philip Lipetz? Philip Lipetz is like a little master, he's little small Krishna in his entire life - hey, I'm giving compliment, I'm not criticizing. It is a compliment. Once he saw any women if he really want to throw, he can throw. He can receive same time. Then if he receives something the same time it acts a little funny, 100% it will act.

In my personal life suppose I really want to give healing to some woman I am not blaming it, it is a magnetic attraction between the natural human beings in the world. It's the biggest chapter, the negativity you can also suck from the men and the women in your life but you don't know how to discharge that. It is a horrible stage in your life and your life will go really wounded. Let me say this way, all the men I am telling. If a man saw a beautiful woman then next day later he's really receiving some good fortune something. His life turns like a little happy and so dazzling. He saw another woman and something he feels a little strange, he lost his job. The energy is little different then something he damaged. Has anybody felt in your lives like that? Cross your hearts. Tell. I am asking the question to the men.

Student: Yeah.

Swami: Like in a week ten days little crazy, RK, Paul, Philip, Thomas, Eric, Sai Ram...many people hiding...it's ok. Same time the women also seeing a beautiful man, a handsome guy. That week, ten days later, fifteen to twenty days, until now... until that time really bumpy. Then you feel inner consciously realizing, "After I seen this woman something little strange is happening. Hey, oh my God, what is really running with her energy. Somewhere the sixth sense is saying to you, "After I met her, after I seen her something running in my life." It's absolutely right. What is the mechanism? We will talk that. It's called soul matching. Soul matching...the soul exchanging the energy channels - it is completely this Paramashiva Yoga inner feelings through that you can receive the top level.

In my personal life, even though the people thinking on me funny way, crazy way. I don't care. I'm telling crossing my heart 100%...99.99%...it's not good to say 100%...I'm doing my job. When I'm sucking the woman's negativity, even though I used different powerful channels to suck their negativity, if they started to tell, "Oh I removed. I decharged all my negativity. I gave to the Swami Kaleshwar," if you say that on the next second it came to you. Again you're dialing getting it back. Especially the women it's a huge problem. Any master, any healer you went to whatever...before you were going to receive something from him you have to decide, "Ok it happened, it happened." If you're really keeping on thinking that, how you're life going? Painful. Isn't it Clint?

Suppose a patient came to you. First of all he believed you so much he came to you. You gave the wrong medicine to him they think but you think it's perfect. Because they are the patient they don't know anything. They have no idea on the medicine. You know exactly the best medicine and you gave to them, then it worked. Then again somebody told them it's not right medicine, there are different medicines, "Why can't you try the different medicines? Why he gave you this medicine?" It means they started to blame on you. Is it fair? With the karma, with the negativity channels, there's the only one way. You have to believe, trust, have faith, surrender, following with your open heart. Then only it's possible you can gain something in your life. If you stay there, if you blocked there, if you stand there, then no way anyone can push you. No one can push you.

For example, I told RK, "Hey, go and do this process." He has no idea what is Swami's inner meaning why he made me do it. But anyhow he told me. I am doing it." He done it - until to two months he has no idea why I told that and why he did it but he's doing it. He has not even one

point clue to understand what is inner Swami's heart he is mentioning me to do this. You have to understand one part clearly. If Swami's doing, definitely he checks before when he is mentioning. It's not for Swami's selfishness, is it? No way! My happiness is when you really get success. My selfishness is your happiness.

Beginning stage you can't understand anything at all because you're just a little growing plant. You're a little growing plant to understanding the karma and the illusions, all this stuff. You never worked with hundreds of thousands of people. You don't know the people's pain, where their pains is coming, from which direction they're receiving a lot of karma in their life. Millions of people they're the drug addicts in the universe. Millions of people they're captured with lot of bad habits - bad habits has capture them. Who really can help them? The most genius people is only the spiritual masters - through the divine love, through the God's love only you can help unbelievably to them. Is it true?

So once if you really want to learn such type of techniques, you have to understand the pains of the world, the channels of the cosmic energy to sucking in the world. You have to go the negative side and the positive side. Once if you understand both sides then you can become a master. Is it true Skye?

Skye: Yes. You have to understand both sides.

Swami: Then your Swami's saying, the first day I'm seriously talking, even though you listened everything, you understand everything knowledge, still you can follow your heart. There's no commitment between you and me unless if you really came to me, unless if you really gave a promise to me, "Swami really take care of my life. I really want to go and do the service in the world." Such type of people I'm happy to help. Yourself, you want to do, judge yourself in your heart, go do whatever you want. Do the always the good works in the world. You know what I'm saying?

You understand this knowledge, Paramashiva Yoga, all the process Twenty-one steps, Twenty-one stages, you can complete within one and a half years very easily...within one year, fourteen months...fourteen full moons...one point two years you can complete like that. But final three stages, it takes minimum your lifetime, maximum many lifetimes. I can't guarantee that part, that three steps, peak stages. But in meanwhile lot of vibrations, lot of prayers, lot of mantras, connecting the souls, spirits,

angels, divine souls, Mother Divine, it's an order, step by step, you can connect very immediately.

Most of the people who got the special initiation from Sri Sailam from me, the first I told them, the first full moon you have to pass on. Am I told that? First full moon, take it relaxly then take off that. And I'm also choosing few more people, who are also serious students to give initiation tonight. Such type of serious they've worked with me since many years. And who was new people I'm also seeing it so brilliant, so sharp, so powerful souls I hope they can do it. I will check with them later tonight if they can take the serious initiation to follow as a siddhi purushas, the channel of the siddhi purushas. If you really want what are the channels, everything, the steps, the rules and regulations, few guys can explain – Philip, RK, Paul, and Gustav. Try to make them sit the four at a time then listen who was really interested to become a siddhi purusha.

Siddhi Purusha Process means it is like jumping in a Concord flight. Instead of normal flight, jumping in a Concord flight, high speed energy channels. It's like a huge commitment, huge you have to for certain period of time you have to sacrifice your life to the God, to the Master...no not for me...sorry, I'm just your friend just giving the channels and releasing them. So, before you're going to getting the judgment on your master you have to first be pure yourself. If you're not pure, no way you can judge the master, are you crazy? The day before yesterday a student came, "Hey Swami, I feel little uncomfortable. What is this, all this knowledge and this energy? I can't understand this. I don't know who's my real master. I've traveled a lot in my life. Please I'm in the darkness. Can you help me?" He's accepting he's in the darkness. He has to wash himself, purity.

In my personal life my master is Baba. Of course he's a genius, supreme, unbelievable craziness he's having. That's his nature, soul character – genius and supreme. I surrendered to him but I'm following my heart. Sometimes I take his advises, I follow his advises. Even though my road is a little bumpy up and down I'm helping a lot to the world. Automatically the magnetic power, the divine energy, will bring around you high cosmic energy to many, many people who need your help. You don't need to try. The magnetic power will make you to come there. It's like a big river flowing. If you dig in the sand at the side of the river...even though in the river there's a lot of dust and lot of crazy things is flowing, if you take a small dig side of the water the water will be pure. The master is like a big river. Lot of people throwing the dust, the garbage, they're swimming, they're washing their body. They can do whatever they want. The master

is like that - he's a big flowing water. What you really need? The real pure water, you have to dig. Dig means, what exactly you want, you have to catch him. "Hey, that's fine. You gave lot of knowledge but specifically my soul wants this, this, this, can you focus and help me with that? Can you focus on me to help this?" I then say, "Here you go."

In the beginning what I choose with my master, I picked up the hardest subjects to reading channels. I went fifty percent - it's too heavy to me. I gave up. Then again, I picked up the middle. I did it. Then again I went low steps. I did it. Again, I jumped on the peak step. In my life, always doing the practicals, experiments. From my childhood days, my life I've been through, big experiment person. After all my experiments, my advice, my final message here, you don't need to do experiments. First, fulfill your hungry, then you can do experiments. First receive what you really want in your life. Then do whatever you want your stuff in your life. It's a big problem with many students. They're keeping on jumping many, many, many masters. They never ever win it. Even though your heart's saying, "Ok, I want to follow with my heartfully with this master," they're following it.

Like Vivekananda, what he did. He thought, "Beginning step I'm so crazy. This guy, who was really suffering cancer in his back with lot of pain...the blood bleeding. Even though he's there, he's the guy who brought me to spirituality. He's the guy who made me to meditate for many hours everyday. Something he has certain talent in him. Otherwise, no way my monkey mind sitting in front of him, doing meditations. I visited hundreds of saints before, asking funny crazy questions. Finally his energy magnetic power caught me and made me to do. He's always teaching the divine things and explaining the positive, negative things. Everything is clear." So he satisfied himself in his heart.

Even though if you travel thirty more years, you couldn't find the right person. The right person is in your heart...inner judge. Always the real master is living in you. You have to recognize that is the one truth. The real master is always living in you, you no need to go searching country by country, village by village, city by city, healer by healer, to searching. You take a beautiful friend, a master, a teacher, a guide, take the knowledge, information, put it there, tell to the God heartfully, "Ok, this is the knowledge. Millions of people are doing the Indian tradition. Many people received. Ok, I'm also I'm doing this same process. Even though the mistakes are there, even though the perfects is there, I have no idea. I am a kid. Oh God, I'm completely a kid. I have no idea if it's true or not.

But, with my heart I am doing, I am believing on you. I'm not depending on Swami Kaleshwar. I'm depending on you. You are the real judge. Give the result." You know what I'm saying? "Give the results." Then here you go. Here you go! Take off.

Once if you started to going crazy around the master... In my life I did hundreds of processes. I failed few processes very badly. What I really expected I'm going to get that things super duper failure, I got. I never got bad opinion on Baba because I told him, "Ok, please bless me." I wasted a lot of my time, lot of my energy. Once if I really started doing it, I do like a big rakshasa. If I'm not doing it, just walking. But I never got low inspiration. Same inspiration I catch, keeping on moving step-by-step, day-by-day, I'm receiving unbelievable energy.

There's a lot of doubts in the westerners, "Swami you're saying keeping on we're sucking, you can charge your soul, you can charge your soul...how we can feel we're charging the soul? Where is the limit?" It's a very good question. Really you charged you did a meditation for one year. A patient came with heartbroken. You really want to help her. Your soul is so melted with a lot of prayers. You did really hard work. Put your heart intention on the patient, "Hey, she's really having huge heartbroken pain." Really you want to suck out right now. Just work two or three days. Then you see the results, how her face, how she's really getting better. It means the energy is flowing from you. Even though you're talking is beautiful words, even though you're hugging, your making her sleep in your lap, you're touching her 3rd eye, she's in your room, you're in your room and your meditating and you're praying on the God sending your energy, "Right now please God wash out all her pain. I'm sending the beautiful prayers. I meditated one hour. I'm going to meditate. Wash out. My intention is to wash out her pain, send it." You're creating perfect vibrations. Then you send it.

It's a kind of telepathic. It is always the inner mechanism running in this cosmic. You have to believe that. You have to develop those channels. Then it's only possible to you to connect with the angels, divine souls, Mother Divine, some siddhic abilities you can develop in you very, very fast. Never, ever ignore about yourself. If you ignore yourself, even you did hundred years whole your life, you're not getting judgment in your heart, no way you can feel it.

Many people think, "Swami I'm doing it but I'm not feeling anything." He has no idea how to feel it. You know what I'm saying? Even though he's

facing negative problems, it's good. The energy is working on him. For example, Philip, he lost everything. It means is the energy working or not on him? I'm asking the question to everybody is the energy working on him or not?

Students: Yes, definitely.

Swami: Clint went up and down, it means the energy is working on him or not? My final point, even though whatever I'm going to teach, even though you go the devotional process, taking that, the energy either it's negative or positive, it's starting in you purification. It is making you lot of testing. Many people have the doubts, "Swami, what about if we're not doing any God prayers anything, just if we play rock and roll music, we stay as westerners, we don't want spirituality for changing the problems?" Even though you're not doing that, even though you do like that way, still there's a chance it'll come and affect on you. No guarantee. You know what I'm saying?

You ever seen... He's a big business man. He has no idea on the God. He believes on the God but he never puts much focus and attention on the God. But he's also facing lot of problems. But he never been in the spiritual life. He loves Jesus. He loves Buddha. He loves God. That's fine. He loves his parents. But he's also having lot of problems. Such type of energy is working. Either it may be positive or it may be negative. How to wash out that one? Tonight we'll discussion very deeply, step by step. You can figure if it's positive energy or negative energy, I'll give the symptoms list. Then you can see where is the patient exactly there. I'll cover all the points. Where is the patient exactly, where he is located. Then focus - give him simple prayers. Even though he can't fix it, that prayer. In the lotus petal in the Sri Chakra petals, it's a very simple bijaksharas, isn't it? Everybody can chant it easily isn't it? They can remember very easily. That vibrations helps them a lot. In the Indian tradition if you see any goddess most of them sits in the lotus.

If you go to Sri Sailam there is a big Sri Chakra. Any Mother Divine in front of her is Sri Chakra. Who understands Sri Chakra it means it's a bullet proof she won't come on you very badly. If you understand the Sri Chakra energy, if you understand that mantras energy, if you really fixed that vibrations in your soul, you're absolutely having a bullet proof around your soul. That's the inner mechanism of the Sri Chakra. Even though she's sitting there you have to understand. Once if you understand, that's

it, you can walk. Sri Chakra is Mahamaya, the illusions is coming from, the creativity of the mother where we came from is the Nada Bindu.

So we can talk, where the illusions generally it comes. In our soul how many blocks we have. How many rooms in our soul. If one room is having such type of the blocked energy there, through the different room how we have to wash out, making hole and to wash out. And how to make the bullet proof to your soul, asking the Mother Divine the creation of the mother, she's only one to give the bullet proof to you. Beginning step, once you start to understanding what type of funny things you have to face - it's natural it's not a big deal. These point, major points we will discussion.

Same part who really having the huge hard time with lot of negative energy flowing on them it means it is a kind of black magic... I don't know how to use the good word... negative energy... forget about black magic power... like negative energy. Even though a person put on you or the nature put on you or somebody really got hurt from you.

Suppose for example, Paul hurt Cyndria. Just he came from the meditation. Poor Cyndria she didn't do anything just she knocked on his door. "Hey Paul, here is a coffee for you." She went with a good intention. He's carrying lot of energy. He's meditating. He put a don't disturb sign on his door but Cyndria loves him so much she knocked on his door. Then he wake up, "Oh boy, ok thank you so much Cyndria!" He got the cup but his feelings really hurt. He's really in the huge divine energy at that time - it's cut off. Then he took the coffee and she left. Without her notice, she hurt him. He knows he got hurt but he didn't put any bad intention on her. The feelings he got hurt still affect on Cyndria. You know what I'm saying? It definitely will affect on Cyndria. With our notice and without our notice generally we do in our life. Generally, we hurt lot of people. If he's so powerful soul than you, and you hurt him, them it will come back to you. If she's not that powerful she receives some energy from him, hurt feelings, she has to reflect one or two days. She acts a little funny, one hundred percent inner mechanism it will happen.

A bird is sitting on the tree. The bird didn't do any crime to you. You're walking. "Hey it's a beautiful bird, take a gun and shoot it." That bird is watching you, falling down. The blood is bleeding, looking at you, "Hey man, what I did wrong to you. Why you shot me?" And it died. It means he's responsible or that soul. He created negative energy there. It's coming to him - absolutely, no doubt. Then he needs to discharge. He needs to take care of that.

For example, I made them kill the cobra upstairs when they're doing the hen. Swami gave the order, "Ok, go ahead and kill the cobra." Swami said, "Go ahead and kill the cobra." I'm responsible for the cobra. Then I have to figure out the channels to send it back to the reincarnation. In Indian tradition, 98% generally they won't kill cobras. You know that? They worship the cobras. They put the statues of the cobras - it's a holy divine. One part they really think. But my intention here I'm really doing the good work it for to giving experiment. The intention is good. I prayed. The signal came. It's not a psychiatry problem. The signal came then I did it.

Even though without my notice, my natural life, I make funny jokes. Those jokes my students feel a little hurt, "Oh, why he's talking about me like that?" There's never any bad intention. That means I never receive any negative karma from you. To me, once you reach certain stage, even though they're sending hurt feelings it turns blessing it goes to them. Seriously, I watched them later...they're a little bumpy. Two days later I make them to sit closer I heals them...ten times they're so happy, dazzling, la la la la la. They forgot everything. Is it true RK?

RK: I wouldn't know.

Swami: Hey, don't be tricky.

RK: It's true.

Swami: It's absolutely true. Whatever our actions, there's action to reaction. Whatever you do with notice, without notice, you're responsible. That's the spiritual law, with notice, without notice, if you do it, it's a spiritual law you're responsible. Each step in your life, you have to be really careful what you're doing. Once if you surrender to God and spiritual practice and path, never ever come back. Any tradition, any religion any methods, once you're so impressed there, that's it, take it, keep moving in your life. Stopping, jumping, coming back and forth in your life, it takes lot of lifetimes in your life. I don't want to recommend in your life.

Tonight I taking commitment, like a vow, promising never ever use the channels for the bad in the universe. But few students of me they sucked the power, they received the power, they're doing their own funny stuff. That's really so dangerous. It's coming back to them hundred times, not hundred, thousand times. It's really bothering me a lot. My nature to be

honest is big giving nature. Once if I start to love you - that's it, I never care, step by step keeping on giving to you. The people they took already advantage. They're doing very funny stuff. They already did very funny stuff. It's coming back to them thousands of time negativity. Even though they're very beautiful students, beautiful friends, beautiful brothers and sisters, I'm not responsible for them to take care. Giving is my nature. After they ruined, it's not my nature to take care. I have to be little strict. You know what I'm saying.

For example, Cyndria she got lot of energy and healing abilities, she walked out. What I'm really in my selfishness, if Cyndria says in the world, "I learned this knowledge from Swami Kaleshwar. He's my big friend," that's only it's enough. That's only my selfishness, it came from India, it's from Indian tradition. There's a big commitment between me and Baba to spreading his energy, isn't it? It's true, but the world, some people...

Whenever I come walk out, I put my head to Baba. It means I'm not going down there. It's a gift, a kind of own inner obedient your humbleness. That's your greatness. Once if you accept the truth, here is the guy, that is the truth, and that is the reality. If you're not telling the reality...just you learned the Swami Kaleshwar from the knowledge but you're saying, "Oh, I got the visions, the angels is talking to me, then I'm telling this stuff..." but many people know where it came from. But you're putting your own words and funny stuff and you're changing it and making a break, cutting the head putting in the tail; taking the tail putting the head. But the western people what I seen even whatever you do the funny stuff they go, "Oh wow, great, marvelous." That's a big disease they have, sorry to say that, what I observe. Even if you talk little garbage there, they go, "Oooh, such a great explanation." So sorry, it's not my business but try to understand the reality.

So, I hope by grace of Baba tonight we'll discussion more.

End of talk
