Swami's Ashram Talks
Swami Takes Students to Lord Venketeshwara in Tirupati
Swami's Birthday Talk in the Jesus Temple
January 8, 2002

Swami: Who's decorated this?

Students: Imke, Virginia, Uganda, Hari, Ramu, Anya, and Cindy.

Swami: How was your journey Clint?

Clint: It was a lot of driving but well worth it.

Swami: Well worth it?

Clint: Well worth it - very, very beautiful to go.

Swami: Paul?

Paul: It was a fantastic journey! Thank you so much!

Swami: What you understand there?

Paul: I understand that there's a deep, deep energy mechanism, that I don't fully understand, that is there with Lord Venketeshwara and I know that you want to share that.

Swami: What? He is making me to talk on that?

Paul: We had a taste of it, which was amazing, and thank you.

Swami: What you understand Ramakrishna?

Ramakrishna: I understood that we went there for a purpose, mainly your purpose for all of your students. What we were hoping to happen didn't quite happen, but it was successful, but not in the way that I think you had planned... despite all that, it was still a fantastic trip, a glorious time.

Swami: What you understand Johanna?

Johanna: I felt that it was a turning point in your Student Kingdom, in the way that you are going to be now teaching your students, by giving just a few of us, but representing all, and thinking on all the students. Something by being in your presence, and Lord Venketeswara, and Divine Mother, that lesson I believe was successful. Something about the magnetism of Tirupati was somehow connected to the magnetism of Penukonda, and it touched me.

Swami: I asked the question, thousands of people going in like a big rope (a big line); I ask what you understand here and I asked what you understand here, thousands of people going in. We stand aside, and I told to Jonathan to understand that power like a magnet. If you can understand that, there is everything. (*Swami asks Anya for a coke*) I can do whatever I want today, isn't it? (*Everyone laughs*)

He made a trick - I made a double trick, finally it is 99.9% success, completely made a trick. When we walk out from the temple, there is nobody else in the temple. You know that? When we came out from the temple, there's a dead, still two and a half hours time, empty. There is no visitors to go and see him. No matter whatever it is, it means he is very leisure - I catch that time. I put my sankalpam, I didn't cross his boundaries, I seen it. There is no way! It never happen in the history that he is having the leisure, one and a half to two hours, not like two, three people, not like that. He always has like a rope pulling, thousands... days waiting, two days, three days, four days. It means my Guru Parampara very strong. Whenever I got the message there is no hope I can spend two hours time with him, ok... One part my heart is really down, but I didn't drop my inspiration, its fine, "Let's go." We

had beautiful Darshan even if it was like five minutes. How much time total we stayed inside?

Clint: You were there fifteen or twenty minutes, and we all were there many minutes, like four or five minutes being able to see him.

Swami: Everybody owe to, mainly to the Big Boss Baba. Without his grace and help there is no chance that period of time can give to us. The biggest number one illusion master in this planet, Lord Venketeswara - Krishna energy, he is awakened for somebody can play with him. Who really can play with him? You know what I'm saying? Anybody have any questions on the journey? Thompson.

Clint: Well, I was thinking what is the relationship...

Swami: Don't worry, today is Swami's birthday, that you have to be in certain boundaries, everyday is my birthday. My real birthday is when my students got successful, that's my real birthday. These flowers it looks elegant, great, a lot of love, huge love, but real birthday that's... What is your question? You can talk whatever the depth it is. Today I can answer to you the depth of whatever you are asking, I can go that depth if you can understand to everybody.

Clint: On any topic?

Swami: Switch off the phones.

Clint: Any question like what you were talking last night, some of the depth there?

Swami: Anything.

Clint: Well, you were starting to talk about the mechanisms of how power objects work. You were talking about how it is possible to have power objects ten times more powerful than that golden dome, and that sight. It sounds like you are talking about power objects that don't exist, not just using power objects that others have already made. Is that true?

Swami: Say that again.

Clint: It sounds to me like there is a knowledge how to create power objects, not just use old power objects that some other divine soul has

created but is possible for people today to make power objects, is that true?

Swami: Give me an example?

Clint: It sounded like it is possible to use supernatural energies to create something into form, whether it is manifested or something, or charged, so that it is a new power object on the planet. It didn't exist before, now it exists.

Swami: Is everybody understanding his question?

Students: Yes.

Swami: Why I am not understanding it, is any block is here? (laughing)

Clint: Maybe it is the wrong question?

Swami: I am seeing three dimensions in which way I can answer you. The answer is in the three dimensions. Give me clear.

Clint: Ok, a deeper part of why I am asking maybe that will help. Another question underneath that question is, is that something we should be thinking about?

Swami: Now it makes sense to me.

Clint: Something we can try to put into our framework of what divinity is, what it means to be a channel for divine energies. It sounds to me like it always includes power objects for certain stage energies.

Swami: There is a list of some power objects for example the magnet pulls the item, magnet to magnet, same to the souls. There is the power objects that pulls you and gives you...it is no way to believe to the human natural minds but pretty soon going to prove that, and I got the permission. Until now nobody didn't got the permission yet, in this planet, except Shankarachariya and the Big Boss Jesus, and by the grace of Baba we got it and how the mechanism will play on the souls, even they putted it in the down, the supernatural cosmic energies it pulls and it transfer to the inside what ever it is there. Even a leaf, flower, statue, diamond, ruby, whatever it is, the again it radiates back like a mirrorism, gives you back plus it pulls you. Just you are sleeping, you

want to go to Tirupati and if that it is a perfect matching, that energy, (snaps) it can pull you. Just if you put your thought - it pulls you. Even especially to the Shirdi, you beg Baba you want to go. If he only wants to you to visit, if he wants to see you, then only can go - that is Dattatreya, avadhut energy. Do you believe he invited me two years not to visit his Samadhi? Two years.

And first of all I planned to Sri Sailam and the Shiva energy and the Shakti energy. I have always the great channels and incredible, no problem at all. But the number one biggest illusion Master... why I am saying that? Whenever I am ready to giving you something, something is disturbing in between then you are losing it. By God' grace, by divine grace it didn't fall down on the ground, it is still in my hands. Whenever I am going to put in your hands, your hands is shaking, and you are a little bumpy and you are not able to... I 'm not that much confident on you and on you really the illusions is playing. Where the number one illusions is coming in the Dattatreya energies the Krishna Vishnu energy, there a part of very clear, you really can play it. That illusions block finally three and a half, four years my begging and praying, praying, that desire is fulfilled not anymore whatever I'm going to do process with any of my student, and they have to receive it. That one part clear with Lord Venketeswara Krishna energy, but there is one huge block - convincing your Master with you. (Everyone laughs) Still, it is very easy to me to make convince. It makes sense to you, Clint?

Clint: Yes, it makes sense.

Swami: Come on.

Clint: No, I absolutely understand. He is the Master of Illusion. I mean he is the illusion energy, the Krishna energy. And the illusion is how she hits; she uses the illusion, thru the illusion she makes that shaking, that bumpy, and you just signed him, you got him to agree to not let his energy to be used like that against what you are trying to do with your students.

Swami: And his energy connecting to Mother Divine and getting the Mother Divine get control in your hands in a beautiful way, in obedient and humble way to make your process done. The process done is only I can consider your process is done is for example, a beautiful sand turned to Shiva Lingam. Sand is illusion. You are sitting there, it is

turning to Shiva Lingam. That is illusion. How depth that illusion is effecting on you to making open your heart, and you are observing that and to make your mind pop out. Pop Out? Pops out that part, once if you want to get in that to understand illusion. Second step, you have to, I will only consider and release you as a Master, when I will release you, when you are able to create the true illusion, the fragrance illusion, when you have the manifestation energy in you, then you are one hundred percent perfect Master in this planet.

No matter then, later you turn as a Master whatever again the Dattatreya or Mother Divine playing on you, making you suffering just in your personal life, whatever receiving a lot of karmas, she not letting you to discharge enough, "Ok fine no problem." To understand that the real illusion is, you need to experience that with your own hands. Make your Master see it, channel it, do the miracles energy then you will know the difference, the beginning illusion, the middle, after done it. You know what I'm saying? Then you are really good commanding on that (Snaps!) on the clearance. Until to then you are just peanut to spirituality. You learn a lot of soul philosophy, you know a lot of knowledge, to you I won't consider as a master. I'm talking honestly. Don't upset guys, that is the truth.

You have to show the true illusion otherwise, Lord Venkateswara, just he is standing and pulling millions of people. What is that? What he is doing with them? It's a question Clint, what he is doing with them? Even if they have open heart, believe, ok fine. Where is coming from? What he is showing them? What they have the blocks, and what he wash it? How he wash it? It means that power object, that energy is playing on the souls to making the fulfilling, to one step to another step, to making them clearance, to open the heart otherwise there is no way the millions of people just waiting for to getting in the narrow, just five feet doorway, get in get out. That is unbelievable supernatural power, one object is Sri Chakra, there is two more objects. Very shortly you will see that, the power objects. Our big boss, Krishnadeva Raya, he left it for us. My next building person by God's grace, we have with us. Until now, I don't have permission to use it. By January 16th morning I'm starting using it then you'll see the differences. But in between that, if any illusions is hitting to me, a huge chance it can hitted to me, incredible chance. I'm keeping on saying that, whenever I'm saying that it means I'm little escaping but I don't think so I can escape in this year. That's totally truth but pretty good confident you'll get what you want. You understand? What you understand the bottom line?

Clint: That you now have permission to use some energy channels, or some mechanism or something that you didn't have permission before and that is going to make a huge difference, that we are all going to understand with our own eyes, soon, in one week, but that the Mother is nearby.

Swami: To whom?

Clint: To you, and the more that you do that kind of work, the closer she wants to come, she'll react to you doing that, releasing that positivity. She'll react to try to stop it thru the nature, thru the Maya, thru the illusions and that you think that she is going to hit you this year, you don't know if you can escape it again.

Swami: I don't think so.

Clint: Still the outcome is going to be a win; we are going to have success.

Swami: By the grace of Baba... The vastu is a great chapter. The energy pulling the power objects to using that channelings and making to your soul to that energy, to make that power objects energy to make on you, your soul's impact on you very strongly, constantly, constantly, for many, many, lifetimes. If you channel that one power object, no matter whatever it is, wherever it is, you know what I'm saying? Power object means, not Swami blessed, not Swami charged, unless something comes with the blood, some special remaining things even if you do the abishek one hundred years - a peanut. Even you worship a lingam one hundred years it is a peanut. The real power objects, wait, everybody can see. I need five days to make it come down. From many thousands of year's powerful souls... it's created by direct highest divine beings. They didn't create it by physical bodies, no physical bodies created that - direct nature created that things. Just 0.00001% only is available, only even that available, but nobody cannot understand and figure out exact. Completely depends on your faith and surrenderity and maintaining the protecting the pure divinity, not abusing in a bad way.

I'm not expecting anything you guys, just I'm expecting your success and your service in the world, to spread the truth, whatever it is. Spread the truth, you no need to hide anything. You know what I am saying? You can talk whatever you want - it has to be truth. But even if

you talk on your Swami's personal life, certain things I don't care but reality is reality, you know I'm saying, 'light is light.' But if you misuse it, misrepresent it, then your life is one million percent miserable - period, that's a golden statement. It is not coming from me, it's coming from the divinity. Never play with that even it seems to you understood, when even if you misunderstand, if you don't know clearly you better to wait, not to talk. You feel a little hurted, left out, insulted, painful, failure, you know what I am saying, certain blocks is playing on you - wait. You have the full rights can fight with your master. Fight means with your heart, ask, do your best and show your discipline. Show your discipline. Shiva Ratri is not that anymore that much long. It's not anymore that much long. Once if they know the illusions is playing, it is very easy, it is very easy...any questions, Diana? Skye is looking very seriously.

Skye: Happy Birthday.

Swami: Thank you. You have any questions Skye?

Skye: I wish I did, I can't think of any.

Swami: Diana?

Diana: I am really interested in what you are saying, very interested.

Swami: To be honest, heartfully whatever your Swami gave any statement, without reason if I don't know anything on that, I won't talk, you should know that, I won't just mention, simply I smile I avoid that chapter. I go a little funny, I take my own chapter, make a comedy then I turns that. If I know exact clearly then I talk. Its time to me to talk and do the processes, to really can jump, can do it. But your huge duty is to really catch the Big Boss, Baba, to the Guru Parampara. To each student, forty-one days, a little fifteen, twenty minutes time, individual time each student with me it is enough. It is done, your life is very smooth - it can take off. Very smooth it can take off.

Skye: Swami, I have a question. It seems Baba, the way he helps us is that he gives us our desires; he always fulfills them.

Swami: Physical desires, normal desires?

Skype: Anything you ask for, he fulfills that so you can get thru that desire, so that you can go for the divinity. Is that true?

Swami: What type of desire you are asking depends on that.

Skype: Anything, like coming to India, anything I ask for no matter how mundane, whatever I ask for he fulfills.

Swami: He is so kind... he is really unbelievable kind master in this planet, same time, little avadhut, that part don't get misunderstood. Majority, everybody thinking Swami's is torturing. So sorry I'm not, crossing my heart, I'm saying I'm not. One student is suffering it makes me really painful. Anyone is going bumpy, I really want to go and help them and if I went, if I help them little bit, again he goes a little more on them. A little step back, oh my God, ok. Whatever he is doing, his way of huge purification. You have any questions, Ramakrishna?

Ramakrishna: You said before that seven hundred years back in time, incredible beings in spirituality almost like a revolution in spirituality they discovered, and in Tirupati you talked about how that temple, even though it has good vastu and many other qualities, and there are hundreds of other incredible temples, but that one is so special because of its power objects, and the combination of power objects and its vastu, and how they set up everything to be like a machine for sucking divine energy and first of all I'm wondering if that's what they discovered, that point, how to use the two together? Is that what the discovery was seven hundred or eight hundred years back that they kept hidden until someone can open it? And second of all I'm wondering if that was your duty on the planet?

Swami: It is completely great good luck to this planet, totally good luck. Entire in this planet there is eighteen power objects, supernatural power objects. Out of eighteen, there is only right now nine power objects is ruling and giving healing and helping. And I would love to share that power objects knowledge after five days, and your duty is to make me to talk on that. You know what I am saying? Talk on that, can able to see certain things. The point, vastu is vastu, power objects is power objects, and if it is both is pretty good even if it is no vastu, still it can work out. And the vastu is ok but without any power objects energy there is no way. In Tirumala, once you are going in you are going in the west slope to the high to the down, east to the west slope, you know what I am saying? To going to Venkateshwara, going to the

west slope - that's number one minus huge drawback. The west everybody has to climb up means even the vastu, whatever it is, a little bumpy, up and downs. But the power objects can... sixty, eighty percent it is mainly that cosmic power. When we stand to the backside of the temple looking at the golden dome, what is that? He's a purely purna-avatar standing there, one hundred percent purna-avatar. We went to Aganti, in the caves. In the caves there is Lord Venkateshwara statue there. You seen it? Hello? One time we went in Aganti. There is, I told, Virabrahmhendra, a beautiful saint who got a jiva Samadhi. He meditates there, he wrote the Kalajana. You know what I am saying? He waked up his channels and writing the astrology of these couple hundred years the coming. Something will makes you to open your heart and make that channelings, you can done some certain amazing things. There is a beautiful statue of Lord Venkateshwara inside the caves there. He used to sit and meditate there. In another cave there is a huge Shiva Lingam. We went there inside, isn't it? Anybody have pictures?

Students: There is a videotape.

Clint: There is a picture of that Shiva Lingam in the book that I published, but I didn't say what it was but I put the picture in.

Swami: Even whatever before, I put everybody to sleep with Baba, connect his statue and his presence, and there's a huge power object to get channeling to your soul and you need to understand that. You need to understand I am keeping on saying, "Swami, somebody needs to explain to us to make understand." First you need to make your questions and to make your discussion yourself. You have to come with your point, few points then I can discussion. If your not making anything discussion in you, it is useless to me to talk. You know what I am saying? You are here for to something to inner research, to make question and answers. Until you got the perfect judgement yourself and from your master, don't release that, don't vomit on somebody, it is perfect accurate. Then you are responsible for the huge crime. I am telling many times this - many people doing that still. To them, simply I won't show them anything. If you don't know anything, don't judge on somebody's process - you are wrong doing this, this, this... your process will go down, he will take off. That's very huge crime, incredible crime. Any questions?

But before to understand power objects channelings, you need to be super, super, brain on the vaastu. You can pick up like that (snaps!) the vaastu points. You need to go the depth on the vaastu and also is good to you to understand the Chinese Feng shui, whatever the talks, I seen a lot of points in that depth too, some points it really make sense what the Chinese they followed but mainly I really recommend to understand the Vaastu. Just I am giving a small example, if anybody had a southeast huge lake, for sure he have the huge problems with the ladies in his family. Always ladies fighting with him, they want screws him, dominating on. On the northeast automatically the prosperity brings up. In Tirupati, inside the temple you watch the southeast, there is a huge well inside the temple. Anybody notice that? Right after we walk out from the temple there is just left. Hello, Jonathan you watch that?

Jonathan: Yes, I saw that.

Swami: Two hundred and fifty feet depth, its eleven feet by eleven feet well. Of course you have the northeast huge lake, huge, it also brings a lot of prosperity and the east is complete the height. If the east is complete height, there is only one golden statement. Anybody even enter into Tirupati, they want to run out again, immediately back after Darshan, don't want to stay more than few days. Just they want run out. The East height makes that. So you have to go thru a lot of Vaastu principles. It's a matter of one week, already explain a lot of points, go thru. It really helps to normal life unbelievably a lot, a lot. If you're not believing on the vaastu, you no need to believe on the power objects too, then later on you no need to believe on spirituality too. Everybody worshipping a huge beautiful golden statue with the golden jewelries, you know what I am saying? Millions of people going worshipping, the statue is a beautiful power object. If you can't believe the power objects, to your minds that's a power objects, how come you can believe in spirituality one hundred percent? You know what I am saying? You need to make your open heart for to believe the tradition on that cosmic energy. Means mentally you need to make it to understand it. Of course whatever Swami wants to give the process, different channels, the channels you will receive certain abilities, but going thru channels, the power objects is like everywhere it comes. It adds five percent, ten percent, it is always helpful there, it's always helpful there. Any questions Tobias?

Tobias: (*paraphrase*) You are always saying that we should understand some things, and many times I don't understand so how do we know to

wash these blocks? How do we see what these blocks are? (*Little discussion back and forth Swami and Tobias*)

Tobias: Baba is sitting downstairs in his temple and I don't know...

Swami: There is the block. Not tried yet deeply. Making your mind calm peacefully, just focusing on one chapter, one point just trying to understand. Your duty is just on that target you know what I am saying? Just few days you are on the job. If you are on the job, something you can discover it. Not like two minutes, five minutes, ok great. For many lifetimes keeping on coming back and forth, never receives it, never can understand it. You know what I am saying?

Tobias: That's one problem I can't focus. How can I keep my focus?

Swami: Ok, keep try, keep try. Who keep tries - they never get failure. Just trying for a week, ten days, a month, "Oh, I got failure." (snaps) No way I disagree. Know what I am saying? I can't stand. You can't get judgment one month, two months, even if you did one year, your mind is not stable, you are not focusing perfectly. You have to keep try, keep try until you get it. Then once if you are trying with your heartfully, really heartfully, the divine energy makes you to brings in front of you to understand it. (snaps) It gives you the thoughts for example, some scientists, they tried one month, two months, a year for found some formula, they can't discover it, they can't find it, they never give up. They never care about they eat their own food. You know what I am saying? To shave their own beard, to take care whatever, they are completely not thinking. For example, in chemistry the Benzene circle, when he is making the Benzene Circle he have no idea how to make that. Many years he is breaking his head. One day he is in the restroom, he slept there. No, my teacher, my lecturer, he told that it is in the chemistry and he completely relaxing sleeping (snaps) a cobra with the head touching the tail, head and tail (snaps) he woke up immediately he went, he found it exactly (claps). The resonance capacity is thirty-six calories then he made it. He change entire organic chemistry pretty good.

It is a supernatural science - spirituality is beyond, it is not with the mind. This science is with the heart, the soul level. First you need to understand the karmic things, karmas. Once if you understand the karmic things, then everything comes to you to make you to understand. You know what I am saying? One man is so healthy. One

man is not healthy. Just you want to know the reason - it is enough. Just you want to know the reason - that's your puzzle then it opens the doors. Ok...

Lucia: I still want to know what made Venketeshwara such a power object?

Swami: Nobody didn't make him; its nature created it. It means himself he turn, that's one hundred percent for sure statement.

Lucia: So he was really a human and he turned into a rock?

Swami: Exactly.

Lucia: So Swami, if he was really like that, then last night when you sat there and Clint was massaging your feet, behind you there was the temple and I thought if he was a man turning into a rock sucking huge cosmic energy...the men who already massaged your body they said that your muscle, your body feels like hard like a rock. So I'm wondering, I think that you also suck a lot of cosmic energy and your body turns more and more into a rock?

Swami: (Laughing) Thank you so much Lucia sorry I don't have two wives, not yet. I don't have that much headaches and I don't have that much responsibility. My works a little bit a few students to give certain abilities, goodbye, and go sit, taking Samadhi. I told you the sand turning into a statue... in Dwarkamai we have beautiful sand. You should understand the point there. Try to put work to your minds then it comes up. It will. It will. Three hundred and sixty-five days is bleeding amruta around the clock for a thousand years. I am not exaggerating then you can understand the power objects power. Then you can understand it.

Paul: What's the key to accessing such power objects and is it similar to what you are doing with some of your students with Dwarkamai?

Swami: Key?

Paul: Yes, if I wanted to connect with Venketeshwara from here, or wherever it is that I am, what is the technique, the mechanism to be able to access that energy?

Swami: Open your heart don't be like a rock, like a buffalo. Open your heart - try to understand that. Open it, yes, that is enough. Heartfully you are begging it. You want to know it. Put the thought in your heart to work on that. Work on that. Work on that!

India is the Mother to the all countries, especially in spirituality. It is the Mother. I am not exaggerating, is only the India and a few countries there, but the India is the, the, the, number one. And a few guys what they tested it, what they experienced it the depth, and after seeing what they done amazing hard work. I showed you beautiful Krishnadeva Raya statues, you know what I'm saying? After I told that, after you seen Krishnadeva Raya statues, I really thought that my students started to think on that. To go through about his life, you know what I'm saying. What is he? Where is he? Why he turned? What is his character? Why he really protected certain part of the chapter? What made he really enjoyed it? What he really enjoyed the real nectar, then he really jumped that depth, he sacrificed whole his kingdom and his life for that? Maybe he's a stupid. Maybe he's a clever. If he is clever what is that? Just thinking in your minds making a lot of points. You know what I am saying? Otherwise there is no way a king just making a poor, making incredible things without something tasting. You need to make it to put your mind on that, what kind of things he tasted. And is there any chance you can also taste that too? Know what I'm saying? Then you can find (snaps). I not just simply making you many times go back Hampi and here, go to Trirupati and come back here, Kalahasti come back here, Sri Sailam and go come back here, not doing for the fun for the entertainment. No way. No way, absolutely not. You have any questions, Myuri?

Myuri: I do have a question.

Swami: Straight question.

Myuri: About the power object, about the one that you are creating in the Dwarkamai, if you are creating that only through energy channel or you are also using another power object with that to create that?

Swami: That's a great question. Without a candle, I can't make a lighting on another candle. You know what I am saying? That's pretty good question. Without a candle I can't make a lighting on another candle unless, no, I'm using power object. I'm giving you a boon; you'll be there when I'm doing that.

Myuri: Thank you.

Swami: The first Amruta you taste it. Don't worry it is not alahala. (everyone laughing) If you drank alahala I'd prepare six feet in a very bad vastu place putting burying in Samadhi, ok Gustav?

Eva: One question?

Swami: \$100, you can give later.

Eva: (paraphrase) I think you once said your physical body is now a power object because it is such high vibrations. I think you can make the Shiva Lingam without the use of another power object, is this true?

Swami: She is saying I no need to use a power object, my body is like a power object?

Students: Yes.

Swami: Depends on certain circumstance... using for that sand and making Shiva Lingam, using my energy... the same energy I can spread to my students. I can use power object to access high energy to transfer to that to make it done. You know what I'm saying?

Swami to Gustav: Swagatam, just each song six minutes.

Swami: We'll talk tomorrow guys. Today I need to give special thanks to Paula. She gave beautiful incredible presentation to me helping little bit Ashram. Thank you Paula!

End of Talk
