Shiva Ratri Program 2003

Master - Student Relationship

How to Win Your Process

Teaching in the Baba Temple

February 20, 2003

Swami: Guru Brahmha, Guru Vishnum, Guru Devo Maheshvara, Guru Sakshat Parambrahmham, Tasmai Shree Guruvay Nanamaha

Welcome my Dear Divine Souls. This year the Shiva Ratri program I want to start with the union energies between the master and student, between the Brahma Consciousness linked with the Sankalpa Shakti, relating how to create the universal energy. It's a very difficult subject the coming days what I'm going to teach and also very super depth inner points. You have to deeply think and you have to catch it. If you don't understand, every thirty minutes I'll ask if any one has any questions, then you can ask.

Before I start, many people did the Paramashiva Yoga, many people did the Concord, many people did the Five Elements, many people chanted their personal mantras a couple millions of times... Many people are feeling the huge energy, a few people feel they didn't feel anything, a few people feeling just their doing to pass the time, a few people connected Mother Divine, a few people connected the angels, and a few people received amazing Shakti from the master - different people in the different graphs. If you take all coming in one point, why few people receive amazing blessings from the master, and why a few people even though they did it, they aren't able to receive it? What is the big block between what they did in their meditation, their sadhana, the austerities? Even

though they did it they're not able to reach there and to reach - where is the limit?

I told whoever did the process, especially lot of people did who did the Concord, at the same time they broke their dikshas, again I gave the conclusion how to fix it. When you're not carrying the perfect inspiration in your heart, that's the number one drawback. I'm telling even now, this is a great period of time from now until Shiva Ratri to do your sadhana and you can reach in this period of time amazing success in your life. Lack of faith, lack of surrendity, doubts, confusing each other, they believe the process, they believe the master but same time they're wondering if they do this mantra this many times is it really possible they're going to receive the high cosmic energy in their soul? It's a big question mark in their heart. But they keep doing it. It's fifty percent inspiration, carrying this type of block and doing it, it's impossible to get success in your process. Simply I can say it's impossible. Are you hearing Doug?

Once if you took any process, you have to be determined, "Ok, so and so time it's starting and until to this period I'm doing it with a pure open heart no matter whatever it is." Completely surrendering to the process with faith and the dedication. Then there's no chance the Almighty will miss you. You're one of the parts of creation here. Once if you do perfectly, you will link with the Almighty energy. Once if you did the perfect process, there's no chance you can get failure. I have a group, special group; I'm training them. They're suppose to hold the Shiva lingam and meditate. The nectar has to flow in their hands. They failure, again they have to start tonight. In their hands, when they're holding the Shiva lingam it has to bleed Amrutha and they have to understand, once it's happening in their hands they have to recognize the creation energy there.

I'm telling you guys, whenever the impossible thing is making it happen in front of your eyes, those moments you have to en-cash it. You have to use that energy to wash out all your blocks no matter whatever it is. At the moment you have to surrender and you have to hook, you have to tie it to your soul to the Almighty, to bring that energy to you until you reach your destiny no matter whatever it is. Whether it's connecting Mother Divine, connecting the angels, whatever your ambitions and your aim are with your master, it will fulfill that energy.

Whenever you ignore those energy moments, just you feel so blissed but you don't know how to use it, it means you're not observing that very

clearly. Your heart is open wonderful, but same time you have to put the sankalpam in your heart. Even though you don't know, you have to ask that energy, "Please get it in my heart, please let me know what it is the creation." You know what I'm saying? Using your personal mantra, at the same time if it's possible, the master is around you, you have to catch him, "Please explain why this thing is happening like this. What is the energy mechanism here?" On the spot, on the moment, the doors will open. Once if it opens, there's a path, your real spiritual journey will start. Even to receive that moments coming in your life, the golden moments to you watching personally, it's a kind of bliss, a kind of pure blessing the opportunity the Almighty is giving to you to understand it. Even your master is here today talking about this subject it's also kind of a bliss, blessing, you can clarify your confusion and questions.

And this Shiva Ratri time there's a lot of people are going to connect Mother Divine, no doubt on that and a lot of people will witness that nectar flowing in their hands, no doubt on that. But the big question mark in my heart, how much they're going to understand that. How much they're going to utilize that energy in their future developments, soul developments? That's the question mark in my heart. I can put it this way, lot of people have strong determined heart, they really want to connect a lot of really powerful things, but they don't know it. I agree with that. You have to surrender to the process then the energy will make you understand it. A lot of people have a big block not surrendering to the process. Everyone thinks, "Swami, I want to go little more step up, step up, step up." What is a step up? Whenever you have some food in front of you, first digest that then go to the next. A couple thousands of points I explained to the special group but only I think yesterday I saw in their feelings, they understand pretty good but, they didn't understand the real points. Between the master and student, there you need to always take it as a sport whatever the master is saying and you have to take as a challenge to do it then only you can win it.

The master, he's loving, he's screaming, he's disappointed with you, he's cooperating...today he gives one process, next day he changes different processes and again next day he gives a different process. Sometimes you don't know what he's saying but he's saying it to you. That's what you feel, "Gosh, why is Swami really confusing me? What should I do now?" That's my duty to make you confused, to leave you then where you go? You have to be a really big monkey baby to catch it. Wherever I'm jumping, the monkey small baby never loses the mother, it holds onto her

very strongly. Whenever you're sensitive, very delicate, at the time your master is like a cat, it knows how to catch your head gently to blessing it.

What you really understood Clint - between the master and the student. Why your group is not able to reach certain stages? What is the block?

Clint: Well, I don't know the answers for the group one hundred percent, but as a member of the group...

Swami: I will ask Ramakrishna. Why the group wasn't able to reach certain level stages to connect the master's heart to win the process? What is the block you understood?

Ramakrishna: The group unity, it's not what it needs to be to see certain things.

Swami: Why the group unity is necessary there?

Ramakrishna: I think there's many reasons but one of the important reasons has to do with the way the people get along with each other. That is, if some process did happen and you're with people that you don't feel comfortable with or in the digestion of that energy you were with people that you didn't feel comfortable with, or weren't closely bonded to, then there could be a lot of confusion created there that can destroy the process. I think also, as a group, you have to take off from the same level to reach the same level at the same time. You're sharing that energy equally among the members, and in order to reach that point, you have to earn that trust from the master that he can see you can surrender totally to each other, as well as the process.

Swami: Is it necessary, important, the miracle power to reach enlightenment?

Ramakrishna: My understanding is that yes, absolutely it is important because you can have certain experiences in meditation but that's different than if you see something with your own eyes, something that's not possible. And although both are valid experiences, both can be powerful beautiful experiences, but the difference between seeing something with your own eyes is the difference between knowing what is this creation, how is it real, how does it work.

Swami: How many people you have in your group?

Ramakrishna: Fifteen including the other two members.

Swami: In your group, only a few people connected Mother Divine? They saw something, a few people didn't receive anything yet, why is that, what is your understanding?

Ramakrishna: I think it has to do with, first, how openhearted they are to you to make you comfortable with them, to make you see that they can understand something, it's very important to understand. You are our master, our guru, so we have to know why you're doing some things because if we don't understand that, if we're under estimating that, then we're losing a lot from that and that's very necessary in order to en-cash whatever experiences you have. You really have to know the value of it first.

Swami: That's it?

Ramakrishna: So open heart would go with surrender and also dedication, patience, and how well you can handle your own blocks, your own bumpiness, your own mind from breaking your process.

Swami: Your master is a mirror, whatever you are, I show it like same, sometimes I turn like a big lens. If your super funny, I'm super funny too, extremely funny. Your group, giving the answer to your group, a few people don't know how to surrender, for example, one student received a lot of things, amazing experiences and she received certain objects, and she lost them in a powerful spot. She lost lot of things in a beautiful temple. The point here, if you're holding anything, "Why I should trust this? Why I should follow this?" If you make any question mark to the Almighty... You don't need to surrender to me, I'm like you... I'm your best friend only I'll show the daresness.

When you're behaving very funny with energy, the energy will drive you crazy - that's it. Once if you really surrender and believe in that, even you did your process or not, that energy will make you do the process until you got that. It's the master's duty to make you do it. Even if you're not able to do it, he will do for you then he'll transfer the energy to you. Just I'm doing that for a lot of people, even if they're wearing the sunglasses and they're make up is very well, great lipsticks, they're really openhearted and their

moving, they don't know what to do, they can't chant the mantra, can't get it, they're coming to abhishek and just ok, but their heart is very pure - they deserve it. I have to make them to understand, that's my duty.

Some people, they have the abilities to understand but they won't focus to it. You know what I'm saying? They won't put their heart and their mind to understand it. They put their mind and their heart to the unnecessary gossips, to the funny things. How can they reach high stages? You can receive high healing abilities through the meditation from whatever processes you're doing. You can go and wake up anybody's third-eye and they can sit in hours in the meditation feeling so blissed but in your personal life, what you really experienced the beautiful moments with your two eyes, but not in the visions, that's important.

Ok you did ten years spirituality what did you really see? After you saw it what you learned from that? After you learned it, how much you're teaching to the world, that's important. Even able to see that, that moments have to come in your life...the moments only come, the big chance comes once if you open your heart to the process, pure dedicated to the divinity. The energy will do for you or the energy will make you to do it. That's the big step between the master and you. The master is always ready for you but you have to think deeperly in your heart how much you're ready for the knowledge. It doesn't matter which religion you belong to, this is the religion for pure light, pure love...knowledge is knowledge - we have to surrender to the knowledge.

At the same time, lot of people when they're reaching their destination and they're losing their patience they're feeling, "Ok, Swami talked beautiful to me today, it's wonderful." Something they feel so blissed then two or three days later, again they come down feeling completely left out. Intentionally I did it with a few groups, putting some people inside and few people outside. For four days I called everyone inside then four days later I put some outside. They felt horrible. They know I love them so much, so why do they need to feel horrible? One day I have to stay in my room, my permanent room and everybody has to stay outside. You have to think you are in Swami's heart - that is the real room, it's enough.

Of course it's a bliss to also be in Swami's presence to talking. Whenever he gave a nice talk, I wonder how much they understood and how much they're going to share that knowledge to the world again. If they're not catching that, it's useless. I'm telling especially to the special group, they

have some thousands of points, if they release the information it's like diamonds in the world - whole spirituality is there. Well, whatever it is, your dedication, inspiration, patience, complete surrender is important here through your mind, heart and soul...Adi darshanam raksha raksho Sai Natha, "Totally everything I'm here, do whatever you want dear master, Baba, whatever you want use my body and my mind and my heart to do seva in this world, I'm here." Try to make your determined heart today. At least from today onwards, this is Guru Day, make a commitment with Baba and start tomorrow onwards your process, chanting your personal mantra minimum five hours to eight hours. Wake up sunrise time, sit, do your meditations.

One part my teachings try to understand. Same part, even I'm not teaching, try to sit in the group meditation because it's mainly here I'm going to lift each person's soul up. That's the most important this period of time. You know what I'm saying, and also Swami's going little hard time. I'm going to deliver five Atma Lingams this year. Actually I thought of nine but I came down to five to give to the different countries' people. The five is like the Five Elements, very supernatural powerful. And many months back I drank the mercury, and before five lingams, I owe to one beautiful soul one mercury lingam. In these two or three days I have to deliver that. The point here, the body is really shaking. Of course it's like the same, a pregnant woman delivering, the pain and suffering is natural. Without the pain and suffering I can't produce any divinity - the suffering has to pay the bill to the universe for everybody.

One day those Atma Lingams will show that capacity in the world, the top healing objects...but it will show, it will play it's own play, beautiful character, as a powerful object in the world...but everybody's in my presence, try to surrender with a big open heart to Baba and Jesus, to wash out all your blocks. Ask for the real truth to come in your life, to develop that, you can't receive these days back again it won't come back. No need to lose your inspiration, "Swami, I'm keeping on doing since two to three years my process but nothing is happening to me yet." I'm one hundred percent concentrating on each person. I know what to do with each soul. By grace of Baba I will do a good job. Don't hold any blocks, try to surrender, try to give up all your blocks.

If you didn't ask, it's impossible to receive anything, asking is very important and also, try to prepare in your heart whenever the moments come with you and your master, the beautiful moments with the privacy

time, how to utilize that energy and what you're going to ask. Try to be clear, clarity, what type of things you want to receive in your life. For example, Swami says go and bring a glass of Abhishek milk. You brought the glass of milk in to the room. That glass of milk turned completely as a pearls in your hand. You know pearls, white beads? The milk turned to the white beads. You're holding a glass, putting in your finger and shaking the milk with your finger and it turned as a white beads. Any moments whatever is happening in front of you, those moments will only stay for a little time... for sure they'll only stay a little time. I hope you use your talent and intelligence to catch that energy and hook the master's heart and hook the Almighty. The beads is not important there, if you're really a student the beads are not important. What's really going on there is important! How the mechanism is happening is important. Of course it's also important the beads, the next step.

Whenever you connected Mother Divine you can test whatever you want, fine, after you tested, what you're gaining is important. What's the purpose of your testing? That testing has to turn as a boon in your life. A few people they tested, good, but they have to think what they received from it. Simply testing doesn't make any sense. The days are coming very soon for that, "Oh Swami I forgot this. Oh Swami I missed this. I was suppose to ask this." If you feel again in your heart horrible, that's a pretty good hell in your life, believe me, that's a hell. It may come or it may not come again, the moments in your life with your master. So whatever it is, believe, practice and patience until to Shiva Ratri, it's very important.

If it's possible, try to attend early morning Abhishek to Baba then do the sunrise meditation one hour, two hours then go back and eat your breakfast. Then start your meditations as much as you can. Be in much silence, be healthy, strong inspiration heart, do your practices. Any questions? And I want to say good night, then we'll start tomorrow onwards.

End of Talk
