Swami - Conference Call to London Group  
JC Channels and Mother Divine  
From the Penukonda Ashram to Hampstead, London  
June 11, 2006

**Swami:** Hello

Group: Hello

**Swami:** Hi guys

Group: Hi Swami

**Swami:** So everyone having a good time?

Group: Yes

**Swami:** Super. So, how did Tatyana teach?

Group: Very clear, excellent, 10 out of 10

**Swami:** OK! Everyone can hear me?

Group: Very good.

**Swami:** Super! Hold on a minute. So today is the beautiful full moon. It's very marvelous energy today. Just keep listening to what I am going to talk. Don't make any noise.

Tatyana: Ok, just keep listening what he's saying. Don't make any noise in the middle.

**Swami:** Somebody can write the script and then later you can make the clarify guys. So, Tatyana taught the beautiful JC Channels, and Mother Divine Channels.

Basically the Jesus Christ is the most marvellous person on the planet. And what he taught and what he experienced and what he really learnt from India and from the ancient tradition, it is the supernatural formulas. The formulas are linked with the deep, deep, beautiful powerful vibrations of prayers. Who really connected with the powerful vibrations of prayers automatically they will connect to the cosmic. The cosmic is the nature. The nature means the Mother. Mother means who really creates the people's souls s in her womb. So every person from the planet they came from the mother's womb.

Whole creation is hidden ere in the mother's womb.

So the point is, the Jesus Christ, the Buddha and Shirdi Sai Baba, any divine spiritual special soul who came on the planet, they have a lot of amazing power to understanding the nature. To who really understands the nature they really can command on the Mother. Command means that through the love they can change the karmic, the illusions, they can recycling the birth and death.

They link with the cosmic all the time.

So, eEven the Jesus Christ, he hads the crucifixion later. On the third day he came back. It means there is no death at all -harder he did that, who really understand oand the nature -= they always link with the cosmic all the time.

So, iIt is the most very important thing what the Indian tradition I teach and many people they practiced certain have a practice of studying yogas, the process the purpose is the of the purification in of the soul levels. Actually it is a vast huge ocean of knowledge to understand but I gave the very shortcuts of the diksha, means, certain process to receive in a powerful way in a short time way. Even though you have a lot of exsuspecting and doubting and you can't believe it, you belong to super strict one religion – doesn't matter. Nature has no religion at all. The water, the earth, sky, air an

the elements, the fire – doesn't have – no religion, the religion of the true creation.

So what you really need to understand ~~with that~~ guys, right now the whole globe you can see there is a lot of amazing changes, disasters, and beautiful creation, up and downs ~~they~~ are happening. As your duty, you came here in human form, you came as a beautiful soul on earth so it is us your our responsibility to understand the creation. To understand the creation we need a master (map?). You can understand yourself for a level for one certain stage but it is very important heto having the perfect formulas and for the vibrations of prayers and use that and just to go.

Like a Buddha, even though he is a strong Emperor, strong King, strong Emperor and a lot of wealth is around him, wealthy after he is seeing in the market a lot of dead people is going, a lot of old people is going, a sick - people is suffering then that the started to realise - one day I should also go like that. W what is the creation happening like this? at ..... Then he started to research the nature. The nature he sat under the beautiful tree then he digged created the nature formulas, he created the beautiful formulas of the Buddhism ..... through the nature. He found a lot of formulas through the silence. All formulas are hidden in the silence. So even whatever whatever even Swami is carrying, the information, it came from of thousand of years. The formulas came from a lot of Maharishis and Saints, they had amazing great success but still we are doing.

So, stop the 'monkey mind'. Stop the suspecting nature. it is affecting nature Stop (thinking) you are human. You are not at all human. You don't have any problems. All your problems, that ist, who really created you that is his problem. You don't have any problem. really create is his problem y You don't have pain. You don't have heartbroken. You may feel, "Oh my God, Baba, Oh my God Jesus, Oh my God Buddha, whatever you feel, Baba, I am really heartbroken, I am really facing lot of hurdles, whatever you feel headaches, every day my life is miserable." That is creating beautiful illusion.

that is killing I am facing ---So what you need to do to take it sporty. It is a beautiful illusion It is very important to have the perfect formulas and perfect prayers

Beautiful illusion you have to think sport You have to just pPut all yourthe problems, and all your pains – that is His pain. Once you accepted that then automatically all pain and suffering, all your depression - everything goes back to the \_\_\_ in the Mother's womb. make his

The real Mother is the Divine Mother then you automatically you connected there. With her wWhenever you are sleeping, whenever you really totally completely surrender, that's not at all your problem, just, "You take care it." (God) ..... She will take care. Then the doors start to open in your life, She will take care it. Even you are a strong believer of Shirdi Sai Baba, automatically he she will take care b-of ecause of, you Ssurrendered ing in a beautiful way withis a deep devotion and isyou accepted the ancient formulas through your love, even if you didn't understand the ancient prayers, even if you didn't understand the concept of the mantras. So it makes you a little harder. Then if you open your heart even if you are able to do it or not, opening the heart with a beautiful fragrance, it is their duty, their job to take care of you.

So, my Dear Divine Souls, life is short, make it as sweet.

Try to digest the channels of what they really did it. Many people have a lot of confusions, "Swami, if we really did it, these channels this and this, we are who are really willinggoing to connectto the supernatural channels?' Yes, I can give you have 100% guarantee. Yyou will connect. God is always fair. He is always fair..... But weyou should not carry any poison in our heart, poison of different thoughtsblocks, hurting yourself, thinking of yourself you are such a bad person, feeling your angry on yourself, you did the mistake, you did the mistake, keep hypnotising yourself and insulting your soul. did something to your soul. You do not have any right to blame on yourself. You do not have the right to blame on somebody else. Just whatever it is so far what you have done itin your life -- simply accept it. And try to put your life, whatever religion, whatever God, whatever you believe in it, just to give in his hand, "Try to take care of me." it sSo then automatically that it is His job, He is starting to take care of you. And at the same time try to concentrate what Swami teach, certain prayers, have a look. Beginning it is a little harder - accept it. But a little later on, keep simply doing it, Jesus, he is doing it, doing it then you will really fall in love with such the great energy.

Once if you are in that experience the great energy it is their duty to take care of you. That experience, that energy will come and pour in your life most amazingly. energy of Karmas, in what your life ~~.....the most amazing.~~ That ere are is the most important to experience the divine grace, and the divine fragrance in your life, otherwise what is the reason why we are here on the planet. So it is most important thing we should really learn it. ~~.....~~

Even Tatyana & Tobias, Simone and the beautiful souls in London these guys and Mary, they are really doing hard work and they want to study and pretty good they studied. pretty austerities and they want to study they are pretty good austerities. And especially Tatyana for five six years very intensely studied. For a couple three, four years Many people here even here she is super bumpy like a monkey. But she is all the time sitting and in depression, one angle sometimes angry, and... She is ok but I understand and I am looking at her and I am seeing. for two years Beginning two to three years I completely ignored her. Let's see if she really can come up. but she okay, but I am looking at her I am thinking two to three years come through like, she can really come up, Then later on she started understanding and digesting then she made it certain angles certain angles. There are hundreds of people like that in Swami Kaleshwar's community. T They have amazing experiences with the Mother, they have amazing experiences with Jesus and they have amazing experiences witnessing the beautiful miracles whatever it is. They really connected Mother. but they really connect to Mother, so y So you might think it is a little funny and, crazy but many people have expectation, and "Ok Swami, we give you this much dakshina, donation, just we and you want to get like that side of it of it." It is not that. You have to get a little bit energy charged. I can give you some energy guys, to lift it, that's no problem. But at the same time you also need to gain, to produce your own energy. t Then once you lifted your energy yourself put your energy, lifted your soul then I am there in the certain stage to come down a little bit to where you are to make you to lift it.

So it is your duty also to do sadhana, practice with the patience. No matter what, having patience and having perfect discipline in thea proper way, if you keep doing it then God will twalk.

If you walk one step ahead to Him - He will walk ahead in front of you 900 steps. There is a big bridge will be happen between you and Him. Once if you ~~reachlinked with this~~ beautiful energy automatically your life is bliss. Your life is such an amazing bliss - that every person on the planet we need it. -----The same thing the Big Boss Jesus Christ and Shirdi Sai Baba, especially the most austerities persons on the planet - they are all the time doing sadhana, sadhana, sadhana. (Chanting prayers)

They travelled, they investigated, they researched different formulas and they discovered and they did it. And even though Jesus Christ is having the crucifixion, he is a supernatural miraculous person and whenever they're crucifying him he really can change the nails into a flower. ~~formulas~~ ----- of a flower Whatever they are making the whole cross to make him to carry, he can carry like that in a simple way, no problem. He accepted another form of the Mother's nature. He really suffered because of for usher earth. He is giving ~~indirects~~ notification as a presentation, is it given----- Even though you are a supernatural master, even though you have supernatural abilities, you are still a kid in front of the Mother. You have to go through whatever order is given toon you. Every person on the planet there is a reason why you came here. We have to do our duty to complete our duty and then go back.

But whatever you are seeing when you are running through the garden of this creation, you can choose any fruit, any flower, you can change your mind. "I want this. I want this." Of course He is would be happy to give you, but ultimately after you are seeing any saint, any master, ~~with~~ supernatural avatars power they have been through a little hard time. The hard time means one time, the same time, you are experiencing same time they want to see another kind of proof. But that another end it who looks to earth they are really suffering but it is not suffering. They are taking the suffering as out as a beautiful bliss. In the pain is the real bliss there. In the happiness one should really enjoy, "Oh, I am really happy."

No, that is not happy. Of course you are happy, beautiful wife, beautiful kids, beautiful house, beautiful car, you are rich. That does not make you happy. What makes you happy? But ~~t~~ The real thing that will make you happy, what, you how much you the love you receive from the God, whatever God has given you the comfort,

okay, you are lucky. At the same time try to think what will make you is to receive.....even more. You think all the time the car never stands with you, the wife she'll stand one extent, the children they will come for one extent, the car, bungalow it can stand for one extent. Nobody will walk until your last journey to merging with Him. They might walk with you until the graveyard, same time, far away.

TheYour wife won't come, your children kids won't come, your car won't come, your bungalow won't come, the bank balance won't come, but only one thing will come to what you really created - a beautifulhealthy good power, good karma, your good actions, good results then somebody will come and pick you up to the beautiful heaven. It is one hundred percent true.

So today your wife, you might think it is your wife, you have five kids, the five kids in the next lifetime they might come as your beautiful friends. They might walk different places. ....  
Body to body relationship that is beautiful, but it is not one hundred percent forever. But you have to respect and share the love between each other to sharing Aham Bramhasmi - e...verywhere is the Brahma Consciousness, the awareness, beautiful knowledge ..... is hidden, e...every plant, every bush, every creation of God, He is there. sSo you have to start loving everything, even you see the dark, dark personGod, whenever you start loving him then real power will start to grow in you.

You have to kick away two things. 1. You don't hate your life, you don't like it, you always sometimes feeling a bad personhour, always seeing the bad of somebody and you're counting the badness - not seeing the positivebeauty of it. The bad thingsness once you start to think, constantly it will come up. It will make your mind to hypnotize you - all the time you are watching the badness. The mind never give a chance to your heart and to your soul, thinking the all what that somebody is facing, the problem.

For example, in a prison one crazy guy, whatever criminal is there, with his emotion .....he did a mistake and they threw him in the prison. Hhe is really maybe bad but youhe also can see there is a great love in him. ThereHe is a beautiful person. There is a point he could notcannot control his emotion, his crazy action.

There is purpose, there is no people he is making to loving. Once if you he start loving in a beautiful way, you can change a rock, you he can make a rock melt. You can make a fire rock to cry - love is such a great weapon.

So you have to think guys, the God, the symbol of forgiveness, beautiful loving nature, loving, forgiving - he miracles start from there, another thought part, starting linking with the different deep, deep prayers, and just giving charging to your soul. Once if you are keep charging, charging, charging, your soul, without your notice your soul will get strong vacuum power, more powerfully. Once your soul is most got more powerful. Then you will feel a kind of Stitha Pregnatha. the greatest thing is happening in your life you take in a sporty way. Stitha Pregnatha means that even when crazy, bad things happening in your life, good things happening, you take both in a sporty way, you're happy with both sides. That is stage, the first stage every person need to comes up.

Then Second Stage, to understand the God nature, why God is great, why we are not? every person Why He is able to do some amazing things, why we are not? Why on the ancient days in the palm leaf books they bring? What is the depth in it? they made the beautiful formula books Why they made in Egypt the beautiful pyramids? Why so many people to go to the Himalayas to visit the Mount Kailash? Why many people they visit in South India to the Golden Temple? Why certain Saints they are demonstrating certain miracles, why not you? What is the part that is making you to stop not able to do certain things? If you start to making the self-realization in you then automatically you want to see the Mother - Why he does such amazing things. If he starts you want to see the Mother, they really fall in love you want to see her. and you really want to see her who is the creator. Like Vivekananda, Paramahansa they made it. They made it.

Even in Penukonda there is couple of hundred of Paramahamsas by the Grace of Baba, I created these guys. I feel little bit proud because of something whatever seeds I put in the earth. I created these guys Pretty good it is grown and it is giving beautiful fruits and flowers. It means Some extent they got experience, they connected it, I am happy.

~~So even t~~This Guru Purnima many people are going to connecting to the Big Boss Jesus Christ and they are making a big cross and they are connecting through the love and –surrendering and through it certain angles of their capabilities. We are all children. We are all His children. ~~H~~he will definitely take care to lift our t–souls to understand the mechanism of the nature. I hope you are understanding thatGuys.

Group: Yes

**Swami:** The most important thing, to be as a beautiful devotion and another part we are bBorn as a human, try to respect all around the humans and try to see all humans are equal. There is only right now reallytwo religions what I am seeing on the planet. One is rich religion, one is poor religion - rich person or poor person. Only right now right relation and poor relationship ~~s~~So don't take that differences, one person might not have money, one person have huge wealth. If you treating like kind of you holding, whole your life will always be linked with the material things. One part it's necessary, (but) too much material things, too much attaching to material things it's always problematic in spirituality. No problem, but some angles it really disturbs you guys.

Lift our souls to understand the mechanism of the nature

Two what I am seeing on the planet

Rich person and poor person. One person don't have money, one person has huge wealth. If he is living holding whole life is linking with the material things, too many material things it always problematic in spirituality. No problem but some angles it really disturbs you guys.

Even though your Swami well blessed by Mother, Baba and Big Boss, beautiful palace, beautiful buildings and gardens, but your Swami always sleeping near the fire pit.looking in the fire pit. And to living, I never ever forget my reality and where I came from and what is my dharma, my duty to take care of it.

Your duty guys, to take care of your soul, to take care of around you the people, their souls, and also your duty is where you came from – try to charge your soul as much as you can. And never, ever, ever, feel egoistic, "I created this, I created this, I am this big, I am that big. I am the person of name and fame." Whenever you started with 'I' then forget it. Once if you grown the \_egoism, once if you don't know

how to respect the human being next to you, if you don't know how to respect the next generation then you are really in trouble. So to be humble, to giving respect and thinking everything is happening through some divine force through you.

Whenever you started to feel some divine force is making happening amazing things in your life – whenever you admit that it's not you – something is making you to do this start to feel some divine soul is making happening amazing things in your life, whenever you accept that it is not you, something is making you to do this, then your life starts in a beautiful way. So try to stop the word of 'I'. No 'I'. Even though you are a hero if there is no God grace with you one greater than you, you are a zero. So try to think very deeply. 100% the a divine grace way is happening; it is helping. something is making you do this

I told you Guys one and a half, two month back, a few time back when I was in London two months ago, your Swami's little predictions he's given, some little disasters, the nature is giving a little punch. After I left London you see a little tsunami just blew up in the ocean, again later you seen in Indonesia what happened. I hope I try to see the cassette what .... Of what I gave the prediction. By grace of Baba I really want to make it stop, at least if I can't save it a hundred steps % his happening, at least to I make it stop - sixty, seventy steps but it did it. And very soon also it is going to hit, I don't want to tell the place another one, but there is a symptoms for what I am feeling it. that m Maybe you think Swami is a little crazy, but it is not me talking it is the energy that is making me to talk. So I am not giving a fear here just accepting something whatever is happening. So no problem, even whatever it is, we came from Him and again we go back to Him. So even though you are a wealthy person, you are a poor person, you are a supernatural healer, you can do supernatural things, final ultimately everything She needs to take care. She is going to take care in whatever way She wants it. But we can beg with the beautiful prayers to convince to stop certain angles. Of course we also win the process to make Her stop certain things. So it's good to hear and I can feel that you are super tense now, I am feeling it.

Tatyana: He is feeling that we are super tense now.

Group: Yes (Laughter)

**Swami:** So in 15 to 20 minutes later, guys, try to sit for two hours group meditation really beautifully thinking on chanting just :Om, or Om Namashivaya, or just Gayatri Mantra. If you don't like the Om prayer just think on the light, just you go in the deep meditation connecting to India or fe Think of India or connecting to the nature. And I will also sit in meditation to and send the distance healing to you guys to awaken your soul charging if you are interested guys.

Group: Yes, Thank You.

**Swami:** So have a wonderful day and after 20 minutes later I am going to sit in the meditation. So everybody I hope if you are comfortable, sit for two hours, 120 minutes. Ok?

Tatyana: Ok.

**Swami:** Ok.

Tatyana: Thank you Swami - all our love.

**Swami:** All our love.

Tatyana: Ok. Thank you, bye, bye!
