Guru Purnima Program 2006
Power Spots, Power Objects, and Soul Object Links
Teaching in the Baba Temple
July 7, 2006

Swami: Good evening guys. How was your day? Everybody can hear? How was the talk today with Clint, Monika T. and Myuri? Clint, Monika T., Myuri can you stand up and talk what you talked?

Clint: Well power spot, then JC Channels, then we shared some personal experiences about our relationship with you.

Swami: You Monika T.?

Monika T.: We all shared that together, all three of us.

Swami: I have a question to make sure everybody understands. I have a question. What does it mean by power spot Clint?

Clint: It's a place that utilizes the earth element, that's connected to our soul. And it's a link between our soul and the guru, the master's soul. And it's the place where our austerity power is stored like bank account. It's a place that, that link is related to our blocks, how to stay washed. It's related to our personal mantra. It's related to discharging negativity. It's related to the ability of the Guru's sankalpam to act on our soul. It's absolutely necessary for protection in the world from the illusions, the maya. If we're doing healings, it's a place where we access the austerity energy that is actually doing

the healing. It's completely necessary in spirituality as we are being taught.

Swami: Why is it necessary? Try to understand why I'm asking this questions. Why is it necessary to have a power spot?

Clint: Well it implements the most powerful of the five elements, the earth element. That's the most stable element we can link. Without that link we don't have the connection to the guru's sankalpams to decharge our energy.

Swami: What do you mean by sankalpam?

Clint: Well the guru understands what blessings each soul can receive and needs to receive. The guru understands the dharma so the blessings of the guru, gives us, is focused in the way of sankalpam. You put your sankalpam on a soul, you know what the soul is going to do, should do, can do. And so you bless that with energy. But that energy is focused through your Brahma Consciousness and your awareness in a way, in a specific form in the creation and that's through sankalpam.

Swami: Why you need to do, visit five times to your power spot, Monika T.? What is the inner mechanism you have to come every Guru Purnima Full Moon to touch the spot? What is important?

Monika T.: Well, I don't know the exact answer to that, I think there might be something physical body. Our five elements has to touch those five elements that are there and once we develop in our channels, then the soul can reach that. But for the first five years, while as developing our channels, our physical body needs to come and touch that.

Swami: Is it true Clint?

Clint: You said we need to come with our body, until we can soul travel so actually I think our body is bringing our soul, a link to our soul through the five elements to that place. It's really about the soul. We come, we deposit, we decharge, we put all our austerity power for the whole year there, and we reconnect and charge our personal mantra. You said the power spot is automatically like interest,

whatever energy there, is going up every six months ten times going higher.

Swami: Why Baba made his power spot as a gurusthan? How he made it? You talked about that? No? He didn't have a power spot?

Clint: Yes, he has a power spot.

Swami: Where it is?

Clint: It's right behind his Samadhi under the ground, under a neem tree.

Swami: On top of it which statue, which deity is there?

Clint: Well, there's a Shiva lingam, atma lingam that he created there. There's some padukas he blessed there.

Swami: Which form he kept his power spot? I think I told it. I talked on that am I? Hello? I talked on it several times. I gave the example with the four candles, satya, dharma, shanti, prema. And also he's having a power object... power spot and power object. What is difference between them, power spot and power object, Monika T.? Am I giving hard time?

Monika T.: Yes.

Swami: Thanks. No, it needs to know.

Monika T.: An object is an object, a spot is a place, so in order... there's a power spot, there's still going to be a power object, but an object is an object you can take with you.

Swami: What is Baba's power object?

Monika T.: His chillum, his stick, and his brick - these three objects.

Swami: His brick, that's his main power object and his stick. Why do you need power object? For example, I gave a ring, I told to have a rudraksha, a lotus mala, a chain... something you're having a holy you received. What is does to you? Why you need it?

Monika T.: You have to have a link to the person who gave you the object, who created the object and to pull in the energy. And you can store energy in the object can help balance the energy when your energy is low, when you've done a lot of healings. It can help you pull Mother Divine, any divine soul. It can really help to balance your energy and helps for the guru to send his sankalpam. Whatever the master's intention on you, he can put into that object and help your soul to balance through that object.

Swami: What does it mean by soul object?

Monika T.: Soul object is something you create yourself, through your own soul. It links you to the master. It's an object that helps bring you to the stage of enlightenment. But it's something you create your own self.

Swami: How do you do that? It's a big link - we need to come for one understanding as a chain.

Monika T.: Well first of all, the master has to give a process to you to do that. Then it's your austerity power, your intention your clarity that's creating that through your Brahma Consciousness.

Swami: How many people here made your soul object guys? Who made your soul objects, your spirituality is ninety-nine percent done. That's the standard law. That one percent you need to know the pin number to open it. Still your Swami is holding it. Where is your soul object, Monika T.?

Monika T.: It's inside my body, in my thigh.

Swami: You swallowed it?

Monika T.: No, I cut in my thigh.

Swami: Why you did that straight away? It's not strange?

Monika T.: Not to me, but it might be to other people. We should never lose the soul object.

Swami: Where is your soul object?

Tatyana: In my body too.

Swami: What is the inner mechanism keeping it in your body?

Tatyana: You should not lose it. Once if you lose your soul object I think your spirituality for this lifetime is pretty much done.

Swami: If your soul object, if you lost it, again you can get it back isn't it? If you really made it you can get it back isn't it? Don't you think so Monika T.?

Monika T.: At a certain stage, at your level you can do that, but I think in our stage we can't.

Swami: In every person's life, few things is very important: Power spot, Personal mantra, Power object, Soul object, Personal channeling to the cosmic. These are one hundred percent necessary. Even though we all came from one, until you reach in the one, you need to create your own, all the things carrying with you. It's the most important to make it balancing. Where is my power spot Tatyana?

Tatyana: I think it's in Dwarkamai.

Swami: Where is Dwarkamai?

Tatyana: Building right outside, but I think you have more than one.

Swami: What do you mean?

Tatyana: I think there are some divine souls they created different power spots on Earth. So I don't think you have only this one. I think at certain power spots like Hampi, or Sri Sailam, they're high Shiva energy there, I think you might also have power spot there.

Swami: What is my soul object Tobias?

Tobias: I would guess the Shiva Lingam in the Dwarkamai.

Swami: That's my soul object?

Tobias: That's all I can think of right now.

Swami: How many hours you been with me in your life?

Tobias: Several hundred hours.

Swami: How many parties I given to you?

Tobias: Hundred.

Swami: That's all? Tatyana?

Tatyana: More.

Swami: Monika T.?

Monika T.: Hundreds.

Swami: Hundreds of parties I've given, but you don't know what is Swami's soul object, power spot. You can't able to get that. Is it a compliment? I'm commenting it, Monika B.?

Monika B.: It's a compliment that you didn't tell them or did you tell them?

Swami: They didn't ask me.

Tatyana: That's not true Swami.

Swami: Whenever I'm in a happy mood they can catch it - they really can catch it.

Tatyana: I think one time you gave us a chance to ask any type of questions, and that question came up and you didn't give an answer so...

Swami: That's a blaming, one hundred percent blaming. At the time who was there?

Tatyana: Our whole group. You gave us until six a.m. because we really didn't hit the right questions. But some questions really came close to certain...

Swami: Close, but not straight, huh? So why is the most important, a person needs to connect something what he don't believe, but he has to believe on certain things, why it is Monika T.? Why you need to believe on certain things?

Monika T.: Are you saying, why you need to believe on certain experiences or certain objects?

Swami: Certain things means, like Shirdi Baba' power spot is in Samadhi, backside southwest under the neem tree. On top of, there's a shiva lingam. And underground he had the four candles - used the fire element - keep burning. Then you have to believe it, but you didn't see it. Why you have to believe it?

Monika T.: Well because it's true.

Swami: What's the truth? You're not catching my point. What is a true? Why you need to believe it's his power spot?

Monika T.: If you go to Shirdi you can get a lot of energy visiting that spot if you recognize with that understanding.

Swami: Exactly. Same thing, whenever you made your power spot, how you recognize your life is changing and you're receiving from your power spot the energy, or you're dumping the energy keeping in your power spot, Lora? It's very important subject.

Lora: I don't know. I don't have good answer.

Swami: Martin?

Martin: We get more capabilities. Our healing power and other abilities to do things in the world, they increase, they gets stronger. Our bank account is increasing quickly with that power spot.

Swami: It means a sand, a clay will give the energy or you're dropping the energy in it?

Martin: We're dropping a part of the energy and this energy is multiplied many times through the guru and through the blessings of this place. So we give a little bit, and the rest is given by the divine. And by giving little bit the divine gives the rest to achieve many things.

Swami: How many people ate last night something? How many people ate something? The sugar? Only five, seven people? What was it first?

Student: Sand.

Swami: You ate it?

Student: Yes.

Swami: How many seconds later, it changed as a sugar?

Student: Don't know ten seconds.

Swami: So, the Earth element can be changeable, that's the concept. What I blessed and given to them, I didn't do it for a magic or fun. Whatever I do, it's to make their hearts open, same time, make the link. That's my theory - to put them in the bliss, not to worry on crazy things for silly things all the time. To giving a supernatural boosting to their soul, to keep carry the abilities forever and ever for many lifetimes until they reach what I want in their life, and what they want in their life - that's the concept. Even whatever your monkey mind cannot believe, certain things is bleeding, certain things is happening, certain things is happening. I don't care your minds, but I always care you're soul, how much you can receive it.

Now we'll go for the depth subject. Everybody have your paper and pens. Number One: Power Spot. Number Two: Power Object. Number Three: Soul Object. Number Four: Personal Mantra. Number Five: Personal Process.

Everybody so far I hope, majority people have already power spot, isn't it? No matter what, after from your body your soul takes off, that's your commitment, you automatically come back to your power

spot. Whole your soul vibrations, your soul is activating from your power spot. If you really allow some Guru Purnima, we'll do some testings. For example, I tried couple times got success, couple times got failure with crazy things, crazy behavior of students. Clint's power spot, his energy, his soul, whenever he's sleeping we can take that soul out through power spot. Then only... even the Big Boss Jesus Christ is able to come back, whatever their belief system, on the third day he came back alive. It's only possible if he had a power spot, if he didn't have a power spot - impossible.

If you want to do Kandhana yoga, if you want to demonstrate certain siddhis, if you want to demonstrate certain healings, if you want to demonstrate the most amazing things in the planet, without power spot it's impossible. It means the earth element you really need to hook up.

Even though Baba, he's using the flame candles in the ground, he's using the five elements then he's putting a Shiva lingam on top of it in Shirdi. So the power spot... so what we can do testings, make a lottery and see... taking the Clint's soul out and sending in his power spot and making him for one day, or two days, or three days chappati. I'm serious. If you want to send him back, taking from the power spot to bring it in the body. If you know the channelings to do that, but the majority controlling of the Shiva energy, if he allows he'll send you back. If he didn't allow, if naturally it's gone, your soul is gone from your body then you can communicate. You will know certain things, but by forcibly it's gone, you can take it back. That's the concept of the crucifixion - if forcibly it's gone - you can take it back. If itself it allowed to go, still you can get it but still it's very difficult.

Whole Kandhana Yoga, all the process, the soul traveling is linked with power spot. So the power spot is having, in which place, which circumstance, how safe place your power spot is kept in protection way, that's the most important thing. Big Boss Jesus Christ's power spot is hidden in Himalayas. Buddha's power spot hidden in Himalaya. Big Boss Baba is hidden in Penukonda, one of his power spots. My power spot is hidden in Penukonda. Once if you have the power spot, even if you have little funny vastu is creating you little funny - but still the elements accepting you to do certain things. You know what I'm saying?

Power object is always illusion. A mala... your mala is really power object. You chanted the five elements, you chanted JC Channels, Sri Chakra channels, personal mantra, several thousands of mantras. But many people don't know how to protect the power object. The power object pretty good is linked with your soul. So soul object and power object... on the day, to Shirdi Sai Baba master's Venkusa, he gave a brick to the Baba. The brick is his power object. What he made him, "Wherever you go walk with the brick, sleep on the brick. Never use a pillow." If I tell you how long you can do that? It's really difficult to carrying a brick.

To the world, to the belief system, we might think it's a little crazy, it's a cult, but there's a lot of love, depth meaning in it. He made comment, his master, "Whenever you lost your power object, you break your object, it means you're going out, you're coming back to me." So on Mother Divine festival in 1918, in October around the time, one of beautiful student of Baba, he's cleaning the Dwarkamai. Baba kept his brick on one side, unfortunately, the brick fell off, it got broke into pieces. Then he came, Baba came, he looked at him, "You did your duty, it's time to me to go." Why, if you lost you're power object, that much is reflecting on your soul? I have a question. Yesterday you did abhishek to Baba?

Student: Yes.

Swami: You seen something coming out?

Student: Yes.

Swami: Where?

Student: From his mouth.

Swami: How many people saw that?

Student: There were twenty-two in the group and four or five on the stage.

Swami: It really came out?

Student: Yes, it came out from his mouth.

Swami: How is it possible? How close you saw it?

Student: You put flowers on Baba. You said some mantras. All the flowers were falling down and you kept more flowers, more flowers on Baba. And suddenly some of the flowers would not go down. They were going inside his mouth and then you said, "Hey look, something's coming out!"

Swami: So he ate the flowers? I don't have the guts to make a comment on him. Some objects will play, statues also a power object, it is a power object. But you need to know how to get access to it to receive a power object, from another power object. That's link with soul object. You only can do soul object when you have a power object already. If you didn't have your soul object in your life, it's very difficult to protect your soul not to get disturbed with the crazy environment of illusions, crazy vibrations. Nowadays, amazing pain is running, you'll become a kind of sponge. If you throw the sponge in the water what happens? It sucks up. You should be a kind of lotus leaf. If you throw your leaf in the water, what it does? Never get wet.

Every spiritual person should be like that. Nowadays if you walk, if you see any person's life, if you went one thousand people, tons of up and down, pain, suffering, suffering... So you need to protect yourself, you need soul object. Once you have your soul object – done, nothing will disturb you. Maybe you might think, "Swami, once after I entered spirituality I lost my wife, I lost my money, I lost my house, I'm not happy." Who said you're not happy? Who said you have the problems - big purification is running. Is it true Sabeena? Once if you got purified, even if you don't want something, automatically it will come, whatever you need it in front of your feet, "Have it." If it's not happening it means still the purification is running.

So you need to concentrate majority your power spot to receive your energy. Then try to use your power object as strong, as much as you can. Like you can ask Baba statue blessing... you can ask with your own mala, "Hey, I'm carrying this problem, take care of it." You wear it - you see the difference. Awaken that - make little sankalpam. Try

to make know yourself your soul, then connect the power object, create the power object.

The beginning days I don't care about soul object, power spot, anything, just I want to be in pure vairagya, Sthita pragnatata - to be in the bliss, to completely be in the silence like Meher Baba, he did it. How many years he did Monika T.?

Monika T.: I think he did most of his life in silence.

Swami: Why he been in silence?

Monika T.: I think it was his master's order. It's my understanding he told him to be in silence.

Swami: Myuri, how many days can you be in silence approximately, by forcibly?

Myuri: I think I can do one week.

Swami: I wanted to be in the stage of silence... no talking. It didn't happen. My commitments is different, I have to talk. So the inner mechanism of Meher Baba to making himself silence, very quiet, he's creating everything in one form in his body. His body is everything, but he always says one word, "Don't worry - be happy."

In spirituality when I started, several staff depended on me. I need to take care of them I need to feed them. There's one security guy on the day, one Pujari, one driver, two, three cleaning people, but I need to take care of them. One day eight, nine years back, clearly I remember, I sat under my tree, the cook he came, "There is no rice Swami today. There are no vegetables today." I asked the driver who kept the money, "How much you have?" He said, "There's nothing." Ok. If we sell our car, how much it comes? He said, "You'll get little fair money, no problem." Then I told to my driver and security guy, "Can you go in the village and get little food?" They looked little sad, they didn't give answer - just they left.

I'm smiling myself, "Why you're giving me this position?" A matter of thirty minutes later, a big van of all Japanese they came – forty-two people. They want to see me. They came with huge bananas and

flowers - big donation. I'm in the bliss. The Antony driver, all the guys, their eyes really opened up, "Ok, something's happening!" At the time I don't want to give interview to them and simply I told to Jaitendra, "I'm don't have the mood to give interview to them. Tell them to go away." Anthony has little guts, he came, "You really want to kill us with the hunger? How long? You have to work for us! First, "Oooh, ah ohhhh! Ok." Then I walked, then I sat here, then I gave interview. I got several lakhs of rupees then it's done. Then I got super angry on myself, why I have to work. Why I have to work! I'm in the deep process with lot of things - not with the attachment to material things. It's ok, I'm not attached, then I went to my Shiva, my mountain cave for meditation, forty-one days, then I got the total clarity, "Do your duty. Wake up! Do your duty." Why I'm saying this Monika T.?

Monika T.: You're making the link. You couldn't just stay in vairagya, that your duties were important, your dharma and your duties wouldn't allow you to be the silence, in vairagya.

Swami: Clint?

Clint: Because we also have duties, the whole thing silence and bliss and divine awareness, we also are not here to enjoy that selfishly, we must work as well.

Swami: Exactly. For example, Lothar came to me... or Myuri came. She said, "Swami, what I should do now?" "Do your personal process." Whatever she has, the personal process with me, do it. If you keep doing your personal process, it's the responsibility to taking care of... it's the most, most, most, most important thing, then the responsibility to taking care of all your things – master. That's his job to taking care of you, you're doing your process. But I can't... there's only certain things I can do it. You're really starving, you're really thirsty I'm not the person to give the water to you. But I'm the only person if you're really thirsty on the soul level. I'm the person to give it. If you have complete, one hundred percent faith on your process, then automatically you'll receive all the protection from your power spot, from your power object. Once if you made your soul object, done. If you know your personal mantra is strong, you did it, you can pull the things in front of you. I helped one company, some guys

two months back, some herbals. They gave a half million dollars to me as a gift. Guess Clint, what I did with that money.

Clint: You gave that away completely.

Swami: I don't want, of course I can use that money and create something, but the money came in funny way, it's not the real hard work, just my knowledge. Then I gave it back for the poor students to build an engineering college then karmically I'm free. Karmically I am free. If I use that half million dollars for my own selfishness, or create here some paradise, like something for everybody, I'm in trouble. I am in trouble, plus every soul who also has a power spot here - you're also in trouble. That's also... this is your soul house to protect - this place vibrations, this place as purity itself.

For example, Monika T. wanted to put her soul object in her body. I can say no, but why I should say no? That's her life, she wants to keep like that way, ok. She's not stupid, she's mature, she's read tons of books, she been in spirituality twenty-seven years. So it's a big deal. Why I'm saying this, if you involve with somebody's personal process, you'll get disturbances to your power object, soul object, power spot, you'll get the negative vibrations - you'll really suck as a sponge.

For example, what's Simone doing? Why's Swami talking to Simone since two hours? Something he's giving experience, what? Why Clint and Swami talking in the Shiva cave? If you put your attention there, you're in trouble. What you need, I know it. What I need to give to you, even you don't know what I'm going to give it, but I have to find the way until you receive that, to give it. You got my point? Hello? Chinello, what you got it? Tatyana?

Tatyana: You said you know exactly what you have to give to us, and until we receive it, you have to find a way to give it to us. You have to find the right moment to hit the person's soul, to give what you want to give to that soul.

Swami: Is it true? For example, what I'm carrying lot of problems with the student kingdom... not only me, majority of the students if I want to go give a shaktipat, she doesn't want shaktipat, she wants to spend time with me - kind of funny energy is there. A layer of energy

is there. I notice that. Clint, if you're in my position what do you do? For example, you want to give shaktipat to Myuri. Myuri likes your lips she wants to give kiss to you. Sorry. She don't care you're avatar, your knowledge person, just she wants to hug you, she wants to give a kiss to you, at least. What do you do? But your duty is, you really want to help her, to bring the spiritual awareness.

Clint: I wait... I don't do anything... I keep my distance. My duty is to give something divine and she's not ready to receive it that way, and I still need to give it. I have to somehow stay connected but at a safe distance where it's not polluted, it's not lost.

Swami: If you stay distance, it means you're doing the crime, wasting the time there, Lothar's right person. What do you do?

Lothar: I know from experience, I made that mistake.

Swami: Mistake or mistakes? It's plural not singular. Plural ah-hun.

Lothar: It was very difficult to know the power is there, but to fall for the kiss and then the power went. So my decision is to stay away when that energy comes, but still I know it must be given. So I don't know, like Clint, what might be the right time. But I know from my mistakes in the past, and I don't want to repeat them.

Swami: Brett? Can I talk about you?

Brett: Yes Swami.

Swami: He came one time to me. He came here to learn something, spirituality. I'm happy. One time he came, just I'm on my chair, his face turned red, "Swami, can you do a favor? I fall in love with Zahira. I don't care about spirituality - it's too much to me. It is too much... even I got experience or not I don't care, I want her. What can I do?" Am I right?

Brett: Pretty close, yes.

Swami: Ok, tell in your words, everybody like to hear. I love to hear.

Brett: I didn't say I didn't want spirituality - I wanted both. Yes, I fell in love with her and I needed your help Swami.

Swami: You didn't say you don't care about experience you get it or not? Maybe I heard wrong, I'm not blaming you.

Brett: I don't remember saying it exactly like that.

Swami: That's smart. When you fell in love you were really doing your sadhana properly?

Brett: I think I was doing my sadhana properly, yes.

Swami: Why it took that much time to thinking to telling?

Brett: Making sure that yes, I think I was doing my sadhana properly.

Swami: Anything I'm telling you guys, we're humans – clear? Same time, we have much difference between the animals and to us, it's clear. Same time, whatever you do the mistakes I understand the feelings of humans, the attachments - that's clear. A person loves wine. I'm not against that. A glass of wine after you done your work, I'm not against it. Until you're not hurting yourself, your health, hurting on somebody, enjoying your life in a beautiful way, in a beautiful way you're not committing any crime.

When you're giving disturbance to somebody and you're enjoying through that - that's a crime. You lost somewhere and you want to achieve something great - that's a problem. It's a very simple thing, very important. You lost somewhere, but your destiny you want to reach powerfully, it's very difficult. Just make sure what problem you're really carrying. What problems you're carrying, cut it, trim it then stick on what your goal is. The goal is the process.

Number one point, “Swami mentioned 10,008 chanting your personal mantra.” I really appreciate you're doing and following Swami's order and message. If you're chanting that I'm not getting anything, but you have to chant your mantra as you like yourself. When I said it, you have to do it happily - that's number one point.

Number two, having confusion, terrible confusions, "Maybe I'll get success or not?" Since thirty years in spirituality, I lost everything, my kid is fighting with me, and you're secretly doing hidden things underneath, and you're projecting on the master very charming way. You'll never, ever get success on it. The Big Boss' students got super crash because of their lack of confidence on the master, their lack of confidence on themselves - they behaved funny. But they have very great love on him. Do you understand? That's a major blocks - try to believe first, yourself, yes you can do it. If you can't able to do it, then you tell, "Swami I'm not able to do it." Whenever you have a chance the time to talk to your Swami you can explain, "This I did it. What is the result will be?"

Many times I don't have the guts... Whenever I went to Hyderabad, of course I'm a human body, whenever I do some funny stuffs in the movie field, lot of funny characters they come, if I'm in a party, if I drop my car here, if I look at him (Baba), I'm little shaky. I go to that door (south), take a shower, come back asking forgiving, "Sorry." Clean.

To convincing yourself, making the inner consciousness... you know what the inner consciousness is clear. It's not truth. To be in a party, it's not a crime. You're born in a human body to enjoy what's around you, certain things yes it's not a crime. But where your dharma is linked with that, little overtaking that line. You know what I'm saying. For example, Shirdi Baba, he's sleeping on the brick every night. Many people thinks he was crazy avadhut, very angry and he's beating the people, black magic guy he is doing Kandhana Yoga, taking the parts and refixing. But he never, ever did, taking the brick away using pillow - do or die, linked with master. That's called Guru Parampara. That's why always he says, "If you look at me, I'll look at you." If you're here doing your personal process, then it's majority to create all the things... that's the master's duty in your life. Majority things it will come true in your life - that's the master's duty to take care. He's here for you. I am here for you. There's no doubt on it. But you are here not to drive yourself crazy and driving me crazy. I have all senior most students' letters, tons of letters. One day I will show Tatyana's letters. It is like this much file. Thanking letters, depression letters, confusion letters...

Tatyana: I didn't remember I gave you that much letters.

Swami: That's why I'm saying it. When she did the process, some speech in London, she sent some beautiful picture of some kind of spirit hanging in the sky. And I know Monika T. is cancelling her trip to the London. Before, ahead she told me when I'm in Germany there's little friction she's holding there - I'm flying to America. Ok, is Monika T. giving a talk in London, no problem. Then I came here, Monika T. is not going to London, she (Tatyana) has to go and give the talk. She convinced me, how many times not to talk, Tobias?

Tobias: Fifteen, twenty times.

Swami: I told her to come and give a speech, whatever your knowledge. Then when I'm in India, she's in Greece somewhere at the beautiful ocean, ah-hun, I'm hearing it. In a few days later she has to go in London to give a talk. I didn't want to tell straightly to her. Simply I said, "Anyhow try to be prepared for one hour to give a talk in case Monika T. got cancelled, is it true?"

Tatyana: Yes it's true.

Swami: And finally you went, did a two days job. Good. Why I'm saying that, I know you can do it, anybody, certain things, don't worry I'll be with you. What my final word I told you?

Tatyana: Prepare for one hour, and don't worry I'll come in you and talk through you.

Swami: What do you need more than that? I will speak through you. Just you be there show up. She bribed me fifteen times, deals, bringing best wine to me, beautiful scarves, saying she doesn't want to give a talk. All kind of... I'm seeing her fear, ok. If you want to learn swimming, you can't learn outside of the swimming pool, just watching, taking the notes how to swimming. If I really turn as avadhut, without notice I'll just throw you in the swimming pool. Not even telling you, just pushing it.

In my childhood days you know how I learned swimming. I'm eight, nine years boy. I'm watching all my friends there. We have big well. One master guy... I'm terrible fearful person to the water. Just he came, "You don't want to swim?" "No, I'm fine," next day, next

day...I dragged the time. One day, without my notice, he came my back and he threw me in. Then he jumped and he pushes my head underwater. Then he took my hairs, pulled me up - it's done. Then I had little sticks around the arms, jumping again, learning.

So, be in clarity, if Swami given the process, there's a reason why he's giving it to you. Even if you didn't get the mechanism, there's a reason. And never, ever push it yourself to forcely you want to get that. You understand? Never ever push it to get that fastly. That's a big problem you're carrying. Certain things is always possible to change it, always possible. But at the time, whenever I'm having hard time with some crazy people, with the different, different energies, you're stuck here and there - I have to play my role. You're really stuck in the illusion. I have to come as the illusion to your stage. When somebody's seeing on the surface, "Oh, what's Swami really doing there?" That's not your business. I'm all the way down there in his illusion to bringing him up. It's clear.

But you have to know the value of Power Spot because everybody made here your power spot. He's (Baba) the number one take care of this place. Number two is the Boss (Jesus), and third person is also taking care, same time, never, ever ignore your Power Spot. It's almost all like your soul spot. Even though at the moment you can't believe it, by grace of him I will guarantee... even some things I guaranteed that didn't happen, there's a reason on it... but this time I will try how the souls can play through the Power Spots. Whenever certain things is happening, last night, there's five ladies I told what would happen. Who are the five ladies? Did it happen?

Students: Yes.

Swami: You seen it?

Students: Yes, like you said.

Swami: What do you need more than that evidence, evidence of the power playing?

Students: She tested it by tasting it, but she could tell by smelling it.

Swami: But five people take care one thing, isn't it? That is the prediction. If you five guys didn't help it, it's gone. Is it true?

Students: Yes.

Swami: Of course I'm there I won't make it go away. If anything is happening... my biggest problem, my biggest addiction is success. I never, ever allow failure - that's my problem, it's a problem. It's a block? Ganesh?

Ganesh: I have the same thing, attitude. I don't like failure too. There's always a solution. With the help of Baba if you have patience you can get what you want. Even if you fail one time, two times you will get a third chance.

Swami: You have to keep in a positive, "You'll do it," step by step something happening in your soul, keep the strength, all the time awoken, you'll hit it. Fifty percent so far, the energy is moved - still fifty percent the energy is there. So try to cooperate. There's pretty good mechanisms you need to receive this time and we'll talk again the depth in the soul objects. And I will show one of my soul objects tomorrow. And how it's very interesting thing in the planet. So, since thousands of years it's walking with me, that...on the day with Big Boss Jesus.

Tomorrow some interesting thing I'll show the ancient book. It's little bit written on the different ancient saints, it's one of includes the Big Boss Jesus Christ and where his Samadhi is located approximately, it's mentioned. So the big punch is coming to the spirituality in a beautiful way, the ancient technology, ancient information, so be open for it. Tonight I'm seeing Blue Scarf Two, and London Group Monika B.' group... Tirupati Group pretty good done.

Student: The Seed group?

Swami: Baba Abhishek Group. Hey, almost you're done guys, but little climax I need to give it. Let's take the remaining people. So these guys I'm expecting you at 9:45 p.m.

Tomorrow at fire puja I recommend everybody: chant Sky Mantra. From tomorrow onwards, the Full Moon energy is powerfully

starting. The Moon energy, Full Moon always likes the lotus and the white flowers. So I recommend to offer to the Baba feet, or just throw on Baba whatever you can the lotus flower or the white flowers. Go to Shiva Cave and touch your forehead, your 3rd eye to the Shiva lingam.

Majority tomorrow doing Sky Mantra minimum five hours, maximum eighteen hours. You drop whatever you're doing, any prayers. By tomorrow morning you're picking up only Sky Mantra, not even your personal mantra. For three days majority, try to maintain the silence. The Seva Group try to do little work, talk, then be quiet. Be healthy, strong. I heard the food is not that much good. If you're not adjusting, try to go with fruits anyhow take care of that guys.

Since two days your Swami is under fasting. Since morning I didn't have anything because of certain processes - just coconut water. Tonight is the big day too.

Have a wonderful day - we'll talk tomorrow.
