Swami's Soul University Talks
Preparing for the Healing Techniques Exam
Talk at the Ashram
April 13, 2007

Swami: What are all the healing points? You have them?

Myuri: All your healing techniques were divided into seven major topics and we've gone through five of the seven.

Swami: You're making me to stop, not teaching. You're dragging the time.

Myuri: I know we're trying to speed up; we are speeding up. There are two days left.

Swami: So far the University only went 40%; still 60% subject is there. Experiencing the process, that you've done pretty good guys. Any time you can jump in, jump on but coming to the real knowledge, if we go like this... only the target time to me is June and July. When is everybody going on the visa jumps? How many weeks giving the vacation?

Student: Three weeks.

Swami: What do you do in that three weeks holiday, studying, teaching or what?

Student: Teaching.

Swami: The Vaastu will be completed? It's done?

Monika T.: We haven't put in the book form yet.

Swami: You have to make it in your own book style, your own Vaastu what you really understand. The Elements you did?

Student: Yes.

Swami: Paramashiva Yoga you did?

Student: Yes.

Swami: Inner Elements you did?

Student: Yes.

Swami: Sri Chakra you did?

Student: Yes.

Swami: Jesus Yantra and Channels you did?

Student: Yes.

Swami: Another thing is, what I'm going to write the book? How much you done Nityaananda, on the Mahakali Yantra?

Nityaananda: It's done.

Swami: So once if you learn that book guys, it covers pretty good. But it takes to you like two, three weeks time. It's easy but before going to that, how much of the healing things you done it?

Myuri: We're like ninety percent done on the healing.

Swami: All statements?

Myuri: All statements.

Swami: Negative spirits, different stuffs how to take care of it?

Myuri: Everything, every subject.

Swami: Everybody understood that?

Students: Yes.

Swami: Good. What is the major subject you really got stuck in, you really need a push up guys, from my side? Any subject you really got stuck, you didn't understand or what? It's a question.

Gustav: I don't think we got stuck in a particular subject, but all the things to know at the same time. That's difficult to know all that you know. There's so much things I don't know, did I really understand that?

Swami: Spirituality is evaporating. Even you heard one hundred hours of my talk then you can't even give a talk for five hours out of that hundred hours. It's that much evaporating subject, but the bullet points you need to maintain that. Any Paramashiva Yoga you need to write down all the bullet points... the Vaastu bullet points, like that.

I gave a talk in London on the Vaastu. They don't know... they know the east, "Opposite the east is it west or north?" They don't know. To the left is the south or north, they don't know. To them I gave a Vaastu talk. I'm serious. Many people they don't know east or west, or is it south or north? It's ok. So pretty good job I did there I hope. And to those type of people, they don't know where is northwest or west-north, that direction, they don't know the direction between the west-north and northwest. They know the north but not the west-north or northwest, so... Can you read the bullet points of the healing techniques?

Myuri: The categories? Five Elements Healings, Mothers, babies, children, Removing and handling negativity and illusions, giving Shaktipat, Maha Papa Prakshalana healings, Atma Sam Yoga, Atma Viyoga, decharging including self healing techniques, symptoms for decharging and types of decharging techniques, fire pujas, healing spirits, negative souls and black magic including detection and healing in the home, in the person, and black magic in the person.

Swami: Ok, if any negative spirit in the house, how are you going to remove that? Somebody got killed in that house. Huge pain he discharged - huge unbelievable negativity is there. He died horribly in that house. The house owners they can't sleep in that house that happily. They're super bumpy, super panicky, they don't know the negative spirit is there or not. Painfully a person died. How are you going to take care of that house? That's a question.

Myuri: A couple of things to do, one would be to draw a Jesus Yantra and charge that and put that in their house. Another thing would be to do a process that involves collecting 101 leaves, and with each leaf, putting your personal mantra and dropping each leaf into rose water or regular water. And after all 101 leaves are done, must be done during the daytime, then you would spray that water around their house and also give that water to the people to take a shower. Another possibility is going out in the nature with the person and you draw.....

Swami I'm talking about inside the house, the bad vibrations. The Vaastu is good unfortunately the horrible has happened. How to purify that house?

Myuri: These are the major top things what I learned.

Swami: Anybody can say anything?

Paul: Paramashiva Yoga - Truthiya stage.

Swami: Explain, explain.

Paul: Use your 3rd stage Paramashiva Yoga mantra, and any divine Yantra, and send to release that soul to go to its next lifetime. Second technique is using papaya seeds inside the house between 1-3 am when the spirits go out. Spread the papaya seeds throughout the house. Third technique is taking the divine liquid like Amrutha from a Shiva lingam or any liquid that's created from the 9th Jesus Channel. You can take that liquid and put it in water and spray it throughout the house.

Swami: Anything else for a remedy?

Jaycee: Having a cobra walk around the house.

Swami: See, each one you need to write down, like JC Channel, all the different stuffs you need to write down, like a little one medicine. You have to divide that.

Myuri: Yes, I'm doing that.

Swami: You're doing that?

Myuri: Yes.

Swami: Then you can punch the globe very beautifully. You can challenge the globe.

Myuri: Swami, I have to say everyone's presentation is amazing. They brought all, every mantra, every technique, they researched for hours and hours, they created these beautiful posters, they demonstrated each one of the techniques for like three hours at a stretch and everyone did an amazing job.

Swami: Good. But you need to go in the globe as a strong powerful healer for the heart, to the negative energies, any type of negative energy. Once if you're there, your friends or your devotees or students they have to feel relief, "Oh my God, Myuri came, done. I'm well protected. We're well protected, she's here, she'll take care." You need to give that hope. It means you need a lot of knowledge in you, lot of stuff you need to know. Since eight, nine days, put it that way... from London I came here, I have no idea what happened to me. I'm not sleeping proper, amazing discharging and pretty good I'm working lot of things. I'm pretty kind of little shaky... from the London - pretty good shaky. But I know which work I took it to going to work on it.

So, another thing, also, you need to generate your power spot. This is the right time, now until Guru Purnima. It's like your austerities bank, your meditation bank to make it activated super powerfully. For example, I made some people to bury some things in the ground, some Shiva Lingams in the ground, some prepared some ashes and keeping it, you already made your power spots... different, different

persons have different styles. The more making it to activate it is your Nine Arrows. Your Nine Arrows makes the powerfully.

And very soon the book, *Parameshwar Yogas, Mahakali Yogas*, the top one in the planet, that simple mantras, you can see all the chakras, all siddhis each dimension. You can see in Her body how the people really represented Her. That you need to practice before the University closes. And you have to learn that Yantra no matter what. It takes a week or ten days. You have to learn that Yantra in your mind.

So even though you're learning all the healing techniques, it's very important. Another thing, same too, you need to activate your soul spot. Certain stuff even I'm doing it - I'm getting shaky. I can't say it's a negative energy. I can't say it's a positive energy but it is very supernatural energy. You need to tolerate that to handle that. Once you're in the globe, once you're taking care of hundreds of people in depth, without your notice you're giving the powerful energy to them. You're releasing the energy really powerful to them. So you need to be also, make it the powerful protection like the amazing protection. So far you're well protected guys, but still you need to maintain this much time and this much peacefully atmosphere you can't get it back in your life. You can make it your soul spot activated and you can send your energy as much as you can to keep that... make a thought and sankalpam in Dwarkamai or wherever you put your power spot.

That's why I put a huge break to the girls and the gents (process) to make the Dwarkamai little calm down the energy. How many people saw we dropped the cobra inside Dwarkamai? Only two? Now another amazing thing is they prepared a Shiva lingam out of the clay. A powerful small snake came and entered under the Shiva lingam. Who saw that? Then we removed the Shiva lingam to kill that cobra. It's a good omen... another symptoms is you should not (kill)... it sucked it, cobra entered into it. That Shiva lingam got cracked. It's ok. It's ok. That's the energy proof. From nowhere and it came and entered exactly to that spot under the Shiva lingam. That's strange, that's beautiful strange.

So the energy is moving, the energy is there. Clearly the energy is playing. It is there. The thing is, how you're going to receive it to

make it activate it in your life. When is the closing of the University? Three months?

Myuri: July 27th is Guru Purnima.

Swami: July 27th relieve my headache?

Myuri: You'll get a new one.

Swami: New one? Hun-un, hun-un. So, you're ready for tomorrow or day after tomorrow for all the questions for the healing techniques? How many days you need it?

Myuri: After the presentations, then collecting everyone's papers and compiling it and handing it out. That's one stage. Then I'm preparing the book of all the healing techniques.

Swami: When will it be done?

Myuri: One and half months. It's a lot.

Swami: Since years you've been here.

Myuri: I knew it was coming but still I couldn't get ready with that.

Swami: Need to go faster, at least when will everyone get the information in their hands to study and get ready for the examination?

Myuri: They can have that within three, four days, after the presentations and with that everyone can study.

Swami: Three or four days for the test? You guys can sit, keep reading it, listen it, go review like six, seven hours for the study groups. Like keep go, repeating it back and forth. I gave one problem here and how I'm going to solve it here. For example, a cobra bite has happened, sometimes I use the leaves, sometimes I use the fire, sometimes, I use my own different channels to suck the poison out. You know what I'm saying? For any problem, I've given like three, four dimensions of the problem solutions there.

So majority I might ask, majority right now the globe is playing on the humanity. The humanity how is he really playing on the globe? Another thing how damaging himself, how many types of the heartbreaks? How many types of healing techniques you can heal yourself? How you can take care of heartbreak of others? Another thing, connecting to the different unnatural things and handling the negative spirits, dark energies - these are the major subjects. If you know how to take care of the negativity, especially the discharging things and protecting, giving the huge protecting things, then you're a huge expert.

Luzia: The healing techniques you gave for cobra bites, do they also help for healing cancer?

Swami: Who bit you?

Luzia: It's not a cobra. We don't have that many cobra bites in the west, so my question is...

Swami: You can take care. You can take care not growing the cancer up. You can make it stop there. Then step-by-step with sessions, you can make it come down.

Aghni: (*can't hear the question*)

Swami: For example, Myuri's a great meditator. Herself she's thinking she's horrible, "I'm horrible, I'm horrible; I made a mistake. I'm not happy, I'm not happy. Something will happen to me." It will happen to you. Your own energy you're attacking, you're taking a nail and you're pinching yourself. It's true. You should not even make a thought on yourself in a negative way. Many cases I've seen it. Just you're thinking, "Maybe he'll do something wrong to you. Maybe he'll do something wrong to you." Then you're putting the thought in your mind that he'll do something wrong to you, then he'll do it. Your energy is playing on him to attack on you. Does it make sense?

Even like a beautiful man and woman, just I smile, "Oh, what's going on here?" It's enough. Then it started activating there, before that, nothing. After, just I seen, "What's going on here," done. That thought, that spark, that flash, *click*... it means we have to maintain

our thoughts, our vision very super carefully. Super Carefully. That's why the ancient days when they made the, in Hampi, all the sculptures, whenever they're making the thoughts, "This is such a beautifully made, maybe somebody will destroy one day." (clicks his fingers) Done. Done. "Somebody might destroy this." It happens. So, your own vision, your own thoughts, your own system needs to be super careful.

Myuri: Swami, a lot was given on the spirits how to heal and send them back. But we never got exactly how to send the spirit in the bottle. You told several times about putting a spirit in a bottle and throwing it in the water or burying it but how do we get the spirit in the bottle?

Swami: Why you need to put it in the bottle?

Myuri: Because you gave that technique as though there's another step.

Swami: You can do that too. I told it the thing, you can put it the nail and you can put it to the tree, isn't it?

Myuri: No.

Chinello: (inaudible)

Swami: Especially in Betala's story, in the ancient days what they did it. Even though they're keeping any power object, it's still it's missing it. The point is with the Air Element, the Air Element needs to keep it. It's not like kind of any bottle. It's a bottle with a screw-on cap. They invite in them or they invite first with the different instruments, different objects, but finally tricking on it putting it in the bottle. Even here in Penukonda, on the days with Krishna Devaraya, they manifested the Mother. You really can manifest a spirit. You can manifest an angel. You can manifest a Divine Soul. If a woman got pregnant, first month, second month you can decide which soul needs to come in there. You can check... so and so's soul needs to exactly come in this body because you're an expert on the Womb Chakra. You can send it.

The bottle they kept it here. But it's not that easy to send into the bottle, but once it comes out from the bottle it's very aggressive. Like a cobra after it's kept in the basket, once it comes out it's very wild. It really wants to chase you whoever is around. Even if you're not disturbing that, it'll want to chase you. So on the days they buried it, but unfortunately it's my good karma or bad karma I found it. Then by guts I opened it. By guts I opened it. Then it took almost like one and a half years it took to me, until to make it go down again, very friendly, very pleasant, no problems, keep making it active, keep walk. Anytime now I can make it pull out, send it - exit in, exit out.

But a small negative spirit, all stuff, you can take care of it like that. It's not a big deal. But like if it's a thousand year old spirit, that's a guts you need to handle it. One cobra can hold one hundred and eight spirits... it sucks. That's a cobra talent. Wherever the cobras are running you can't see any negative spirits that easily. That belongs to the Shiva place. Purely Shiva energy is playing there. Wherever Shiva is there, even though negative spirits are there, it's very quiet and calm, not disturbing. Generally it won't be there, if it comes - very quiet and calm.

So, especially in some places in India, even here, the huge battles, hundreds of thousands of people died horribly with blood bleeding - the earth vibrating couple of thousand years with spirits. They have a huge aggressive pain, they want to kill another soul but they died unfortunately. Until that desire got fulfilled... any desire in any soul that didn't get completed... then it's a shaky.

I saw recently a case. One lady has a huge crush on one person. It didn't happen. He got married. She hung herself, died. Then he went to her funeral, put the garland, all the stuff. Everybody thought he was a little psychiatric problem. Her energy was disturbing him very badly. Her energy... in his dreams she's coming, like the energy in his system is making him high bumpy. I saw that case, I didn't understand in depth. Then I gave little rudraksha and I blessed him. Then it was fine for little time. Then again it started. Then I started to hear the story. Huge crush, she wanted to marry him, she wanted to have children with him - she wanted a family life, la la la... It didn't happen, cut off. Then her soul, spirit energy was disturbing him very bad. Then I discovered it, and sent it away. Now he's very happy. It's true. It's true.

Paul: *(Can't hear, but something about what technique he used?)*

Swami: Punch it through the JC Channels - you can do amazing things.

Mutiam: I'm not clear what you said before that. If a soul has an unfulfilled desire, like they're in war, they want to kill unfortunately they got killed. Is that coming in their soul in their next life?

Swami: Yes.

Mutiam: By doing this work, are we helping to cut that or it's still...?

Swami: That's why you're here learning all the stuff. It's from the last lifetime. From last lifetime you're still pending, again you're here this lifetime. You didn't complete this lifetime, somewhere else you have to go and continue this carry, carry the same information. It's not that easy. But you cannot that easily escape it. "This lifetime, I'm fed up, forget about spirituality. No more spirituality. Let's go in a business way." Fine, you might go in a business for a while. Again you'll turn back. Without your notice the energy will suck you, pulls you to put you in that process to do it. That's the beauty of the Divine.

Aghni: *(something about why he keeps the spirit in the bottle? What's the point not to send it back right away?)*

Swami: If it's really aggressive soul, aggressive spirit, then you need to keep it and bury it. In some deserts, some strong amazing spirits are there. In the deserts they buried it. It's true; they buried it. In the extreme forests, in the caves, they buried it. They can't handle it. It's tough. They bury it.

Aghni: *(something about how to get an aggressive spirit in the bottle.)*

Swami: It depends on your talent. He (Baba) can handle any type of spirit in the globe, any type. Especially from the Penukonda, that vibhutti it's almost equal power to Shirdi, but that one, little ash, walk - that's powerful guy.

Chinello: What's are real job in terms of negative spirits? How many negative spirits we need to send back?

Swami: Send as much as you can. In a day you can go for two thousand or five thousand. I'm serious. Two, three or one, few group of spirits, I think seven or nine it's escaping from me this fort - very smart, unbelievable smart. It won't come in my boundary. It's very happy. But pretty good I chased it. Hun-un. Hun-un.

Myuri: On the Nine Arrows one clarification. How do you know when an arrow isn't working? You said we could use each arrow nine times but how do you know when it stops working?

Swami: If you're on the job you'll know it.

Gustav: But you can use the Nine Arrows like thousands of times for my students but never use all the Nine Arrows for one student?

Swami: Yes. You really can pull any soul. A person is really dead. His life he lost everything. No hope. Crashed. Totally dead but he's living - you can lift him, you really can lift him. Heartbroken, tragedy life, whole family got tragedy, tragedy, tragedy, you can lift it. You can lift it.

Gustav: You said we cannot use the Sangeeta Prakshalana music healing on others. Why not?

Swami: If they start to liking your music you can use it. For example, do you know guys how many hours I listen to the music? Thomas?

Thomas: Per day?

Swami: Today.

Thomas: Five, seven hours.

Swami: Minimum four hours no matter wherever I am. Four hours, even it's a same song. I know it's making their ears to bleed. I don't care. I'm listening to the music. I'm there, but I won't be there. I'm thinking different thoughts. Without music I won't sit in my office. Even big conversation is running, the music one part it has to keep

running. It doesn't matter it's a pop song, classical song, movie song, any heart touching song... keep running, keep running. Music has the power. Especially if you wake up early morning, 4:30, 5am, the (music from mandir), the birds with the sound that music, just walk chanting Nine Arrows - that's a punch.

Chinello: Do you use it as a channel?

Swami: It makes your soul pretty awake. You're there.

Jaycee: What are you doing when you're listening to the music? Is it a meditation?

Swami: I'm thinking on you, I'm thinking on... I'm serious. I gave a process to Pamela, ok, what's she doing? And Becca what they're doing it? At the moment where are they? When I have the trigger on them - these type of thoughts. I don't have any of my personal things to work on it.

Aghni: You mentioned Shaktipat thumb down. *(she got confused and asked about thumb down, but she wanted to ask about why he puts thumb up)*

Swami: Anybody seen that picture giving Shaktipat to Diana Fing. in Hampi? What it shows? Who noticed that?

Luzia: On the picture you can see it's very, very clear you can see his hand two times. It's very clear. The picture did not shake or move. You can see clearly Swami's hand two times.

Swami: You look at the picture again. It's a beautiful early morning session, daylight. If there's any professional photographer watch out. Tell me. Good. So after two, three days later, everybody ready for examination?

Myuri: Can we finish the heartbreak presentation? It's a very important one.

Swami: Going very slowly. Take rest whole daytime, little nighttime, be awake and work on it. Daytime little tired, you can't work on it.

Myuri: We will finish by tomorrow morning.

Swami: When can we have the exam?

Myuri: We'll be ready in five days for the test?

Swami: I'll give the three days.

Myuri: After tomorrow's presentation?

Swami: Ok, after four days, it's very, very important subject what you write on the examination. And you have to hear a lot of healing techniques again from me. It's a hundred and eight questions and each question has one mark. Then I'll decide how much you're really capable on the healing techniques.

Aghni: What's the direction of the Shakitpat?

Swami: Watch that picture then let me know. Ok? Good luck.

End of Talk
