Incredibly Beautiful Public Talk on Spirituality
Hanau, Germany
April 29, 2007

Swami: Good afternoon to everybody. Ganesh are you talking today, you and Tatyana? Giving fifteen minutes time to you both.

(Their talk is in German)

Swami: It was a good buttering huh? Can you chant everybody five times: Omkaram and Guru Mantra.

(Students chant opening prayers)

Swami: Welcome my Dear Divine Souls. After a long time I'm here in Germany to give a talk. I think it's been almost one and a half years. Your love and affection and sincerity guys, pulled me here today. And very disciplined, I noticed after one a half years, so again I'm giving my time to share with you guys. Before I start, you have to see what is India, something, some pictures.

(Swami shows a slide show of India) So Ganesh, what made you really believe to draw that energy to you to India? Since how long you know me?

(Ganesh talking was in German)

Swami: It's ok. Let me talk, thank you. Spirituality is a big evaporating subject. It's a big illusion - seeing the water and feeling the taste. Seeing the flower, smelling through the eyes - that is

spirituality. You're seeing through the eyes but you have to smell through the eyes. How is it possible? That is spirituality. You can see the beauty of the flower. You can describe the beauty of the flower. But whenever you can describe the beauty of the smell through your eyes - that smell it's very hard, very difficult to describe until you experience it. Even though you experienced it, it's difficult. That is Divinity.

There are divine channels there, amazing channels are there but our mind, our heart is a big illusion - always suspecting. With my students especially, for example Tatyana, Tobias who are here, these are all senior most students, I think seven, eight years. They can't speak that much good English and I can't speak that good English either, but I had to explain that. And they're driving me crazy. They're really driving me crazy. For example, Tatyana, five years non-stop she's crying. I don't know why she's crying but I know it. It's a big purification of emotions.

Even Ganesh, he comes, he wants to know Satya. Majority of students, everybody wants to know what is the truth. There is no limit for the truth. This moment is the truth. Ten minutes later you don't know the truth. One hour later you don't know the truth. Tomorrow you don't know the truth - that is the nature. We are here a part of in the nature to experience whatever, on the moment, it's given. That type of person is only eligible is able to receive certain divinity in your soul.

We can have a hope for tomorrow. We can have a hope by next year you'll get enlightenment. You can have a hope you'll see the Jesus Christ. But one hundred percent, once if you have the hope then it draws you in illusion. Whenever I'm working with the students, I'll tell one thing here, I do another thing there. I put them confused. Again I pull them to the reality. Whenever I started working with you mind to mind, I'm not able to give it.

My Dear Divine Souls, simple thing what I'm saying today - there is a reason why you came here to the planet. You cannot escape your reason. There is a strong reason - you have to help the society around you and it's giving you opportunity to learn certain something what you don't know. And it's giving opportunity what you don't believe to make you to believe it. I cannot believe myself one hundred percent because my remote control is in the different place. Today

I'm here this presence, ok. Last week I decided, "Ok, I'm going to Germany to this town." Not one hundred percent, but I'm doing my duty.

Like who are really strong alcoholics, drug addicts, depression people, heartbroken, many thousands of people come to me, "Swami we want to know the reality of this. We want to know God." God is nothing but generator - He's the creator then He's the operator - that operation is not in your hands. Then He's the destroyer. G.O.D. Whatever he generated in you, your blocks especially, whenever you're not destroying your blocks, you can't experience any single Divinity. The blocks, especially jealousy brings lot of depression. Whenever you're in the depression then you can't forgive anybody. Whenever you can't forgive anybody, then you're really in the heartbreak then a lot of stress, anger, feeling left out, irritable. Even though God created around you lot of things, but you can't forgive yourself. You can't be happy. You can't see that experience because you close your eyes. In front of you I put a lot of beautiful, amazing things but you're closed, it's very hard. Simple blocks are also coming from Him a part of – not all.

Whenever you recognize your blocks, whenever we recognize our mistakes... When I'm coming from India, in Bangalore I have one student with a problem. He and his wife are there together since twenty-five years. It's very strong relationship. The husband fell in love with another woman. The husband came to me, "I can't help it. I really fell in love with another lady. I have beautiful kids, a beautiful wife. I know I'm cheating on her but I can't help it. I know I'm lying but I want to get out from this. Please help me Swami." How can you do it Lothar?

Lothar: How I can do it, to come out of this problem? By following your teachings, doing the process and totally believing and trusting in Baba and you.

Swami: How are you going to get out from that? You're not answering me.

Lothar: Not continuously doing it.

Swami: You're already in it. You have to come out. How?

Lothar: Well, something that you teach, I follow. If I can't follow I ask you. You help me or you help me not, but I have the teachings to come out.

Swami: The human relationships, the human blocks are nothing but a drama He's creating for you to divert you to make you waste the time. You can waste anything in your life but time and health you can't get it back. Those two things you can't get it back. The time is in your hands. Health majority is in your hands. You know what you're doing in your life not to disturb your mind, not to disturb your heart. Your inner consciousness all the time is the generator. All the time he's giving you a little signal, "Be alert! Don't do that. Be alert! Be careful! Be alert! I'm not happy with you." When you keep pushing it, keep doing it, one day you're not in your control. You're not any more in your control. You're addicted to the problem. You're not living in your own reality life. When you lost yourself, how can you recognize who are you, where you came from, what is the purpose of your life? It's very hard.

You have to recognize your self - you're a part of God. You're a part of beauty. You're a part of creation - whole creation is in you. Today is the beautiful sunshine. Tomorrow it might be snowing. The next day is a big wind. The next day is really horrible wind. It's like a season. The next of dark is light. The whole creation is in us. Whatever is coming, whatever problem is coming, be one minute strong enough. You're daughter is driving you crazy - heartfully you bless her. That's not your mistake your daughter is driving you crazy. You like her but everyday she's going to the bar and pubs. She got addicted to a lot of drugs. You want to pull her from that. It's really disturbing your life. It's really disturbing your happiness. At the moment, what you have to do? Give your one hundred percent true love. Give true sincere love to her. That's only thing you can do. Try to pull her out as much as you can from all the bad habits. You can act angry on her but you should not suck anger and keep in you and hanging around in the anger.

Even my students, whenever they're driving me crazy I show anger, I act angry but I won't suck anger - that's a big difference. I love all my students very sincerely. I know they want to do their maximum best, but some students they cannot. Since twelve years some students they're really doing hard work. They didn't even make one percent progress. Like several groups they're making within two, three years

they got certain success. That success they didn't feel they got success. But I won't explain to you, you got success. I won't tell you, you got enlightened. You're in the beautiful pure love, but you have to keep swimming it until you got tired, really tired, experienced in the beautiful tired. Then once if you're really tired then the divine energy is there for you, even in that tiredness to come and stay and merge with you - then you're free - then you're a divine soul. Then you're capable. Then you're in the reality. Then every person in your life you have to be there.

Am I boring you guys? Hello? Are you understanding? For example, Yellow Scarf people I gave one process. Blue Scarf people I gave one process and a brand new student I gave one process. They got confused, "What's Swami giving this process?" Some person from the Yellow Scarf, again I make him come to the Blue Scarf. When I make him to stop that process to jump another process, from there again I cut off, I make him to jump another branch. After certain period later, he feels he lost it. "Where is he?" But you're in the forest making the directions, but I'm watching where you're going.

What you need? You need results. What I need? Your happiness. Until I really cooked you... like when I'm preparing a delicious food, when I'm preparing a dal, I might first cook the seeds, water, and spice, I go whatever I want it. Whenever you're following me, whenever you're smelling what I'm doing, I won't do that. Does it make sense Simone?

Simone: Absolutely.

Swami: Whenever she's thinking, "Ok, Swami's coming, he's giving a beautiful fruit." I won't do that because of, she already smelled me. That's a part of art of the illusion. Why so far since 2,000 years there's not that much success, majority, in spiritual life? Getting free predictions, free smelling it. Even lot of my statements, I've given certain statements what's going to happen, certain earthquakes, tsunamis but diverting Mother Divine... even though she's illusion, pretty good I'm diverting to her telling advancely when she's thinking a different way to play.

You might think, "Why is Swami driving us crazy?" It's the reality of the Mother's nature. God created the tiger, the same God created the lamb. The tiger's duty is to hunt the lamb. Tiger's food is the lamb.

The lamb's duty is to escape from the tiger. Who's going to win it? We're all lambs. We're lambs in the forest. Mother nature is the tiger. We got heartbreak. We got depression. We felt terrible problems. We feel lot of sickness. It means you're pretty good hunted enough. Who is not heartbroken here? Who never ever had any experience of heartbreak? Be sincere. What's your heartbreak Ganesh?

Ganesh: My son was very sick when he was a small boy.

Swami: You started thinking that is your son. When you start to think he's the son of God... ok, you did your best job to him to get him out?

Ganesh: Absolutely. I traveled around the world that he'll get better.

Swami: Even though you traveled, he wants to do a favor to you, your son, that soul. It happened. For example, I want to help one student who's really in the pain, since seven, eight years I'm trying and trying, and trying - no help. Even though I'm trying as my duty, the next duty is to Him. He has to bless to you. He has to bless to you for you to come out from that.

Whenever you started thinking you have a problem, I'm telling you guys - that's the mind, heart, and soul hypnotizing yourself. Once you start to feel you're a bad person, you're a bad person, you're a bad person, pretty good your mind setup is hypnotized. That hypnotized drop of poison goes to your heart, then your heart also starts feeling very painful, "Yes, you're a bad person, you're a bad person." Then it's attacking to the soul. Then the soul starts getting disturbed. Then everywhere whatever you see you're starting to see the negativity. You're starting to feel negativity. You can't trust anybody. You can't live your life happily that easily because how you tuned your mind setup.

What I took my students, for six months to one year, I gave a process to them - do it. Those vibrations are helping to the mind, to the heart not to have unnecessary things, problems. Then I entered bringing you out what you cannot believe, to start making you believe it. Even I'm doing a spiritual magic there, even though I'm doing funny things there, but that's not your matter. What you need... the glory of the beauty - the beauty of the glory. Then you start to feel such a divine. Once you start feeling the divine, divine, divine, divine,

divine, putting you in the meditation in the light, sending the light in you then making you as a light. That's the farthest point. But pulling you from the dark to put you under the light - that's a big job.

So, the problem is our self, our problems, our unnecessary responsibilities - you feel it. Many people might have a question, "Swami, since twenty years I'm honest, I'm loyal, pretty good I'm doing good works, but karmically I lost my wife, I lost my good health. I'm a wealthy person but today I'm broke. My house got burned. What mistake I did? Once I started to believe in God, whole problems started. Does it make sense to you guys? Hello? What about those people, backside, whose house got burned?"

Student: Things have to change and things have to be experienced differently. So with my problem, and through my problem I got in contact with the divine.

Swami: Yeah. Can you speak?

Student: Yes, it makes sense.

Swami: Why it makes sense? Can you stand up and talk?

Student: When our house burned down I learned very much about my life. The problem started no money, on the other side, there were many people helping us, gave us shelter.

Swami: Did I tell you before the house got burned, to move out from that house?

Student: Yes, you did and even Baba came and told us.

Swami: But now it's smooth is it?

Student: Yes.

Swami: Why I'm telling this, whenever we're in the nature, recognizing the beauty of the divine, each problem whatever we're carrying in us, whatever we're bringing the karmas, from many, many lifetimes, whenever it's going out, it makes you shaky. It's a chance, not hundred percent, but there's a chance it's driving you shaky.

You started doing a process. You're going to the church everyday. You really fell in love to God, then all of sudden big hits start happening in your life. You don't need to blame on God. You need to be very careful what's really happening, what process your doing, how much you really believe in God. This much shakiness is happening. Once you stand it, once you really stick on with your inspiration, you'll win it. When you give up, you'll win it. When you give up, you'll win it. But you should not fight it. You should not fight it.

A student I want to make him get success, generally I take the three steps:

1. Generally counseling them in the beginning.
2. If they're not getting it, I make them to sleep in the Baba temple and Jesus temple.
3. Whenever they're really sound asleep then working with the soul. Every night whenever you're sleeping, take it for granted, your soul for a few minutes will walk away and again it will come in. That's the time the masters, the enlightened persons, can give you a lot of strong inspiration.

Whenever your soul is going out, it means, on that day you have a dream. You're consciousness is very smart and alert and it's watching your soul. Soul is different and the consciousness is different. Before, whenever you were awake thinking on something, when you're sleeping the consciousness got that. That's called Brahma Consciousness.

Whenever your soul wants to go away from your body for a few minutes, then the soul will play a movie to your consciousness. The soul plays a beautiful illusion, a dream - it escapes. The next morning, you wake up a normal person and feel what a beautiful dream you got. It's the symptoms to the master your soul is moving out from your body. That's the time the master can give the enlightenment. It's beyond your belief system at the moment but in the long term it will help to the senior most students why I'm telling this point.

You can catch your soul through your Brahma Consciousness. You don't need to be a great meditator. Whenever the dream is happening, whatever your wishes are it's the time to throw it. You're still sleeping, you're still dreaming, your consciousness recognized, "Oh my master said my soul went out," but still the dream is running. Think your wishes at that time. That's the auspicious precious time in your life. The most important thing what you should ask is to get rid of all your blocks, get rid of all your depression, get rid of all your heartbreak. If you're really worrying on somebody try to bless them - that's the supreme supernatural time. Does it make sense Simone? Where are you? What you heard?

Simone: I listened very carefully what you said we should ask for because sometimes you're asking us what do we want and yes it's important to have the proper answer. That was important for me.

Swami: How many times you've been heartbroken in your life?

Simone: A few times.

Swami: A person, according to the spiritual law, if you got three times real heartbreak in your lifetime, you're almost not able to get the enlightenment. Now I'm going to give the tips how to take care of your life. Once you got three times heartbroken, according to the spiritual law, it's very hard to experience the divine fragrance. Heartbroken means even you have a puppy dog in your house, you're so attached to that, you're unbelievably attached, unfortunately it died - you're in the depression. You're heart is really in pain. You're really under amazing pain. Like that pain, if you have it three times, your soul roots are going to sink. Instead of growing up it's sinking down.

The enlightenment means, like one million years ahead you want your mind consciousness, your Brahma Consciousness to be awake. Many people think, "What does it mean by enlightenment?" The far ahead you have the awareness. Right now you're in the 2,000 years. If you got enlightened you can go back 2,000 what Jesus Christ life he led. You can play that role. You can go 10,000 years ahead what this creation will be. You can leave your soul from your body and again you can come back after a few days later. You're using this body as a kind of house. That's called enlightenment. To receive that enlightenment, the heart part is very important.

To avoid the attachments of the unnecessary heartbreak, what you really need to develop, is the accepting nature. Accepting nature means you love your wife. You really like her. She left from you. Your heart is also in amazing pain. She fell in love with another man. She's gone from you. What do you need to do? I know it's painful. I know it's bitter. I know it's harder. Once you accept it, once you forgive, you're pretty powerful. Like within three strokes you'll get enlightenment.

Like a strong punch whenever it came, you stand there. You don't fall off. The nature took as a pain - the Mother wants to use any cause in your life, punching you. You accept it. Your soul capacity takes off. Then another punch, you stand there, you don't get shaken - another, take off. Then another punch you are there. You're so healthy. All of the sudden you got cancer. They removed your leg. Everybody is walking in front of you. You're looking at your body. Whenever it started to feel pain, you're going down. When you're looking at your body, still say to Him, "Thank you." He's the person giving the beautiful help. He's the person taking that away from you.

Today you're wealthy. Not tomorrow. Today you're broke. You don't know tomorrow. You have a lot of money today. Within a week you lost everything. Accept it. You have good physical health. A terrible disease is given to you. You don't know what mistake you did. That is His play. That is His drama. Whenever we accept that, we are very, very, very, very successful.

We need to know the reality of His creation. Once we're not accepting that reality... You are in the train. You're carrying the weight on your head. The train is already taking you. You can put your weight on the floor. You don't need to put it on your head. He's already taking care of you. He knows your problem. Giving the problem is from Him - taking the problem is from Him. If you know that reality - your life is smooth.

Sometimes you might think you're responsible for some problems. Yes you're right. Your actions, whatever you created, the negativity, if you cheated your beautiful friends, if you deceived your beautiful friends, again it will come back to you. You might think your wife cheated you or your lover cheated you - think a little back, have you ever cheated or not? You already did one heartbreak - that heartbreak

is coming with interest to you. Whenever it comes, think what you did with whom, what you did in the past like six months back, five years back, ten years back then accept it, its very hundred percent reality.

Ok, by mistake you hurt somebody. You need to accept that. You need to forgive yourself. And even though that person doesn't want to talk to you, from the distance you ask for forgiveness from that soul. You have to ask the forgiveness from that soul then you're free. If you're not asking the forgiveness, that punishment is coming with interest.

So, my Dear Divine Souls, pretty good our life is in our hands how to avoid the problems, how to create the divinity in our life, how to come out from the problems. Once you come out from the problems, once you come out from your blocks, you're eligible for divinity. Even though you're carrying a lot of problems, try to help as much as you can the people around you. Try to give as much love as you can. Try to take care of somebody. Try to share as much as you can, then it really helps you. Whenever you're creating happiness in the people around you, their happiness will come back to you. Your life will become super happy. You'll become super happy. You know if you can help them, help it - t's very, very important part of your life. You should do it.

If you really think on your heart very deeply, how many true friends you have, one hundred percent true friends? Ganesh, how many true friends you have in your life? True friends... they're ready to die for you, they really care for you - they feel your pain. How many friends you have like that? Of course your wife will cry for you, your son will cry for you, your master will worry for you. But, like somebody you didn't know before, then you met them and you now have a good relationship with them. They know about you A-Z. Does your wife know about you A-Z?

Ganesh: A-L.

Swami: Is it considered a true friendship, guys? Can you raise you hands who has a true friendship in your life, they know about you A-Z, you didn't hide anything to them? You never lied to them. You have to create at least a few friends, true friends you can share, you can talk, speak openly with guts, telling all your mistakes, who can

really support you and promote you no matter what. No matter how bad or good you are - they love you, they take care of you, they know you, they'll be with you. No need to be your wife or son, it can be any person. That's also my problem - I want to share everything but there is no equalism even for the fight, for sharing, if I'm talking there, somebody's understanding here. There's a big difference. Majority students here, I know every person's file.

For example, Tobias and Tatyana, Roman, I know all these guys files from beginning until now, even if they hide it. I ask sometimes some questions. I know if they're telling the truth or not. Then I'll decide if I should give it to them or not. I have one Elephant Group and Coconut Group. They're the most reliable groups. I spent my time, more than two thousand nights I gave the parties to them. Is it true Tobias, two thousand nights since seven, eight years? Simply I'm relaxing in my swing, I'm offering them whatever they want to know their lives. Pretty good they know about my life too. And there's another Coconut Group, thirteen, fourteen people - they know exactly what I want it - I know exactly what they want it. There are not any hidings. Try to develop true friendship reality it really helps your soul.

Once if you start to believe a person, don't go sit in front of them and tell everything about your life. Whenever you talk a little bit of your life, have them explain their life too. Then you come back one more page, another page, and another page, another page. Then you are there. Some points you guys can get. I have beautiful friends like that, there's no hiding 99.999%. Actually, I'm the man of secrets. I'm the man of secrets. Is it true Ganesh?

Ganesh: Absolutely.

Swami: The secrets, it's my duty to keep it until the right time comes to release it. I don't have any bad intention not to describe in front of you but it's not the right timing. The friendship is the power. It gives inspiration. I know many of you want to have a great relationship with your Swami. If like four hundred, five hundred students come in the ashram, the westerners, hardly I'll give an interview. How many people didn't have at least five minutes times with me, even if you came many times? Can you raise your hands? Stand up. Why I didn't give interview to you? How many times you came?

Roman: I think I was there seven, eight times.

Swami: How much time you stayed?

Roman: Normally two, three weeks, one time four weeks and we asked for interview sometimes in the beginning. We were very curious about this, but it didn't happen. I said, "Ok." I think the things come when they're coming so it's not really needed. There's enough time.

Swami: Is it my egoism not to give interview to you or is there a reason?

Roman: I think there's no need because it's like if you really have the connection like sometimes I feel, "Now he's really thinking on you. Now I really feel and see. Now it's this time." So what I think, it's really happening on another layer. When we're talking outside it's *la la la*, it's not the inside. Sometimes I think talking is damaging more than it's bringing.

Swami: Whenever I'm not talking to you it means I'm observing you guys a lot. Whenever I'm ignoring you I'm concentrating on you a lot. It's a psychology. Whenever I'm spending too much time with you it means I'm making you into a chappati. There's a lot of reason, lot of angles. I know what you want, but I know how much I can give it by grace of Baba. So, I'll give interview to you. Any questions guys?

Student: Since sixteen months I'm very sick. I have deep emotional pain. I'm in panic the whole day. I'm on different levels where I get it. Yesterday I was in circumstance where I wanted to die, commit suicide - I thought about that.

Swami: What's your problem? Be honest.

Student: I'm afraid of everything. There's no moment where I'm clear about anything. I'm in pain and fear all the time. There's no moment when I'm not in fear and I'm not calm or quiet anytime. I don't feel trust or love and not relaxed.

Swami: Have you seen a doctor?

Student: Yes, I was in a psychiatric clinic for ten months last year and I have a regular clinic running. I take medicine and I have a lot of friends talking to me and I got healings from different people, but so far nothing has helped me and it gets worse.

Swami: It gets worse?

Student: I can't concentrate. I go in nature but it doesn't help. I try to work but it doesn't help. I try lot of things, but it doesn't work. I do mantras... for six months I'm doing mantras.

Swami: Ok, we'll see. I'll give a chance to you by the grace of Baba. When we're doing a group meditation later, I'll try to help.

Student: Ok, thank you.

Swami: Who else?

Student: I have a question. My name is Jacques and I'm from Stuttgart. I'm looking for a master and I want a spiritual master. Can you tell me and explain to me how can I recognize a master? How can I do it? Can you give me your advice for that?

Swami: I have no idea. You married?

Student: Yeah.

Swami: How many?

Student: Married since twelve years.

Swami: How many times married totally?

Student: Two times.

Swami: Why you dropped the first one?

Student: She fell in love with another man.

Swami: Then you fell in love with your second wife?

Student: After three years I fell in love with another woman.

Swami: Same like that - you need to fall in love with God. Once you fall in love with God, once you really trust in God, automatically you'll pull a beautiful master whoever you like. Understand?

Student: Ok, thank you.

Swami: Once you see a lady or a man, once you see each other, it's a physical mind attraction. Same thing whenever you took a mantra, a prayer or look at a master's picture - something is pulling you. Once the divine energy starts pulling you, even if you want to escape it, you cannot. YOU CANNOT. Like a tiger caught the flesh of meat - tiger won't release the meat. Like the master, once he got you, once you caught the master, like that's your duty first part. The master is a kind of cat, like a cat taking the babies like each one simply washing it. It won't believe to leave the babies in one place. It keeps watching them. Second part, the master is a monkey. Even the monkey is jumping from one branch to another branch the small baby monkey is catching the mother, holding it. The mother keeps walking and jumping. It won't care if the baby keeps falling off - the monkey keeps jumping.

The first part the master is taking care of you like a cat. The second part he turns as a monkey. That's your responsibility to get him. He's really jumping one branch to another branch. You need to be strong enough. If you start to feel, "Ok, he has to take care of me like a cat..." No! My life with Baba, he's driving me sometimes unbelievably crazy - simply accepting it, "Do it, whatever you want." But same time I got well protected, super well protected. But even though he's jumping he's protecting me. He's not like a cat. So you need to fall in love. You need to know some divine energy is taking care of you.

Today you are here guys. Some divine spirit made you to come here. Even though many students they tried to come here but if a divine spirit doesn't want you to come here, even if you try, it won't happen. I know many students want to come to Penukonda. If Baba doesn't want to see them, if the energy doesn't like to them, even if they try, the ticket is ready - they can't come. Even if you don't want to come, if I want to see you, you're kind of like a little bird with a string - I'm pulling you. It's true. You don't want to come, it's fine, it's ok, if I want you to be there, you'll be there. When I'm looking at

your picture, all the different groups, "I want to see this guy." Simply I'm telling to him (Baba), "I want to see him in the ashram." It's done. You can make a test in that. Guru Purnima is coming many, students are coming - you try. Any questions?

Student: For eight years now I have a sickness, multiple sclerosis, and I've never had the courage to ask before, but now I want to ask the question and the point is, you said I should trust. Whatever is given to me I should trust and accept it. Now should I accept this? I have accepted it for eight years now, or is there something I can do to change the position, the situation?

Swami: You can do yourself too. Even there's a lot of problems you're going through, sickness, emotion, heartbreak, depression, there's a lot of proofs I've given to you guys - lot of processes, lot of channels. So take any one, whatever channel you like - do it. Lot of senior students are here, who have come to Penukonda many times. Communicate with them and they'll help you.

Student: I'm already seeing a student. We're already doing but something seems to keep me from success.

Swami: Don't worry today I'm here.

Student: Ok, thank you.

Swami: Ok guys, I'm giving you twenty minutes break then we're sitting in a group meditation for twenty minutes. In the meditation everybody's receiving self-healing rising. I'll see you after twenty minutes later.

After the break

Swami: Are you ready to sit in meditation? Put your body whatever you like to make it very comfortable. Close your eyes. Deeply think what is your problem what you're really holding any pain. What is your wish in your life, ask for forgiveness for whatever mistakes you did with intention or without intention. Forgive yourself and forgive everybody. Heartfully saying thanks to your parents who brought you here. Open your heart to Almighty, to pure love, to take care of every problem what you're carrying. The Divine energy is with you.

Following the meditation

Swami: God bless to everybody healthy life, wealthy life and more clarity, and a lot of divinity will grow in your souls. It started. It never ends until you reach the Mother. We'll enjoy in the divine presence. Try to bring all the thoughts today what we talked. There's a lot of depth what I discussed already. What I gave, the bullet points today, it's enough to help your life. It really, really helps. Everything is possible. Everything is possible. You really can do miracles. You are a part of miracle. You have a lot of abilities in you but you need to discover the tips what I've already given. You need to cover that to understand in more depth.

I'll come again to you guys in November. We'll spend three hours in the morning and three hours in the evening. Between now and November try to read what is Swami's philosophy, his messages in depth of India – what is the culture, tradition, different religions, and belief systems. As a human being, once we're born on earth, minimum clarity you need to learn, the different traditions, cultures, and different channels in the globe. And also your Swami is writing a new book on Jesus Christ, all his channels what he did with lot of successful evidences.

By Guru Purnima I'm releasing all the Shiva Shakti Channels based on the 2,000 year-old palm leaf book. The age of the book was carbon tested. And also, how many students got success and their experiences, it's not a joke. Your Swami's time and your time whatever we spent the time, try to think when you have a quiet time. It won't come again. It won't come again. And also you're most welcome to come to India. If you're really serious, you want to learn about it, you want to take a break in your life and you need a big transmission and have some time to relax, India is the best – pure, strong vibrations. God bless to everybody. I'll see you in November. Good luck.

End of Talk
