Swami: Good afternoon guys. Everybody tired, exhausted, bored?

Students: No.

Swami: Now finally the boat is in the huge middle of ocean. The process, what the people are expecting, the experiences, pretty good the boat is started and in the middle of the ocean. So the journey is going very smooth but the captain is a little tired. How are you Jonathan?

Jonathan: Great.

Swami: You had a good time last night?

Jonathan: Wonderful.

Swami: How long you can stay with one cloth like that?

Jonathan: Quite a while.

Swami: You have that weapon with you?

Jonathan: Yes.

Swami: Where is came from?

Jonathan: Mother Divine.

Swami: So whole your group is happy?

Students: Yes.

Swami: Many people have a question that you have a little doubt and confusion, that you didn't say you are going to meet Her back again. But even though you didn't say it there, once you entered there you already had it in your consciousness. You know what I'm saying? Once you're there in the beginning, you kept thinking that. In those waves you already released the thought. So 99.9% you got it. So congratulations, but the second step is not that easy. It won't be that easy. But you'll win it, you'll win it - you'll get it. Doug what about you? How about you?

Doug: I'm very happy with what took place.

Swami: You never had that type of experience in your life?

Doug: No, I haven't.

Swami: Since how long you waited for that experience?

Doug: Maybe eight years.

Swami: Not with me but from the time you started in spirituality?

Doug: Forty years this October.

Swami: Forty years! Finally he's with me on the stage having no fear. I'm beating on his chest, his heartbeat... I beat it as much as I can, taking revenge. Eight years he tortured me, finally I have a chance, even to him and to Jonathan too, but it's pretty good powerfully I beat it. It hurt you?

Doug: No.

Swami: To you Jonathan?

Jonathan: Not at all.

Swami: Simple concept guys. In the spirituality, if you want to win it - you have to drop the fear, fear of death, fear of losing it, fear of your unworthiness, fear of you getting cheated, fear of not understanding it, fear of your confusion. That complex, that fear complex, once you sucked it, it's very hard to make you to de-charge. It might take eight years, it might take forty years, somebody very openly strong, "Yes, I'll do it. I'm happy." Your master is not stupid to do crazy stuff. If you're thinking in one angle, your master is thinking 360 degrees all angles - how to protect you, is there any angle the illusion can come and hit you and hit the master.

Once he's with you, he's your father, mother, brother, friend, husband, wife, kid - everything well wisher. Only you're seeing as a master, a crazy master but I'm seeing you in all corners to taking care to protecting you. Even though you have a lot of confusion and 'monkey mind,' still ignoring and forgiving there to pushing your journey to that moments, that opportunities. Last night two groups had that opportunity. Even that fraction of two seconds, five seconds, three minutes, it's enough to be able to receive and have the bliss.

You didn't understand today, but day-by-day, day-by-day that energy, once it started to grow, then you'll start to feel it how beauty it is, how bliss it is in you - how much you really changed your soul. Just you're born a kind of flesh as a baby. Now I can't make you to run, just you came out. You recognized, but didn't recognize what it is, but you recognized. Yes, then next you automatically have to little bit walk, then run, then really running. Like you're a small flesh baby, just your seed started a little bit growing. Don't even expect now the flowers and fruits - that's stupidity. Your seed started to grow, just it started - that's enough. Then it's my duty and your duty to take care of your seed to grow. To taking care of your seed, what you need to do? Everyday you need to put the water. The water is what your master said, following the instructions, "Do this mantra this many times. Do this sadhana." Simple things, then automatically it starts to grow then you'll reach your destiny.

If you're not doing your sadhana, simply ignoring it, after five, six years later, you're blaming on your master, "I didn't have anything, just I had that day, after that nothing happened." That's not my mistake. Just how much everyday you keep doing it. A little time you're concentrating, it's a quiet bliss. You understand guys? How

many new students came here? Oooh! So you're totally confused isn't it? It's boring to you isn't it?

Students: No.

Swami: I'll take whole again new group and spend some time with you guys. So let's go to today's subject. I have not much time left. I have to take again the groups.

Students chanted Guru Mantra three times

Swami: Does everybody have that yantra paper? First few minutes have a deep look the words how they wrote in it. I have a question to you Clint? Why they made the Shiva Lingam up and down?

Clint: I think it's showing a mirrorism.

Swami: No. Let me give you an example. This is my foot. I put it to the ground then something fingers (toes) are separated. Why is that hidden in His creation? You understand?

Clint: Yes, I think I do. Separating into the five elements, different sections.

Swami: Just I gave an example about my foot. The Shiva Lingam holds seven roots to the yoni, seven roots. In Sri Chakra there are three open roots isn't it, Sattva Tamo Rajo Gunas. Here, to the Shiva Lingam, how many? Seven roots. Once you fix the Shiva Lingam... once it's... only lingam it's different. Once you put it there, it goes in seven directions. It holds it like it grabs it then it started vibrating it. Once you know that seven roots mechanism then easily you can handle the Shiva Lingam.

Like Ravana'sura, whenever Shiva gave the lingam to him, it attached to the ground. He didn't know the seven roots mechanism. Once you know the seven roots - you can pull that out. He could pull that out from the ground. It got stuck. Even he kept shaking it, growing it, but it didn't come out. If you do your own way funny stuff, you'll get damaged. Your master cannot be responsible. Doing some of your own craziness stuff - it'll get destroyed. That's why, so far, they weren't able to create the students, create the perfect information to the students and train them in a proper way. Many people, thirty,

forty, fifty, sixty years they sacrificed their lives but nothing happened.

Once you follow in a disciplined way a couple years, you'll reach your destiny. You can make the money, you can make the name and fame, but you cannot find God that easily. You cannot recognize yourself that easily. You cannot recognize the Satya, Dharma, Shanti, Prema that easily. It's only possible once you understand the supernatural cosmic power. God means nothing but power. If God has no power He's not God. Having a rose flower without a rose smell, it's not a rose flower. You're born as a human body you want to know about God, it means you're a part of God, a part of in Him. You're receiving a part of His energy in you. It means you need to wash a lot of things - that's only possible with these type of channels.

Thousands of years back how much they really researched. How much they really practiced and did it. But I did different way, but I also did this way too. I made it. Finally after many, many, many years later I'm giving this information. Almost nine, ten years back, Philip and Monika, they were here with a few Americans. I sat by the Ganesh talking about Jesus Christ's life. You can check the CD. Nine years back this same kind of pretty powerfully bijakshras what JC did, I described there. Then after seeing certain negative vibrations, negative behaviors in Americans, I stopped. I had the huge fear I might lose those books. I might lose that information. Ten years back already I gave that. Since ten years I've kept waiting, waiting. You know what I'm saying? You can see in those CDs, how I really looked.

Now it needs faith guys, and open heart. I don't have any bad intention to divert you in a wrong track. What will I gain? Nothing. Unnecessarily your headache is my headache. No. If I'm really on this planet for ten, fifteen years even like this, you won't be able to talk - this whole ground will have thousands of people here. Ten years back I told to some westerners, "This place will become huge paradise." On the days this place had huge cobras and bushes - a forest. You can see it in the CDs. Today, again I'm telling after ten, fifteen years later, this will be the second Vatican - you can make it as a golden statement, especially that Big Boss Jesus Christ Power Spot, his energy, the people will get experiences. It's not my greatness. I'm also like you - that is His greatness, His energy. I'm doing as a dharma, my work, it's my dharma I'm doing it. If it happens I'm

happy. If it doesn't happen, still I'm happy. Ten years back I tried it, then huge punch came funny way. Then I little bit stepped back. To play in this Kali Yuga you need to be very careful. I need to be very careful. Still I'm following the same thing.

So sincerely, my advice and recommendation, you're here, lot of purification is happening, lot of charging is happening in your souls. Completely dedicate your soul and your life, and your heart, and your thoughts, and your wishes to the Guru Parampara. You're here for yourself and your family and society. First you - be happy, then you can create around you people happy. When you crying you can't make people around you happy. If you're sitting in the dark you cannot show the light around the people - that's foolishness. That's called swadharma. If you're hungry, first you take care of yourself, then you take care of somebody. That's new Kali Yuga law. You cannot torture yourself. Am I boring?

Students: No!

Swami: So you never know the illusions, the Maya, Maya our lifespan. One day we have to take off - that's the standard. We're healthy today, we're wealthy today - that's good. We don't know tomorrow. We don't know about the tomorrow. You can believe anything in the planet except to the time. You cannot trust the clock. Clock is a cobra always around you. Today is today. Today is today. So whenever the opportunity comes - utilize it and make sure... one day we have to go, before going, try to feel how much you're really satisfied in your life. Today in my life I'm pretty good huge satisfied, but I have one work that I have to do. I hope I'll complete when I'm in this body as soon as possible. Same thing in your life, learn as much as you can the knowledge. Experience as much as you can. Be open hearted as much as you can. Help the society and the globe as much as you can. Any questions?
