Shiva Ratri Program 2008
Last Day of Japanese Program
Teaching in the Baba Temple
March 13, 2008

Swami: Since fifteen days almost to two, three weeks non-stop with high-energy speed at a stretch, keep moving the energy. And the real ending is today to my whole Shiva Ratri Course. Like the global-wide many students, different country people, many angles different open hearts and doing amazing sadhana - coming with great expectations and receiving some great experiences. It only happened by grace of Baba.

Almost like one month back, your Swami did not see the sun. All the time in the daytime he was in his room. There is a reason why I'm in the room and what I'm doing there. I'm also a human being, like you, same time the divine energy chose me to work for you guys - that's my luck and bliss. Even though whatever blessings and experiences you're receiving, everything is coming from the Big Boss. Big Boss means Baba Boss, Big Boss, really Boss. Boss is your Swami, Big Boss is your Baba, really Boss is Jesus, but pretty good commanding the Boss is having on you. You need a Boss. Many people did amazing hard work and I appreciate it. Even if your Swami gave hard time, it's not my intention or any bad reason on you. What funny negative energy you're really carrying, I have to be little hard and harsh on you to wash that.

It's a true story. Two days back, late night around 2 a.m., Ramakrishna was giving a massage to my feet and he kept talking

about his life and his stuff. I thought, "I need to give a lesson to him about some mistakes he keeps doing in his life." This evening I sat in front of the steps. He was carrying the ash. I thought, "I'm going to pull him, to talk to him to give a little class to lead his life in a smooth way, not with any crazy funny habits." Since eight, nine years he's a good friend to me and a good student to me. I trained him a lot, but he's going back to his own country for a long time. I made him to marry. He has a beautiful daughter who grew here. It's peaceful, but secretly he's doing one, funny stuff, I know that and I made him to walk many times. Then I'm thinking to Baba, "How to change him. Which way I have to give a little class to him?" Right after I'm thinking that, he fell off on the floor very badly with really a huge sound. The bucket fell down with the fire coals and ash. He hit his hand on the fire. His hand is burned. Punch. I'm noticing it. Clear statement. That is your Big Boss statement.

Whenever I'm too much concerned to handle your file, to Him shaky. No need for your file to go to Him - better to solve with the small Boss. To swim you don't need an ocean - a swimming pool is enough, you don't need an ocean, the waves are huge! It's good to be relaxed in front of Him at the ocean but not swimming there. Even to me, I don't have the guts to go and stand in front of Him on the stage more than two, three minutes to touch his feet, maximum one minute, second minute I'm down. It's enough.

Why I'm saying this, we need to handle the master in a very sensitive way. He really can solve any of your headaches but you should not turn as a big headache to the master with your karmic activities. Whatever you're doing, all your crazy stuff, even though you listened, listened, listened, you are in the family of the Sai Family. All your souls, you're just in the Sai Family on the tree as the birds. There's a huge difference between you and a normal person - don't forget that. You're something special - you connected to the Guru Parampara. It's important always to remember yourself. Certain things you have to do, you should not do it - that's important. Once you keep remembering your dharma - your life is super, happy. Don't starve for 'name and fame'. Don't struggle, don't fight for the 'name and fame'. Don't fight for success. Try for success, not fight. Once you try it, if he wants to give you, he'll give you. If he doesn't want to give you, he won't give you. You're dharma is...just ask, open your heart ask - try, try, try, try your maximum best, then

peacefully relax. The life is nothing but huge satisfaction. Once you develop the satisfaction, it's the bliss.

Who came to doing these amazing activities, lot of hard work and amazing creativity things here, it won't happen without His grace and blessings. I never, ever feel, "I'm doing this." Same thing you need to feel, you're not doing your things, the divine energy is making you do things. Many times I also did many mistakes. Once I recognize my mistake, I never repeat it again. I try not to repeat it. You need to develop that. It doesn't matter how you like that, how you don't like it, even you like it or you don't like it, if you recognize it's a mistake - stop it! Simply stop it - make a break there then life becomes easier. Majority the life is pretty good. It's our actions...those actions again come back as reactions. It's like Newton's Law, action to reaction. So karmically, if you do the good you receive the good. If we do the bad, if we created a pain, we have to receive a pain back. Even for fun, for your happiness - don't create a pain, don't hurt anybody either intentionally or without intention - that's a danger.

God is nothing but true love. You have to take that love weapon with you. Walk with that weapon - no energy can stop you. Even Shirdi Baba wants to test you, even Baba wants to test you, even Mother wants to test you - in front of your love they'll always get failure. Same thing I'm using the weapon. You're dumping all your headaches here and you're going back to your countries. Then again to me to solve each headache, he gives very hard time to me - testings. Sometimes testing my ego, testing my patience, testing in all corners how I'm doing it. Unnecessarily he tests. I'm very quiet and happy - today is the Guru Day. After all is done with the Japanese, I went to the garden and sat - thirty minutes are mine just I want to relax. No idea, from somewhere fifty people, the Indians approached to me. They came and they sat. They're very important people. They saw me - I can't escape, it's booked. Ok, simply I'm talking to them. Many times if I want to go to the garden, first I call to my boys, "Is anybody there?" Then I walk. Even if I want to take a little relaxation, if I'm using the time for my own selfishness - the working time no compromise then from somewhere else He keeps coming.

So why I'm saying this, never, ever escape from the duty. If you try to escape from the duty, again two times more duty you have to do. Brett you heard it?

Brett: Yes Swami.

Swami: It's true. It's true - you're all in the Sai Family. Take a duty as your responsibility. Once you did duty you're a free bird. If you want to escape it, it's a problem. Whatever is your duty, do it as an honor. The duty was given through Him. As a name is coming – good, as a defame is coming – good - do your duty. Your duty is only for doing your duty, not for expecting any results. Whenever you expect the results and you did the job - you're in trouble. Your job is only doing the duty - you expect the results, you're in the danger. A doctor is doing heart surgery. Of course he wants that operation to succeed. He doesn't have any bad intention to kill that patient. If the patient died, that's not his mistake. If it's a success and the patient is alive, it's not you doing that - divine did it through you. Whenever you're feeling, "I did it, I did it," you're in trouble.

Never, ever, ever, believe the time. You can believe anything in the planet, except the time. On the planet, the first person who found the Kala Chakra is Buddha. The enlightenment will only happen through the Kala Chakra. Through the Kala Chakra process, the master can make you travel one million years ahead, ten thousand years ahead pushing your soul journey, putting you in the Samadhi, pushing your soul. If you want to go back how you were five thousand years back, your soul, your structure, your body, so and so time, and so and so period - you can go back. Last year I taught first time the Kala Chakra in America. I never, ever taught it before that. First step I already taught and second step I'm going to teach on that Kala Chakra.

So the most powerful important step is the Kala Chakra. The Kala Chakra is what every spiritual student on the planet needs to know. You can see your death time, birth time, you can see the time when you entered in your mother's womb, you can see all your soul journey time, the exact second, minute, date and time you entered into your mother's womb, when you came out, and when again you're dropping your body and taking off. It's not a joke. It's true. Make me to remember tomorrow - I'll show you the Kala Chakra yantra how they drew it in the palm leaf book thousands of years back. I'll show you that yantra and how to handle that yantra and connect those prayers.

So there are some unbelievable divine channels in the planet. The main thing is what you need to do is, how much your open heart and how much you have clear crystal clarity. That counts to the master. Once if you're really clear and open hearted and you want to serve the globe - I'm with you. If you're behaving in your own selfishness, for your own 'name and fame,' making money and diverting the whole information in funny angles, I cannot come to you. Even though I'm very close and very friendly with you, I cannot give the information. Master never expresses your egoistic, your not clarity, your not open hearted - that's not his job to tell you that. He'll smell you, taste you, hear you, then he's with you - all the Guru Parampara is with you - done. Then your life is happy. He doesn't care about some of your personal, simple, funny habits. He'll see how much is your dedicated heart - that counts. Until then, it's difficult. It's not only to me, it's to you too, it applies to me too. I always pray and beg to Baba, "Give me good thoughts, good heart, helping heart, take my ego out, don't play games with me, let me know what mistake I'm doing, but not in punishing way. You don't need to teach a lesson. It's enough what I've been given with the lessons. Heartfully I'm begging." I'm serious, same trace you need to walk too.

So life is short, make it sweet. You're here for yourself. Create the happiness around you. You can create amazing things. I'm coming in July to Japan. I'll teach the Kala Chakra. The first time what I'm going to give the experience to the Japanese, to choose like fifteen, twenty people to make you travel like 50,000 years ahead and dropping you there for one hour. It's not hypnotizing. You're pretty good aware. I'm taking ten people and going back 50,000 years back - how you feel. You might think, "Maybe Swami, this is my first incarnation, just straightly I came here from God." You guys are all monkeys if you think like that. If you merged with the divine there's no incarnation. If you touched the ground it means earth element, you keep coming. Any soul, if they want to be born as a human on this planet, it takes one million lifetimes. To be born as a human you have one million lifetimes. I'll show you tomorrow in the book. If anybody knows Telugu we can translate it. We can take a Telugu dictionary. I didn't write that book. You have to use the lens to read the letters. That Kala Chakra you can hardly put a small tiny needle to draw that yantra. I don't know how they did it - quite amazing. It shocks me. It really shocks me.

That book and a few more books I was carrying from the river outside this area, and coming to another edge. I have to tell one story about that book. It was a wooden box that had almost like seven to nine books in it. I tied that book in a red cloth, with this size (Swami *showed with his hands about 2 ½ feet long by 8 inches wide and 8 inches deep*). I wrapped it in the red cloth. Me, and my friend were in a tiny small boat. He is a good swimmer. I know swimming but I'm not that much expert. The flow of the water is huge. We need to hit one corner of the edge, and the flow keeps moving, moving, moving. He keeps doing (*rowing*) in the front, and I'm doing in the back. We aimed it and slowly it's going all the way left. The big whirlpool tilted the boat five, six times - out. I really thought, on the day, I am out. I signed my Kala Chakra - I have pretty safe life. The box got opened, water entered - it was heavier but that book was floating! The book was going super fast on the river. I screamed on my friend, "Go and get that!" It took him almost two hours to get that. I reached the edge of the river, tiny personality I am. You see nine years back how big my personality. Then two hours later from the edge I'm thinking, "Oh my God, it's gone. It's the only one book on the planet that exists!" Still you can see how much the water molded it. Then I put it in the sun to make it dry. You can still see the watermark is blackish.

Even the nature doesn't want to release to accept certain information to come out. Always the Divine needs to face the negative punch. The negative energy is always waiting for the divine. You need to deal with that negativity very, very clever way as a Krishna. Whatever you want to do, you have to do even you should not bring it in your thoughts until the climax - just do it. Same thing I'm doing with my students, what I want to do, what I want to give the experience - I never tell. If I'm telling it means, there's a slight different there but I'm doing it. Who really knows how to play with negative vibrations very easily, only that person is a great master on the planet. Even Jesus Christ he did amazing miracles. Buddha did amazing information but Jesus Christ, he was not able to straightly give his techniques to his students' kingdom. That way of giving the techniques - only this century is very, very free. In coming days again it's getting tight. This is the time just the door is little bit open, I'm driving my maximum best. I'm taking these tracks extremely fast because the door is a tiny bit open. Once even it closes, it takes lifetimes-lifetimes.

So my Dear Divine Souls, opportunity came - opportunity is with us. Try to use it in a proper way. Don't see your Swami Kaleshwar - try to see what he's teaching. If you're seeing, "Oh he's wearing a black coat, is he really a Swami? We all look like Indians and Swami looks like a Westerner." Don't give the marks with the dresses, the beard, hairstyle...the master is a cow. It eats the grass, it eats the wall posters, it eats the branches - but it gives the beautiful tasting milk. The master might drink the scotch, beer, everyday chicken, hookah, funny dress, no dress - accept it. Who cares what he wears, what he's doing himself? Same thing happened to Shirdi Sai Baba. Once if he started to smoke... you saw in the Shirdi museum the chilums, smoking pipes? This big smoking pipe, sorry to say that, big smoking pipe - he takes off... And major his soma pot, taking soma and his best students, they didn't like Baba smoking and drinking and eating. They didn't like that, one part, but he's curing many diseased people. He's doing some wonders. The students are staying with him.

One day Baba and all his students are walking in the street. One goldsmith on the street is boiling the brass metal on the fire coals. Baba asked, "What is that?" "It's brass. I'm boiling it." Baba simply took that molten brass and he drank it, then all students are watching him. Then he cleared their doubts. "I'm drinking soma and I'm also drinking this super hot brass liquid metal." "You'll die!" But he's simply smiling.

Why I'm saying this, I don't care what Baba does, his personal habits, I don't care your personal habits, only I care how is your behavior in the society, how much you're damaging your health, how much you're responsible in your life - that's only I care. You're having a fun enjoying it, I'm happy for you. I'm happy for you - no problem. Kenzo he drinks a lot. After each program, just he's escaping. Is it true? I don't care but he has open heart and doing very hard work. He's doing hard work with very open heart.

So, it's good... today is the final climax day of Shiva Ratri, whole programs to your Swami. I hope, by grace of Baba, I'll have a little vacation to disappear for a few days. So good luck to everybody and happy, successful life - heartfully I'm blessing. And you always have Baba's grace in your life no matter what. Have a nice time. Good luck.

End of talk
