Broken Hearts, Soul Happiness Through the Silence
April 24, 2008

Talk begins with Lothar introducing Swami. Tatyana talks about her beginning experiences with Swami.

Swami: Why can't you speak in English and he'll translate in German?

Tatyana: Ok. Ok. So, always he was saying why, what is the difference between the master and the student and he said, the only difference is that the master knows certain things that the student doesn't know yet. And from the beginning Swami was openly sharing whatever knowledge he's carrying and his main focus was, don't focus on my personality. Look what knowledge, what ancient tradition I'm carrying, and I'm really openly, freely sharing that with whoever is interested to learn those techniques, to learn those things what the ancient great saints and masters of the Indian tradition, what they learned. You can do the same.

So, this whole tradition, this ancient Indian spiritual tradition was very new to me. I had no idea about mantras and yantras and it took me a while to really understand why it is necessary to do spiritual practices, why I should sit and repeat a mantra many, many, many times, what's the benefit of that. And the only reason why I did this was because somebody was telling me, really telling me, somebody who really had the experience of that, telling me, "If you do this, if you follow this you'll experience something." So I had the faith in him and that's why I really started to practice, because I wanted to experience what he was talking about. I wanted to have this own experience to feel it in my own self. And later on I learned that every soul, even the great masters, they had to say, they had to walk

through the same path, like many saints, many masters, in the beginning they were also in the same kind of illusion that I was and still I am.

Swami: How many hours you cried in front of me?

Tatyana: Oh, I think, I really don't know how many, but many, many, many.

Swami: Aproximate?

Tatyana: In the beginning time I had a very hard time with my emotions. Once I started with those purification mantras a lot of emotions came up which is part of that process.

Swami: It's not the process, uh-uh, ok, go ahead, go ahead.

Tatyana: So, many times when I fall down I was emotionally... Swami calls it 'bumpy,' he was always there really supporting me, lifting me, giving me hope, giving me inspiration, like really putting me again on the same track, like, "You can do it."

Swami: Like hundred hours, two hundred hours, five hundred hours, be honest? (huge laughter)

Tatyana: I didn't count it but I would say the first two, two to three years I had many ups and downs being in his ashram.

Swami: More than five hundred hours that she cried, unbelievable crying. She didn't know why she cries but she's keep crying, giving hard time to your Swami and I had to understand and why she's crying. Of course I understand - she needed the chocolates. (*laughter*) Some chocolates. Finally I started to giving to her, then she stopped to not to crying, the chocolates of the divine experiences.

The point is, if I started to creating something in your soul, guys, when you're crashing yourself in the inspiration, again I had to restart from the beginning. Again if you crash your inspiration, again I had to start. With the many hundreds of students same thing happened. Not only they're crying with the different angles of their own crazy believe system, instead of me to getting failure there, I better to wait - drag the time. Once if I want to give you something, if

you're not ready yet, I had to drag the time. The dragging time makes you bumpy. I don't have any bad intention to drag there - you had to be very strong enough for the inspiration.

Today some energy brought me to here, to Berlin, after few hours later again I had to jump in the train for twelve hours to go to Zurich, Switzerland. That's not my style. Ok, anyhow I promised it and I heard lot of interesting things about Berlin and it's the capital city of the Germany... Since almost eight, nine years I'm traveling in the Germany. I seen all different places of Germany except the capital city. What is this energy? I want to scan it here. Even I scanned in Amsterdam, in the canal, the water by boating and seeing the how the women is spoiled and how much is addictions is there, and how much is really in required the spiritual wisdom in this planet, especially in this Europe to make them to awake to the, bringing to them near to the God.

As a typical Indian person, traditional person, seeing in Amsterdam in the canal side - the girls, their funny way showing up...so, it's not, I didn't came for the negative purpose, negative thought. To me, also, it's required to understand my journey - I'm also student. You traveling India, I'm traveling in the west. Of course I seen the Las Vegas, too. I don't know how to gamble it but I had to gamble one day, relax, having my vacation. (*laughter*) There is no vacation yet. Like this type of Tatyana's, few students is enough can squeezing me. (*laughter*) But I don't want waste the time, we had to, I had to share some important information today. I'm happy, keep carry on your feelings very fastly. This is your time. Go ahead, sorry to interrupted.

Tatyana: Ok, he loves to share those kind of things. Should I talk in English? Continue in English...ok. So, after going through that time I felt that more and more my soul got stronger, and I was able to control my emotions better. I got more clarity, more will power and more resistance power and coming out from all that bumpiness more and more. And I also learned, I started to understand why those thing happened and also started to recognize in other people that so many people nowadays in the world are getting stucked with these kind of emotions. And I'm so greatful that you spend all this time to lifting me even I gave you a hard time. I know it was really... and I think...

Swami: No problem. (*laughter*) You're done? Go ahead if you want to talk, go ahead.

Tatyana: Well, there is so many beautiful things and moments to share in India, and to watch Swami every day how he's working, how he's... how he's really sacrificing and dedicating his life to really bring that knowledge and to lift, to lift us. And it's also nice to see what we can do with those kind of techniques, those healing techniques what we are learning from him. I had...I would like to give a small example like in the, in the beginning days what I have. In the beginning first two years I traveled back and forth many times from India to Germany and my neighbour, she was going through a divorce and she was really heart broken and had a hard time. And there was the first time where I really started to implement some of the things what I learned from Swami in India.

So, each evening when I did my meditation, at the end I started to send some distance energy, some healing energy to this woman. And the only thing I knew about that mantra was that it's somewhere connected to the energy of the angels. So I did this for a few evenings and after one and a half weeks my neighbour came up to my apartment. She knocked at the door and she said, "Tatyana, can I ask you one question. Do you work with angels?" And I looked at her, and I said, "Well, why are you asking?" And then she said like, "Each evening I feel that some presence is around me. You're sending me some energy. Some, some big changes happening in my life." And she started to have tears in her eyes.

And that was such a big gift for me to, to experience that these techniques are really working, that I can develop faith in that and I'm studying with Swami since many years now, and I'm still researching on this knowledge and trying to understand more and more more depth in it, and it's, it's just a vast body of knowledge what Swami is giving to the world. But I have such, I feel so blessed because I feel this is really a wonderful path, and even though many things I don't understand yet, I know that this is the path I would like, I want to continue and he's the one who shows me more and more to bring out the light what is hidden in me, to experience that and to know how to bring that out and to help others. And I think Swami is here tonight to really share some beautiful information on Jesus Christ in India, and Swami, I thank you for coming to Berlin and...

Swami: Good.

Welcome my Dear Divine Souls - it's my pleasure to be here, to spend the time and to share something divine, whatever the divine wants to come through me. I'm honour to born on this earth with this profession, and whenever I started to thinking Germany, hundreds of people see who I working with since many years, seven, eight years, ten years, they all the time hanging around me like a children. Like again I want to see their faces to be with them at least one or two days, like sometimes I really miss them in the ashram. They are there and they are working and they cutting the grass and they're meditating and somebody crying, somebody cooking, and somebody eating, and lot of actions they're running there. Such a lot of divine works they're doing there.

Ok, from my heartfully also, I'm trying my maximum best to release them as a powerful masters very soon in the globe. Already I done it pretty good. There is one more step then I'm very confident. Certain

things they really can do, the some amazing wonders to change the globe as much as they can in a beautiful way. Before I start, how many people is the first time I'm a, you're seeing me, guys? Can you raise your hands first time you're seeing me? Wow - that's lot. Don't misunderstand guys, this language this tradition is completely new. At certain stage in your mind you keep, "What?" thinking and a - don't give up! Try to able to be there and understand and maybe whatever you heard, different, different people's feelings, I'm a just student of Shirdi Sai Baba. So Roman, can you start your show, turns off the lights? Have a look first the India.

Swami begins commenting on the slide show.

This Jesus statue is staying in the meditation room, some yantras. This is the Penukonda beginning of the entrance; this the east this the road - we fixed this whole ashram according the Indian Feng Shue called Vaastu. Many peoples is meditating early morning hours the sun rise its ashram. This, the Jesus Temple, whenever lot of crowd comes they used to sit there - one, some festival time. That's the ancient what I'm holding is the ancient palm leaf books teaching some information.

Christmas time. This is the 2000 years old structure, it's ajoined to our Penukonda property - this is the Penukonda mountain, on top of thats ancient structures. This is the palace of the one of the king who was to stay in Penukonda the next door of our ashram. It is anti vaastu that's why it got destroyed. This is a northeast spot. Generally it should not be northeast height. If it is northeast height, more than the southwest, generally according our Indian Feng Shue, it won't get succeed. On the days, on the rock they written some of the statements of the divine channelings - you can see that literature that is in Telugu and Sanskrit. This is ancient, palm leaf books, you can see this one is quite amazing what is written, nowadays, nobody cannot write this all letters.

It's a Shiva lingam, shri chakra, on the days different way they have to operate these Shiva lingam, that yantra. Many people know the namashivaya, but the Shiva lingman, how to operate that letters - bijaksharas. So they given the pin numbers of the Shiva lingam, this is the letters inside. Some process they're doing with the Mother. Elephants is pretty famous in India, this our ashram. This is south building. This is main temple, this all our property. This is the front

view of the ashram. Southwest height, next height is southeast, next height is the northwest. There is no dome in the gopuram in the northeast. This is the east. So whole northeast is empty place. This is dwarkamai but the south pretty good height than this - all west mountains. You can go and have a look any place, the west mountains, south mountains if your house is there you are very successful person. It's almost all like several thousands of feet. On the top of mountain, also there is quite amazing temples, before it's all huge forest. This the northwest side, again new construction is coming to completed. I hope many people know her isn't it? Her name is Constanze - she is my personal doctor. This is the first time, first place what I created - this hut. This is my favorite swing all the time majority here, Hanuman. This is a fire spot it's called dhunni, three hundred sixty five days all the time keep burning it. Whatever I'm giving the healings, my students giving the healings, everything is burning, is linked with that fire with that fire element and decharging.

It's a full moon time how it really looks. She's a character in my life, many people knows, her name is Shilpa my wife. Shirdi Sai Baba doing abishek early morning hours to him with rose water and plain water, coconut water, whatever the water is flowing from his head, that few little drops is enough to wash your face - can decharge any negativity. I'm not joking it's very powerful. Some classes time. Last Shiva Ratri I think this is, several hundreds of people came for different information teaching about the Shiva Yantra. This all the lotus flowers, where they putted that spot underneath there is a ten to fifteen feet ground we buried a one, powerful Shiva Lingam. That's called Alahala Linga, I think it's a still exist, you can see in your email I think, isn't it Tatyana, in the web page? You can see how the Alahala is giving the water out, all the lotus flowers, hundreds of thousands of lotus flowers pouring on the Shiva Lingam. Everybody charging. He's also another character I hope you know him. They're all charging with the flowers with their personal mantras. They're holding the flowers and they're charging it. This is when I connected the university, the people started to learn and what they learn, and they had to write it.

On the left there is a Shiva cave, everybody going and dropping the water on him. You can see how seriously they're working on it with the real concentration, Vedically through the priests doing the fire ceremony. You can see somebody clapping there, she's going to

pulling me very... she is the daughter of your Swami. We're all going to the northeast garden with the traditionally, with the holy water carrying. We fixed the Mother Divine statue there - Hanuman. The arthi time the hall is completely full and everybody's chanting his Arthi, is a flame arthi it's called traditionally, receiving the blessings. That's my swing and ah, everybody sitting there. And the food is naturally they're making here... everybody used to eat the natural food using the wood and the fire.

This information, what I'm teaching, how to handle the Shiva Lingam, it's almost all like equal to Na Ma Shi Va Ya - Five Elements. Everybody know the Five Elements, the energies? If you have a small a crystal Shiva Lingam with you, how to start that crystal Shiva Lingam started to vibrate it, like a vibrations, with the high vibrations how to make itself as a magnet? You need a pin number of that even it's a small rock, a crystal - that's important. On the copper sheets they're drawing it. Look at that, all this girls wearing the traditional red saris. It's a quite amazing to me how they wear the red saris for early morning abishek to the Baba. Abishek means holy bath to the Shirdi Sai Baba. He has to bless, he has to give the boon, he has to fulfill their desires, whoever they attended there, and their sadanas and their happiness in their families because of the energy's like that.

All the milk pots washing with the milk, all sandlewood powder, pure sandlewood powder with him. But everybody wash his feet for many lifetimes, complete decharging, unbelievable charging. That's called Guru Bhakthi. Even though you believed he is there or not, but that prayers and the devotion - that's very important. That all the pearls protection what I given, distribute to everybody, distributed. You might think, "What is this much, this is the big deal of Shirdi Sai Baba?" He's nothing but Dattatreya. Dattatraya means Brahma, Vishnu, Maheshvara - God - **Generator, Operator, Destroyer**. Whatever the karmic things, whatever generating in us then he operates it, then he destroys the negative things in us.

And they're doing the Earth process and the putting their candles in their power spot, it is their soul spot and this is what I had experience, and many students had the experience - the Big Boss, the Jesus Christ, the power spot, his energy spot...what we believed this area. But one day it'll come out. But they're receiving that blessings and they experiencing that energy, you can see in their faces crystal clear devotion...they are not playing a game there, you can see the

Gustav how he is really pranaming; Veemala, she's really pranaming... Bharati she's begging; Luzia heartfully she's looks the impression thanking everything - they caught the moment. Everybody is writing the pin number of the yantra. That is inside Dwarkamai. Dwarkamai, that what is this place, that the Shiva Lingam, a rock holding the water inside. If you shake it, you can hear it. I didn't putted the water inside, hundreds of thousands of people they shake it, tested it. Just they removed from the hole. Just we're taking out from the dirt - now you can see the water drops. You seeing the water drops there? Just is beginning, then water really flowing out. You can see the whole CD. Now it is a more. Good. Do you have any more? Good. Is it possible that ah, in the webpage that CD you can show it? It's possible? You want to see it now, you want to see it later? Hello.

Students: Now.

Swami: Before he starts, let's me complete few points. I believe, I respect, I totally surrender the message of any religion, their strong belief system towards the God in a beautiful way. Point one.

Point two, many saints cannot able to exist, many strong healers cannot able to exist. Since thousands of years nobody is not standing for it even though they standed it, something is shaking them and a destroying them and a disturbing them - they're crashing in the ground.

Buddha is a strong person, Shirdi Sai Baba is a strong person, Ramana Maharshi is a strong person, Jesus Christ is a strong person, Baba is a strong person, many saints in the Himalayas is amazing strong persons. If you see the Kumba Mela pictures is important point, Kumba Mela, if you saw the pictures of Kumba Mela, thousands of saints, they sacrificed their lives, they putting their ash on their body having amazing healing abilities.

On one day they gather after twelve years, every twelve years – once, near the Ganga near Himalayas. Each person, they're do the Hatha Yogas, lot of yogas - you cannot believe it. They put the fifty percent of the body the rivers with the head in the ground, buried it. After few days later, again they come out. They do the Jalastambana - they go in the water, after couple days they come out - they left their body, few days later again they come back. Is a quite unpredictable, is not

comfortable, is unnatural things. It's a funny to our human minds why they're doing it, how they're doing it? Is it a kriya, is it a miracle, is it a channel, they are the Gods, who are they? What is they're having? Why that the ability they're having it?

Some stones bleeding out with the water, some stone is bleeding with tears, some young kids, two, three, four years kids, they're telling their past live where they're born and what they've done it. You read in newspapers isn't it? Some people they're able to connecting some divine angels. Who will discover that? Who is the right person to recognize that type of energy channels? Only two ways what I practically I done in my life, first part, help ever - hurt never. Not only human persons, not only any religion but we want the technology of spirituality - God is there. He have any technology? Today a person is going to the moon and is establishing certain things, hundred years back, couple hundred years back we don't know, we didn't believe that.

When I read some palm leaf books it's a shaky - certain prayers if you do, certain abilities you gain it. Certain prayers you chanted this way, some your soul ability will grow. In the beginning days I have no idea what is mind, what is heart, what is soul, what is this. I also studied chemistry and botany and zoology. Is a quite confusing and seeing some abilities what the saints they're doing in India, that mechanism, that ancient mechanism need to come out to the whole global wide. If we have the cancer, if you're a blind, you can go hospital and get the treatment. If you have the heart problem you can go the hospital there is a big chance you can fix it. But if you're heart broken, you're carrying the painful heart, you're not happy, you don't like yourself, you hate yourself, you done many mistakes, something sadness is really torturing you, a beautiful your kid is died, you're unbelievable sad - who will help that type of people? Eighty percent of the globe - soul patients, only twenty percent of the people - physical patients, that's my research. It makes sense, guys. Hello?

Students: Yes.

Swami: Who was here, never ever get heart broken, not having any heart pain, can you raise your hand, be honest? Not even one person.

So, to get the protect once you got heart broken - two, three years of your life span is gone, like that. Once you got healed, the time it takes itself and you got to getting a healing, again, second heart broken. Again after you recovering from second heart broken, third heart broken... Of course majority, maybe the relationships, you lost your business, you been by cheated, even for that simple things your soul need to get tortured. Who will take away your pain like that? Somebody need to take care.

If the globe is keep going like this, lot of depression is creating up. In the depression every person start to getting addictions. Once the person starts to getting addictions of lot of drugs and alcohol, lot of things, then his behavior is little wild. Once he's getting wild his actions is wild, society is wild, town is wild, state is wild, country is wild - no more peace. Is it necessary?

So, where is the point, the beginning depression, heart brokens, to get the heart brokens? To become a strong, for example I told it, Tatyana. For three, four years she's keep crying, emotionally crying. There is a reason - she want to have a connected to the divine. I'm happy to give that, but she's not ready. If I gave that experience to her she cannot able to experience in proper way. For again, second stroke it takes to me my more energy, again for third stroke it takes my more energy, my attention.

One time I'm coming from London back to Germany in a charter flight. Tobias is sat in the front. It's a small charter flight. I sat in the left, Tatyana sat in my right - beautiful full moon, charter flight is take off, I looked her face - crying, crying. I'm very exhausted with the people, lot of interviews, I done a lot of healings and lot of processes I done it. Of course I'm a physical body I have hungers, thirsty, pain and naturally whatever you're carrying, of course I'm also carrying it. Then I'm, "Oh my God, she started, she started." (*laughter*) That Aballah is the flight captain, is his name, is very short and he's very interesting, the charter flight is like this (up and down), barely we sat it and she's keep crying it - how is my position?

Why I'm saying this? You want something, you trusted somebody, you trusted a master, you trusted Jesus, you trusted Buddha, you trusted Shirdi Sai Baba, you trusted Babaji, you don't like any masters, only you like their light, you like yourself, good! No problem. How much discipline you had to maintain the sadhana?

Without chanting, without developing the inner consciousness is very, very difficult. Then you can able to create the light around you. The heat need to burn in you, a spark need to burn in you - that only possible through your silence. The whole prayers inner mechanism is, the ancient days mantras mechanism is - to create pounding your soul, punching your soul, making your soul happy through the inner consciousness way - silence.

Wherever you see the Shiva picture, he's always closing the eyes and quiet and calm and meditating. If you see the Buddha, very quiet and calm and peacefully sitting and meditating. He's a man of peace. Jesus Christ, he's a man of love. Love means Christ, Jesus Christ means love, absolutely true love. There is no any point one percent can enter any block there. Once he's seeing unbelievable love everywhere, where is the negativity can come and hit it? A negativity is attacking on him for cruxifiction, he simply smiled and accepted. Yes, he suffered for us because of, only he suffered - no problem, he accepted to makes them happy as a loving person, "Ok, go ahead, do it." Then whatever again his channels, how he disappeared and his students, what he preached, certain channelings what he mentioned in the globe, "My students will become very powerful then me." What is that meaning, Ganesh?

Ganesh: I know, I also asked you this question. It's amazing, last time in London I asked this question to you.

Swami: Again I'm asking you today.

Ganesh: I'm answering, it's very amazing, I'm just reading all your scriptures from the last nine years and I found one place and you gave the answer and maybe I can repeat it what you said. It was also my idea that is first it's very difficult for me to understand that it is possible for a student to become bigger than his master, it was very difficult for me. It's even hard for me to understand that it is possible that students can become equal like a master because when I see your attitude, your knowledge, your work, working load, it is not so easy for me to understand that it is possible for us to do the same work you are doing.

Swami: Let me ask you this.

Ganesh: Yes.

Swami: You're always sneaky?

Ganesh: No, I don't want to escape. I'm answering your question.

Swami: No, I'm not leaving you today. (*laughter*) If your son...

Lothar: (Starts translating)

Swami to Lothar: What? You be alert ok?

Lothar: Yes.

Swami: You want some water?

Lothar: No, I'm fine.

Swami: Good. (*laughter*) If your son became more powerful than you, how you feel it?

Ganesh: Ah...I...

Swami: Be honest.

Ganesh: He is and I'm happy. He's smarter than me, his heart is bigger than mine and I would be happy. I am happy.

Swami: Not smarter - powerful.

Ganesh: Yea.

Swami: You'll be happy?

Ganesh: Absolutely, yes.

Swami: If a master in your class room who taught you the elementary school. That student, he went on the moon and he established a beautiful, a creativity there on the moon. Is the master feel jealousy or he has to feel really proud of him?

Ganesh: He is proud and happy that he did such a good work.

Swami: That's it. Simple concept is, what he blessed. Whoever believed and followed the message of any powerful saint, doesn't matter, especially the Big Boss channels, his message of true love, just love. Through the receiving the love you might chanting the Indian prayers, western prayers, whatever your soul prayers, any prayers ok, but you had to become powerful to help the globe.

What I seen it, you seen in the today in the television show, hundreds of, especially the typical westerners, I can't understand them one part, with their sadhana they're doing it and they're connecting the amazing things and able to experiencing amazing things - what I need more than that? If I really changed a wild person to a normal person - what I need more than happiness there? Who cares what I belongs to believe, my believe system. If you're really heartfelt person, if you're really divine person, if you're really love the humanity, we have to accept that. This makes sense? You didn't understand. You understand?

Ganesh: I don't understand the mechanism, Swamiji. I understand that if you are spreading your love and your soul power to your students, it is working and the energy is coming, and we can definitely do miracles. But I think, my feeling is, that is your and Baba's and Jesus' energy and not our energy. It's divine energy and you are opening our souls and our hearts that this energy can flow through us - that's what I understand. I don't know what about the mechanism, how it is possible.

Swami: Every person belongs to the same tree. You are a child of the God. We are children of the God, so, why you got confused?

Ganesh: It's so much.

Swami: You have the two eyes - I have the two eyes, you have the two hands - I have the two hands.

Ganesh: It's my respect for you Swami. I know how much you're working.

Swami: Like how much sadhana you did it, how much sadhana I'm doing it - practice, that's important. Some typical your way of thinking, "Well, this looks strange. This this is from Eastern, this is all heavy cult. A lot of gurus is coming and a creating, they're messing

peoples lives. They're stealing the money and they're runing away! They're disturbing the peoples lives and a they're totally confusing the humanity." Use your inner consciousness. You see your friend's experiences then make a judgement. Don't make your own monkey judgement. Don't feel like you're the smartest person then everybody is idiots around you. That's not healthy. That's why the souls, thousands of years the powerful the masters, they cannot able to come to infront of the society and to share the informations. They're little scared.

Master no need to cheat the student, the students is cheating the masters. I had a lot of experiences. Some powerful books I given. I'm traveling I'm going again I'm coming back, "Please, kept it." Simply they're saying, "I lost it." Why is that? It's not only like that, after they received certain abilities, certain name and fame, they're turning as a completely a business way. They're creating their own name and fame, they're establishing their own crazy funny way. They're not really any more worrying about really the pain of the students' hearts. Is really healthy?

If I'm really working with Tatyana, ten years, and I prepared her as a powerful master. She pledged, "Ok, I'm going to help take care the society in a beautiful way." Hundreds of hours I received her pain and trained her, then she turned complete as a business lady. Generally the masters always have the fear with that. You might think if he's really divine Swami, why can't you change it? That's why I always keeping your personal mantras with me. Once if I know your personal mantra, your pin number is with me. Your bank account credit card number is with me. You cannot change your account number. Doesn't matter is my physical body is here or not. You know what I'm saying? Even to myself, if I done any funny stuff, the Guru Parampara lot of nervous. I had to very careful each step, each step need to be very careful.

So many people have a lot of confusion, is really Buddha practiced in India, is really Buddha practiced in Indian traditions? Is the Paramahansa really did the Maha Kali process? Is Shirdi Sai Baba really practiced: Brahma, Vishnu, Maheshwara practices? The same abilities what they done it, Jesus Christ also done it, maybe he also done it or not? Why can't we research? Why can't we practice it? Then why can't we personally discover and able to tell to the globe?

You personally taste it. I bited a mango, I'm saying it's a sweet, then again I'm saying it, "You no need to bite, it's already sweet." I hate that! I says, "You should also have bite it. Experience it, pull him, pull the Mother, have a conversation, demonstrate certain energy channels, heal the depression persons, take care their pain then you see what is reality." But it is lengthy process. That's why on the days, ancient days, in the palm leave books they written amazing divine channels. You no need to know who practiced that type of channels at the moment, but it works, it is working. It's clear. Proved.

This Guru Purnima, almost all five strokes who hitted their power spot, and soul spot, they are going to connect Big Boss the Jesus Christ. It's not me doing it, is them, they're doing it. Their austerities power, their sadhana power, they're going to pull it, already one step they done it. Who are that, Ganesh?

Ganesh: You mean the names?

Swami: Yea, the bleeding cross.

Ganesh: Ah it's Veemala and Martin, Imke, ah who else, Lothar, Mutiam, Mohini, Jennifer K., and me and Tilo, nine persons. Nine students.

Swami: Is it a magic?

Ganesh: If you allow me I tell, I'm telling two or three sentences. We did a process.

Ganesh to Lothar: You want to translate? And first we had to create a big cross. We need, we needed several days for it and you and the students did certain mantras and you wanted us to choose different liquids coming out from that cross. Of course most of us wanted blood and you said, you said, "Choose something else." And I think four or five different liquids we choose. Amrutha, blood of course, special water from ice water from the Mt. Kailash, and also a kind of a liquid its smelling I don't know the name. And when we came to the place, it was the Dwarakamai - the cross was standing in the northwest corner and when we entered the room there was about one meter around the cross. There was a lot of liquid flowing on the floor, and we could see flowing the liquid from the cross. And to make it,

to cut it short, afterwards you asked us to cut the cross into nine pieces and each of us would get one little cross. We also needed several days to cut it. And when we were cutting the big cross we could see at some spots where the liquid was coming out from the wood.

Swami: Is a, is a, any pipes in it? (laughter)

Ganesh: There have not been any pipes and I have even my own proving system. My proving system is very simple. I did this process already three times and every time, one week before, headaches were starting... and I'm a very healthy person. I never have any headaches usually. So the energy is so strong that your nervous system has to accommodate, and one time I really thought, I'm sorry to say that, that you are Jesus reincarnated because I could feel the energy of Jesus so strongly that my heart and my soul was melting. I was shaking with tears with happiness and, and it was a kind of longing and you cannot do this with tricks because usually I'm not such a person that is easily crying. I'm...

Swami: I think your wife is giving hard time, that's why you're crying. (laughter)

Ganesh: She can do everything with me, of course. There are two persons in my life that can really shake me. Number one is Swami Kaleshwar and number two is my wife.

Swami: I'm a simply messenger of Big Boss. I'm not even equal of one of his hair. If you putted his one hair, your a bald head man, one hair, he's such a powerful guy... but I know his bank account (laughter) so that's why he is giving, allowing me to do certain things and I want the students, the globe need to be a little awake with great love - love is the most important. I might be different incarnation, not like a Jesus but I will declare whenever it is come the right time. But is my mission is to bring the ancient information, the ancient knowledge to the globe and to prepare the strongest healers to create the real true love, peaceful atmosphere in the planet - that's my mission. Even though whatever the little hurdles comes - it comes and goes.

Whatever I'm showing, this chocolates like a bleeding cross, and this and that, that and this - to open your hearts, to open you with the

true love, and bringing the lot of divine energy in you. That divine energy can help lot of things in your lives then you really can create lot of happiness around the people. I'm coming again I think in ten to twelve days to Beuerhof. Then we'll see some experience what will come up there, but it is this coming ten days, I don't know where I travels, am I really coming back to Germany or not? How many people is coming here to Beuerhof? Well, you guys you need to put your sankalpam strongly to pull your Swami here.

Good. Few points: Be loving, be strong enough - I know your problems - that's simple clouds. I'm not talking spirituality. Put the spirituality the next, this mantras, yantras, this prayers, sadhana you cannot do it, you're tired, fed up. If you have the time, whenever in your lifetime you can join, if you don't have the time no need to do, just observe it, just look at that. Point one - try to be very loving.

Point two: Any problem comes - don't get shaky. You feel some divine energy is protecting you. I'm not hypnotizing here, is a true, a divine energy is protecting you no matter what. Don't get shaky.

Point three: Be forgiving nature to yourself, to somebody, just forgive it not even to again re-think it. Somebody cheated you, your girl friend is left you, little bit harrassing happened, don't go for fight - simply loving and forgive it. You practice this three techniques, three to five months, you see how your life will be, you see how much you're going to melt with love - that's enough, you no need anything.

Whenever you keep holding the not forgiving, not forgiving then the remaining all blocks anger, anxiety, excitement, unworthiness, the depression - everything is only comes because of you're not able to forgive yourself, you're not forgiving somebody. You feel you got hurted, you been cheated - that is a curshing, that is squeezing your life. Life is short...Life is short - make it sweet. You don't know what's going to happen tomorrow ultimately what She does it. Until to your last breath try to be enjoy as much as you can the peace of mind. You can purchase anything, majority things - you cannot purchase the mental peace. If you don't have the mental peace you are in the cage. No need to in the cage. It's over today, from today onwards it's over. We'll sit ten to fifteen minutes meditation, very quietly - accepting your mistakes, you're forgiving everybody. You're promising to the divine you'll be loyal and happy no matter what. Now we'll sit in the meditation. Turn off the lights, close your eyes, just keep relax.

After meditation:

Shanti, shanti, shanti-hi.
Shanti, shanti, shanti-hi.
Shanti, shanti, shanti-hi.

Loka samasta sukino bhavantu

Bolo Sai Nath Maharaja ki Jai! Bolo Sadguru Sai Nath Maharaja ki
Jai! Bolo Sama Sadhguru Sai Nath Maharaja ki Jai!

Thank you, guys. It was a wonderful evening what we shared it.
Again I will be back to the Beuerhof very soon. We'll spend the
beautiful time there - life is short, make it sweet.
