Students were singing bhajans

Swami: Good. Is excellent music, thank you so much. Let me start my job. You want to sing some more? One more? Ok, go ahead. Only I'm staying here maximum, one hour. (*They sang Shiva Shambo*) Excellent, one more song - *Manasa bhajare* - really high drums, high rhythm, thank you.

Good evening, guys. After six, seven years later your Swami back again to Austria. There is a lot what I noticing, how much change is happening in the student's souls. Ten years back I came here, from now to until to now it's quite amazing, senior students from Europe from especially Austria, too. Austria they're learn a lot, and hundreds of people is preparing and experiencing lot of quite amazing things.

Before I start, let we see little bit India. You'll have some idea about India, a little brief about your Swami life, ashram, Indian culture, heritage. You have Michelle's? (*A Modern Day Holy Man video about Swami*) Greatest slide show – ouuuu, take a little lights down. Hello! Good.

I had a little bit explain about here. This is the ashram... can go forward? According the Vaastu... it's very important point, especially in the Austrian people has to observe the hills, how to maintains the prosperity and poverity. Ten years back, what I noticed

the depression and a lot of poverty, and lot of prosperity there, here in this country. And the majority is the mountains is a functioning very powerfully. That is one of my research. Is called Indian Feng-shui, is Vaastu.

This is from the south all the way west is the mountains - then we have the huge east and north is empty ground and we don't have the east mountains, this is the gigantic west mountain. You can imagine if anybody's house is linked with the west mountain - you're pretty successful guys. If the same mountains is in the east, if the same mountains is like this north - there is a lot of poverty and depression. It's not that much success. If you see the valleys like this in Austria, one side of all the east mountains, one side of all this north mountains - they are not that successful guys. If you see the south and west side mountains, slope is towards the east, slope is towards the north - they are very successful. Today you have no idea about this information. After few more years later, whole globe will recognize this. Still I'm a student. Still I'm researching. Next.

Is the southwest needs to be first height, southeast, northwest, northeast no more weight according Indian Feng Shue. This is the southwest side. This building is taller than the mandir. Next. It's called dwarkamai. The people who was doing the process in the climax they enters here. This, the northwest side, another new construction started. This is the several thousands of years old gopuram structure to entrance from there. Kings Palace is there, we will show you the next Kings Palace. This is the firepit in the ashram, 365 days all the time is keep burning. This fire is linked with hundreds of thousands of people, their karmas, their purification. This is early morning shot. Next. This is old temples. They're three hundred and sixty-five temples is located in Penukonda.

End of Slideshow. Swami chants the Guru Mantra and the complete version of Ganesh Mantra.

Swami: Welcome my Dear Divine Souls, today is something I hope we can share few points on the divine cosmic. Human life is quite interesting life in the God creation. We have the lot of consciousness then the any souls on the earth. A human person, a human being can do the wonders than any soul on the planet. On the days, thousands of years ago, in India they written the *Vedas*. In the *Vedas* they already told it, the human being is going to land on the moon, there is a air

planes with iron birds will fly in the air. The water will produce the light. If you check the *Vedas*, whatever is happening right now already they told thousands of years back. They created *Ayurvedic*, they created astrology, they created amazing divine channels, but somewhere the link is missed between the East to the West. East is very old grandfather - West is a kind of young kid. The problem need to the solution. For this problem, scientist need to understand the spirituality. They need to read, they need to see on the ancient days the formulas on the palm leaves. They had to see the chakras, the yantras on the days what they written it.

Today we can go to a doctor for a physical problem. You have stomachache, headache, eye problems – he'll take care you. What about if you got heartbroken, you're not happy, you lost it, you're not any more normal person? For a depression he'll put you under medication of psychiatric problems. But if you're really heart-broken the doctor cannot take care it. Only there is a spiritual doctor can take care that. That's why very few people only got succeed in the world, like a Jesus Christ, Shirdi Baba, Paramahansa. Only ten or fifteen or twenty or thirty they got succeed the whole way ahead back.

Once the sciences born, the spirituality got getting down. Still, the spiritual channels is existing, the healing powers is existing, the divine cosmic channels is existing. You can still have the great amazing experiences. Everybody is worshipping like kind of a slaves to the masters, the gurus. Are you hearing very well? I help lot of Europeans since seven, eight years, ten years... to me personally learning the English language and understanding their soul pain, and to making them to understand the *Vedic* principles and able to experience quite amazing things - that many thousands of people is gathering in front of me. Some hundreds of Westerners they are in the red saris and early morning, five o'clock, they're attending and they want to do some process – it's not a joke. It's not a joke.

Jesus Christ, he mentioned in his life, "My students will become very powerful than me. My students will become very powerful then me." What is that mean he mentioned? The day is coming. That again after two thousand years later, again the channels started. That link is happening. That *Vedic* information is having the link again back. Its need open heartly accepting nature. Doesn't matter which religion is belongs to, doesn't matter which language is belongs to, doesn't matter which country person it belongs to. What you're receiving,

what you're experiencing, what you're seeing, what you're tasting...if I'm eating the mango and I'm telling you, "It's a sweet, you no need to bite." That is a big spiritual crime!

Today many, many gurus, masters, whatever they're called, they saying, "Ok, just you follow me. I'm your father, mother, brother, sister, everything." They're not saying what type of process they're done it, and they want to give to the students. Whatever they have, the information, they had to share it. How much people in the globe they really had the perfect information on the *Bible*? How much people had the perfect information on the *Vedas*? It's lost. That's my feeling. If it is really the channels is still alive, there is thousands, hundreds of thousands of healers - should be the globe is happy and peaceful. Today I interviewed hundred and ten people. I talked with them, hundred and ten people in usual small groups. Not two persons is happy - heart pain, heart broken, depression, they lost it, they're crying.

My Dear Divine Souls, just I'm making you to awake, is a little wake up call. Your Swami attendance is a wake up call. God is in you - you are a piece of God. You are a part of God. Whatever the God have, abilities, whatever His divine channels - everything is hidden in you. You need a process. You need a guidelines to create to bring that out, to pull that out. You cannot see the electricity in the water, you cannot see the sugar in the sugarcane - it's need a process. Once you do that process, even any scientist, some person gave a formula - you need to research on it. On the days some Vedic mantras is there, prayers - same prayers I given.

In Beuerhof, day after tomorrow, in Germany, almost three hundred people is showing up. Out of three hundred people, majority two hundred people already came to India, not even for one time - many, many, many times they keep coming. Many, many, many times they had experiences. Each step they had experiences - is unlimited. Then certain stage later, you are in the silence of the bliss, you're completely merged with the light, you'll become the light then you start to lighting the many candles in your life - that is the real purpose of your life you came on this earth. Same thing the Buddha done it, Siddharta, he is a king, an emperor, he have everything in his life. After he seen the human relationship, human beings in the street, he left his wife and his kid and the kingdom. He is the strongest person - he want to research, "What's going on? What's happening

with this physical body? Is this physical body is real? Is this my kingdom real? Is my wife is real? Is my body real? What's this drama? What is this drama?"

He left, he sat under the tree, he meditated then he discovered some amazing channels. If you read the Buddha history, if you read the Siddharta Buddha history life you can find lot of things. He's not an ordinary person. Same thing today, you might laugh what Swami talking to like a kids. You are so young and brilliant now. Once you start little old you can't able to walk, you're on the bed, you cannot lift your hands then you start thinking on God. Then the time is too late, your memory power is super less - you're not able to chant any prayer. So, three things you cannot trust in the life I always says: Health - your health, time - the illusions. Illusions - this three is always very, need to be very careful. If you lost it you cannot get it back.

If your age is fifty, since from your childhood days until to your fifty years old - what you gained it? Eating, drinking, sleeping; eating, drinking, sleeping - routine. You are in the sixties - what you created? Nothing. Your Swami is thirty-four. In the thirty-four I created something paradise, it is not a construction - global-wide little awakens, awareness... If I really want to have a huge publicity, 'Name and Fame,' every year I should be here. I didn't came for the 'Name and Fame,' even years later I'm coming, six years. So, life is short, make it sweet. Your Swami is also human being. Shirdi Baba is also human being. He's an amazing master, powerful master, my powerful master - I experienced his miraculous energies. He died, he wake up after three days later, same thing what Jesus Christ done it. He healed blind people, he healed dead people but some energy channels he's produced as a Dattatreya.

Guru Brahma, guru Vishnu-hu, guru devo Maheshwaraha, Brahma, Vishnu, Maheshwara - Generator, Creator, Operator - G O D. The destroyer is always with us. That's called Shiva energy. That is five elements, Na - Ma - Shi - Va - Ya, earth, fire, sky, air, water - that's five elements is linked in us. Whenever you're not able to drink the water you're dead. Whenever you're not able to breathing, three, four, five minutes, you're out. The flesh, the body, the heat - when the heat went up in the body you're sick, you're out. It means that five elements energies, it's completely linked with the Shiva. That is Nama Shivaya - that is Five Elements power - whole cosmic divine

channels is hidden in the five elements. Any miraculous healing powers is hidden in the five elements. If you want to produce a miraculous energy - you need the five elements.

How to find the five elements in you? Already I given that information. There is some more senior students who was worked with me, they'll help you. The senior-most students who work, just walked with me thousands of days, thousands of hours... your Swami spend time with them and I trained and released them. Yes, they will help you. They personally, they seen some quite amazing angels and divine channels. It's not me saying it. Not one, or two, three, five persons not saying it, hundreds of people connected Mother Divine - hundreds of people had the communication. Amazing prayers they know it, amazing divine channels they learned it. Try to catch your friends, your country people. You have your own comfortable language - you ask them, find out the information.

It's not a difficult subject. You no need to wait for ten years, fifteen years to do sadhana - just couple more years, like every day ten, twenty, thirty minutes sadhana, like your breakfast time, like your lunch hours time, like you're eating your lunch fifteen, twenty minutes, like same that much time providing for the spirituality - then you really come out of from the lot of pain and depression. Lot of purification is happening in you, your soul become very strong, you won't get that much easily hurt, you won't get that easily sensitive, you're pretty strong guy. If you're strong, there is no more head-aches in your life. If you are smart and clarity you won't do stupid things and purchase a lot of headaches. If you are not smart enough you're following your mind - mind is a big monkey, it's making you tons of mistakes. You keep changing the hundreds of things in your life - no standard.

Even though you're having a wife, you have one more secret girl friend, you have the ten relationships in your life, fifteen relationships in your life, five girl friends cheated you, six boy friends is cheated you - you feel heart-broken, feel hurt - where is the problem is coming? That's you. Your actions, lack of clarity, you're deceiving yourself. You might thinking you're going for more happy... Happiness is not going up, happiness is going down, going down.

After certain stage later, time is over. Once the time is over, even though you're the unbelievable wealthy guy - your health, your time you cannot get it back. This is the time you need to be awake, to be what's going on in this life, this drama? What is this drama? Find out this drama. What is your role your drama, how long, how far you need to act in this drama? Is there any solution for this drama? Absolutely you have a solution. You can stop the illusions not flowing on you. Even Jesus Christ, he accepted the illusion for his cruxifiction because suffered for us, he accepted. He is amazing creator. He can change whole system of the cruxifiction, nobody cannot even touch his body. To make it to listen, the message to the globe, he accepted it. We are not such a great persons like him. We don't have that much patience, we don't have that much energy to even know somebody is torturing us to accepting it. We need some protection circles, we need a, some divine blessing, that, how to get it to able to receive a divine blessings? How you had to turn as a divine? How you had to open your heart? How to ask, how to ask? Asking means, how to pray. Whole your Swami concept, different languages - how to pray to God... Doesn't matter any language, any religion, let's pray him to get out of from this headaches, to know you are yourself, to recognize the reality.

Even though Swami done this and that, lot of chocolates, Swami healed that person, he healed this person, he take care this, he did a miracle. I did not did anything - just grace of Mother, grace of Baba - just is a chocolates. You're crying, you need to... I need to make you to feel it to pull your attention. Whatever the parents they do, same thing I done it - miracles is not important, but is divine blessings in your life is important - is a priceless. It's a priceless. Is anybody have any questions? Your Swami will be here only five more minutes. Yes?

Student: You said that all people are connected with one another, is that true?

Swami: What is that? Connected to?

Lothar: To each other.

Swami: Of course.

Student: What for do I still need protection circles?

Swami: Is an ocean water, is a link the ocean but you have your each individual character. In this hall this many faces here, is anybody's faces similar? A tree have the tons of roots, each tiny root in the ground sucking the water and bringing to the tree. But why cannot be only one root? That's why I had to make you to learn this drama, to know this drama, it's very important. Next?

Student: Why you think that so many people are not happy?

Swami: That's a good question, that's why I'm here. Why Lothar do you think the people is not happy?

Lothar: Because they are running away, they are running towards something and they are running away from something from the past and into the future.

Swami: Too much desire, unsatisfaction, anger, left out, not having forgiving nature, unworthiness...

Lothar: I agree with that.

Student: There are so many people who are happy.

Swami: No. No. How many people have here never ever had heart broken? Hello?

Student: But just for a short time.

Swami: See, not even four, five people. There is almost all four hundred people here - everybody heart-broken. Why you need heart broken? Whatever it is, my sincere recommendation, hopefully again I will come to Austria and spend couple days time with you here, guys. If it is God is exists, learn how to pray to God. Learn how to pray to God - very important! Be happy! I'm not creating anything in your lifes. I'm giving a concept of Eastern Wisdom to the Western Minds. What is there, what you seeing it, what you had to know it, that's it. It's nothing new, it's nothing from me - what is already there from before, that's we had to see it. Good luck and give me permission to next my program. Happy day, guys.
