*Coming in to one line to hit your process.*

**Swami:** Should we make this whole temple like air-conditioned?

Tatyana: During the hot season air condition would be nice.

**Swami:** Making air condition?

Constanze: I like the wind. The wind is nice.

**Swami:** Tomorrow your Swami is scheduled to take off for Switzerland, since seventy-two hours, almost no sleep. Who was here this morning early abhishek? (*Swami asks different people*) Its quite amazing conversation with Mahamaya last night. Super positive. Super positive. Only facing right now her one problem - your energies are not coming in one track. Brahma is here and Eric is here, Constanze is there, Tatyana is there (*shows one down and one up*). You

know what I'm saying? Once if I start the chariot, all the horses need to go the same speed then the chariot can go very successfully; the journey can go very smooth.

I told to you to put a satsang. I don't know how you're going to get that really sharing with each-others - no block misunderstandings with each other. Then it's not a big deal. Energy is super ready to take off. Some people go crazy like a 'monkey mind' asking tons and tons of nonsense questions. Some people they're receiving, even they're not asking any questions, just listening and understanding. You understand?

Point - how you communicate with each-others at your heart level? Here no power struggles, no inferiority, no superiority - I can't help it. Even separate the groups, this, this, this, no problem. Senior students know very well about me. Once if I really jump in the processes, I go non-stop. So you should really communicate with heart levels in depth. In depth, creating the true love with each-others, caring each-others. I know it's hard. It's not that easy.

For example, me, in my position, I care everybody's feelings. I respect everybody's feelings. I admire everybody's hard work. In your position, you have to think only one concept: we're all here to receive something - that is the Divine Love. Who knows what they're going to receive it, but has to accept your friend, even their emotions little high or less, they're crazy talking or less talking, jealousy person, intensive person - that gives headaches. You know what I'm saying? That's a very, very problem. That's why the masters where they got failure - not creating that strong bond unity of the student's kingdom. Involving each your friend in the mission, it's easy. You're accepting... you're accepting your friend. Done.

This morning Baba was taking a shower. I came. Only I asked to him, only he has to take care to create... Bite with one finger is different... with huge all fingers, like together – punch, different. Then you have no idea what you're going to experience. To your 'monkey minds' that's natural, "What is this lila?" To my 'monkey mind' sometimes, "Why I have to do this crazy lilas? Why I need to do?" But has to do. Has to?

Elizabeth E.: Do.

**Swami:** Has to experience it. Even whenever Baba was with his master, Venkusa, a few students, they really hate Baba., some of Baba's friends. They beat him with a huge brick. A power struggle is the most, worst thing you should do. Do you understand Paul? I know a few characters. If it keeps running like this, I'm very sorry, I'm sending them back to their home. The remaining people they'll get disturbed - I can't accept it because of this mission is so important, so important. What should I do huge there? I can only do with your support.

Master is not a big deal. The student is a big deal. Student's open heart is a very big deal to the master. Without student there is no master. It's a joke. Student's open heart, that's a part of the master's duty too, to make their heart open. I did my maximum best. I'm doing my maximum best. Mahesh Yogi, he was not an ordinary character. He was a powerful person. His concept is to make the people levitate. I don't know if he did it or not, Anya your dream man levitated?

Anya: I never saw anyone but I didn't see everyone.

**Swami:** You seeing I'm cutting the trees, trimming the trees making more light? The ashram is now more light. Why are you smiling?

Constanze: Because it looks very dramatic, very neat, very proper.

**Swami:** No, before it's like, "Take out." It will grow again. It's not a big deal. I'm trying my maximum best to hit it. So, point one, satsangs, human relationship satsang. Don't talk spirituality, put that second. Who has the huge problem in your groups with each other? I want to hear one example. No, it's very serious. Yes?

Eric: Well, I have one of my brothers here, seems to always block me, and it causes me a lot of frustration.

**Swami:** Who is that Paul?

Eric: Um-hum

**Swami:** Brett to whom do you have problem? With your wife?

Brett: Little small problems. Not a problem, husband and wife tension.

**Swami:** You Constanze?

Constanze: I don't know. Problem? No.

**Swami:** Veemala?

Veemala: With my sister.

**Swami:** With Monika B.?

Veemala: Um-hum

**Swami:** Anya?

Anya: I don't have problems with anybody.

**Swami:** Sarah?

Sarah: Nobody.

**Swami:** Johanna?

Johanna: With Birte.

Birte: I thought everything was okay, but if you feel like that (can't hear the rest)

**Swami:** Tina M.?

Tina M.: Myuri sometimes.

Becca: The one I have most trouble with is myself.

**Swami:** Yourself?

Becca: My old habits, closed heart and skepticism. It gives me the most trouble. Not anybody here.

**Swami:** Brian?

Brian: Honestly? Brett.

Swami: Tobias?

Tobias: What? No really big issue with anybody.

**Swami:** Tatyana?

Tatyana: Right now no big issue. Sometimes I have a hard time with Monika B.'s energy, but not a big thing.

**Swam:** Myuri?

Myuri: Nobody now - sometimes with Luzia.

**Swami:** Luzia? Where is she? (*Sitting outside on Veranda*) Lora?

Lora: Same like Myuri, sometimes with Luzia, her energy is blocking me a little bit. It's not nice.

**Swami:** Ganga?

Ganga: No one, Swami.

**Swami:** Terry, your wife?

Terry: No, right now, mostly not.

**Swami:** Cyndria?

Cyndria: I'm so busy taking care of everyone's problems that I don't really have any.

**Swami:** I have no problem with anybody. Me? Hun-un. Only I have one problem with one strong guy. Can't say who is that. But I'm happy. Happy. Simple, silly things, do you know how much it's cutting your energy? It's not a joke. It's not a joke. A power, any powerful thing is always danger - having a desire of it. I'll tell you a small story. A great saint, he's meditating in the forest - purely sattva, a quiet, calm person. He wants to win the divinity. He wants to win Shiva, the Mother. To disturb his meditations... it always happens. If you're creating some beauty, the disturbance always wants to do. That's its job - to disturb you, that's the nature's job.

Devindra, he's the boss to all the Gods. He always has jealousy to anyone not to win the divine. That saint was meditating. Devindra came and put one knife very close to him then he said in his ear, "Careful," then he disappeared.

Then the saint opened his eyes then a big beautiful knife is there. Then he keeps meditating and he's thinking, "Okay, I have to protect that knife. Maybe somebody dropped it here." Then he's meditating

and every time he's touching it. Meditating. Touching. Meditating. Touching. See the disturbance started. The attention is going to the knife. It's a power. Then later, "Why? Shut up." Then he took the knife and put it on his lap and he's meditating. Then in his meditation everyday he has to do sometime the homa. He has to cut the grass and using some sticks. Before he used his hands, now he's thinking, "The knife is there, why can't I use the knife?" Then he started using the knife, cutting the grass and little sticks.

Then later one... whenever he's cutting the grass, there are some bugs, some insects. When he's sawing the bushes, he's cutting through with the knife. It means he turned his guna, his character, from normal sattvic, from normal character, to chasing the bugs, cutting the insects - it's injecting it - the knife is injecting his violence, creating the violence in him to throw it out.

The point is, he's okay but the knife is making him to do that. The power is making him to do that. You know what I'm saying? When to use, how to use, where to use? The power is the most important. You cannot use the power wherever you want, whenever you want, for silly, simple, crazy things. The power itself is very dangerous. Your position, you should not implement your reputation whenever you want, whenever you want for unnecessary things. Then the problem starts there. You understand? You're okay. What you have the power, the position, the glory, what you're carrying it, how you're going to utilize that, use it - that's important. If you're not recognizing that, the rest of your life you keep damaging your life. Does it make sense?

So, you are in the divine presence. It's natural certain things want to give you disturbance. That disturbance coming through Myuri, Luzia, Tina M., this, that, even yourself, it's not a big deal. Once you start to recognizing it, "Hun-un, I should be careful. I should be very careful." Then you're okay, your life is okay. If you have a problem with somebody - sit with them, talk very open friendly. You think she's the problem, maybe you're the big problem and you're throwing it to somebody else. Your blaming on somebody but major you have the problem then you're throwing it to somebody. You're not really recognizing what you're having the problem - that, you need to openly accept it, bring that out. You're happy with everybody except Tatyana. Tatyana has the knowledge, her position, her capacity or phenomena – whatever the beauty is there. You don't have that, that's why it might be you're attacking on her. First check

yourself. Check yourself and ask the help to dissolve that, where you really got stuck, then no problem. Then your life will become very smooth, peaceful - happy... Clear?

Students: Um-hum.

**Swami:** I don't have any bad intention to giving you a hard time. I'm telling you as a message. This is the most important thing what you need to develop. So the life is in your hands, the problem - sit, ask, ask, ask, ask. He's (Baba) the person creating everything. Ask him. If you keep holding it in the processes, somewhere, some place, sometime it can really wound you to disturb you very badly. Whole your car tire is good - one hole is enough to make it flat. One tiny block, one tiny uncomfor, the Mahamaya is always searching where is your weak point to get that, to make you flat. Don't give that chance. You have to keep check, check, check, check, of course we're born as a human, these all things are natural. But whenever you're in sadhana, you have to put strong discipline boundaries, like soldiers discipline, "This way, this way, this way, this way, this way." No other alternative. Clear? Any questions?

Lora: Is it okay to ask a question to a subject you're not talking about?

**Swami:** Only this subject.

Brahma: I have one disturbance. I'm a little disturbed about the dogs that have been here for four years being taken away. I don't know for what reason. I'm being honest, Swami, it disturbed me, that's all.

**Swami:** That's a good question. Why we doing that Tatyana, taking out the dogs?

Tatyana: I didn't even notice that the dogs had been taken out. I think they're well taken care. And honestly I think sometimes the dogs created a disturbance here and to me it feels like a big relief that

they're not here anymore creating less attachments in the student kingdom and not creating disturbances during processes.

**Swami:** If the monkey everyday is attacking in your room, disturbing in your room, what do you do?

Brahma: I take care of the monkeys. I get rid of the monkeys.

**Swami:** Even I said a few monkeys are here giving the headaches, like really violent, different secretly, strictly I told it... I'm packing their luggage, sending them home. Period. You'll see my toughness. That's the most important thing because of one or two persons, with their own headaches, their own crazy blocks are influencing on everybody. I can't tolerate that. I can't change it. I keep trying to change it but it keeps happening. That's a big crime, a really big crime. You should not do that. We have no right to even hurt each-others - that's a big crime. You have no right to ruin somebody's happiness. Hun-un. Any questions?

Myuri: You started the conversation with Mahamaya, that you had a conversation with her. I'm wondering what that conversation was about.

**Swami:** Just I told it. Somebody's energy is here, somebody's energy is here, its not equal strength. Everybody has that strength but not bringing that up.

Myuri: That's the positive? You said you had a super positive conversation.

**Swami:** She's ready to give it but you guys need to be... it's my job to tell you to overcome that.

Lora: As the old students come back to the ashram in the coming days, do they get pulled into this group?

**Swami:** What's her question?

Eric: She's asking if the students who are returning, if they should join the process?

**Swami:** That's my job.

Sonya: Swami, sometimes I have a negative interaction with a person. It hits me, like something negative happens between us, uncomfortable. Then it hits me. I hold it and I don't know how to wash it, how not to absorb it? Like hitting me inside and then I have like this mind thought about the person. How to stop that? How to stop absorbing it?

**Swami:** Keep loving - only love medicine to taking care of that. For example, Tobias, he's a good friend to me. Sometimes I gave maybe hard time; sometimes he gave hard time, but I'm really taking... what service I did for you, have I done for anybody else in the planet?

Tobias: No.

**Swami:** Like I guarded him in front of his door, like sometimes thinking, "Hey, I'm his master. Why am I doing this stuff?" Really got it, sleepy, sick, really sick and exhausted, but I have to take care of him, respect of his feelings. Because of, how he really took care of me through his love. That love making me to do what his feelings, respecting and taking care of that. Love is a big weapon. You can win anything in the planet through that. Try to develop that. Okay?

Students: Okay, Swami.

Brian: Any words of advice that you see in me that I could improve on as Group Leader?

**Swami:** You're doing okay, but sometimes you're forcing yourself too much. That's not necessary.

Brian: When you say forcing myself, in what sense do you say that?

**Swami:** The rain is coming you need to get a bucket of water. You can take an umbrella, take bucket, pull it out - put the umbrella over your head. Whenever you're getting wet, all the girls are looking at me, "Oh my God he's really working hard. Oh, he's really working hard!" One umbrella on your head, fill the bucket pull it out. You know what I'm saying?

Brian: Okay.

**Swami:** It's simple. I'm sorry but I'm noticing every character who is here what they're doing. Even though I'm in my bedroom sleeping, two minutes if I caught you in my... "What you doing," get it. Point, straight point, when I get back from Switzerland, I need really you guys clarity enough – very open hearts, very open hearts, then it's done. Prema, Satya, Dharma, Shanti, Prema. Prema - once you have the love, peace automatically comes. Once you have the peace, then you do your job accurately, your dharma, your duty. Whenever you do your duty, then you feel bliss in it, that is satya. That's enough. Good luck. Have a nice time. Go for Arati.
