Swami's International Programs 2008

Schweibenalp, Switzerland: Day One

Maha Kala Chakra Program

June 13, 2008

Swami: Good afternoon guys, such a thrill to seeing them and explaining what they're doing here. I understand how much stress and difficult it is to organize one seminar. Even in our crew, for example Ralf B., Roman, Ganesh, photographer, Gustav, translator, Klaus, decorators of the room... you guys are having huge unity, and since years taking care of each of my Europe Programs very smoothly. Only I'm seeing the surface as very beautiful - underneath, how much stress and hard work is hidden in that.

For example, his sound system, that's his headache he has to take care. The video system, he has to take care and even this dias is beautiful, the flowers, lights and Baba's picture - everything is smooth. Putting a lot of energy here to create this atmosphere, it's not a joke. Everybody thinks, "Okay, a program is coming, we're going there." Like this ground, especially what I noticed is having very powerful high vibrations. When Tobias showed me in the satellite photos, "This is how the place really looks." He also showed some photos. I asked him to give me one night. Then next day, clear, "Go. You can hit it."

So this ground has invited me here. Some Divine cosmic energy is already hidden here. The Element's energy is so powerful here.

That's why we're all gathered and having some amazing experiences. Especially I'm so impressed with the fire-pit. They made it so traditional. I didn't see like this anywhere in my life, even in India where I've been to thousands of temples. They didn't make it like this – very, very elegant and traditional.

So we have to appreciate all the organization people who are working here, and heartfully I appreciate my crew, the Guru Parampara crew, what hard work you're doing all the time organizing all the programs, and heartfully I appreciate them, thank them and give my heartfelt blessings to them. Today will be a very interesting, new subject.

Missing the first 20 minutes of this talk.

Bharati: From a medical point, usually if you cut a throat everything is bleeding out.

Swami: Okay, the crucifixion happened to Jesus Christ. Lot of bleeding happened. His huge body is hanging on the cross. After three days he came back. This bird came back alive. What is the difference?

Bharati: Yes, you said that Jesus was an expert on Khanadana Yoga.

Swami: I'm not criticizing any religion here. It's not me who did that. It was the energy channels that wanted it to happen at that moment it happened. The energy channels, the angels are ready to do, Mother Divine is ready to do - they did it. It's only possible to happen by switching that soul through the Kala Chakra, going back one day, then going forward - rewind, forward, rewind, forward, rewind, forward. We can make Lothar as a sixteen-year-old boy's nature. Once he turns as a sixteen year old boy, he's forgets everything. Seriously. Now they're doing another experiment with a Jesus Christ stone. What is that?

Bharati: Swami wants to levitate the stone in the water.

Swami: Generally there are a lot of saints, I can't make a comment, but they say, "Okay, we'll make you levitate in the air. We'll make you levitate this." Why you need to levitate? You can have a small ladder, climb up and stand. You have to use tons of power and energy. Now there are sixty people in the ashram. They made a Jesus statue out of huge granite. Even five, six big guys can't lift it. That rock needs to levitate in the air and levitate in the water like a leaf. It's not black magic. It's not a dark energy. There is no dark energy soul born yet, in the planet who can implement on Jesus Christ.

So, it means we're bringing his soul in that statue. That's going to happen in a few days. There is some mechanism there and I'm giving and you're receiving a mechanism here but I'm not seeing the link happening. I know a few people are understanding but still the mechanism is not linking. Once you link that mechanism, you're done.

A northeast slope gives the prosperity. East mountain gives the headaches. I know the mechanism – personally I experienced it. It's a very important point. Personally I experienced it. If I tell somebody, "Southwest swimming pool is crazy and east mountain gives a lot of headaches," you cannot trust, you cannot believe this with your suspicious 'monkey mind'. That's natural. You have to get the experience of that or you have to have huge respect for the person who is telling you that, and receive that experience as your experience. It will only happen when you totally surrender and give your love to that soul - that's called Guru Parampara.

Of course we respect all masters, all religions. We respect anybody's philosophy. We're not against anybody. In that philosophy, in that mechanism, in that miracle, in those experiences, in those energy channels - a healing, a miracle is happening. A healing is happening. What is in it? Your heart automatically opens. You're listening to music through your ears but you're crying. Your heart is touched. You're seeing a scenery, a kid is really starving, an old person is really suffering, you want to help but you can't help. Maybe you can help. Without your notice some tears come - that's where the mechanism starts. The love is the mechanism. Through love, fall in love, really caring, worrying, attachment, divine attachment – when you develop that, that's it - majorly you won it.

Then the Kala Chakra, this prayer, all this stuff, it's kind of good but it doesn't really help. You're holding huge pain and suffering, you have a lot of doubt, suspecting, but you're chanting the mantra. Does

it help? Never, ever - open heart totally open. For sure one day you need to take off. You know that. You have to admit that. Point two: Get out from the fear of death. One day the death is knocking at your door. Once you win the death of fear, the victory is your slave. Divine is your slave. You are the divine. Divine is in you, around you is the divine 'Aham Brahmasmi' everywhere is the Brahma Consciousness. Everywhere is His love. That consciousness, once you're there, you're done. Sometimes He gives the family problems, health problems, psychological problems, depressions, heartbreak, egoism, fighting nature - where are all these coming from? Just to disturb you, to divert you in a wrong way. Whenever you're going in a right way, it always wants to disturb you, to divert you. Once you're diverted, you really lose ten years time. Again to heal that you need two, three years then another problem starts. Then again it takes a few years to overcome that, again to heal that two, three years. Endless game! Endless game!!!

That's why Siddhartha, he gave up, "Forget about it." He had his big kingdom, diamonds, gold, soldiers, beautiful wife, beautiful kid - he had everything. He didn't trust all these things. He wanted to know the reality, "What is this Kala Chakra?" You can trust anything in the planet? But two things: one is the **time**, second one is your **health**. Time is very, very dangerous. Sometimes it's good fortune, sometimes super, strange fortune. Whenever really good fortune is coming to you - that's the time to utilize your open heart, to practice, to surrender, to have experience whatever it is - win the victory. Until then you're not having experience, or a senior most student is talking about their experience - that experience you have to take as a model. Have a sankalpam, a thought in your heart - you want that. Once if you keep the thought, "You want it, you want it, you want it," one day it has to happen. It will happen! You're doing a japa, you have a strong desire you want it.

Like Vivekananda, he went to Paramahansa Ramakrishna, "Hey my dear Paramahansa, I've been to tons of saints. I got fed up, I want to see God!" Paramahansa looked at his face. He understood his pain. Vivekananda asked, "Have you seen God?" Paramahansa simply said, "Yes, I've seen God." Vivekananda asked, "Show me now." He was really ripe enough, ready to see. No, the divine energy is here, his energy is here. Either Paramahansa has to bring the divine energy down, or bring Vivekananda's energy up to make it equal. Once it's equal, then he can have the experience. Simply Paramahansa said, "If you really want to see God, I'm going to give

you this prayer. Practice it for forty-one days. You have to wake up early every morning, go and sit in the water up to your neck, chant this mantra, then after forty-one days come back.

“What? To see God I have to do this? Can this mantra really help me?” He thinks he’s talking non-sense. He can’t believe that but inside he has some strong belief, “Let me do it.” Then everyday morning he woke up, went in the cold water, super shivering. Two days he did it, the third day his inspiration was really going down. Anyhow he kept doing it then again he brought up his inspiration. Forty days were over, on the forty-first day at late night when he was sleeping, he saw in his dreams the toe of Mother Divine, only Her toe. Huge hairs, aggressive huge sound, but only he saw Her toe. He got unbelievable fear – huge shock! He woke up then he ran to Paramahama’s hut, knocking at the door, “Paramahamsa!” Paramahamsa opened the door, “What happened?” Vivekananda said, “I don’t want to see God. I’m not able to see even one toe. If I really saw Her whole form, I’ll be dead! Teach me slowly, step-by-step. I’m not leaving your feet. I’m at you.

Why I’m telling this, step-by-step, step-by-step to grow. Practice it. Practice it. Even whether you believe it, you can’t understand it, practice to understand it. This Kala Chakra is not an ordinary chakra. I’ll show you in the palm leaf book, it’s written very powerfully. Only I’m talking two percent on this Kala Chakra, ninety-eight percent of the Kala Chakra book it’s quite amazing. It took me more than one month to study that.

So my Dear Divine Souls, Kala-time, chakra-cycle - your soul clock. You have no idea when your clock started, click, click, click, click... You might think, “Why Swami is always teaching this chakra, that chakra?” Take any small leaf, small flower and dissect it. Put it under the microscope, have a look. It has it’s own structure. Anything in creation even a water drop, a saltwater drop - any mineral drop has its own structure. These structures are nothing, totally nothing. That much is hidden in the chakras in the creation. To your soul, your Kala Chakra somewhere you have to connect here to there. Once you have linked the Kala, time, enlightenment, enlightenment means bringing you 10,000 years ahead, one million years ahead, how you’ll feel, how you’ll look or 10,000 years back what you were, how you were - that you need to know.

But you cannot stop what is going to happen tomorrow, earthquakes, disasters...I think everybody already got the message to chant the

Earth Element Mantra, then it got a little quiet, calmed down. If She really wants to do one tsunami, She'll do it. If She wants to do one big earthquake, even though we're strong masters on the Kala Chakra, if She decides She wants to do it, She'll do it. But we can make Her nature to calm down. We can make Her to divert. Thousands of times I diverted Her, keep diverting Her - it's a big game. She's super loving, unbelievably loving. She's giving a kind of symptoms to us to be awake. Life is short. It's running. It keeps running, running, running... Be awake.

Try to have a look on Her to pull Her in you, digest the reality, the real knowledge in you. Stay in that real fragrance forever and ever. In one lifetime if you sucked the fragrance in you, it keeps coming for many lifetimes. You need to get the right seed. I know how big a tree is hidden in that seed. My biggest wish, my mission is, to put the right seed in you to grow. Automatically it will grow then you can create tons of seeds, then you can really give the big mission.

Today if Buddha did not do this process, today we could not get this. If Jesus Christ was not born we wouldn't have such a strong mission, some message from him, we'd miss it. Shirdi Sai Baba, what he did, his messages, if he wasn't born, even though his life was up and down - today we're receiving an amazing fragrance. We're taking it symbolically.

Your life needs to be a symbol to your neighbors, to your country, to the globe. Not only Jesus Christ, Shirdi Baba, Buddha, Paramahansa, Yogananda, Vivekananda - not like this. There are only thirty, forty, fifty, sixty, one hundred. Why can't it be thousands? That's your Swami's mission. You can do it. You will do it. I'm here to really help you. If you can drop your suspecting character I'm with you. If you open your eyes, if you look at me then I'll look at you. If you're not looking at me, I cannot look at you. You know what I'm saying? I cannot describe in front of a blind person a beautiful girl. If you really close your heart, even if you belong to one strong religion and think, "This is all crazy, this is a cult - non-sense!" There's no non-sense here. There's a divine fragrance.

A doctor wants to be an expert. To be a Soul Doctor you have to play with the chicken. You have to play with the granite rock to make it levitate - tons of stuff you have to do then you'll come up. Even a normal doctor cannot become a doctor without touching a dead body. A normal doctor has to play with the normal dead bodies. You're a soul doctor - you have to!

Martin: As I understood you Swamiji, it's the love, the real surrendering to God and on the other part it's the Brahma Consciousness. Those are working together. Actually I'm asking a question. What makes a miracle? You gave some hints and you explained that the source and trigger of making a miracle is the divine love, the love of God. Then somehow the Brahma Consciousness has to make the elements get done in the right proper way to make the miracle done. Is there a bit more explanation how miracles are happening?

Swami: I have no idea what you're talking? Do you guys have any idea what he's talking?

Martin: I'm asking. You already explained that a miracle only happens when the heart is completely open, so that the love and affection is flowing. That's one part. But a miracle only happens only when there's the sankalpam to make it happen, then the angels and Mother Divine makes it to happen.

Swami: Um-hum.

Martin: So these things have to come together? That's my question.

Swami: Yes, so simple. First: Love yourself. Love yourself. Two: Accept, surrender to Guru Parampara then start loving around you. You know, one day you have to drop all these things around you. You have to take off. Another most important thing is, the mechanism the master is doing. Sometimes the Mother wants to do through me. At the time I totally surrender, I accept it. Sometimes even if I want to do it, She's not giving permission. I can make Her convinced, but why should I take a risk? Stop it. Learn the knowledge step-by-step, step-by-step to reach the destiny. You don't need to know today - you have to know in this lifetime.

In this Kala Chakra, once you hook it, this energy, if you hook it you won't lose it for any lifetime. Another point, whatever problems you're having in your life, I also have problems, tons of problems, but I never consider them a problem, it comes – it goes. I never get stuck

in it. If you have the connection through the Guru Parampara, just throw on him, "My problem is your problem. My headache is your headache. My sickness is your sickness. My depression is your depression." Why do you need to cry with your pain? Huh-un. No need to cry for your depression. It's temporary. Your heartbreak is temporary like two, three years. It won't stay for ten, twenty, thirty years or the rest of your life. It comes as a wave.

Just throw to him, "Baba, hey Swami Kaleshwar, here is a candle. I'm dropping my depression to you. I'm giving my pain to you - take care of it." Done. Make a strong commitment, deal. A few people I invited to the ashram, "Ok, I'll give the scholarship. I will feed you. I will give you clothes. I will take care of you for the rest of your life. Come and learn the knowledge." They're still thinking they have to work, work, work - family attachments, family attachments, family attachments. That's good, same time see what he's giving. Do that. Complete as soon as possible, be under the umbrella of the Masters. That helps you a lot, to learn the real knowledge.

Whenever the time is over, automatically I'll send you back, "Now is the time you have to go - work." At 2011 Guru Purnima, any student who's doing the Five Elements or any sadhana... today I'm requesting you guys and I'm advising - for six months you need to be in the presence with your Swami for traveling entire India, especially Ganga, Benaras. We need to see the Harichandra Ghat. It's one place where they burn the dead bodies, taking the ash and putting it on the Shiva Lingam. That ghat... Harichandra was a King who pledged to the divine. He lost everything. Finally he got one job to live his life. He was an amazing King. That job was to burning the dead bodies. They gave a place to him near the river with the flowing water. Even today they're bringing the bodies, burning them, taking that ash in the pot and going to the Shiva Lingam, dropping it there. It's a little crazy to your belief system but in depth there's a law.

I'm giving until 2011 - how many years are left? These next three years until 2011 you can do whatever you want. But for those five, six months starting Guru Purnima 2011, you need to be in the presence with your master. There's a big chance you'll witness some unbelievable miracle experiences - that's the time.

Now the fruit is still hanging from the tree. That Guru Purnima time it will be ready to fall off and share with everybody. So mentally and all, with all levels of your family problems, I fixed it. Make it reserved. We're taking one whole train, many bogies in India to

Benaras from the north Kanyakumari all the way to Kashmir to Haridwar, Rishikesh, Badranath, Kedranath seeing all. So it takes three years for me to prepare for all this stuff. Any questions?

Klaus: Swami, you said how important it is for your students to experience a miracle.

Swami: One part it's experience, one part somebody's telling that and taking that as an experience.

Klaus: So my question, can we experience a miracle tomorrow together with you?

Swami: If you really pray with Mother, yes it's possible.

Klaus: Thank you. That was my question.

Ganesh: Swamiji, you said how important it is to overcome the fear of death. I'm kindly asking you to give us a hint, to tell about my personal experience. Every night this several times I died for the past month, and I really thought I was dead. The first time I was really panicked. After maybe twelve, twenty times, I got accustomed a little bit to it, but it was still not pleasant and I have no idea how to handle it and I would really love to overcome the fear. I'm still real attached to this body. My mind knows I'm not this body but I would like to know, to experience I'm not this body.

Swami: You have medical insurance? Health insurance?

Ganesh: Yes, a little bit.

Swami: Make it more.

Ganesh: That is your advice?

Swami: Yea, you have two kids, a beautiful wife. It helps.

Ganesh: Maybe you can give another hint Swamiji?

Swami: It's okay, I'll take care of it.

Ganesh: Thank you.

Volker: Swamiji, you said to love our selves. I guess it's linked to fear, but how to love our selves best? What is your advice the best way to do this? What do you mean to love our selves?

Swami: Like you always feel you made a mistake. You're not good enough. You're not kind enough around. You cheated your girlfriend. You cheated your boyfriend. You cheated your business partner. You're lying, hiding, not loyal to yourself. Not loyal to the society. You're the man of the secrets - all these type of stuff. Who is really loyal to yourself here? Be honest, you're with your master. Who is one hundred percent loyal to your self?

Lothar: Even in my mistakes still I'm loyal to myself.

Swami: Did you tell, your friends or your partner or to who ever you really believe in, your mistakes? Did you tell it very loyally?

Lothar: Yes. You told us we needed one soul mate to talk to about everything.

Swami: Who is your soul mate? Not many just one?

Lothar: The person is sitting here – Suzanne. She is one person I can share everything about my life with her. I have nothing to hide. She's married to another man so there's no worry about this. I have two

more friends from South Africa, Delores and Paul – same, I can trust them one hundred percent. I can tell them everything about my life.

Swami: You can or you already have?

Lothar: Paul, Delores have I told you about my life?

Paul and Delores: Yes.

Swami: I trust you too, but I cannot trust you one hundred percent. You're with me since nine years.

Lothar: What is missing. How can I, how can you trust me more? How can I prove myself to you as an example to everyone else who is sitting here? And I'm seriously asking you this. What is missing?

Swami: What do you think?

Lothar: My relationship problem?

Swami: Your relationship problem and your businesses. Your emotional blocks – that's very dangerous and for fun, or even not for fun - not hurting anybody and doubting on somebody. Even though you have doubt, you're pretending you like him, that you don't doubt him. Put that way, the major thing is the real Soul Mate. The real Soul Mate solves, it's very, very clarity. How to create the Real Soul Mate to the Kala Chakra? I personally promised the Big Boss Jesus Christ in his life. On the day at that time I put my hand on his hand, and he made me promise five times, "Are you really going to bring this knowledge back to the globe?" I said, "Yes, I promise. Yes, I promise. Yes." It took 2,000 years. A lot of my personal stuff is all done. Then when I got enlightened, he came to me, "Do you remember me?" I told him, "Of course I remember." I smiled and I gave a kiss to his hand. When I'm giving a kiss, he's crying kind of tears, "You're having amazing knowledge what I already blessed to

you, what I indirectly brought to you. You have to prepare the students to bring the bridge. You have to do this mission.”

Generally working with students, that's not my nature - to be very quiet in the caves, under the trees, in the distance pleasantly working and happy. After I promised, he made a very strong commitment there, “Work, work to fulfill his mission,” then I took a few more saints as a strong souls around me – Shirdi Baba, Paramahansa, Babaji, Ramana Maharshi. These saints helped some. Sometimes I go huge high pressure, of course I have a physical body, of course I have whatever normal things you have, I have that too. You won't believe it. Then connecting to Paramahansa, connecting Ramana Maharshi, “Hey man, take care of it.”

Some chocolates - Khandana yoga I have to do in Dwarkamai. Who cares if a granite that five, six people cannot lift is levitating in the air and levitating in the water. Like She commanded, “Do that.” It brings some kind of evidence and proof in the planet that certain things are happening. So simply accepted, “Okay.” The ‘monkey minds’ generally won't believe it. Once if they want to believe it, if they're seeing it, lifting it with their own hands then, “Okay.” Even now I can't believe that easily that really I'm doing it. It's not me. It's 0.00001% it's not me - that is Her energy. That is the Big Boss Jesus energy. He's coming back. He made the comment that his students will become more powerful than him. That's his comment. That's coming true. I'm doing my job. I'm doing my service. This journey or maybe next year, or year after is my last journey for Europe. I believe so.

So my Dear Divine Souls, to what I'm going to teach the Kala Chakra the major, major points try to listen very carefully. Try to make points on it. And if you really want to have the experience how the soul traveling really happens, at Guru Purnima your Swami is doing it. And the Alahala Lingam is coming out from outside next to Dwarkamai. And you have no idea those slates where the Alahala Lingam is buried, really sank. It kept sinking. For several months nothing happened. Cleaning, we fixed the cement around the slates. We started a process and started putting water on the slates also tons of rain had already come. After the process started, the slates started sinking down feet. I was a little nervous because they put the Alahala Lingam down straightly there. Then after it's sinking whether it's tilting it. So this Guru Purnima we have to watch the fun, the glory, how that Alahala Lingam is. I'm not joking. Many people have seen

it. So we'll take a break, come back and go until late night to finish the Kala Chakra Process.

(Later after the break)

Kala Chakra Process

Kala Chakra First Mantra

Om aidu padaksha
Shima dharanya
Om aidu basava madharanya
+
Mahakali Prayer

Swami is showing slides

Here, this is the first time playing with Kala Chakra. It's only fifteen, twenty minutes subject, but you need to be very careful. How many people know Telugu here in case? Aghni what is the letter?

Aghni: Ji.

Swami: What is the next letter? Ganesh?

Ganesh: Sa.

Swami: Accurate. What else needs to be there for the Jee-sus? *(slide)* In the two eyes what is this? *shi* - in your two eyes the energy is hidden all the time. Normally every night when you're sleeping the energy flowing is *shi*. A blind person or anybody who is healing without the *shi* word, it's impossible. This is not my story. This is what they wrote on it thousands of years back. What is that, Tobias?

Tobias: *Ji sas.*

Swami: Many people saw this book in India. Bharati?

Bharati: I have to say I can't read it because it's handwritten. It's hard for me to see.

Swami: On the days they didn't have the computer. *Jii sa s.* Okay, now the story starts here. To play his third-eye, any energy - *hajiisa, Om Jii shi shi sas.* It's the same vocabulary guys *na ja bha ja ja ja ra. Bha ra na bha bha ra va.* It's the same as in the Sri Chakra. Like in Mahakalai, *ya ma tha raa ja bha na sa la gam.* What is *ya ma*? Death. If you reverse it what do you get? *Maya* – illusion. Total illusion. It's illusion. Like what you gain – *na ja bha ja ja ja ra* – any tradition, any religion, any mantras, with these skeleton bijakshras, you cannot discover any prayers. It's an open secret. They pull those skeleton letters and they use them, even *na ma shi va ya.* What does it mean *na ma shi va ya* - who cares? Some power is hidden in those letters. It's a kind of pin number to the soul, to the cosmic. *Jii sas, Mary, Gayatri 'ya' is there. Ka-li, Mahakali* – power. *Sa-ra-swati* – power – *bha ra na. Bramha* it's there. So how we need to capture these letters in our soul. I'll tell you.

How many years back I taught these? Since nine years I'm making you to understand. Not today, since nine years. Still not understanding, 'm' is greeting letter, like 'dear sir' or 'dear madam.' *Sri* is like greeting word. This is the whole game of the three layers. How many people know the Sri Chakra here? Senior students need to teach a lot.

(more slides showing letters on palm leaves)

Even if you understand or not these bijakshras, each letter for example *ji* in your third-eye, holding it and keep chanting *ji*. After a while later your third-eye starts tickling. Keep tickling it, each person strongly giving the enlightenment.

First Step - Ji

You're thinking, "Make me open my third-eye." You want to receive shaktipat. Generally I give shaktipat with my personal mantra + some great person's personal mantra. In your third-eye you're holding the intention, "I want to get enlightenment. I want to get the

experience,” and chanting the *Ji*. You can even chant your personal mantra. Whenever you start chanting the *ji* word, that’s the first step.

Second Step - *Shi*

When you’re sleeping, *om shi*. Like *shi* in *na ma shivaya*. You close your eyes – *shi*. Whenever you open your eyes again *om shi*. It means that sleeping time is called *Jadguruda sthiti*. You don’t know what’s happening at the time. Whenever you’re sleeping, your body is completely out but the third-eye chakra is unbelievably powerfully rotating it little speed, more speed, thousands of millions of kilometers speed. I’m no joking, *shi shi* – keep sleeping with your two eyes to make the two eyes tied with the *shi* word. That’s the technique what they used on the days. Then you keep chanting with *ji* – take a sleep. Then you’ll see what type of *Jadguruda sthiti* when you’re sleeping what’s happening to you. What is happening in your heart, in your soul capacity? The soul starts to chant one letter. That’s called *Hrudaya chakra*. *Trineytra chakra*. *Neytra chakra* – *neytra* means eyes. *Neytra Chakra*, *Trineytra Chakra*, *Hrudaya Chakra*. Your heart pain, depression, tragedy - a lot of stuff you’re running. What is that inside your *hrudaya*? What is that rhythm, the beats? The sound is what is happening in your *hrudaya*.

Swami is showing Hrudaya slide

This letter, what is this letter Ganesh? I think you need to come one more time for University just for Telugu. Do you know guys I’m really begging since twelve years, not requesting, not advising, but begging westerners to learn Telugu. Learn the Telugu. That’s the more powerful language. It’s not me writing it, thousands of years back they wrote with powerful channels. That helps the globe with powerful punch. This is Swami Kaleshwar traveling since ten, eleven years to Europe. How long can I travel with this body to teach you? Can anybody find this letter out in the planet? This *Hrudaya chakra*, can anybody find it in the planet, in any *Vedas*, any palm leaf books? Only one palm leaf book exists - that is with your Swami. With a lot of proof and evidence is happening, that’s your job, at least one or two senior students to learn it. I can hand out these few books then they’ll misuse this knowledge. I already lost several books. Somebody cheated your Swami. They deceived, they took it and said

they lost it. Then I got scared. How many books you've seen with me Ganesh?

Ganesh: I saw two big boxes full in the Jesus Temple. I don't know how many sheets of leaves are in one palm leaf book, maybe 400.

Swami: So really I can read that many books in this lifetime? We can change the spiritual belief system in the planet in a beautiful way. In a beautiful way we can change the globe. Some serious books I took and studied them but I cannot read all – no time. But I know the consciousness, I connected certain divine angels and I know certain stuff. I'm in the different Stage to you guys. To remove the darkness there's only one thing – the knowledge. Once if you have the minimum knowledge, the real knowledge, your life is a wisdom, really big wisdom. With this type of information if I'm carrying in the globe, I don't know how long the divine will protect me. You know what I mean? You understand the negativity is very strong some times? Then you guys are losing it. You are the losers. You come for a little experience, you get a little experience, you have some fun, have some good fire pujas, la, la, la - you're done – gone. Then what? What are you going to give your next future generations?

In the wars, in lot of fields many books got destroyed, and the information is gone. By grace of Baba still several things exist. You have to utilize it, and I'm seriously recommending, commanding and advising senior students - there's a lot of Telugu people living in your countries. Get the Telugu dictionaries, have a look. Get a Sanskrit dictionary and have a look at that too. One day this information will come out. I am going to, I am going to put this one.

Ganesh: I'm going to make a proposal. It's my son's idea. It's not worth learning Telugu from textbooks and computers. You can't read the palm leaves. So my son proposed that we translate palm leaves, writing the translation below, and get accustomed to read the palm leaves. Then there's a chance that we can decipher all palm leaves. You need a certain training reading seven, eight different handwritings. Every person has a different handwriting also on the palm leaves.

Swami: I cannot make a joke.

Ganesh: No, it's serious.

Swami: You can. Many people can write and read English, or your German language with your own handwriting, it's not a big deal. Majority can read it. It's not a big deal. You can do it. Klaus, how many people's handwriting can you read?

Klaus: I think I can read most of them but I don't think they can read mine. I nearly can read all of them.

Swami: But with some amazing Jesus Christ channels' book, your Swami keeps writing since one and a half years – keep pushing it. It's three volumes. It's a straight open challenge - anybody can comment. It's there. They can check, do carbon testing, chemical test, experience that language ready to hit the globe in a pure divine spiritual way. It's not against to any religion. You saw just the word of *Jesus* – vaguely at least you read it. When I'm personally writing, putting my pen, very authentic, super authentic, what type of practices he did, what type of channels you did. What type of channels I did. Today I taught these letters. How to do that? After a hundred years this is straight information to help the globe amazingly. No doubt on that. There's evidence, proof. In India you see thousands of big temples - huge Shiva temples. Inside the Shiva temple is one small Shiva Lingam, a small rock. They're offering the water, doing milk abhishek and all the stuff. As a typical westerner, as a typical American, those guys are monkeys putting the water and milk on top of the Lingam, on the rock. What they're really receiving from that? Now you can see.

Put the Shiva Lingam there. Look at this Shiva Lingam Yantra. (*slide*) How to operate the Shiva Lingam? How to operate a Shiva Lingam? They put it *na ma...* you know how much I really protected this book? *Na ma shi va ya ji* – these are all bijakshras, divine letters. When you hold the Shiva Lingam what you need to chant, then receive the cosmic energy to your soul. To our normal mind it's crazy. The science people, once they study spirituality, then they can discover. You're also pretty good scientists. You're spiritual scientists. This is

the top one what you're doing. You can find different electronic things but finding the different vibration things, this is the top - that you need to learn. Good.

(Slides) Go for Hrudaya Chakra slide. What is that letter? *Tha. Ya ma tha ra ja ba na sa la gam.*

Point 1 Everyday you're holding your third-eye, chanting
Om Ji for 10 minutes.

Point 2 At your sleeping time chant:
om shi shi shi shi shi...

Point 3 Whenever you're sleeping, that stage is called
Jadguruda sthiti. Another name is Yoga Nidra. You
have no idea what's happening but you have an
idea what's happening to your soul.

Point 4 Whenever you're really going in the trance in your
sleep, whenever you fall off on the bed, chant:
om tha + your Personal Mantra

Then you take a sleep – everyday minimum six
hours, standard eight hours, or maximum ten,
twelve hours. That time you're doing meditation.

Timings: 101 days strict program. Go like for three layers of
101 days each. After that can keep continuing.

Even though you say, "Swami, I drink alcohol. I'm a big boozier. I drink a liter of Johnny Walker. I drink a full bottle of champagne. I sleep on the lap of my girlfriend. It doesn't matter. Once you keep chanting it, your bad habits without your notice, you are stopping to drink alcohol, or you stop smoking. You become a plain sthita pregnatata person. You and your wife are happy. You and your girlfriend are happy. Any heartbreak, any pain is gone but you have

to take it as a program for 101 days, like a really strict program. Everyday ten minutes you're chanting it: *om ji* then at the sleeping time chant *shi shi shi*. When you fall off chant *om tha* + *your personal mantra*. Done.

Then let's see in your dreams, in your visions, in your clarity of mind, amazing clarity like what happened in your childhood days you're remembering it, or remembering what happened in your last life. You're remembering ten lifetimes back. Such a great will start to flow.

This is the first phase of Kala Chakra hitting your third-eye, your consciousness and your soul. These three concepts today I'm teaching it. It's enough. And every Full Moon time, 100% vegetarian, no alcohol, no smoking, no making love. And if you can, be a little fasting, that would be nice – eating fruits and vegetables. Rest of your life for minimum thirty minutes to maximum one hour - chanting it, no meat, no flesh, no fish. If anything is in your medicine it's okay, but not intentionally eating it.

The word of the *tha* Hrudaya chakra takes a tough time like a coconut, to break it. Now today you guys are a kind of grape. If you put it in your mouth and bite it, immediately you can taste it. The second layer is a kind of banana. You peel it then you bite it, then you taste it. Third layer is a coconut. You need to take the skin off, then forcibly break it, take a knife to take the meat out then you need to chew it. Some student's souls are like that. Today everybody here you're grapes, the stage of the grapes. Immediately you can feel it, get it. You already got it.

So don't spoil the diksha. Diksha is a pretty good discipline. Doesn't matter what you do with your body, but it still affects your soul and your emotions. That's not healthy. Once you practice 101 days, one layer, then if you really want to go again, go for the second layer same thing then again go for the third layer. Keep doing it. Then you start to see your visions, your dreams. You're sleeping but you know what's happening in your soul.

Any person... for example I want to do soul traveling. I have to use the word *ji* and *shi* and *tha* otherwise I can't do that. This Guru Purnima I'm going to soul travel and I'm making a couple hundred people come and touch my body, put your ear on my chest. Several doctors are around me, not Indian doctors - experienced Western doctors, your friends. Hope it will happen by grace of Mother. I'm practicing right now to do that.

Once you reach certain stages, even if you didn't meditate for ten years, or ten thousand years, through the Kala Chakra I can make your soul on 2011 go ahead 100,000 years speed. Without your notice putting you there. Your mind doesn't need to know this knowledge. Your heart doesn't need to notice this knowledge. Your soul needs to know the awareness of the consciousness - that's the benefit of the Kala Chakra.

We're innocent. Of course every person is born for equal rights. Mother is one hundred percent fair. We all came from the Womb Chakra of the Mother. We're just connecting Her and receiving that consciousness, coming back and being a really enlightened person, being a strong healer to help the globe. That's what I'm planning for that mission. Then it really helps. Clear? So in these next two and a half years, until 2011 Guru Purnima, even you don't have time to come to India - fine. You don't have the time you're busy with your family life - no problem. Keep doing this, practice this.

And another most important thing, you're living for yourself and also you're living for the society. If you're not worrying for the society, there's no difference between you and the animals. When you're really not worrying about somebody, when you're not taking care of somebody's feelings, when you're not respecting somebody's feelings, the divine cannot accept you as a divine Student. The divine is nothing but caring. In a month for two days, take two hours, and go to the old people's home and hospitals. Bring some bread, flowers, medicines, physical service, and help them. Receive the love from them. When you go to an old age home every Sunday, take the bread. Then they're really waiting for the next Sunday you're really coming for them. They automatically cry. Do you know how thrilling that is? They really care. They're helpless. You're carrying some bread. You're really touching their heart. They're blessing you heartfully. That blessing is very powerful than Mother, that blessing is very powerful than any master on the planet. I'm very, very serious. You should do that. You have to do that.

For example I have an eye hospital. We're giving eye operations. Three thousand seven hundred operations have been done so far in two years - complete, free medicine. We're bringing them from their home, giving the operation, feeding them, and taking them back home. That whole area of fifty kilometers, any village, going to get very old people, giving operation, then dropping them back. Now they're able to do their own things. They're singing and they're

happy - it's a bliss, it's a bliss. One eighty-seven year old man, he came with something in his hand and he wants to touch my feet. Am I eligible for that? No. He's like the, the, the grandfather. Then I hugged him and he's crying – that's the moment. Try to win such type of moments, winning a few people's hearts then the life is fulfilled. Somebody needs to be really thinking, "Such a great person he is. He helped my life. He saved my life." Spirituality is one side. Humanity is another side. If you ignore the humanity, only do spirituality - that's nonsense. Once we're born as human we have to care about humanity.

So my Dear Divine Souls, today whatever I talked, in the morning hours go through and review all points, sitting and make all the bullet points, and see what I really taught. And this first phase of the Kala Chakra is enough. Once you come to Penukonda, when I'm doing the Soul Traveling, you'll take the second phase even if you didn't complete 101 days. Still you can complete in a fast track once you're holding that Alahala Lingam. The most beautiful thing is, once you come back to Penukonda and you shake and put that Shiva Lingam to your ear, you will hear your personal mantra. I'm not joking otherwise I'll give my thumb. It will tell. It will tell.

Three-day process, everybody go shake it, then you're totally connected to the Shiva energy. So can I say goodnight now, and start tomorrow again? One more time we'll go over some bijakshras of the Kala Chakra, then initiation and fire puja. Then I'll leave everyone in charge with the senior students and I'll take off.

End of First Day
