Swami: If you really answer these questions, yes, I really can approve you, certify you're a master on the Vaastu. I covered all fundamentals. These are the major anti-Vaastu things what I asked then you need to explain the results, short and briefly.

Tobias: East hill, west hill, north slope - is one property right?

Swami: Yes, north slope very good, but east mountain very bad, but west mountain very good. Now explain. What are your final judgments, your judgments, what I'm giving answers, you can challenge the globe as a Vaastu. Majority this is the Vaastu. What I observed, different properties, major headaches what I've seen in western countries - these are the problems.

Marianatha: If there are any new Vaastu topics this year, can last year students get that?

Swami: These are the major topics. First you answer these questions then I can upgrade you from Economy to First Class. Paul, are you confident?

Paul: Yes mostly, some I have some questions.

Swami: Like what?

Paul: The fifty-degree tilt. I never heard you give a solution for that other than to get out.

Swami: Get out. That's it. You cannot stay in that house - run, just run. But there is some... you can help it little bit, but if it's fifty degrees tilted - forget it. How many degrees is my chair tilted?

Paul: Forty-five, fifty degrees.

Swami: I always want to run away from here, like this type of sitting – no northwest, east-south tilted. Any time whenever I'm sitting I'm either straight looking east or straight looking north. Intentionally I put like this, making it faster, go. But in my office my chair is straight zero degrees watching television like great romantic songs, great devotion songs, great Shiva movies. Cyndria, you liked last night movie?

Cyndria: Yes.

Swami: Am I tough on you guys?

Elizabeth E.: Yes.

Swami: Who said that? Why I'm tough? I should be tough. If you're not learning this time, where you going to learn it?

Elizabeth E.: I forgot so much. I know the basics.

Swami: This is not for your vacation place. This is the place to learn it. I'm sorry. If you want to take a vacation there are different places. In your lifetime, time is more precious. What you learned keep grinding it to give to the globe. I'm not stupid traveling global wide, traveling, traveling, traveling. It's a stress and painful work - not even spending like one, two hours with my wife. She's totally happy with the baby, and I'm very happy with my work. If you have the good Vaastu, if you fix the good Vaastu house, you really can help many people. You can save many people's lives. Straightly you can save it. You don't need to teach the spirituality to them. If it's anti-Vaastu house, make them get out from the house then the person will start getting relaxed then teach.

Christine St.: It's so painful because most of the people have home, have very bad Vaastu and if we tell them to get out, even if they want to, they don't find good places that quickly or that easily, or they can't afford it. So it's very painful on one level.

Swami: Otherwise, try and fix that. Try. Try.

Paul: Swamiji, what is your technique, can you teach us to get them out of the house? How do you get people out of the house? Is it just your sankalpam or your prayer? What's your technique?

Swami: You need to do some technique in the house then automatically they'll get out of the house.

Paul: Will you share that with us?

Swami: Later, after this test. I sent many people out the house, they told them they tried it, they tried it they, tried it, they want to get out from that house. They cannot. Then something you did in the house, automatically they will move out. Many people I really want to send them away from the ashram to teach in the globe. These guys just they got stuck here. They want to go, is it true Tatyana?

Tatyana: Yeah, one part it's true.

Swami: Like couple days back she's huge crying. Then I pulled her last night and Tobias, and I asked her, "Why you cried?" She said, "Who told you?" You called last night to me when you were crying.

Tatyana: I called? No I didn't.

Swami: You called. Of course I can smell what you're doing. What else? These questions you got clear? How much time you need, couple of hours, Constanze?

Constanze: A couple of days, minimum one day, please.

Swami: One day, just straight writing your comment. You don't need to explain like in length. Just tell like southwest swimming pool inviting the death. Straight answer - life risk. Sucking the headaches, that's it, northeast kitchen lot of fighting, prosperity burning - that's it. Already I gave you three answers. So by 11 o'clock sharply, I'll come and grade your papers. Use the red ink - underline the high point. Whenever you're answering it, think fifteen, twenty seconds then put it. Confident?

Students: Yes.

Swami: Good luck. See you at 11 o'clock.

Swami: That's it. That's the answers. Now you go through this and give the marks. You three guys (*Eric, Paul, Tobias*). Simple. To me it's maximum fifteen minutes, ten or fifteen minutes. Good luck, good night.

Paul: We'd like to take your invitation to go upstairs to your Theater Room tonight - is it possible?

Swami: It's possible. He fixed everything but first I need to go through different pages. First I'm thinking... tonight I have to go, sit there and have a look. Straight, we can hit it. How many pages is it?

Tobias: Thirty-two pages, I think.

Swami: Takes minimum three to four hours - that's huge pages. Why can't we do it tomorrow?

Paul: We're ready whenever you are Swami.

Swami: I'm ready too but give me tonight time. Many people I saw your questions, pretty good. But you know it's good, it's not good you're there on the Vaastu and the same time you need to know what's the next step, there's no other option, you have to fix it. How to fix that? Then I'll give how to certain things. That's very important step. But you need a very clarity mind. Hello? Sleepy?

Students: No.

Swami: Hungry?

Students: No.

Swami: I know, I bet... It's good, one or two days body torturing, starving, little only coconut water, fruits vegetables Constanze?

Constanze: To eat only fruits makes hungry.

Swami: There's beautiful mangos in the village - mangoes and bananas... usually Tatyana can eat one dozen bananas, that's more than a meal. If you really feel hungry, take. Don't get sick - eat a little bit. Also it's a big purification. Who's a big eater here?

Students: Greggor.

Swami: You? What food are they serving in the Canteen?

Students: Potatoes, carrots, green beans. That's it.

Swami: Enough fruits?

Students: No.

Swami: No? Hey guys, why can't you just go in the village, take a jeep or car, do a lot of shopping.

Leslie: Can you explain how you play with the directions, like last night you said you sometimes you sleep with your head to the north intentionally.

Swami: Yes, yes, yes, yes. First step you really got the Vaastu. Majority ninety-five percent of the people you got it - you know it. Then second step, in depth I'll make you to go. Pretty good you're done it. You win it. Then wherever you go you know how to lead your life in good Vaastu place.

Me, in case I go somewhere, especially at the Latimer House in London, "Oh my God." My room is above the swimming pool! Whole night I'm throwing up, I'm sick with headache, feverish – huuuu. Then finally I put up a tent in the garden, a round tent. The whole building is tilted more than sixty, seventy degrees. A seventy degrees tilt building I have to stay? Who knows the Vaastu, it is like a big addiction that I have...great follower of the Vaastu - me staying in an anti-Vaastu place! Good. Go and take a sleep and we'll wait for tomorrow and the next step will come. Good luck and good night.

Constanze: Do we have to continue our group's meditation in the Dwarkamai?

Swami: Yes.

Monika B.: And Abishek and northeast meditating?

Swami: I'm waiting to go in the northeast garden after trigger on couple three, four experiences then video shot then going... Myuri has one thousand questions, whatever she had just a couple days ago - just review all questions. Then giving finally one great picture, then Lotus, one great process. Already few people completed their nine strokes. How many people they are?

Students: Sixteen.

Swami: So those guys are totally done, so one more group - Constanze group. How many people?

Constanze: I think twelve or thirteen.

Swami: Ten.

Constanze: Ten? Okay.

Swami: They're eighty percent done, almost every person done. So only twenty percent is left. The remaining people need to start over the work. It's easy. We'll see. Good night and beautiful dreams.

Students: Thank you Swami.
