## Guru Purnima Program 2008

Introduction to the Program

Teaching in the Baba Temple

July 14, 2008

**Swami:** Good morning guys. Welcome to everybody what the Guru Parampara is going to give us, to bless us in this occasion. Many people did quite amazing processes, quite amazing hundreds of thousands of japas - years of your time spent with your Swami's mission. So far ninety-five percent we got success. We don't have that much failures.

And heartfully I'm praying to Baba, by this Guru Purnima all students who did the amazing sadhanas with me in the Shirdi Sai Family, they have to complete their process to jump the new process - the Ala Hala Linga Process. That takes three years. This year you're getting initiation. After the next Guru Purnima and the next Guru Purnima, then we all need to go in 2011 Guru Purnima to Benares, to the North India Ganga to complete the Immortal Enlightenment. Then you don't need to do any more sadhana. You don't need to do any spiritual practice. You don't need to do any practices for abilities. Everything you got it. That is the final climax.

This many senior students linking with Ala Hala Lingam, that's the major process running this Guru Purnima. What we buried in front of Dwarkamai is vibrating very powerfully. That one, how it's related to the Mother, how it's related to Jesus Christ Power Spot, and how

much you're going to receive the divine bliss, we have to wait and see.

The divine is ready but your hearts need to be very open, especially this period of time. A few points I want to explain, put your suspecting character aside. Don't think as a normal human layman. Try to surrender whatever the Guru Parampara has given the mission to you. Keep practicing and have the patience. No matter what, at any circumstance, any worst circumstance, whatever Swami promised to you, "If you do this sadhana, you're going to get this. If you do this sadhana you're going to get this." One hundred percent, one million percent you'll get success.

I don't want to see you all the time hanging with your Swami Kaleshwar - make you be free, be as a powerful master in the globe. Create thousands of students in the globe. Create a lot of light in the globe - remove the darkness in the globe, that's your job. So that type of miracles experiences are happening this Guru Purnima. But what you need to do this period of time, this very auspicious, precious time, is to prepare a couple of buckets of sandalwood paste. Few girls and few boys, who are strong, keep grinding it...and purifying your womb chakras, drawing Womb Chakra Yantras and keep burning it. Whenever you're drawing it, try to chant the Nine Arrows. Nine Arrows is most very, very, very important, and I'm giving an opportunity to every person to hold the Shiva Lingam, touching their third-eye and you can hear to your ear the voice of what is coming from inside the Shiva Lingam. It's not a joke.

And another point, try to spend wherever your Power Spot place is, within forty feet to maximum fifty feet distance around that, to sit and meditate as much as you can. For example, your Power Spot is near Ganesh or Dwarkamai, some people have their Power Spot here in Baba Temple - keep sitting and meditating, drawing the Womb Chakra Yantra. If you're not purifying enough properly during this period of time your womb chakra, it'll get little difficult to the master to push you. You didn't come as a devotee here - you came as a powerful master. You want to become a master in the globe. I like your devotion. If I want devotees, hundreds of thousands I can raise up, it's not a big deal. They're already there. I need masters who can sit and lead - dictate the elements, control the elements and help powerfully in the planet. That is your mission.

You might have a lot of family problems, businesses, lot of bonds, attachments - I know that. No problem. Entire your lifetime you're

doing it. Especially this Guru Purnima timing, you're connecting to your Power Spot, and how much the master is giving the power to your Power Spot and to your soul. Millions of times most powerfully you're receiving that energy. If you sit under the tree seventy, ninety years meditating, and to this one Guru Purnima you do the perfect sadhana - this seven days is equal to seventy, eighty years non-stop sadhana. That much short-cut powerful process we're doing. So try to cooperate with each-others, don't get sick and try to be as much as you can awake with a clarity mind. Then it's easy to me to approach to you.

And especially I recommend the Group Leaders of Jesus Group, Baba Group, Switzerland Group, Kala Chakra Group... all these groups try to be as a unity, whenever I call you need to sit and discuss with me in-depth, and individually too. I'll give my time. We'll go in-depth more subject how to handle the process in a short-cut way to complete it. You understand guys?

Actually today I'm suppose to be in Japan. I saw four hundred and fifty people in Japan non-stop. It's a two-day seminar workshop. Almost one hundred people were supposed to come here - there's no accommodations, I cannot provide accommodation to them. They said they're happy to stay in the tents. It's too much. Then I went to Japan to work with them, giving whatever they want it, and came back last night. I want to be here according to today's astrology and numerology, and energetically today is very powerful and precious day. That's why I'm broke the coconut and started - tomorrow the process and techniques starts to take off. So within two days the sandalwood paste needs to be ready. How many kilos you already organized Lora?

Lora: We filled one container. We can finish it in two days.

**Swami:** By tomorrow night you can give it?

Lora: Yes.

**Swami:** How many people are working?

Lora: Everybody, all the groups are coming.

**Swami:** Please do that, it's very important. And a few gents, very strong people need to be ready too to lift that Ala Hala Lingam, and especially to keeping in Dwarkamai following my instructions very carefully. Because quite amazing miracles, unbelievable miracles of energy is going to hit it. I don't want to say what type that is. Already pretty punches I gave in Japan, and I need to sit in the nature. I need one-day time for myself to my soul then your Swami will be ready with you guys. So try to do as much as you can, deep silence, writing the womb chakra and chanting the Nine Arrows - that's very, very, very important. And as much as you can, sit close by to your Power Spot, within fifty feet radius. Even if it's hot, take an umbrella - little time meditate it.

Now this Guru Purnima I'm introducing the Ala Hala ancient palm leaf book, releasing the in-depth of the information out. And 2011 your Swami taking few hundred people to Kasi, to Benares, to Harichandra Ghat where we need to experience, take a holy bath with your Swami, and entering to that Shiva Temple, and have a great experience there and completely close your spirituality.

Like many people did the sadhana, lot of things for thirty years, forty years, fifty years, keep doing it - no need to. This year Guru Purnima what you're going to receive is the most powerful initiation. I'm starting to give it tomorrow after everybody comes here when the sandalwood paste is ready. You might have a lot of confusions. You can contact the Group Leaders, sit with them clarify your questions and your confusions. And if it's really unclarified confusions, the Group Leaders can ask me and I'm happy to help you. But don't waste my time and don't waste the process time.

Instead of talking ten hours - ten minutes experience is important. Ten days non-stop talking the knowledge, to ten minutes one strong powerful experience - it's enough. Which one is important, guys?  
Gary?

Gary: Experience.

**Swami:** You need experience. Knowledge is an ocean, tons of knowledge is there, tons, thousands of prayers, millions of processes,

but what process can exactly suit to you, that's important. That the master decides, "This is the right medicine to your soul. That's it - go." But you need to give opportunity to the master. If your heart is closed, then you have a lot of struggling with yourself. Still, sit with the master even you're a tough coconut... some coconuts take one time, two times, three times... I won't leave the coconut until it breaks it. You know what I'm saying? Few people are very easy. Few people are very tough, super confused.

So, have a wonderful time here. Try to do the Group Meditation for one hour here and do the arati. And make a deal from yourself, each individual make a deal to Baba, Guru Parampara - not for material things but what you're going to do in the planet after you succeed. What you want to do, I'll bless you in your normal life to remove all your problems. Already I blessed many people. I can remove all your headaches it's not a big deal. Don't ask for silly things like, "I want a beautiful girlfriend, I want a good business, I want some money and a good house, my heart is broken..." These are all silly things. Don't focus on that. Focus what you cannot even imagine what type of life you want to lead in a divine way. That's the most important. Until your last breath problems are there, it will be there. One goes, another comes, otherwise it's not life - happiness, unhappiness, unhappiness, happiness - it's equal, it comes and goes.

Like, God gives you four children in your life, only you have the right to give the birth to the kids, but you cannot decide their fate. You cannot write their fate. One can become a big scientist, one can become a big thief, one a spiritualist, a movie actor... To the karmas you're not responsible. Think for yourself and pray for them - that's it. Don't fight for them that you want to fix their fate. But as a master I'm fighting with the Guru Parampara to fix your fate. That's the tricky, to fix your fate to be in the normal, pure divine way, total divine way. It's not an easy job.

To Indians it's easy to me, as typical Westerners - no. Don't misunderstand... handling one Westerner is like handling a thousand sheep. One sheep goes this way, one sheep goes this way, that way, like each sheep is driving me crazy. Like each student is driving me crazy but I'm happy to do that. It's okay. He gave that energy and capacity to do that. So, God bless to everybody. And try to cooperate with each-others. And I want to see the Group Leaders this evening. And even though one person is involved with three processes... like, you're involved with the Switzerland Process, you're in the Germany

Beuerhof Process, you're in the Coconut Group Process... you're in the different processes, and you don't know to which process you belong, don't worry. Come for one process. Stick with one process then you explain how many processes you already did. Whenever you're in Dwarkamai, you have your own individual time with your Swami. Some individual experience you have with Swami, that moment you're going to complete it, then going to the next process. Clear?

Patrick: A brand new student, Swamiji, with no Power Spot and doesn't know the Womb Chakra?

**Swami:** The senior students can explain to them. Senior students sit with them, have a little satsang one or two hours, help them. And it's advisable the next new students to make the Power Spot in the Northeast Garden where the Jesus Power Spot is - they're lucky. They're lucky. Good. And have a good day and tomorrow I'll see you guys. Start your meditation.

End of Talk
