Mother Divine Festival Program
Conquer Your Fear, Meditation Instructions
Talk in the Baba Temple
October 1, 2008

Swami: Good evening to everybody. So, how many days are the Mother Divine Program, Cyndria?

Cyndria: Eight more days.

Swami: Is everybody attending the fire ceremony?

Cyndria: Yes.

Swami: This coming Guru Purnima time, this Mother Divine Festival is a big foundation to who is coming to visit the coming Guru Purnima. Once we buried the Alahala Lingam in the ground, super positive things are happening, unbelievably positive things are happening. Especially this ground, and the experience levels are ready to receive thousands of students - can and will receive. Like the water is coming, like a big dam is holding it, making it wait. Then I have to divert the water in a proper way to the experiences to the student's kingdom. I don't want to get the energy disturbed to unnecessarily waste that out.

This is my thirteenth year with the students' kingdom, the last Guru Purnima what we buried, the Shiva Lingam. From that point the energy is really super positive, very open. The elements are cooperating unbelievably and the Mother is unbelievably cooperating. You might think Swami's always cancelling many programs, neglecting many students, not concentrating on it. How many people are thinking that? Myuri, are you thinking that?

Myuri: No!

Swami: I'm on my job. When you're sleeping, I'm working. And especially last night with the University students, that's quite amazing. I never, ever had that much very open, clear green signal it's ready to go. It's first step. It means ready to jump to give them some amazing beautiful experiences and beautiful chocolates. Yes, they're going to, and everybody will too, majority.

The point what you need to concentrate this Mother Divine Festival time – my talking is thirty percent and the real work is seventy percent. So far, last Guru Purnima, and the Guru Purnima before that, some experiences we got, still we're holding it. We didn't demonstrate certain things, still it's waiting like the Jesus statue, some stone, and certain things, and Khanadana yoga certain stuff, still it's pending. Of course Anya's levitation too. It makes me happy Anya about your sadhana and levitation subject.

Anya: I'm glad it makes you happy.

Swami: No, it's quite amazing, interesting. And on other part of the globe we see the whole economy is crashing - unbelievably crashing and everywhere is a depression, depression depression. It's not healthy. That is what we already talked about years back. And if you guys put your sankalpam whenever the homa's running, 'loka samasta sukino bavantu,' something can be lifting that. You should, don't ignore your capacity, your sankalpam sadhana, your sankalpam capacity. You're dress is different and you don't have a beard, otherwise you're a maharshi, you're a saint...it is not a saint, you're capable - Sankalapam Siddhi you have it.

The terrible depression (*financial crash in US*) let it be whatever is happening in the globe - let it happen. We try our best to make Her happy. But be open yourself, individually, whatever She wants to give in your life, to bless in your life, accept it and especially try to witness the fire ceremony every day. It's the most important period of time. And your Swami also started this process about everybody concentrating majority of people who are here. From your side too, you need to concentrate as much as you can to be open up. If you're not ready it doesn't work out.

To be ready there are only two major things. It is always the same. We talked about that before. The major thing is the fear. The worst fear that every person is holding is the fear of death. That's the ultimate climax. And the same thing can cause, can create that fear of death for simple silly things you're holding, the material things. You have to stop all your material fears, attachments. For example, Anya is working in her job. She has a fear Swami is going to send her out from here, fear she might lose her job, fear Swami is not paying attention - fear she is going to lose her health. Worrying about the fear she can't support herself anymore. Like whatever is your own you feel not enough confident, you're not eligible. You know what I'm saying? Desire is different thing. What you want to be, that is different thing. What things you're holding - you're going to lose it.

The two major points - let happen whatever She wants to do. If you came to that conclusion, if you made the pledges, the deal with Baba, let it happen whatever She wants to do. Let play whatever the Guru Parampara wants to do on you. Okay, Swami is sending you back to your country - good, no problem, or you're walking in the garden, the cobra is coming and biting you. You cannot stop that. The cobra came and it bit you. You didn't have a bad intention to go and step on the cobra. Or, you're climbing on the steps to get to your room, you fell down and lost your leg. Your leg got broken - let it happen. You don't need to have a fear you're going to fall down and lose your leg. You know what I'm saying? Like, you're doing a Sadhana process either you'll get success or not. Either you're receiving experience or not, or you're getting failure. Leave it out, completely leave it out - let it happen.

This period of time, I'm telling you again, it's very, very, very difficult to me to involve this much type energy, I don't think so in my lifetime I can do this job what I'm going to do this seven, eight days. These thirteen years what I've done, and these seven days is enough to do the same job. You can imagine, these thirteen years what I did with my students, these eight days is equal to me. From my side I have that much capacity. It's very open - the water is open to the fields. That much rainwater came and is ready. We're holding it, the Alahala Lingam has produced that much energy, it's there. It's ready.

That's why I told the same to university students, any time around the clock - be ready, and the Dwarkamai group to be ready. So try to cooperate these seven, eight days, maximum nine days. Done. Many times you might think, "Swami always says like this, it is getting failure. He says like this and it is getting failure," Hun-un, absolutely not." In America, even Swami did not go physically, yes they got it. They got it. Majority they clearly got it, still they received it, still they are receiving it. They want jasmine smell, they don't need the flowers - just they want the smell. They're receiving it - they've already received it.

So whenever the homa is running, make sure every person... I want you to know the Nine Arrows mantras by heart in your mind, and your Personal Mantra and Sky Mantra - for sure. And you should not get confused on your personal mantra. At the right time when the clock hit on the right time, if you don't know the Nine Arrows and your Personal Mantra, it's little bit problematic! And this period of time, the Five Secret Prayers (*Panchabhuta's Process from Guru Purnima*) as much as you can keep doing that or Mahakali prayer - each prayer one hour, one hour, one hour, much less talking, as much as you can maintain quietness. Come to bhajans, singing, have breakfast, come to homa - done. Again go in the garden. All of your personal things, business, family problems - forget it, completely forget it. Make your energy to move very gently and smooth. Don't feel stress.

First we'll take the step of the experiences, then I'll give a talk, or simple little bit talk and then experiences. Completely I want to give,

to complete the Mother Divine, Her nature, Her illusions in depth - Her complete subject, complete Her subject. Whatever you have suspecting mind, 'monkey mind'... and some clarifications on the depth of Her illusions, so no more confusions on Her subject - complete. All Her different forms, each form, what type of energy She'll throw on you. What She makes your mind monkey. So far what type of energy I used it and what happened all the way A-Z.

So far only few saints, they handled Her very well. Now the ball is perfect in Penukonda court, perfectly in our court. The energy is with us. Either we waste it or utilize it in a proper way, or we can completely hold it for next Dhasara. What are we going to do? Either we do it this time or hold it for next time. Constanze?

Constanze: Use it - do it now.

Swami: You have to think strongly before you're going to take a sleep tonight - you don't have any more fear in your life. Make that sankalpam and sleep, the fear also, is blessed by Her, no problem, accept it. You don't have any more fear in your life. Make a strong sankalpam, have a sleep. Then we'll watch the beautiful journey. Any questions?

Student: What about the new people, they may not have a personal mantra?

Swami: They have to receive it from me.

Student: They can join this process?

Swami: Senior students are always senior, like five years, seven years, ten years work with me - they're always ahead. Like the beginning student, they come little one step up, like the most senior student they will reach... You can't take the fresh student and old student - not equal, I'm sorry. Like somebody dedicated one and half year non-stop working with me, yes, they're on a different level. It means how many times they went in and out with this energy. They came very close by that. Clear?

Student: What are all the prayers to do?

Swami: Do you know the Sky mantra?

Student: Yes. Do it as much as possible?

Swami: As much as possible and also the Five Secret Prayers - you have the whole garden, very gently just go and sit.

Student: Just the one out of the five prayers or all five?

Swami: All five. You have twenty-four hours time. Take seven, eight hours for your sleep, your eating, drinking whatever it is, then whole time is concentrate on this seven, eight days.

Tatyana: What about during the Fire Puja? You told us to do the Shakti Gayatri.

Swami: Jump on Mahakali or you go to the Five Prayers. I don't want to see you guys sitting and laughing and talking, talking, talking. No - don't waste the time. Each mala whatever you do the japa, it counts, it counts. I cannot take you inside the Dwarkamai if you don't know the Nine Arrows prayers, even if you're a fresh student or senior-most student. After I heard you, the Nine Arrows prayers clearly, yes you're accurate then come in. I'll be that much strict. "I'm sorry Swami, I am in panic. I can't remember. Before I could remember but now I can't remember," NO EXCUSE! NO EXCUSE! Whenever I call you late night, early morning 3 a.m., 4 a.m. pull you inside, okay if you don't remember - no!

So have a wonderful time. Enjoy. Don't get panic. This is the time what I have to be little tough on you. It's not big tough, just a simple few prayers to remember. Okay? Have a beautiful night.
