Christmas Program 2008
Christmas Message: Love, Power, Knowledge
Teaching at the Ashram
December 24, 2008

Swami: Merry Christmas guys! Welcome my Dear Divine Souls to the Christmas Program 2008. It's quite an amazing year from 2007 Christmas to 2008 Christmas. Your Swami travels in the whole global wide, my journey, my activities, working with students, to developing the ashram, to writing the book. Time is going like that (fast, snips). It looks to me like one-month time, but almost one year is gone. If the time is running this much fast to me, and to your lives, you have to be very super careful too, what you're going to receive and digest that, and implement that in the globe.

Kala Chakra, the time is quite amazingly fast - many Christmases we celebrated in ashram. Many, many processes, quite amazing processes we did here. Thousands of souls got enlightened. From this Christmas onwards, I personally recommend all the senior students - go and teach in the globe. My next year's target, in a beautiful way, complete United States. Maybe tiny little bit I'm visiting Europe. My whole next 2009, my plan is a book tour and connecting many seminars. The students are waiting there. And American students, they need to be alert and awake, to be more active in the globe. The journey has to come from America, from the West to East, not East to West. Trigger from the West to the East. It's time to me to start from American side.

Pretty good Europe I covered whatever you had processes and experiences, the same thing the senior students are also able to go entire states in America and explain that to make them to be more awakened, to give the Eastern knowledge. Of course I'll be there too, travelling, pretty huge travelling. It might be little controversy journeys, but I'm ready to face it. I'm ready to be able to give the answers to them. By the grace of Jesus and Baba and Mother, from your Swami's side, is ready. Even this Christmas, the JC Intensive Processes, many people... for example the Crucifixion, the Khandana Yoga, almost more than thirty students I gave them the mechanism. Very clearly I gave the initiation. They're ready to go and can explain in the globe very soon. How many students Constanze?

Constanze: Thirty-eight.

Swami: Thirty-eight people straightly they got it, and more details about JC's life. Your Swami's working through video, is making a recording, a small documentary. By eighth of January you can see in my website a little introduction, it'll be there implementing. The book might be a little small delay with some editings and corrections. In the worst case you'll get little small book, but not in a good printing shape, or, by Shiva Ratri you'll get whole book. It'll be available global-wide. Many people we celebrate Merry Christmas, Merry Christmas, it's a happy time. Good, it's a happy time, happy time. What is the inner meaning we're celebrating Christmas? Why?

Student: Birth of light.

Swami: Next? What is his message, what you really understood? Majority I'm concentrating, you're preparing the processes, the dikshas all the stuff. I'm going this angle but in a bhakti way, devotion way, what do you think about it?

Student: Unconditional love.

Swami: Where is it? In whom you can find it? How to bring that out? How to, to bring that out? Where is it? Okay, unconditional love. Where is it? We are doing abhisheks, we're doing the prayers, we're putting the candles, we're doing the sadhana –

good. Where is it? As we not here as normal devotees celebrating as a festival, as we here to understand the mechanism of the lightness, the glory of the light - we're researchers. Everyday is a Christmas to us. Today is not a Christmas - everyday is a Christmas. Everyday is your Happy Birthday - everyday is your Happy Birthday. Every sunrise is your Happy Birthday. Everyday is yours. There is no good day; there is no bad day - everyday is a good day. Everyday is a good day. Whenever you feel that, we can do something in the globe. As a normal person, today is a Christmas, today is Swami's Birthday, today is Shirdi Baba's Birthday, today is Dasara - no, of course I like to be... when I'm coming down, I wear my normal western suit. Western suit means my raincoat, and my daughter is calling, "Wear a new dress daddy." "Thank you, right."

So my Dear Divine Souls, quite amazing processes we did, especially this trip, this time but still small left with a few groups. Of course I'm coming to you to make things happen. And you've seen the Dwarkamai power, a few groups how it is and what it is. You've seen that Dwarkamai power. You sure guys?

Students: Yes!

Swami: How much water the Dwarkamai drank Constanze?

Constanze: Oh about four hundred buckets of water disappeared.

Swami: Four hundred buckets inside Dwarkamai disappeared, like in several days. You put it, sink it, put it, sink it. An ant cannot enter in the ground, there's not that much of a hole. And your Swami is not drinking that much water. And there's no secret pipeline through which it can come out - no. If you've win inside Dwarkamai, the globe is very easy to you. If you win the inside Dwarkamai vibrations, the globe vibrations is a peanut. That is the most powerful, pure, Shiva energy, unbelievable Shiva energy. That Shiva energy, the most powerful five elements' Shiva lingam, it doesn't accept anymore to exist. That Shiva lingam only, has to exist. It went in the ground outside Dwarkamai, that Shiva lingam also been touched with Big Boss Jesus. You have no idea why I'm saying this. One day five hundred years later, the student's kingdom they'll recognize that.

Now entire in this ashram, three high energetic vibration places: One is inside Dwarkamai, outside the ground (*where the Ala Hala Lingam is buried*), Big Boss upstairs. When I'm coming down to JC Temple I put my two hands to his statue. I'm not joking - it's completely like a cushion, like a cotton - in my consciousness clearly I know it, I'm feeling it. I don't want to put any my consciousness, any sankalpam there, just I enjoy it. In seconds again, turn back, "Thank you," going down. I wish one day you have to go through the same experiences. You need a few points in your life, no matter what, if you want to be a healer, if you want to do the work in this Kali Yuga, in this century in the globe - One is unconditional the pure love. Two - Power. Three - Knowledge. If you don't have the three, you can't do your job. You can have the love, they like you, they love you but without having any power, it's wasted. Even you have the power but you don't have the knowledge, it's a waste.

Today this is my message, these three qualities, three abilities, no matter what - you need to carry these in your life. The power you can receive it through your sadhanas, through your processes, through your homas, through your japas, through your meditation, through your aegyams and also through your power objects, through your Swami's healings to make your soul awaken to be more and more stNityaanandager.

And moreover, in the days right now, it's pretty free and available that you can collect and receive some power objects to carry some amazing power. Don't underestimate - power objects are very powerful. For example, on Shirdi Baba's neck there is a rudraksha mala. That is the power. You're japa mala, at least ten percent of your power is in that. You know what I'm saying? This chair, after one hundred, two hundred years later this chair is a power. Automatically it starts vibrating. Shirdi Baba's samadhi, his bones - amazing power, his bones... himself he's talking through his bones, he's solving the problems through his bones. His soul is completely covered in the entire cosmic.

Jesus Christ, some of his physical structure is linked in Penukonda - it's a golden statement. His power spot, one of the major gurusthan, the major three aghori matas, bhairavi matas who helped him very powerfully, all that austerities power he kept it here. Then he made it to be open certain period of time. The 2008

deadline is over, now is our time. This is? Our time. By tomorrow sunrise onwards is our time. Tomorrow, early morning 5:45 a.m. our time starts. I'm serious. You're doing ten years meditation anywhere in India and ten hours meditation in northeast garden – it's equal. You can feel it. Nobody needs to even say it - that much power is hidden there. And a few people they saw something, a beautiful Lord Venkateshwara energy. Energy means his statue. You clearly saw it? You have a picture? In Kali Yuga Lord Venkateshwara is the most powerful person – Lord Vishnu. They put it as a protection that came out then the power starts to release very soon.

So, it doesn't matter, a Avatar can exist wherever he wants to. You know what I'm saying? He can manifest wherever he wants to. His soul can manifest wherever he wants to. Even the physical body can manifest wherever he wants to. It's true, that amazing depth knowledge is there, can manifest Monika's physical body in Himalayas. Even one Monika is here, same physical body can manifest, can possible, will possible to be put there in Himalayas too. That is the divine power, that is? the divine power.

I love and respect the Church and the *Bible*. I really admire their services in the globe but I want the divine channels to come out. That is my mission. What he said, "My students will become more powerful than me." How? When? Not Popes, not Fathers. The people they keep forgetting. In future if it keeps going the Pope is leading as a God. What is the real *Bible*? When they we're going to build a church, Jesus also gave the measurements too as a vastu, indirectly on the day. You can check that. That's a different story.

So the power, the divine power, it's only possible with your pure dedication. You have to completely stop your monkey mind and be completely dedicated to 'do or die' to win the true divine power and love and the knowledge. The knowledge is only possible for you to get through your practice and through your hard work. Experiences, I can give you tons of experiences. That's okay but the knowledge, you have to practice it. If you see the ancient palm leaf books you get a shock how much, on the day, they really dedicated their life and sacrificed their lives writing on the leaves - hundreds of thousands of books. Many books got lost, burned, injured, thrown in the water, but lot of wealth, even though it's gone from India, again it will come back. Has to come

back. But this knowledge has to go entire the globe-wide, that's only my mission.

I love Jesus, I love Popes, I love Father, I love Church, I love *Koran*, I love *Bhagavad Gita* - I love humanity. I'm happy to stay as a simple layman in the street, a simple layman as a farmer growing the little vegetables. Happy. Sleep. Forget it, my job is done. I hope he'll bless me that. I don't have any desire. I don't have any desire physically myself. I have a desire after I've seen this concept - yes, this needs to go in the globe. But day-by-day the globe situation is getting tight. Lot of poverty is coming up but nothing to worry, nothing to worry, it'll be okay, even in 2009 it is small disturbance there but pretty smooth, pretty smooth and again big hope, big success is coming.

So try to concentrate on your lives and your mission and no matter what ups and downs, no matter what the disturbances keep coming and it going, stay... hold it like a small monkey baby. A small monkey baby never leaves the mother. When the monkey keeps jumping up from one branch to another branch, we have to hold the God or hold the Mother or hold the Father, "Give me. Give me. Give me. Help me! Help me! Help me!"

Without you guys there is no master. Without you... there is no master. If I want to do my mission, if Krishna wanted to do his job, he could do his job himself. Why he needed Arjuna? Why he used the Arjuna? That was Arjuna's job to take care of the battle. Krishna's job was only taking care of the chariot. My job here is I'm just simply driver. I'm simply driver but I know which direction I have to carry you, where is the enemies and where to protect. Just, "Do here, do here, do there, do here - done." That's only me. I don't want any credit in my life. Your success, your happiness, you brought lot of peace in the globe - done. Really done. Any questions Nityaananda? Be a family. Why so tense? Be a family.

Nityaananda: Is your mission... is the same as Jesus's mission?

Swami: Of course.

Nityaananda: Same knowledge, same channels?

Swami: Of course one hundred percent. I'll show you tomorrow the most quite amazing thing what he used in his life. What he used in his life.

Nityaananda: Has he given a new permission or is something new happening from his energy from tomorrow onwards?

Swami: Yes, He'll be more active in the globe through you guys. He'll be more active, unbelievably active. He's already active. Sometimes Big Boss, he's pretty relaxed, sometimes he's very active it's the same.

Monika T.: Swami, what is the real reason it had to wait for 2,000 years?

Swami: Why Swami Yogananda, something he wrote in a few books and he kept it for several years then later on printed it? Why? Tell me Monika.

Monika T.: He had to wait until after he left his body.

Swami: Means he had a fear?

Monika T.: I think one part to finish his work. Yes he had to wait until he left his body for it to be done.

Swami: I'm sorry - I don't have a fear. I know some stuff can hit me but the globe is not stupid. Nowadays the globe is pretty open, it's very, very open. Many scientists they won't believe the Vaastu. But as a scientific reason, in some angles, we can prove it but beyond that, even to me as a scientific way, I cannot prove it. On the days, what they wrote on the palm leaves, if you practice it, it's happening. So the scientists, they have to study the spirituality. Until they study the spirituality they don't have any right to ask any question mark. They have only their own angle, but they don't have another angle. That other angle they have to discover that.

I can only believe the science if they can stop the soul, if they can stop the death. Yes, I surrender. I bow my head to their feet then I believe the science. If they can't do that, they don't have any right to make any comment on spirituality - period. It's a golden

statement. If they can stop the death, yes, they're the heroes. I respect science. I'm a science student. Let them study spirituality too. It's not that easy. Any person can study the science but they cannot study the spirituality, can do any of the processes - it's the toughest job, more than the science, very toughest job, toughest profession in the planet. Does it make sense? You can put this comment in the Guru Day message. What else?

Gary: Swami, what's the best way to bring unconditional love in our selves to the world?

Swami: To be around suffering, to involve in suffering, receive suffering, recognize the suffering, discharge the suffering.... then there is unconditional love.

Gary: Do we have to go through that suffering ourselves? Is that why you told us in the past we have to taste it all, we have taste the suffering?

Swami: Pretty good everybody's suffering in the globe. For example, you went to the Old Age Home. The person cannot walk, cannot talk - he's waiting to die. If you really spend everyday couple three, four hours time with him, you'll see how much he's really suffering it - suffering, suffering, suffering... but one day you also know you need to go through the same thing. The same thing Buddha Siddhartha he did it. Jesus' favorite philosophy is Buddha's philosophy, unbelievably favorite. So, to go through that pain, to be around that pain, be involved in that pain, digest in that pain then discharge that pain then there's no more pain in there left. There's true love left. That's it. If you cannot go through in it, you don't have the right to make a comment on the love.

Today is why Jesus Christ, he has been through, he involved in it, he digested it, then he discharged it then he's, yes, Paramahansa suffered with huge cancer, huge wound with maggots falling off every day. Shirdi Baba, coughing, coughing, coughing, suffering, then he transferred his health to Tatyia. Then he died with throwing the blood out. It's not in the physical way to suffering it - mental, heart and soul level. You have no idea guys, whenever I'm sleeping, hardly when I want to take a sleep for one or two hours, thousands of people... I met a soul like seven lifetimes back. He's begging, "Please." Some directions come, "Take care of that

person." Different orders come from the Mother, the order comes - "Take care of that person." From my Guru Parampara some order comes, "Go and take care of this person." It's going, taking care, completely taking care. Even I'm going into Yoga Nidra, my sleep is not really sleep, its Yoga Nidra. It's Yoga Nidra. Of course my physical doctor, he knows of my life. How he really takes care of this physical body, "Swami, I'll take care your physical body. Leave it to me okay?" There's a reason why He sent him to be here. There's a reason why Constanze and her sister is to be here. There's a reason.

I'm also human like you guys. My soul has some abilities, whatever it is - that's also blessed by Him. I'm still like you, there's no different. You get a headache. I get a headache. Whatever problems you're going through, I also have same problems. But some angles I can heal you, but I cannot heal myself. If I need a healing I have to go to Him (*pointing to Baba*), "Please." Early morning, sometimes I go and throw up boiled juice then I'll come out and look at him, "Thank you. What a suffering you made me. Thanks a lot." It's natural. It's okay. It's okay. When I involve with these thousands of millions of souls, not in a devotional way, really to make you wake up in a sadhana way, to removing very powerfully, yes I have to be, again I have to hand over to Him.

Karma Priti - Karma – one karma needs to transfer to another karma, needs to transfer to another... When I make you free, then I have to take that. When I want to be free, then I have to give to Him then He (Baba) wants to be free, again he has to go...finally it has to go to the Mother back to the Womb Chakra.

In your lifetime, at least try to see the documentary of the Kumbhamela, you have to see at least the pictures of the Kumbhamela. Try tomorrow to sit in the Theater Room if anybody has any pictures of the Kumbhamela, have a slide show. You might think they're all crazy saints. They're putting the ashes, their hairs are grown, their nails are grown and they are smoking. I've been several times Kumbhamela, the whole Ganga bridge, Benares, Kasi – just chanting nothing but *Om Nama Shivaya*. Millions of candles, the lights, they're throwing in the water...an amazing procession with all saints, amazing procession. If you see that, that's why I asked what is the psychiatric problems of hysteria people, lot of angles? Of course I'll give the explanation

through the video. You can see that. There are a lot of angles and I'm still working on. What else?

Tatyana: You said in Shirdi, Baba put satya, dharma, shanti, prema there in his gurusthan. Can you say what Jesus put in his gurusthan?

Swami: He put pure power, pure love – both.

Tatyana: Can you say more about the role of the rock, why the rock has been brought here to Penukonda? What's the real reason?

Swami: Power object. We buried the Shiva Lingam (*Ala Hala Lingam*) here. It's a power object. For example, if there was no technology, no cameras, nothing they left... only I wrote on the leaf whatever is in the book, if the book disappears, who knows that? Only you told to your children, their students, their students... They think, "Oh yes, yes then how it will exist?" How it will exist. Are you okay, Tobias? Where are you?

Tobias: I'm here.

Swami: You feel sad I'm not coming to Europe?

Tobias: No.

Swami: You feel happy huh – no more work?

Tobias: Either way is fine.

Swami: If I want to go to America I have to go either through Europe or Singapore or Japan isn't it? Still a chance. What else?

Tatyana: You said when Jesus came back to India then the real story starts from there. Can you talk more on what Jesus did once he came back until he finally took off?

Swami: He trained lot of students. He spent lot of times with the yogis and yoginis, and finally he relaxed in Penukonda Hill. Then he dropped then he made me to promise to bring this information, knowledge out. I'm on that mission. He went to Kashmir. He travelled everywhere in India, majority Mysore, Chamundi Hill,

then he came back. Wait and see. You'll read it in the book. If I keep warning means, very powerfully it'll hit it.

Question: What role did we all play at the Crucifixion?

Swami: Simply watching. Simply watching.

Luzia: I talked with some students and they say they have a heartbreak with Jesus, so I'm wondering if witnessing the Crucifixion, if that experience, if they sucked it as a pain?

Swami: Hun-un (*no*).

Gary: Swami, you said tomorrow at 5:45 a.m. our time starts and then you were talking about Lord Vishnu. Is there a special way Lord Vishnu is going to help us in our time, or something we should do that can help implement Vishnu's energy in our time?

Swami: No, just to be whatever you want to be, that's it. It means... why I'm making that comment, tomorrow at 5:45 a.m. the baby is being delivered - no more in the womb, it's coming out. No more in the womb. It's coming out. It means, you have lot of time, spend the time in the meditation as much as you can.

Nityaananda: How was Jesus' soul different after he came back from the Khandana Yoga, Crucifixion? Did he become an avatar of Mahakali then or was his soul was the same as her soul?

Swami: The same but in a very powerful Mahakali way.

Nityaananda: So the yogas he did after the Crucifixion with his soul parts, was fundamentally different than before because his soul was different? In those years after the Crucifixion, was he focusing on this time now? Was he setting up any of these channels, working on these souls, on us now?

Swami: Give me an example.

Nityaananda: Well, you said you spend half the time in your meditations working on the souls of our students, and our students' students, and students' students, like that, setting things up in that way. And the time cycle from Jesus' mission, which

didn't work 2,000 years ago to bring the knowledge and the enlightened channels to the world. Just waiting for this time to come back again?

Swami: Yes.

Nityaananda: So was he dedicating his life in India, at one part, to this time now on the planet?

Swami: Yes. Yes. Yes. If you put the mango seed in the ground to grow, again to giving the fruits, it takes time. Now the fruits are ready. Fruits are ready. As my knowledge and information certain things what I practiced, again it might take several hundred years for the people to be able to realistically understand what Swami Kaleshwar did it. What was his real life there? What he practiced? What is he? It takes time. It takes time. Do even the Buddhists know what Buddha did? No, not that much really. What Shirdi Baba did, the sadhana, and how he really put his austerities power in his gurusthan: satya, dharma, shanti, prema? What type of channels he used, we know it? That's, one day need to explain that too. But the time is running like a horse. But you'll get it. You'll get it.

Myuri: You mentioned that Mahalakshmi played through one of Jesus' students that created some damage there. Can you say more about what he went through and what...?

Swami: I'll speak everything what they're working with the crew: Nityaananda, Nancy, Monika T., and you're also there. In the video I'm talking very clearly. I'll show it, but it's pretty lengthy. It's lengthy. I am going to tell. There's no negative intention to blame on anybody in my life, on any person. Whatever I've seen it, whatever I believed it, whatever I practiced it, whatever I experienced it, whatever my students had the same experiences, if I had double time, triple time, checking it, putting it there. To my mouth it might be bitter. If it's bitter to forty people, yes it's bitter. If it's sweet, yes I put that, it's sweet. Hun-un. Check, double check, triple check, fourth time, fifth time, tenth time, then put it. Pretty good I already checked it. I'm going to check some more times too. Shall we go for bhajans now? Something they prepared.

Gustav: We prepared for tomorrow Christmas songs.

Swami: Tomorrow, I won't be that much available with you guys. I'll be in the deep trance meditation. Completely I'll be in my own way but you can do your prayers and meditation, just do two, three songs.

Even tomorrow I'm available or not, your pin drop silence and your sadhana, it'll become more transmission in your life guys. Teachings, knowledge, yes, senior students are here, they're happy to help you. I've given the knowledge to them. The knowledge is available. They'll teach you. No need Swami to sit here all the time talking, but it's the time for you to utilize the transmission. This is the time. Okay? Good.

End of talk
