Shiva Ratri Program 2009
Swami's Divine Transmission of his Austerities Power
Teaching in the Baba Temple
February 22, 2009

Swami: Good evening everybody. Out of three points, point one we completed the Kama Chakra and Kala Chakra. We buried it. The process is done, and the Mountain Group of Switzerland is completed. Quite amazing what they received. I hope they're happy.

Mountain Group: Yes, Swami.

Swami: And different layers of the new students, I think they're also happy.

New Students: Yes.

Swami: Hun-un, does not sound good. Coconut Group is happy?

Coconut Group: Yes Swami.

Swami: But try to be very careful what I taught about the Kama Chakra. Try to learn that and remember that forever and ever, the

rest of your life. It's very, very helpful – really helpful. That's the highlight of this program. And tonight your Swami's going to transfer his austerities' power to everybody. By 10:30, once you come back on the slates meditating your Personal Mantra or Sky Mantra. I will come down and just giving the shaktipat, and the next morning is the abishek. Shiva Ratri starts this night, midnight until forty hours the Shiva's energy is completely very powerful, in Himalayas, especially near Manasarovara, amazing, amazing quite energy. This is the day only we can receive the Shiva cosmic energy very powerfully. Shiva is the final ultimate goal. We have to melt and merge with him.

And three most senior students are giving birth to the atma lingams, not your Swami, and let, the students will do that. Tomorrow when the lotus flowers are happening at the time, everybody has to make the fast track in the Dwarkamai, make a pradakshina to the Shiva Lingam and go out. At the same time, a wild cobra will be inside - advancely I am letting you know. Don't get shocked. If it bites, I hope Dr. Clint Thompson is here with the antivenom. Clint, you have it?

Clint: Yes.

Swami: We'll see the choice, and chance how many people will get bitten. When I was doing sadhana in a beautiful ashram and with beautiful saints, they made a lottery. I'm not joking this is serious. The lottery is, in a small room with a small flame, I have to meditate inside with a wild cobra and no clothes. Pronunciation must be very accurate - certain siddhi I'm going to receive there. The senior most saint, ninety-two year's old man, he took the wild cobra, he burned the tail of the cobra with the flame, then he threw it inside the room and he locked the door. It is so aggressive. Cobra is? so aggressive. I had to protect the flame, it should not turn off, and I have to keep chanting facing the East, with having no fear. If I have a fear I'll lose that siddhi. The fear of death, I have to completely avoid that. Let it happen whatever is going to happen. Simply I'm sitting there and doing it.

The first ten minutes it is very crazy, aggressive. It really wants to hit me. I'm blinking my eyes making it stop, "Wait, wait, wait!" And I keep chanting it. Later on, it calmed down and entered on

my body. It's going on my lap, turning around, going around my neck and playing. Imagine once, a wild cobra is playing on your body while you're chanting - that is spirituality. That is? spirituality.

I hoped some of my friends outside could take care of me. Strong determined willpower - if you win the fear of death, no energy, no guts can touch you. The maximum worst fear is death. You can protect from any types of fear, you can come out of any type of fear but the death fear is very crazy.

Many people are thinking, "No Swami, I don't have the fear of death." I don't believe it, once you reach there, all chakras start to open creating a huge fear in you. There's only one soul I saw very strongly, I personally witnessed it, no fear of the death - that is the Jesus Christ. Absolutely smiling. A one-eye blind person put the needle to Jesus' palm. The blood poured on his blind eye. His sight came in that eye then he cannot beat the nail anymore. Jesus simply said, "Do your duty." Do? your duty.

I am telling to you guys, Guru Parampara is there. Be honest to yourself, honest to around, dedicate your life whatever is going to happen, it will happen. Whatever the Guru Parampara wants to give in your life, it will come in your life but the surrenderity to the Shiva, the Almighty, is the most important. You keep holding up you, the ego, 'I, I, I, I...' Once there is no more 'I' in you, I will be in you. If you're keeping yourself, "I did this! This is my energy, this is my money, this is my power," that's the most stupid thing you can do. "This is my beauty, what a beauty I am," no - biggest illusion that is. Try to avoid that.

You don't have any problems. You think you have problems. No, you're biggest problem is to know the reality: Satya, Dharma, Shanti, Prema. Whenever you're doing the dharma, your duty perfectly whatever it is, then automatically you'll receive the shanti, the inner silence, inner peace. Once you turn as a peaceful man, the prema will turn around you - everybody starts loving you. That is the satya, that is the reality. The major one is your action, the dharma - your duty.

You're a housewife keep doing your duty. You're a businessman, as much as you can try your best. Still don't leave the hope on the God. God created for you some work, and you don't want to do that work but still you have to do that work. Do it. Me personally I no need to do this work but I'm enjoying this work. That's my

dharma. I can do tons of businesses, tons of works, is it true Monika T? What are my skills in the normal world, can you stand up and talk? So far you're working with me, what are my skills other than spirituality.

Monika T: Well you have a lot of amazing skills. First of all you're a scholar.

Swami: Scholar means?

Monika T: A researcher on the ancient knowledge. You're an amazing administrator to that ashram. You're an architect, a businessman, a director of movies.

Swami: Director of movies? You ever seen my movies?

Monika T: Yes.

Swami: You liked it?

Monika T: Yes, they are wonderful.

Swami: Like what movie?

Monika T: They're Telugu movies. I think *Misama* was one you worked on, and there's other ones I don't know the name of but I've seen parts of them and they're beautiful, especially the dance sequences.

Swami: The dancing? Um-hum.

Monika T: You're an architect, designing amazing structures all over the world for people, as well as this amazing spiritual place.

You're an Ayurvedic expert. You haven't really shared that yet but you are. You're an astrologer, Jyotish.

Swami: First of all, I don't know my Jyotish, so why I'm doing this?

Monika T: I think purely for your satisfaction to help other people. Satisfaction you get in lifting the souls.

Swami: I read the *Puranas*, I read the *Bible*, I read the *Vedas*, I read all the traditional books. It didn't make any sense to me, then I read the palm leaf books, then it makes sense to me. All this information, *Bhagavad Gita*, *Bible* on this side, if you see the ancient palm leaves, it's on the other side. It's not matching. The whole globe is under maya. It needs to be open, coming the big spiritual revolution in a beautiful way to knowing the reality what is in the ancient leaves. Five thousand years back what they really talked, certain cosmic channels. You cannot see that in the *Bible*. You cannot see it in the *Bhagavad Gita*. It's a real, clear information.

Since ten years I'm begging some senior students, "Please learn Telugu. Learn Telugu." A few students are coming up. You have no idea... once you learn Telugu, one book can change the globe very powerfully. I don't have the time to come and stay in your countries. I'd love to but that's not my nature. I can't handle that crazy vibrations, of course I can but I want to be here. So, once you learn Telugu... yes, in your lifetime achievement what one palm leaf book explained there... hundreds of thousands of books is available. Only thirty percent I read it, then I got shocked. I was really shocked. Then I traveled as a researcher whole of India. I visited whole India from Kanyakumari to all the way to Manasarovara. I met all type of saints, avadhuts, babas, swamis, aghoras, digambaras, siddhas, yoginis, bhairavinis. I visited everywhere. I visited amazing power spots. Whole my research, whole my experiences I'm putting in one cup giving it to you guys. In a short way, in a quick way I'm giving it to you.

So you have to realize and recognize the time, and your inspiration. Many people they want to learn certain healing abilities, they want to go and start their practicing and make

money and live their life happily in luxury - No. I have some small bad experiences with few Americans. Some of the books got stolen, clearly stolen. Few Americans they know it. I really trusted it. In the beginning days, this ashram was very, very poor taking care of many people. Even the University, last year, and year before, and this year totally many people I support financially, taking care of their food and all angles, "Okay go ahead." By grace of Baba, now he provided a lot of things, and some of the students they're really taking care of the ashram too, some, not money.

I made tons of money and I've given to charities tons of money, to schools and universities, educations, hospitals, charity works to make people around happy. So far, we've done five thousand eye operations in a matter of two years non-stop, even now the operations are running. All this area, sixty kilometers around, all old people they have clear eyes. Entire this District we provide tricycles to handicapped people. That's also one type of seva, to provide, to protecting some divine around the souls. That's a good karma. Not all the time teaching. Of course I love to teach. I already talked hundreds of thousands of hours. I talked, talked, talked, already amazing information has been given. I don't want to talk anymore, just give the experience, give the results. Senior students are here, they will take care of you. They have the knowledge. Who worked with me since seven, eight, ten years, they know lot of knowledge. They will teach.

So, time is running fast even in your countries. Try as much as you can, learn Telugu. I know it's not a big deal. When I came the first time to America, I'm not a good English speaker. Raymond it's true?

Raymond: That's what I heard.

Swami: Monika T?

Monika T: It's true Swami.

Swami: I didn't know present tense from past tense and future tense. Hun-un. Especially with the Jonathan and Philip, they're speaking, "What?" I made them write it on a piece of paper but

even I couldn't read their writing. Even now, Leslie's handwriting I can't understand, you can test her handwriting, it's very difficult.

Germany, they speak very good, but I didn't understand. They're very tough, well organized – well organized, and the Germany Seva Crew, very, very dedicated. Very dedicated. I really heartfully appreciate it - with their unity and strong bond that made me to visit Europe a lot of times. Or course I love to come to America too. This year I have pretty good plans to come to America. We'll see.

Whenever you have that unity, sharing, you're a family here - Shiva Sai Mandir family - big family, have good friendships. Try to develop that bond. Don't fight with each other. No egoism here. Even I'm close with one person, don't feel I'm not liking you of course I love you. Be sharing with each other, be loving each others, that's the bliss. That's the bliss. Does it make sense?

So as much as you can in your life, try to do minimum charity works. Think on some people's life who needs help, any type of help. Spend some time, put a little attention on them. You'll receive tons of blessings from their soul. A person who is really thirsty, really thirsty, and he comes in front of you, and you give a glass of water. How will that person feel? So bliss. You cannot talk in front of a thirsty person about spirituality, about enlightenment. Who cares? He's hungry and he's so thirsty. That's one of Vivekananda's concepts. He always said, "Instead of sitting in meditation, go and play a football game. Make your muscles stronger and healthy. He's another type of revolutionary. But what my revolution is, in a beautiful way, is to remove the darkness, change the belief systems in the planet. There are crazy belief systems. Avoid it. Jesus Christ, a great saint, that type of saints exists on the day, even now, hundreds, thousands of saints, they're so afraid with the negativity. Even me, since ten years I'm trying to get the Big Boss (Jesus) book out. There are five sessions, five books, five volumes. Three volumes are completed, two more volumes are there - so interesting knowledge.

First I'm training with Simon and Constanze's Group, first the Khandana Yoga inner mechanism of the process. I gave the initiation to them. We tried it. Some disturbance happened. Once they get success, of course I'm going to teach to you, explain to you - lot of mechanisms already many people they got experience. Whenever you drop your monkey mind and suspecting mind,

completely surrender to the Guru Parampara then I'm there with you. When you're holding some of your own blocks, even though I'm there with you but I know how to play with you too. I know? how to play with you too. So it doesn't matter whatever it happens, surrender, surrender, surrender....

Already it's 9:30, so tonight and tomorrow night is big days guys. So, morning try to attend to the abishek everybody at least ten minutes, then whole day try to take a good sleep, then tomorrow the process we are going to hit it. So, I'm expecting you by 11-12:15. No torches, everybody in front of Mandir slates. Good luck.

Students: Thank you Swami.

End of talk
