A Live Video Message to His Students at the Ashram

Talk in the Jesus Temple

July 8, 2009

Swami gave this live video message to his students at 1:30 a.m. from the Jesus Temple

Good morning guys, your Swami's right now, today early morning 1:30 am. I know so far we really exhausted everybody with a lot of angles and a lot of processes. We made a very good victory and I'm so impressed how many groups, and the group leaders, they really did a hard work. And I really congrats to all the group leaders, really thumbs up. And a lot of unity is there. This time, even though five hundred fifty people, lot of different angles the people they came here, it's very supportful and unity.

Today's major content what I want to explain to you, so if we missed about the Jesus Christ and some his messages, and his what he did in his life. Not only Jesus Christ, it's a lot of saints in India, like a Kumbhamela once I mentioned to you. The content of the energy, the differences between the love and the power - I told you about first content, about the love, the explaining of the gurusthan of the Shirdi Sai Baba —satya, dharma, shanti, prema. How the austerities power, it's a splitting, splitting up of one part his soul and he's burying there, the form of the Satya, Dharma,

Shanti, Prema, the four candles, and forever he can receive that energy whenever he needs it. It's an extra backup battery like a car having a separate tire.

Every soul exists like a seven places, like the power spots I mentioned you so far – minimum you got that. Entire if you compare in the globe, if you see the Peru and Egypt, the Himalayas, Mt. Kailash, Manasarova, and a lot of amazing in the Indian tradition, the temples and uh...it's a great interesting mystery phenomenon. Even if you look at the Penukonda, it's a great fort and a lot of samadhis here - it's a mystery.

As a spiritual researcher, in depth, you never ever get confused, and even though you got confused, try to come out of the confusion as soon as possible. Don't get stuck with your 'monkey mind,' not able to get clarity, whatever you already had it, don't lose it.

Now we'll go to the power. Generally a person is carrying... there's a many people they explained at the Adi Shankaracharya time, the power is a hidden in the different chakras. Already I mentioned about the third eye, Hrudaya chakra, and Nabi chakra, and Womb chakra, and Kama chakra, and Kundalini chakra. There's a different layers of all of chakras in the energy levels, but also the body carries the energy and the power, certain angles.

The bones is also the most powerful. In our bodies there is the three major bones, we don't know is a different - persons they have the three types of the bones in the body. That energy is a high capacity, high voltage energy. It's a spark, and a thunder is also hidden in it.

The bones, even the Shirdi Baba he mentioned it before he went into Samadhi, he'll give the answers from his Samadhi through his bones. It means the bones have that much power, and the teeth, and the nose, and the Brahma Conscious of the brain, certain brains is amazing. The Brahma Consciousness is really completely merged with a lot of cosmic energy there. So we should be a little aware of that, even our body is a kind of huge power object.

Then it, something can get healed, it's a kind of liver. Even if you got the bad liver, once you got dissected it, even if you putted a small piece the liver, again it regenerates it very fast. The same thing, the power, once what you hidden there in the body sucks it. And the whole, whole body is a power object, the same in the

crucifixion, the Jesus Christ even though his body completely is a power, even though they crucified him. The Mother's womb chakra he really connected it. She transferred... Mother Mary, she transferred her energy to his womb chakra and to his third-eye. Then he started to regenerated that, all nails and all stuffs, (which were) completely broken. Then he's just simply smiling and wake up.

How the mechanism is, and I think everybody is here, you need to indentify where is your energy spots in your body. It's very easy once your third eye is really started to open. Certain process you need to do it. The first initiation you really got it, through the sandalwood paste with the three chakras you made it. One is third eye, and one is Hrudaya Chakra and one is Nabi Chakra.

So, it's a deal but it is not a big deal to understand life and death. You have to understand your body, even though you're sick, you are a very damaged the health, and no matter what it means the chakras in your body is pretty good intensely negative, high forces received it, that is why it's making you sick.

Doesn't matter you are a big drug addict, alcoholic whatever it is... it means your chakras are not supporting you. That's why you keep doing all the stuffs. So I really recommend to you guys, if any persons really come to you, you better to give the shaktipats to the chakras, especially Third Eye, and Hrudaya Chakra, and Nabi Chakras. The same process, whatever I have given you, you just giving a shaktipat, Third-Eye and Hrudaya Chakra, and to the Nabi Chakra, then the energy will start to flow. (Swami demonstrates giving shaktipat to three chakras with the thumb in the down position, rest of fingers up) So to giving a shaktipat, simply going and touching them on Hrudaya Chakra, and Nabi Chakra and just keep giving the healings -they keep comes up.

And a take a majority of the dhuni ash from Penukonda with you, and the rose water of the Baba whatever the abhishek water, then it really helps to the people. Then you should really try the healing sessions, it really helps. If you're not keep trying it, simply you're sitting in the house then it doesn't work. You have to use your weapon how really strong, and how much is really strength in your weapons is. Whatever you got initiation, and whatever you received it, you have to test it. Without testing it, it's not a possible to judge your capacity and capability. And moreover, I recommend...the crucifixion, intentionally he choosed with

challenging pledge of the mother, "Pledge you do whatever you want to do, then I'll do whatever I want to do." Yes, it's after the crucifixion lot of people have lot of suspecting, "Where he gone?" They put him in the cave, they put him on the rock, and just they closed it with a big rock. Many people they have belief system he came to India, no he went to the Kashmir, no he went to Egypt, no he went to this and that, and this and that...

I'm leaving left to my senior students, and who really got the Mother connection so far, I really gave lot of strong initiation to you guys. It's better to you to choose with your Third-Eye, see with your Third-Eye where is this earth element is really powerfully shining. One more chance I'm giving to you. Where is his Power Spot, his samadhi spot, and his energy spot will be located in this around circumstance?

Yes it's a true, it's a fact he came to India for sure. India is nothing but his Karma Bhumi. It's a lot of unbelievable ancient, it's an old, old, old, old, old grandfather to the whole globe. There's a pretty good history to that. We have the evidence of that but we need to... you need to, each individual student need to learn and prove that. And I really want to go and show that leaf (Palm leaf) and have to read some of the evidence. Of course I'm really going to putting it on the website in a few days, then you can have a look. Whole world can look at that, then they can read it what's going on there, anyhow you'll see that once you know the Telugu. Moreover, the point what you need to be aware, point one, to protect your chakras, point two, don't ignore your body capacity. It's also greatest and strong - strengthened. Your body is nothing but a power object to receive the cosmic energy.

Generally, you feel if somebody comes in your house, like in your meeting place, a person comes you feel so nice and kind, so thrilling and so soft. If somebody comes you feel little bumpy nature, bumpy energy there and you don't like it there. It means his soul and his body, his whole energies are particular character, particular energies - it doesn't fit to your particular character and energies. So immediately you feel little distance there. It means automatically, it's not a psychological feeling. That is the part of energy scanning mechanism.

And moreover, the most important thing is the eye power. Generally we keep talking about Third-Eye, Third-Eye. What about our natural two eyes? Generally whatever we receive

sucking the negativity, and whatever we're sucking the positivity, majority it's the eyes. If you close the eyes, complete whole globe is blind. Jesus Christ always you have to observe, he never ever looks the straight. He never looks straight. He always looks very slight. He gives little glance, little ten degrees is tilted. Even if you look at Shirdi Baba, twenty-five degrees, ten, twenty-five, fifteen, twenty-five degrees it's tilted. Generally, whole even to Shiva, if you go to any Shiva Temple in India, if you look at Shiva, the straight to there is a Nandi sitting, Nandishwara, there's a Nandi bull. Even the bull is also little bit tilted like this. It doesn't look straightly to the Shiva because of, if the two eyes is the bull can look straightly, there is one more eye, his third eye, his power - that power keeps flowing it. The bull, even that Nandishwara cannot able to tolerate that power.

In our two eyes, whenever you're giving healing to anybody, like a shot, one glance to anybody, just you look straight at them, make your sankalpam just one second, two seconds - the energy will hits it. You don't need to keep go and touch this, this, and that.

Generally when you look at a girl, immediately you catch it, you capture it, you kept in your mind, then you completely, you fall in love, you really want to get her in your life and to be with her. You want to get her phone number, you want to know all her details, all her stuff. And you look at some object - you really want it. It means a desire will flow through your eye power. So the eye power is that much intense capacity is there for charging and discharging.

How to discharge the eye power through the eyes very fastly to discharge? Many times, whenever your Swami he always recommends, and also Swami does, whenever there's a fire coals are running in the dhuni, even a candle is burning constant, like a few minutes you're watching the fire element and you're chanting the Nine Arrows, it really sucks it.

Today I'm making sankalpam to all the student's kingdom, it's early morning time, it means my sankalpam is a very the pure consciousness of the statement. It automatically will play and helps to all students' kingdom, then it sucks the negativity. Whenever you want to suck the high positive energy, early morning sunrise, just it's called even in India, there's a *Surya Namaskaram*. They go to the river and they take the holy bath. The sunrays are coming from the river, or a lake, or an ocean. It's

coming up the sun, just red sheet, half red, seventy-five percent red, hundred percent red. That rays are straightly hitting your face and especially on your eyes, if you look at that through the water, with the water, with the water, and that rays' glance it's coming on you. That's the most-highest positive energy you can ever receive that easily and quickly. Be in the water and receiving it.

That's why always I recommend even the vaastu, early morning you open the door, sunrise needs to come in to enter to your room, your house. Even today in our Baba temple, once you open the door, it's almost the sunrise it hits to his face, to his feet. It means natural-supernatural cosmic energy, positive energy the statue is sucking. Even Jesus' statue is sucking it.

To, I recommend to you, to sucking the highest, positive, cosmic energy through the sun. The sun is nothing but unbelievable powerful instrument beyond all the Maharshis, all this information, to receive that energy. Using, whenever you're receiving that energy, the perfect prayers, to that is Nine Arrows.

I recommend you go in the water...even it's a cold season, fine don't worry. Hot season is fine. Any sunrise is coming, you're driving, stop your car, go to the lake, go to the river, sit down, lay down, do your Nine Arrows prayers. It's called *Surya Namaskar* and it's good for your health and good for your eye power. Good for your spiritual progress to charging all your bones and your chakras, also, that was done by Baba, and me, and Jesus Christ, Babaji, Yogananda, Paramahansa, Ramana Maharshi - everybody did this. It's the secret of, especially the Nine Arrows is linked with the sun energy. It's done; it's proved with the Jesus Chris life in the palm leaf books.

So I really recommend to you, even early morning I see many students are sitting outside in the garden, they're chanting it - that they should chant the Nine Arrows. It's very important. The sun has that much capacity and power. Utilize it.

Okay, if you come to the New Moon and Full Moon, and the Full Moon especially, always the Full Moon will start to rise in the East. Whenever the Full Moon is rising in the East, you're facing him and also chanting the Maha Shakti Gayatri. The Shakti Gayatri is nothing but pure, unbelievable, unbelievable, unbelievable opening the consciousnesses levels. It's even to break to the Jagruta Stithi and it gives the Sthita Pregnata Stithi. To being in the Sthita Pregnata, that is the most immortal boon what you

can get it. It's not easy to get Sthita Pregnata Stage. That's once you win the Sthita Pregnata, pretty good 98% of your spirituality is done. In tragedy times, in happy times, you're pretty good equal. There's no bumpiness anywhere.

So, I recommend to chant the Shakti Gayatri every Full Moon facing the East the moon is rising it. Even you look at it or not, even if the moon is not shining, even the clouds are really cloudy, even though the snow is falling down in your countries, fine. Go in the nature and sit, face the East and chant the Shakti Gayatri. You'll receive unbelievable supernatural cosmic power. This is the major healing techniques I'm telling you guys today. Try to practice that. And it also strengthens your womb chakra. Once your womb chakra is very strengthened enough, strong enough, then lot of healing abilities and miraculous capacities will grow up.

So, Mother nature I will explain to you again in the next couple days, even you can see in the Webpage more details there about the dialogues between Jesus Christ and Mother Mary at the Crucifixion timing. It's clear.

But I sincerely recommend that all my senior students just go in the Northeast garden to scan what's really going on there, what's the energy there. Entire walk the property and have a look at it what type of energy is. Right now you already twenty-four hours is crossed. You did with your high positive cosmic energy process with your three chakras. So pretty good challenging issue to you to test your consciousness. And these prayers, whatever I mentioned, these healing techniques, try to follow that and very careful your life and your processes until 2011.

These two things try to practice as much as you can. I'm really looking forward to seeing you as soon as possible. Hopefully again I will join you, this today evening hours again. It's already crossed 2 a.m. Still I have couple more hours, few more hours work in my office to take care of some things. By this evening, if I really feel comfortable, I'll come down to the chair, I'll explain lot of these things to you guys.

Moreover, another thing is, it's a simple thing but I'm sincerely telling to you - try to live in a good vastu place guys. I'm keep seeing it, a lot of terrible bad vastu places you're living in and facing lot of hurdles. But even though you're doing lot of healing techniques, try to find good vastu house too, simple at least.

Don't need a palace, just simple, small, good, vastu houses, then you're life will be charming.

And don't lose the Guru Mala. And there's some more malas are left in the mandir, sphaatikam, and there's a red bead's mala. I recommend to everybody to take each one, as a red one or crystal malas, wear it, but also extra protection moreover to you. You don't need to wear it, but just whenever you have free time you can wear that, it's high charged.

For today just sit and I'm looking forward to seeing you this evening. Have a wonderful time, and I recommend the Elephant Group, try to be strong on the students what is the difference between why the student loses the process with the 'monkey mind,' why they drag the time. By today, this processes I pushed the Kalachakra almost a thousand year's ahead to every soul. That's a boon what I've given already. Thousand years everybody is ahead right now.

So next few months, by next Mother Divine Festival, by next Christmas, by next Shiva Ratri, each person's soul like I really keep pushing, pushing, pushing in a beautiful way until we reach our destiny by 2011. We'll see in Benares in Himalayas, then we'll end up. Then your Swami wants to take permanent vacation to goodbye to spirituality for some time. Then we'll see what the Mother will decide. And a happy time and Elephants please explain your experiences what is your mistakes you did it, how you rectified it, how much tough your Swami was on you guys. Finally, how it came out in a beautiful way, so far, how many times you connected the Mother, and lot of your experiences. I recommend Clint and Monika T. and some of couple students whoever they choose. Don't waste the time. Tomorrow you wake up, try to immediately join this cassette and go through. Spend few hours.

Have a nice day. Have a wonderful time. Goodbye.
