## Swami's Ninety-Day JC Program

Love is the Immortal Nectar

Talk in the Baba Temple

September 6, 2010

*Swami came down and began to give a lesson in singing bhajans*

**Swami:** Give one beautiful song, Lord Ganesh. Gustav carry on. Come. Three songs I'm giving permit. Where is Ann? No, you no need to get her. This is the third time warning. She deserves some punishment. Come on, start... one, two, three...

Swami in response to the Gustav and students singing Gajavadana Gananatha bhajan: No. You're catching the throat. No. You need to keep... you went the rhythm up in the Mohana Raga. All of sudden you fall off on Krishna raga. Yes, you can test that. Whenever you're going in the Mohana Raga, is the high rhythm. Whenever you lift it, the Mohana Raga need to go very gently landing. Gently landing. Whenever the half beats is going huge, then you need to land that hard beat very gently to make it relaxed. Now start. Come on, next, same song.

*Students repeat the Gajavadana Gananatha.*

Swami: Nintey-nine marks. Done. After this, many years finally I proved it. Good. That's the rhythm to lift it. You have no ideas guys,

all the time the television is keep running, and each beat there, the music, and observing, observing... years together, years together – those who working with me they know it. Terry, is my television ever turn off?

Terry: Not unless you're gone.

Swami: It coming running, it keeps running, sometimes early morning I wake up 1 a.m. and play it, start the music, the favorite beats. Then whenever I'm in the healing session with people, cool down. Then in front of the boss Jesus, and here I come very pleasant. I walk, I walked in the garden lot of thoughts, yes, and I'm reading the ancient palm leaf books, yes. Today also I talked to the madam Lufthansa, coffee girl. How much time I talked with you?

Constanze: Two hours.

Swami: Two hours, on what subjects? Be open.

Constanze: (no mic - inaudible) It was about your experience you had with aghoras, with...characters. Very wild and you observed them and they come to you and show the different things and you...

Swami: Yeah good, tell the truth.

Constanze: And about Khandana yoga, that they... darshan. It's very exhausting and dangerous to the people. And they get a....

Swami: Um-hum. Next, except New York, you can talk. Did I explain about medical science? Tell.

Constanze: You explained about the brain, how the functioning is, which hormones are important. You give ideas about very important hormones, which are not discovered so far, and needs to be discovered and used. And about Ayurvedic medicine, that they're

most advanced their topics, and they have a cure for sicknesses the allopathy is not able to cure. And that Ayurvedic is really coming up and they get the evidence, and also recognized by allopathics when this pharmacological proof about activity and cure. These are the main subjects.

**Swami:** That was entire two hours?

Constanze: And then there was something else. There was about Baba, about the wonderful evening we had the night before, and the reflection from the students.

**Swami:** What do you mean?

Constanze: I told you that everybody was so deeply touched by these moments we shared with you. You were with us in one row on the floor all the time. You were looking up to the screen where your master appearing and showed episodes of his life and the message of his life.

**Swami:** Speak slow. Your language is a problem. I screamed on you more than thousand times and I taught you the language of how to speak English. Actually I don't know the English.

Constanze: Yes, okay there's a truth.

**Swami:** Actually I'm poor in English, poor English character yes.

Constanze: So...

**Swami:** (imitating Constanze's voice) Soooo... what? What? What's the so?

Constanze: Important from the whole thing I talked before.

Swami: Yesss, ah-ha.

Constanze: That we all...

**Swami:** Give a bottle of water to her.

Constanze: It's here. It's fine, thank you.

**Swami:** Ok, drink it. You're dehydrated, you no need to put an IV to me first, you drink it now. Now c'mon we're a family. I won't leave you guys. I know you guys exhausted. I keep working, working, working. Yeah go ahead, talk.

Constanze: So we're all aware about these golden hours we could spend with you. And these were really golden hours, especially to see you on the same floor as we were sitting.

**Swami:** Hey, I'm also equal to you guys.

Constanze: But you give the proof.

**Swami:** In front of the Baba, I told it also I'm your friend. First I'm your friend. I came and I sat. I know entire the Baba movie and his Guru Charita, it's only two percent of the Baba story - that is only two percent. Ninety-eight percent is missed it but that story, the script is written by Ikirala Bhardwaja, that great officer Indian administration service person. He resigned his job. Seven years he stayed as a beggar in Shirdi and he kept researching, researching, researching like a very innocently. Ikirala Bhardwaja, he researched and he wrote the script and based on that, they made that movie but it's a fact. It's a fact. How many months I stayed in Shirdi?

Constanze: Six months.

**Swami:** Where I stayed?

Constanze: You stayed very close there in the Dwarkamai, on the street as a beggar with a bowl. You cleaned the toilets, you ate the food they gave to you. You tried to be as close as possible to the life of Baba.

**Swami:** I slept with the street people very gently. Nobody know that. I will show you some photographs. I will play that. You can see it. I swept in Shirdi street, I cleaned the toilets. The old people their toilet I cleaned it, and I slept with them. I wanted to experience the entire the 360 degrees. The? 360 degrees. Yes, I spent it. I'm not lying. Go ahead.

Constanze: And during the movie you gave us wonderful comments what was happening there that we couldn't understand but especially touching our heart during the period of time when you sang with the actors.

**Swami:** Actors?

Constanze: Yes. So that was very touching and also at the end when you were giving the flower to Carla and the bread to each of us and we shared that, and everybody was melting in that energy.

**Swami:** It's my job. You're criticisms, I love it. You're compliments, I love it. You're screaming on me, I love it. You really throwing the rocks on me, I love it. No problem. No problem. No problem. I love it. Everything I'll receive it in the sthita pregnatha stage - yes. Whenever I'm super sick, Anya is really take care, and Cindy take care it, and putting me on the bed, "Swami relax, eat some food." Yes they did lot of hard work. Today lot of, Terry and Patrick, and Constanze, there's all crew guys. There are a lot of people, "Yes we are." They're doing great job. How many times you take care Anya?

Anya: Hundreds of times.

**Swami:** Even to Jonathan, I landed in the flight in Seattle and he's driving me, and Jonathan...and I asked, "Jonathan you doing good?" He said, "No Swami. I want to do this." His voice is like (speaks in deep low voice), "I want to do this!" "Hey careful man." "No, Swami, I know what I'm doing it." He's almost like how many hours you driven it?

Jonathan: Three hours.

**Swami:** I had a lengthy discussion with him. "I want to do this. I love her. I want to be with her." Hare Baba. "Okay, let you enjoy that. Then you'll come out. We'll see." But I don't want you criticizing, but I'm criticizing. It's not in a negative way but it's in a helping way. "Okay as you like. As you like." Three hours we talked and that night we went to Seattle, and I did my program. Several hundreds of people there, I completed my program and yes, it's a good. Then later on went to Laytonville - several hundreds of people. I'm there in my chair and everybody's singing and it's beautiful but lot of smoking smell. All hippies, yes, yeah, yeah, you can see in the video clippings. All hippies and smoking like, "Okay, good, and ahhhhh. (Imitates their hippy stoned voices.) Ooooo, like a whole hall is smelling. I thought it was samrani dhoop, "Where is the dhoop? Where is the dhoop?" It's not a dhoop, it's their breath. Their breath is a dhoop. Anyhow I enjoyed it.

Yes, I respect, I'm not criticizing in a negative way. Of course I had a great time. They're very loving characters, very loving characters, very loving characters but yes, beautiful forest, beautiful forest, such a great forest... Early morning I woke up and walked in the forest alone myself. Lot of deers, birds - it's a lovely nature, then I observed, and of course several times I entered there in Laytonville. It's a beautiful.

Why I'm saying this. The point here, indirect my message, it's okay a person can have some positive, negative marks. Only go for positive, positive, positive, positive, positive, start the day with positive, leave the day with positive, sleep the day with the positive. Whenever you started doubting, you're giving to your mind a chance starting to thinking a negative, it starts. The devil will start a negative way - that is the bullet point.

Go, next song please. Shiva song. Am I giving you a hard time guys?

Students: No.

**Swami:** Boring you?

Students: No.

**Swami:** It's okay Anya, you'll come back. You'll come back. You'll come back. I'll take care of you. I'll take care. I'll take care. Guru Parampara will take care. Don't worry.

Anya: Thank you.

*Following the Shiva bhajan Swami comments on the singing.*

**Swami:** Good! Good, good, good. It's called breathing period. I given you little relax time, I took here and given you little time. Whenever your climax time, hold your breath put in the friction whenever you're going in the speed. Take your maximum friction back then land it. As much as you can, pull it. With the gun, even a rifle, AK47, anything, when you're going to target it, they hold it here. (taking aim). Terry am I really good gun shooter?

Terry: Yes.

**Swami:** Many, many years he's somewhere thinking about his wife huh? He had some problems with his wife.

Terry: Well, I wouldn't want to be in the same room with you and a gun.

**Swami:** I hate, I hate the gun but sometimes I want to test it, is it really working or not. My security guards, "Hey, give it. phhat." But I completely dropped the driving. Is it right Constanze? Her name is not Constanze. Her name is Lufthansa.

Constanze: It gives the explanation that I can understand clearly.

**Swami:** See she turned red. She's asking early morning, "What is that meaning? What is that meaning?" And I diverted her and this and that. And I put her in emotional lot of things.

Constanze: But it doesn't work. It doesn't work. I don't forget.

**Swami:** What?

Constanze: I don't forget. It has not worked.

**Swami:** You cannot get it. If I want to tell it, I'll tell it, even if you tried it - hun-un, she keeps trying, trying, hun-un. A rock needs to give the help to be a sculpturing, to be a chiseling person, then beautiful structure will come. If the rock don't want to support you cannot chisel that beautiful rock to make it a beautiful whatever diagram it is, it will break it. It will? Break it. It'll break it. On the days, there was no technology. They created the whole entire pyramids in Egypt, tons of rocks. If you see the Hampi - all of sudden I'm taking you guys to somewhere to some beautiful place within three busses, and you'll see how the rock, a diagram is 16' x 16', 16 tons one rock on the sixteen feet height, how they lifted it and kept going. It's not a joke.

Yes, you can do it. Everything is possible. A spirit, positive inspiration, inspiration, courage, positive thought, you can do wonders. You can? Do wonders. No problem on it. No problem. No problem, absolutely no problem. But try to respect the humanity. Try to respect the knowledge. Look with your eyes, don't look through somebody's eyes. If you're looking through somebody's eyes you'll be in trouble. You have to look with your eyes then it's true. You hear and you look, then come one clarity. You'll come?

Students: Clarity.

**Swami:** Otherwise you're always in confusion. Always confusion. Sorry to say this, the Baba, the way of his style, way of his begging and everything, and he's coughing the blood in the last moment, how he suffered. How he really suffered in the last climax stage with the blood and throwing up. Yes, such a great personality, such a great personality Bhagawan, such a great personality, yes. He took somebody's karmas and he left. Even he rejected not to taking a shower, to change his dress, to changing his dress he rejected it. Somebody, Tatyia forcibly with a hunger strike, "You have to do this, otherwise I won't eat it." Today the subject... I know his arathi time is coming, "Give me some time Baba." You okay guys?

Students: Yes.

**Swami:** You no need a weapon, your love is a weapon. Killing a person, winning a heart, visiting a divine Divinity. A love is the highest nectar. That nectar is always immortal. Try to understand... Love is the unbelievable Prema. Doesn't matter whatever type the love is—mother-son, mother-daughter, wife and husband, master and student but it should be crystal clear. He is yawning. Old man. (Jonathan) Good. That nectar, yes you can do lot of wonders. That's called amrutha, that is pure honey, pure honey.

Many people before, they want to touch me and give a shake hand to me, they want to do pada namaskaram to me (touching his feet). I wouldn't even allow to anybody to even to come, minimum seventeen, eighteen feet around, not even to come and touch to me. Wait, wait, wait... Whatever... Is not a security reason, the energy reasons and anything, c'mon let's go, go, go, go.

Whenever I'm very exhausted and tired, and Lufthansa is taking care and she is taking her machines, BP, "BP is this much, pulse-rate this much," "Why you are checking?" "Please take this B complex, please take it, take magnesium, take potassium, ahh, magnesium, potassium." And she is talking about calcium and ... "Ok, ok, ok I listen you, I will listen you. Ok, right, ok." "Anti acid pill, please take one pill." "Ok, give it. Ok." Because I told her this morning I'm very lazy?

Constanze: Character, lazy character you said. Yes, and I could only smile.

**Swami:** I told her, I'm pretty good lazy character, but I hope I work pretty good but I love to sleep as much as I can. That is my weakness, and having a glass of champagne or red wine, something to relax, but I hate smoking. Sorry Baba, no, no, no, no, no, no! Something little relax - go.

Why I'm saying that, medicine, medical science one part to the body, supernatural science, spiritual science, the healing science, it is very powerful - that's only possible when you understand the techniques. You understand? The techniques - that knowledge is highest important. Never, ever underestimate even any single plant, what that plant will act and react and give the result and help you, the mother creation. That's the knowledge. There is the?

Students: Knowledge.

**Swami:** It is the biggest ocean. Keep, keep, keep, keep, keep, keep observing, observing, observing, observing, listening, listening and practicing, practicing - yes, we'll do wonders, Vaastu shastra, astrology, heart surgeries, healing sessions, even a cobra bite.

In the zoo, in the circus a wild tiger it will jump, whatever the master he says. He putted a fire ring, "Jump in this!" A wild tiger, it will jump out in its exact circle. A wild elephant with a small stick, he will control, "Stop. Wait. Wait." It is the will power one part, second next brain chemistry. The will power, "You can do it." He will do it. "You can do it." If you are inconfident you cannot do it, no, no... the confidence, the gang, every second need to keep go, keep go. It's most important, the confidence. You're happy, You're happy, you're happy, you're happy - you're happy! You're unhappy, you're unhappy, you're unhappy - you're unhappy! Don't hypnotize yourself. Don't hypnotize yourselves. Meditation is nothing but going in the deep trance, and you're feeling... you are going to be in the relaxed mood. In the universe there is no tragedies... accept happiness. If you feel it's a happy, yes the whole universe is happy. If you feel whole globe is crazy, then you start to see whole globe is under crazy but you need to be careful whenever you're giving your knowledge. Some negative forces is coming. Certain protections is

necessary. Even Lord Venkateshwara, Krishna, Brahma, Shiva, he has his trishula, the weapons. The?

Students: Weapons.

**Swami:** The trishula, sudarshana chakra - cut off to the negativity. Mahakali, you seen the Mahakali, many people saw. Whatever you think the people's criticisms, it's a negative forces on your Swami. I love it. I love it. It making me little bit alert, "C'mon." You seen it, even the Baba in the movie, the Rohilla, he's attacking on Baba in the midnight. He want to beat him on his head, and he (Baba) looked at him, smiling. He looked at him, smiling, "How dare you are!" ...inside, in his consciousness. "How dare you are. You lift a stick and want to beat it!" And he dropped it and he (Baba) give the clarity, "I am everything. I'm a Hindu, Muslim, *Bible* - everything. God is one; we are one. We are one, why you want to beat me?" Then he dropped his stick and he surrendered. He? surrendered. Patrick are you surrender?

Patrick: I hope so.

**Swami:** I hope so, it means, not clear - everybody is alert except Patrick right now. Just you could see the way of his voice, "I hope so." Not to me man, to the boss (Baba). Are you surrendered?

Patrick: Yes.

**Swami:** Good. You sure?

Patrick: Positive.

**Swami:** What you mean, 'positive?' Your health is positive, or your mind is positive?

Patrick: What? Say it again.

**Swami to Constanze:** See. Try to check, his is only 2.7. His hearing concentration is only 2.7. You're sure?

Patrick: I'm sure, yes.

**Swami:** On what? On what? You are thinking on your wife, your lover, and confused in the romance, and... isn't it?

Patrick: Yeah.

**Swami:** Yeah. What do you mean, 'yeah?' YES, you had to say yes or no. Yeah. He is in the, still in the trance. It's okay, it's okay, it's okay. Love is the most powerful. If somebody loving you, that's not your fault. I given you example in the Buddhism, the Lord Siddharta, the Buddha, he got the food, the pork. Actually he's completely... he left everything. Left means his wife, his kid, his kingdom and pure vegetarian, and meditated, and all of sudden a beautiful lady offered, "Please have this pork, please eat it." He accepted. He didn't ask that. She offered it; he ate it. You saw in the Baba movie, everybody is fighting who is sitting with the Baba. Finally everybody left - few people, five people only stayed there. Of course he knows it. He's smiling, "Okay." It's crashing... Dwarkamai is crashed. Three times it, how do we call, crash?

Anya: Collapse.

Swami: Collapsed, yes. Collapsed. One time, at the time, what you saw it? He said (to the roof) "Wait." He finished his lunch, everybody ran out and five people, they stayed and he walked and he watched, (and then he said to the roof) "Carry on, do your job, fall off." Then he's very tired, exhausted... he asked, "I'm so thirsty. Can you give some water?" Muslims is working, Christians is working, Hindus is working - everybody brought it, a glass of water to Baba. He took the Muslim people water, then everybody's criticizing, "Baba, you are so selfish." It's a masjid Dwarkamai - Hindu name, but masjid is the Muslim, "That's why he only took the Muslim

water". Then he told to Taty, "Bring a big glass." Then he mixed everybody's water, then he asked, "Can you divide this water who is the Muslim water, who is the Christian water, who is the Hindu water, please? Then I will drink. We're all one. We are a family." We are a? Family. Why I'm saying this, now we are a family to Bhagavan (Baba). We are a family. He will take care... he will take care. Please try to understand be unity, stop the egoism. No 'You,' 'I,' 'I did,' 'I did,' 'I did it.' No *you* did it! Without divine help, even though you are a hero, you are zero. Even though you are hero you are? Zero. You are a zero. If the divine help is there you are a hero. Without divine help, no chance, you are a zero. Be each others, hold the hands, whenever one person... try to be... if a person is in down, and he lifted it, again another person is down, you lift him. Try to make it the wheel run fast. Wheel? Run fast. No flat tire. Then only the universe you can make it run. Final song, please, start. Hey c'mon, start.

Students: Fast song?

**Swami:** As you wish, Lord Krishna, my favorite.

*We sang 'Swagatam Krishna' together with Swami*

He got it, final climax he got it. (claps) I'm testing your breathing style, the last climax you really pushed it. Eat some proteins man. You're not an old man, you're young boy. Look, Mira and Sabeena how they look like kind of sisters. Who is who, what? If you think of them... is Sabeena daughter is Mira, nobody won't believe it - that's stamina, but you, m-hum, no.

Gustav: I don't know what to do.

Swami: I putted you in a lot of in a programs before, you turned, entire your body is with color? (Yellow) What I made on you, now you're pretty much healthy, but keep live it, push your body, immune system is most important. Health is wealth. If this engine is working in a proper way, then certain things you can do in the

society. If the engine is damaged, what you can do? What you can do? You can? No. Even my engine also getting weak, it needs to go to repair to the... Ahh, Lufthansa, she's like, "Hi, hi, hi, hi, hi, hi, what? Hi, hi, hi." Aaah.... yes engine is important, I got night and day sleeping and working, working, working, working, working, working, working. Today with my accountant, with the tax papers and all the details, and I drove yesterday to the farmhouse, I think Paul is came. How many rocks almost all, like?

Paul: Over 300,000 rocks minimum.

**Swami:** For what?

Paul: It's going to be the site for the future Super Mega Hospital location in Penukonda.

**Swami:** Yes, 160 hectares I purchased. What garden that is?

Paul: What is in the garden? He has several hundred teak trees, mango trees, rice paddies, corn fields, tomato crops and he got thousands, thousands and thousands of vegetables, and rice and in the very, very, very northeast part of his property is a huge lake. Tobias, you have that video clipping before, when we are in the, it's like a desert? Anya you have it? Yes, David says we have it. You have it, David?

David: Yes,

**Swami:** You can put a video clipping, we'll walk everybody will walk for little tracking, tracking? Yes, we'll go there. You'll see the rocks, 500 bed hospital, medical college, dental college, nursing college, free treatment all pure poor people. (huge clapping) That's Bhagavan doing it. It's not me. You can see on the days, how many years back that is, Tobias?

Tobias: Three, four years.

**Swami:** Now the mango trees, the rice paddies and the water... pulled, drilled, and on the days they're thinking, "Swami is little crazy. We are the great farmers, we can't able to do the cultivating, now he purchased this much land, and want to do the cultivation." Wherever I told it, "Drill here." The water is there. Before everybody they tried it, no water, one drop, again, "Drill this spot." three inches water. "Drill here," four inches water. "Drill here," three inches water. Even here, Jagadesh, who constructed all the buildings, the engineer, right now he's bringing all the hospital plans, different, different A.P. state and Karnataka state, to his house. I told it, this is not the right spot, you cannot find the water here, you cannot find the water here, man. Go that place. He didn't listen, seven hundred feet down, depth drilling - complete dry dust. It is a dust. Shiva Reddy I given a land. Now he started fifteen, twenty days back.

Point here, start four inches water, four inches water, Jagadesh he's thinking, "Can you give a little small pipe line to me?" I said, "No, one liter is hundred dollars to you. You pay you get one liter, otherwise no water connection to you." He's begging, "Please, please, I'll do good service. I didn't listen to you. Can you tell next, where is next point?" "Give me 10,000 dollars, then I will tell you." He builded gigantic building straight our east, no water, but anyhow I given the water to him. Any time if I want to cut it. Fair, even to the northwest building I cutted for several days, several hours, no electricity, no power, no water. Let enjoy how the life will be - I cutted it. I'm in Bangalore, just I told, "Hey, cut it. No water, no power. Let them feel how the life will be if it is all of a sudden is a dark."

Everybody is a little, "Oh my God, he's really avadhut character nature!" All the Indian staff, they're all, they are going in the toilet, and in the flush out there is no water there, and (*Swami is laughing*) all the way to come down and pick up the water it is a darkness. The cell phones, they want to charge it, no electricity and...plain slate - it's a random testing. Random?

Students: Testing.

**Swami:** "Don't test me, Swami." That she's thinking (Constanze). So, anyhow, it's a nice time, good, good, good, good, good, good. Don't underestimate, and try to be in the light, and also enjoy the lightness and try to be enjoy the darkness too. That is the meaning, what I'm giving the concept. Your selection is good, but too much addiction to that, it's a bad. That is the point here. Selection fine, but addiction, too much, it's a bad. I can sleep on the floor, and I can sleep on the, even the garden, anywhere, and in the king suite and... okay, small towel and just go sleep – enjoy, even little rise - good, no rise - fine. A fruit fine, that whatever the Bhagavan is blessed on the time, I totally accept it. Try to walk in that, the simplicity life, simplicity?

Students: Life.

**Swami:** Have a nice time. This is the time to him to go to his harathi. Have a nice time.

End of Talk
