Shiva Ratri Program 2011
Swami's Talk Following the Police Officer's Speech
Teaching at the Baba Temple
March 2, 2011

Swami: Good evening guys.

Students: Good evening Swami.

Swami: Guess how old is he? I'm sorry, he's one of top character guy here, but how old he is? I know you very well like before you have little interaction with him...how old is he, Patrick? Just before you are noticed it Gary? Nityaananda?

Nityaananda: Fifty.

Swami: (laughing) Fifty... Veemala?

Veemala: Forty-seven?

Swami: Ok, now he will tell about his age. How old are you Sir?

Police Officer: Fifty-eight. (clapping)

Swami: Why I'm saying this, two things, one part I'm very happy he's so healthy and strong, he's our Divisional Police Officer, that whole division. In a one month he's getting retirement from his job. So far since years unbelievable service he done to us! (clapping)

He talks very less, one, two, three points then his actions we cannot imagine, which direction the police officer, that guy, he really going. I thoughted he's going this way - completely different angle. But so far there is no any remark and just made it succeed. Even the top, top, police officers they're little scared because of he know the depth of the law, depth of the law and his biggest desire is, after his retirement he want to practice the law, practice as advocate. Is it true Sir? So I don't know I have to say, either I can pull him back here to be as my personal advocate or he can be in Hyderabad or...what? Gunthoor, so another village, another town, so such a great people who is really doing it, service to our mandir, and especially to your guys and with unofficially, we don't know how many people he putted around our Ashram, security guards, security guards... Many times I'm little worrying about to security and how to take care, a lot of threat is in India. He simply smile - don't worry it's a peanuts. Don't worry we'll take care. Then he talks yoga this that, yoga, "Ok, first, what is the security?" "Don't worry." I want to make him to light the candle today, to the Shiva Ratri with his hands to going to our Immortal Enlightenment, in depth of process is a midnight Baba abishek and before to do that, lighting the candle. I want to make him to speak at least ten minutes. (Clapping)

Police Officer: Ladies and Gentleman, good evening to all of you, with outside first I greet all of you, wish you Happy Maha Shiva Ratri this day, and I am highly thankful for Swamiji for giving me this opportunity to be chief guest of this meeting on this auspicious day. Really I feel it as a privilege here, to come and address so many well educated spiritual devotees, but when compared with Swamiji, I cannot match between a match with him, in giving lectures, because it is just like drop in the ocean, to speak frankly, because he is doing these, its spiritual and philosophical matters. I know it because he doesn't sleep at nights. He works hard day and nights. At one time I

told him, "If you work like this, what about your health in future?" He says, "Nothing, let it go, it has to go like this." Because such a hard worker I have never seen. So at nights he wakes up, he speaks to some of his devotees, internet, by internet and daytime he's also very busy, and this institution, this ashram of his very, very, famous in this part of the society because it is undertaking several service programs, several service programs like education, medical, community works and other social activities.

On educational front, Swami has started several colleges and schools. He's helping numbers of poor people. Once my CIA brought in my presence some three orphans and Swamiji has to take care of these three people because both parents of these children died. Immediately he has accepted and taken into his fold. I was wondered... so they'll be taken care of throughout their education period by Swamiji. On medical front he is providing lot of infrastructures to the local hospitals, which is very helpful to the patients and to the needy in case of health and on community angle, for this headquarter itself, now headquarter village - major pancha here. He has given some fund for the development of infrastructure, as a result, developmental activities are taking place in the village and social activities recently here - pancha savabdi of celebrations of Sri Krishnadeva Raya, a famous old historical thing have taken place here. In that thing, laks of people have visited Penukonda to see all historical places and see the old functions, all old plays and other things. It is just like a very good festival. He has arranged three meals for all three times for laks of people. Really I was surprised the amount of money that is being invested but there is lot of applause from the public. The ability of management, the infrastructure he is providing... so management is very difficult, anybody can invest money that is not a problem. Several people can invest money in the society provided they have a mind to do it, but proper organization is important. So by in large, this institution is working like a service organization, a great service organization and it is getting applauds by and large in the society. It is, without doubt, I can tell, it is not any exaggeration.

Swami: You talked very well Sir, very intelligently and very straight and thanking you, and before when you going to your home station, we like to give a good party or spend some time with us to a dinner

or your convenience, dinner or lunch or breakfast whenever you want, you promise that. (clapping)

Police Officer: I promise Swami to abide by my word.

Swami: Never knows the police officer, immediately he'll get a phone call he have to run, he has to go...

Police Officer: It is a pleasure for me to share, to come and hospitable, and have visit with you.

Swami: And giving this much time to us, it is our precious... I'm thanking you Sir, and see you, and please light the candle there. (clapping) Do you know what is this guys, this brown one, Paul! Paul! This is a root, highly impossible to get this type of root. (clapping for the presentation) Start some good song, Veemala.

Veemala and group sing Narayana Sai Narayana

Swami: Good. Pack up. Everybody can hear me?

Students: Yes.

Swami: Good. This Police Officer, whatever he mentioned some points, is very impressful. But of course some points, of course you know very well, anyhow you guys is doing already, to doing a help, make it things to be done. You personally no need to go there and do that work, for example, more than one million people we feeded the food counters entire this whole area. But somewhere I'm sitting here and how it is, things is moving. Indirectly he's also warning me, "Take care of your health." Take care?

Students: Your health.

Swami: My health. Of course I'm taking care my maximum best, if I totally, if I'm a simple family life, office, house, that territorium - that's a different story. It's a vast organization. Vast?

Students: Organization.

Swami: He said, to relieve the stress, of course you know the decharging things. You know the decharging things and moreover, not expecting anything results back from somebody, "I'm giving you this, you have to give me this," that, I won't accept it. You might think, "Swami, we're paying this much Immortal Enlightenment, whatever this, this, this program. Majority it's going to good works, majority going to?"

Students: Good works.

Swami: I no need to personally tell that. Baba knows it. Whenever I look at the early morning newspaper, somebody, needy people, some place super thirsty and there is no water and they're fighting, they're walking for three kilometers for getting a bucket of water. Yes, still it's drought, entire in India. Before, the Agriculture Minister he told entire in India, Rajasthan and Ananthapur, this is only the highest drought places. I figured out how to fix the water to the Penukonda town permanent solution. Personally I walked, walked, walked and I made all the canals to come down from all the hills, each, any rain drop has to come and store. Now you can see how much water is pouring out from the ground. Any well - full. It covers almost all forty kilometers. Why I'm saying this, if you have a will, there is a way, if you have a will?

Students: There is a way.

Swami: But you have to try. You have to?

Students: Try.

Swami: Try. Without trying it, simply, "No, it's not possible," that is a very, very bad habit, very bad habit. You really can do the wonders. Last night I drawn the Kala Chakra, how to implement it. Nityaananda have it that and I explained it very clearly. Tomorrow, can you take in charge that?

Nityaananda: Yes.

Swami: Explain? As a Guru Dakshina I can ask you one thing guys, leave it your process to me, the Immortal Enlightenment Process, any extent I will walk for you, and I will stay for you until you get succeed. That's my word on the Shiva Ratri Day. (Clapping) As a really Guru Dakshina, what I'm expecting from you - help ever, hurt never, try to create peace and as much as you can, any type of help around you, the people who is really under suffer and the pain, whatever you can do. Don't neglect it. Don't?

Students: Neglect it.

Swami: From today onwards, forget 'I, I, I, I, I...' Whenever it became 'I,' the problem the ego, 'I' - your crashing time is starting. This whole place whatever is created, Baba used me as an instrument. I'm a small leaf in his huge gigantic tree. Without his grace I cannot put a small brick there - no chance. In your life, you have to remember this. Whatever the Kama Chakra and Kala Chakra is well done, tonight 12 o'clock it's completely on track in a good way. In the?

Students: Good way.

Swami: Good way. The abhishek time in front of the Baba, it's abhisheks is running, yes, it's done. This is the giving the beginning huge step to the Immortal Enlightenment but I'm sure this Officer, he will visit and he will cooperate. Still he has a lot of tons of connections to give the security precautions and whatever, all angles. Even he got retired he can do that. One part, physically your Swami is trying my maximum best, he tried, I tried, I traveled, traveled,

traveled looking many peoples. Few people smooth coconuts, few people tough coconuts. You might think, "Swami, you're unbelievable tough on me. You're so mean to me?" What can I do, I have to... Monika Taylor, you're thinking?

Monika: Yes.

Swami: What?

Monika: Yes, you have to.

Swami: Now at least you recognize why I'm tough on you?

Monika: Yes. Yes it's necessary.

Swami: What you recognized? What you recognized?

Monika: That you're really there to break the karma, to break the egoism, to break all the impurities inside of me, that you're there to show me that, and break me free from that. Yes...

Swami: Veemala? Not singing... Am I tough on you?

Veemala: I didn't understand the question, sorry Swami.

Swami: That's why I targeted you. Am I tough on you?

Veemala: For example, that the P.O.'s disappeared was very tough.

Swami: If you lost the power objects, what is my responsibility? You're blaming your Swami ya? That's not fair.

Veemala: Sorry.

Swami: It's okay. Go ahead. You don't want to tell?

Veemala: Then, you're not tough on me.

Swami: Okay, anyhow, Riya, you brought my make-up kit? You brought it? Not for the ladies, it is for the gents, something Lakshmi or L'Oreal.

Riya: Yes, I remembered to bring it for you this time.

Swami: My wife, she tried on my face the bleach. It should be only five minutes. She put it fifty minutes! After she removed it and she put steam on my face, then I can't remember myself, "Who is he?" Complete black. What? "It will come back." "When? Program is coming. When???" She put little Golden Facial and make-up, this and patch ups - forget it, "Throw out," again she want to try something different. I said, "No, no, no!" So why I am saying this, doing experiment on the Swami, for sure I won't do experiment on your personal lives. For sure I won't do it. If I did it, there is a reason. There is a?

Students: Reason.

Swami: Not experiment, to be tough, to be?

Students: Tough.

Swami: Tough. For example, one late night I came from the security precautions, I took care everything and I came and the Elephant Group approached and they're waiting openly in front of the swing. Can I tell openly, Tatyana? Good. And the way of she is approaching, and everybody's quiet and simply sitting and I said, "Physically I am very tired. Exhausted." It is two a.m. almost all, like that, working,

working, working and she putted, "Who is the group leaders? How to take care this? Now you have to decide," putting the file there and pushing it. I have in my mind with whom, how I have to operate, take care in a proper way... and pushy and some blocks is came out. Anyhow I solved her problem there on the spot. Yes, I took the file. I made the marks and everything, "Yes, you go this way, this way, this person, this person, this person, this person." Two days I left it, two days or one and a half day, one and a half day. She cried and cried and cried... she wroted all her blocks and stuff - huge how she is. Again she went twelve years back what she is carrying the blocks. I gave a call to her, "How you doing it?" "Well, what can I say?" And she's crying on the phone and she's telling about all the headlines.

I said, "Well, it's a good book. You should publish it," the titles of whatever she's telling to me, "This is the block. This I have the block this. This I have the block this..." simply I smiled, "You do one thing, cut your hairs. Cut your hairstyle." You didn't understand today - you will understand one day... Does it make sense Monika? Decharging, it's not the 'mean.' To approach the master, the energy in a right prompt way... Right? prompt way. Whatever it is coming - let it come. If it is not coming, okay let it be... But informing is your duty then later on step back. That's important. Even to Guru Parampara tonight, what you're going to do, you have to be very careful. Just you tell what you want. That's it. Leave it to him what he's going to give to you. He knows what is the best for you. What is the?

Students: Best for you.

Swami: You cannot decide... only, "I want like this." I can argue for you, "Let's give this. He's capable, I've seen it." I can recommend it but there is no hundred percent guarantee, so far I had 99.99% succeed - no failures, 0.1% like that. It is not my ego problem telling this. If you are dedicated, I am more dedicated than you. The Baba is watching every corner of our energy cycles. If you look at that Kala Chakra, later on, how I given it, I've given the tons of solution in a simple way. Any problem you can take care and you can help many people and you can spread that knowledge to the globe. But, I've written in Telugu. But it's got recorded. Is it clear on the recording?

Nityaananda: Yes.

Swami: So you can make it in English or German, whatever language. You can put on the copper sheet all the prayers however it is comfortable to you. You can do that, still time is there and we'll prepare to the milk and everything to be ready to Baba abishek, and my sincere advice, try to spend little time, as much as you can, be very quiet and calm in the open nature. Let it finish the Baba abishek, then we will see what is the next step is going to come. Clear? Any questions Nityaananda you have? Final question.

Nityaananda: Well, I have some questions about diksha, practicing the mantras and things you gave last night. You gave an overview, but...

Swami: Of course, simply again I will give it. Yes, it is not a big deal.

Nityaananda: Yes.

Swami: It is not a big deal. Okay guys, good night and this root, please somebody can carry and put in front of the Baba. Good night. See you then, night.
