Swami's International Travels

Master - Student Relationship

Bad Hersfeld, Germany

October 31, 2000

(Lothar translating for Swami)

Swami: Good evening. I'm so happy here after long time coming back from India to Germany. We can cover lot of things tonight and tomorrow. I try my best to share my knowledge. It's a little difficult to share my knowledge in a couple days, but I will try my best - I hope everybody will enjoy. My sincere advice – don't get confused. If you have any questions, try to ask me, I'm happy to share my time with everybody. Now we will chanted nine times Omkaram:

(Students chant Om nine times with Swami.)

Swami singing: Suklam bharadhararm chatur bhujam prasanavadanam dyayay sarva vignopa shantayay,

Agajanana padmarkam gajanana maharnisham aniaka dhantham bhakthanam yayka dhantha mupassamahay – yayka dhantha mupassmahay (Ganesh Mantra)

Guru Bramha Guru Vishnu Guru Devo Maheshwera Guru shakshat parambramha tasmai shri guruvayna namaha – tasmai shri guruvayna namaha – tasmai shri guruvayna namaha (Guru Mantra)

Swami: Welcome my dear divine souls. Today I want to discussion about what is the difference between Master and Students, how many types of Masters is in the universe, how many types of the Students in the universe, how many students is really understanding the Master. To understand the Master what the students is required, is it really, necessary in each person life the Master or not? If it is important, how much is important? If it is not important – how much is not important? Is a good subject to talk today?

Students: Yes.

Swami: Master means it's a candlelight, a light. Students comes, many students to me, "Hey Swami, what is your greatness? Who are you? What is this all the illusion, the

spiritual teaching, all the information? Where it came from? How much is truthful? Tell." Master is a candle. He is the person to bring the light in your life. They're saying, "Where is the light came from?" One of my Indian student is a very good student, he is have the really eager to know to see the God. He's big appreciation man, easily can understand. I brought a candle in front of him, I'm saying, "Here, what is this?" Student says, "It's a candlelight." You're seeing it? He said, "Yes I'm seeing it" Then I blow, it turn off, "Where the light gone? Can you bring the light back?"

Swami looks to the audience: Try to understand on that. It's a deeper, deeper meaning. Try to think tonight when after you go back your rooms. I will ask answer tomorrow from somebody what is the inner meaning? When the candlelight is flaming – where the light came from? After I blew up (out) – where the light gone? It's a question to everybody. Actually, there is several Masters in the universe – the candles is different but the light is same. The Masters' body is different – the message is same. The cows is different – the milk color the same. In the garden there is a lot of plants, but each plant drinks the same water, each plant drinks the same water. You no need to be confuse, "Oh this Master, oh that Master, oh what's going on here?" You no need to know a hundred percent the Master.

I'm keeping on telling there's a lot of people came from Germany to Ashram. For example, a cow it eats the grass, it eats the paper in the street, it eats the crazy thing, but the milk is pure. So tasty. If you seen, "Hey, the cow is eating the worst and it is eating the dirty thing – how can I drink the water, sorry, how can I drink the milk from the cow?" We never think like that - we drinks the milk. So what? Whatever the Master like this? Try to see how much you are receiving from him.

You cannot do whatever he does in his life. My Master, Shirdi Baba, his life – very simple. It is very hard to understand him – he's the man of supernatural power. He walks in the simply street, he asks the food – begging. He comes back in his small temple, he eats the food then started to drink the ganjai. Then he sleep under the trees. Even though crazy rains, crazy wind, crazy cold – he never cared. At the beginning many people misunderstands him – big, big, big, big, misunderstanding until he passed 80 years old. Who is going see him, "Oh yeah, why you going? He's a begger in the street, he takes the ganjai, he eats the meat, and he sleeps under the trees. He never take shower – he dirty clothes, he's a little crazy man, psychiatric patient. Why you go him?"

But what he done in his life, what he showed in his life, the miracles, how much he's really capable. If you see him, nobody cannot do the miracles – he's the man of power, he's the supernatural healer, he is the man of wisdom. He's not linked with this universe – he's border out – he's beyond the Five Elements.

We are here (holds his hand at waist level) he is there (holds his hand above his head). We have *no* capacity (to) judge on him. If you are judging him, "He's a bad," we are receiving unbelievable bad Karma. It's a real fact story happen in my Master life. I'm not supporting the Masters' nature, I'm not supporting the Masters' wisdoms, I mean whatever the Master - is Master. Until to you change as a Master - try to be focus your mind to control that, understanding it - research, finding it. Don't see his physic body what he's doing the activities. If you doing the physical activities what he's doing - you are seeing only one side. When you focused in your life the spiritual path - you have to see in a spiritual way. He's drinking ganjai, but he's drinking ganjai only to his body. That ganjai he's drinking is not for his spiritual growth. There's a reason - try to find that. Every step - research in a spiritual way yourself, discussion with yourself, go digging - find the knowledge.

In my life - thousands of thousands of religions from all over from the world, but only twenty percent of students is understanding them. In the twenty percent, only two percent is reaching the destiny. Every year there is minimum. There is a hundreds of thousands of people visit the Swami Ashram - very few people is receiving. What is happening? Why your mind is little unbalanced? I will tell a story.

A king had a cat. Every day he puts the flame, the candle, little, small flame candle on top of the cat head. That cat is so win it - it never shakes the candle, just it stays there - even the king is walking in his room, his small room in the palace, it is also walks very carefully not to move the candle to fall down. It walks very step by step. King is so proud of that, "Such a strong cat I have - so helpful cat." Then he's loving that cat every day very strongly.

One day the king's secretary came. Then king making a big comment on the cat. "Hey, my secretary, you know one, great thing? My cat is so humble and obedient, even though when I'm walking in the room, it walks side of me with candlelight- very delicately, it never fall down, it's very so strict." The secretary, he said, "Oh, I know you're so proud of my dear king, but I want to test it. Can you give permission?" He said, "No, my cat is 100% pure - you want to test my cat? You crazy? How dare you are!" Again, the secretary saying, "Please give one time appreciate it." The king again saying, "How dare you are - you are blaming on my cat?" "It's ok, please give permission." (King said) "Ok, go ahead, test it."

Then he brought some rats, just he drop in front of the cat. The cat jumped on the rats - the candle fall down. The light is turn off. The secretary again he made the light. He said, "Look king, how much you can take the help." Why I'm saying this story - our mind, it seems to so controlled, always with you, much discipline - who knows when the right time came, something came in front of your mind - it's like a cat, absolutely it's a cat. Each step, each moment you have to observe yourself what you're doing, where you're

going – then you have to live your life very carefully. For any student in their life in the universe – mind controlling is one of the top-most important to get successful in your life. It is very, very, important. Without mind control highly impossible to get success.

So, how much we can believe on our self? Before judging the Master, before learning some knowledge, before seeing something – how much stable your mind? How you can think you are right? What is the real right? What is the real ‘truth’? How far the real truth? How deep is the real truth? What is the real limit to that real truth? Is there any limit? Is there any border? Truth is infinity. Divinity is infinity. Once if you start to jump in spirituality, whatever the illusions is around you, whatever the craziness is running around you – you have always connect satchitananda, it means inner deeper silence. Once if you connect your inner deeper silence, that is one of the best drug in your life to control your mind. If you cannot connect inner deeper silence – whole your life is waste. Sometimes you don’t know what you’re talking, you talk and talk and talk and the people thinks, “Oh, who is this crazy person?” All people started to thinking on you negatively. Before you going to talk, you have to connect your inner deeper silence then you should think what you should really talk. Then everything will be fine.

For example, in the western countries there are many, many, people coming to Swami Ashram. Of course, the Ashram have only 50% comfortable, it’s not 100% luxury Ashram. Even though there is 50% comfortable, many people they’re so disciplined, they’re sitting near Baba, they’re thinking on the God what Swami taught, some prayers, connecting and meditating and meditating and meditating and meditating. It means they stepped on the discipline, they committed, they promised with their heartfully to the discipline – they want to lead their life in spiritual path. Then they start with Swami’s messages, then they’re seeing, they’re enjoying the real fragrance there. They’re enjoying through the messages, through energy they’re enjoying it. That’s everybody need it.

You no need Swami – you need Swami knowledge, you need Swami fragrance, that’s every student is necessary in their life. Without Master – one part highly impossible to reach. Some very few people it is necessary, sorry, some few people they no need Master they’ll get like that. It is their luck and their previous their life’s good karma. In their life, their present life, they’re so vexed in many, many, things - the life is a big teacher to them, but most of (the) people - they need a candle. If you want to turn on the candle, the light only can make a light, a light can only make again a light. A Master can only prepare you as a Master. Who was not a Master is highly impossible to make as a Master. Even though who was saying crazy stuff, it means you are the illusion is around you, it is a completely ridiculous. One part the Guide is very important, the life will be so easy and very comfortable. The Master only need until to you stop your process. You no need to link with the Master life, Master is just like big open heart, is like just complete pure fragrance. Once if you hooked that energy, you can continue it.

In my life I love all religions, I love entire the Masters' kingdom. In India, there is unbelievable, supernatural Masters is there. I love everybody, but each Master learn different tradition – different path to reach the God. It's like a mountain – you no need to be walk only one direction, there's mountain paths you can reach different paths. There is many different paths you can walk. Different Master path is a little different harder – one Master is little easier – you are the only one person to determine in your life to take decision when you are really enjoying that energy, how much is you're receiving it, then you can follow your heartfully.

In a previous times few hundred years back, the students just they're staying permanently with the Master long time – for many, many, years always to be with the Master. Wherever he walks, all the students is walking with him. When the Master is sitting meditating all the students is sitting and meditating. When the Master is so hungry – feeding him until to reach one path destiny. Very important. To be with Master, to enjoy with Master energy, energy means what he is giving the knowledge. What he's teaching new – try to understand, clear it, clear it, clear it then hook the energy – then become as a Master, you change your life as a Master. I'm not saying ok follow the Master wherever he goes, that's not my hundred percent point here. You no need to go Master – Master came here now. Try to think what his message is. Try to read what is his knowledge. If you are comfortable with knowledge – follow it. There is another Master came, if you are so comfortable with his knowledge – take it, follow it. Don't be like a monkey – today's one branch, tomorrow is another branch, the next day another branch, then another branch. Like today one Master, a few months later another Master, another Master, whole your life Masters and Masters and Masters - you never reach the destiny, your mind is monkey – you're totally confused. You're like a cat. Waste of the time. Knowledge is knowledge. Once if you satisfied with one knowledge, one boat is enough to cross the ocean. Once if you relaxedly sit in one boat try to enjoy your journey very peacefully. Don't fall in the ocean. If you're taking another boat and boat and boat - there is a chance you can fall down.

Many students comes to me, "Oh Swami I done few process. Oh, I been to this Master, oh I been to this Master, oh I've been to that Master." Then I started off "How old are you?" "Just 62." "What! You have 62 years old? How many years ago you started?" "Well, when I'm in 32 years old I started spirituality, now I'm 62, still I'm doing, I don't feel any experience - can you make me any experience?" What I should tell him? His mind is completely disturbed. He practiced many, many, paths. First of all, he have no faith on himself, he ran away from many, many, Masters. He never satisfied with any Master – he's always confused. Beginning he's so comfortably with one Master, after one year he then ran away, then again, he join another Ashram another Master. He stayed three four years, then again, he went another Master, then again, he came to me. For example, my beautiful student Philip Lipetz (laughing). But finally, he landed in my airport. Just I gave the green (light) say ok, you can land your flight in my airport. Whatever he really seeking

to see, I gave a permission, "Ok, you can see it." It's already too much enough, too tired you are – I don't want to you extend. Then he's peacefully he's taking rest at least on this path.

Why I'm saying this – don't do in your life like a crazy stuff. Even though you're doing one Master really, important, you really, really, impress one knowledge – stay there, continue it, practice it - you'll reach your destiny. God is fair judge. Heartfully even though whatever you simply believing and blindly and doing it – he will give the right result in your life. Open heart is very important! Closing and doing it, it is highly, highly, crazy. If you close your heart and doing for many years, you don't know what you're doing, but you're doing it - that's not good. But God Power, Spiritual power is like a flame, like a fire coal. Even though if you know if you touch it – it burns. Even though if you don't know, if you touch it – it burns. That is the God Power. That is the Spiritual Power. Once if you open your heart and doing it, no matter whatever it is, it started to flow in your life – you can started to receive the good fragrance in your life.

Many people have many, many, questions, and doubts. "Hey Swami, I'm doing since twenty years very deeperly in my life one Master messages, every day I'm doing meditations. My life is very strange – I lost my girlfriend, I lost my kids, I lost my business, all my friends is turn like enemies – nobody's not liking me, day by day my life is very tough and hard. What I'm doing wrong? My heart is very pure, and I want to love everybody. Whatever I'm doing my life is turning day by day harder and harder and harder, but I really love the God, but why is it happening? If the God I'm really believing, God duty he has to take care me. What is inner secrecy? It means I'm not doing right path? How to protect that? Where is the end for this? How long is this going like this? Can you heal me? Can you take care me? Really, really, my heart is broken, my really, really, my heart is so sad.

Look, it's a very good question. Even though you're doing meditations, certain, the energy once if it started to flowing in you, around you, certain period of time in your life, once if it started to reflect on you in a bad way, my sincere advice – try to ignore it. Don't feel that is bad, don't feel that is really, terribly crazy. At the time my sincere advice – go in a Sunday, a Saturday to a Church, a beautiful powerful ancient anything – power spot. Whatever your religion, whatever your heart is really you like it – go and stay for couple of hours peacefully under the, in front of Church, in front of Jesus, in front of Mother Mary – stay in front of whatever you really like. Sit peacefully, to take candle, (makes a gesture of putting it down) put a flower – talk with your open heart. Open your heart, tell what you're facing your problems to Him. Tell everything to Him, make to listen Him. Don't tell to your friends, tell to the who was the very important person – tell to Him. Talk with your open heart. Stay couple hours, three, four hours – leave, come back to your home. Once if you told him – 100% he will listen your pain. If you keeping on doing in a month every Sunday – you will have the really good time, just you go hanging

around there two, three hours, three, four hours there. Whatever it is happening, it is happening. If you're avoiding, if you turn really, nervous it can turn really, worst - you can't run away. Once the bad is reflecting on you, how long, how far you can run away? Where you can run? The energy's starting on you (he holds up his fist). You can't run any way - you can run to the Holy place, that is the really, you have to run that place. If your Master is really linked and hooked to you, really, so attached to you – just run away to Him, sit, "Hey man, something really, strange around me. Take care me. Give some advice." Even though I give little advice, then they have to purify it. And you have to sit and meditate, and meditate, and you have to tell with your heartfully to Him. There's a lot of methods to purify it.

What I'm seeing in many people life (he waves his hand towards the audience), I can feel it – sit yourself heartfully, talk to Him, tell Him what you really want – purify it, your life will be fine. "Swami, I'm telling every day to Him, but is not working. What I can do?" Where you have to run, what you have to tell, it is different, it is very important. The power spot in front of the Church, in front of that light, that is one of the best place. Hundreds of thousands of people is doing prayers and the vibrations is so pure there. The negative energy cannot come with you, it will only stay outside of the door, it never come with you in the Church. In a holy places it can't come with you. When you are in His presence you are completely protected. When you are going out – take the fragrance with you, the fragrance of the Blessing. Day by day just take the balance, take the balance, take that, make it grow. Even you can clear your own room very peacefully, very quiet – lot of good high vibrations you can make your room. For example, I will tell you one story.

A King, he's a powerful King - he's really, so tired in his life. He can't rule the country – he's exhausted. He ran away to a Master who was in the forest sitting under the tree. He asked, "Please, can you help me? My life is I'm so exhausted, I don't want to ruin the country." Then at the time a Saint gave advice, "Why can't you give your kingdom to your child?" He's (the King) thinking, "Oh, that's a good idea, wait a minute - my child is so little, he's so young. I'm a big man, how cannot I rule the country, how come my boy can rule this country? Then he said, "No, no Master, my child cannot rule the country" Then He (the Saint) said, "Why can't you give to me?" (King) "Oh, that's great idea – ok I'm giving to you, I want peace of mind, I don't want this kingdom."

Then (the Saint), "Ok, you're giving your kingdom – what you will do?" (King) "Ok, I will do some small business, I will leave my life very peacefully." (Saint) "If you want to do business you need some money." (King) "Yes, I will go back again the country get some money, I'll go out." (Saint) "Hey, you gave your country to me, it means completely everything mine – how come you can take it? Ok, I will give one job to you. Now I'm King for your country, now I'm going to giving a small job." King "Please Master give a job." (Saint) "Small job, ok, try to rule this country, get every day the salary, just get

everyday salary. Country is mine, I'm the King, you're only a servant - rule this country for me."

(King) "Ok, it's a great idea. I'm just simply servant. I will do my best." The Master said, "Ok - go. Don't sit in the chair as King – just do your duty." He (the King now a servant) started to ruling the country – he's sleeping everyday very peacefully. Then the Master came to him:

(Master), "Hey, how are you?" (King/servant), "Oh, I'm so happy Master, I'm ruling your kingdom very peacefully since many, many, months."

Swami: Same King - he's doing really, excellent job, just he's feeling the country is not his himself – he's so happy. Then the Master laugh, "Hey Stupid – you are only you're feeling that's yours, then the problem started to clearing. See, I'm simply sitting under the tree, just I'm coming, I'm giving you just salary, but you're doing excellent job every month and you're sleeping everyday very peacefully. Once if you started to remove, 'that is yours, that pot', then you will be happy – don't make too much attachment, attachment makes the really, big, big, big mistake." Then he's crying (the King), "Oh Master, thank you so much wake up my Third Eye."

It means, you have to think everything take it easy. No need too much attachment – that is yours and yours, that's you, that's mine and mine – it's crazy. After you die what will be bring with you? (Swami looks at the audience) You know when you are dying? You know what's happening tomorrow? Why you worry about tomorrow? Try to think today – try to be peaceful today. When you die, you're not bringing anything with you even you have millions of billions of dollars in your account. How much you're sharing your love and affinity and your divinity with everybody – how much you really serve the people - that's the only coming with you forever and ever for many, many lifetimes. It's very important. Any questions? You need a mic?

Clint Thompson: No, I can talk loudly. Swami, you talked a little bit about it, but I still don't understand, I don't know any other Masters besides you, but I know that there are many. And since I've met you, I've met a lot of other students who have known other Masters in their life. My confusion is - why is it that so few students pass the early stages of being a student with a true Master?

Swami: Can you repeat one more time?

Clint: Yes, I'll ask in a little different way. It seems so difficult to even begin to be a true student of the cosmic energy, of the God energy, and yet even after passing that first stage of becoming a student, then I'm wondering why is it so few pass forward, to become

higher and higher level students? Or as you would say, "Stop becoming a student and start becoming a Master in our own lives."

Swami: It's a good question. In my life it took to me six years to become as a Master, but I'm not a hundred percent Master, still I'm a student - spirituality is a limitless, it's endless. Even though we connected unbelievable Mother Divine and cosmic and Siddhis and unbelievable miracles, whatever we are doing it, still it is there. Still, it is there. Just learning thousand pages of the knowledge, demonstrating some miracles, and demonstrating some healings, that's you not a hundred percent Master. In my presence there is a lot of students comes. One student is so spirit - he's ready to receive unbelievable knowledge, he can see unbelievable things, he can experience it. He's really deserving, he's really aching in his soul. Such type of Master, he's like a Master and really aching. Really such type of student reach to the really, great Master, it's like gas and fire, it wants pshew - (throws his hand up). They can really make it unbelievable success. Some students, even though the Master is teaching and a teaching and a teaching, they're like slow walking. Some students they pick up like that (snaps fingers). Some students they're really, unbelievable smart. They ask some questions to me, it's a really, deep, deep, deep, meaning questions. I say, wow - what a great mind, what a great experience he had it.

The Master need really, beautiful student. Once if the beautiful student is there, then the Master can share his knowledge, really flow it. If your vessel is big, he can make the water turn on, "Ok - fill it." If your vessel's little, tiny, if your heart is little open, just little, just your mind is enough to do chanted one meditation, 'Om Namah Shivaya' but it's big mantra to you. Even if I say, "Ok, why can't you meditate the Gayatri?" "Well, Swami I can't do Gayatri Mantra, I can't pronounce very well. Why can't you just bless me? I'm happy to do Om Namah Shivaya, Gayatri Mantra's little, long." He has to focus on Gayatri Mantra little, long. The beginning step he start, "Oh I have to focus on Gayatri Mantra?" He's very addicted, Om Nama Shivaya - very happy.

From the beginning he's so lazy, then the Master thinks his minds, "Ok, your focus nature is only limited, you can't focus too much." Then the Master already decides in his mind, "Well ok, no problem, I bless you." But you are in the small speed. Whatever the Master saying it, you have to really pick up, pick up, pick up, pick up. Whatever he saying it, only because for you. If you're meditating Gayatri Mantra, he's receiving any power from you? He no need to receive the energy from you. He knows you need it. That's why he recommended - then after you are charge you can do or not. He knows very well on you, more than you.

So, my point here to the Clint person - in a big tree there's a millions of the roots to the ground. Each root is only - different root is drinking different variety the quantity of the water to the tree. Each student is drinking the energy from God, from the cosmic, from

the Master through different ways. You have to develop your root size bigger and bigger, step by step. You have to create, you have to bring it, otherwise highly difficult. Why it can happening, mainly the students in front of the Master, getting failure? For example, Clint has studied with me almost all (Clint four year) four years. Very serious strong devotional student. Of course, I made him really heart attacks – he's very close to run away from me, almost all he's ready to jump. But what I observe in his good nature, even though I'm talking with somebody very friendly even in front of him, and giving unbelievable boons to somebody, today first time I'm talking about him, he never feel jealous, he never started to think another life, another body life, he never started to think another life what's going on with Swami and him, Swami with her, this with Swami. If you started to think like that he's ready to landing, his progress is coming down. That's the clear symptoms to destroy to his himself. Ok, the Master and student whatever it is – I don't care. Whenever I want talk to him I need only his personal channel, I don't care how he's close to him, I don't care what he given to him, I'm happy whatever I receive from him. I'm happy to develop it – I will ask more.

Such type of development in your life, way of thinking very important. If you started to on somebody thinking – your mind started to crazy then you have to start to listen to lot of gossips, unbelievable gossips. You never seen, you don't know what's exactly happened and you don't know what's going on but you're still talking on something – that's not your business, you are receiving bad karma.

My point here – if you don't know anything, if you talk something on that you will receive bad karma. You are responsible for the bad karma one hundred percent. Even though it's came, the gossip very close to you, if you participate in the gossip as a member - you are a member of to the bad group. I hope everybody's understanding clearly, isn't it? My point here - never ever think another life business - you, Master, God - your channel is yours with the Master. Even though whatever he done with somebody, even though whatever he took with somebody millions of dollars, even though whatever he received from him, even though whatever he's doing crazy stuff like Shirdi Baba – just think what you are receiving, what you have to receive from him, what you really expecting from him – focus on that until you get it.

In my life unbelievable criminals, movie actors, businesspeople, spiritual people, lot of crazy people, normal people – simply they want to see me, that type of people, different peoples visits to me for the blessing. I have to give the blessing, it's my nature – I'm a like a river. In the river somebody can drink the water, somebody can swim, somebody can wash their hands – the river cannot say no (to) anybody, it's a open. That student, which purpose he came to the Master, it's called in Sanskrit tat bhavam tat bhavati – whatever inner his thoughts, whatever he comes – the same thing he will receive it. Whatever he makes the flashlight on the mirror, it will come back to him - reflect. So, try to develop your inner consciousness to hook the Master's soul, try to hook the Divine Mother soul.

I'm not saying try to hook the Master, I'm saying try to hook the Mother Divine soul and the Master soul – not Master, Master's soul. That candlelight – you no need to hook the candle – try to hook the light, hook the light. When you are hooking it is natural some disturbances will come – you have to face it, period. You can't escape from that. If you need a rose flower, in the rose plant the thorns is around the rose flower – you have to pick up, you have to pull out even though it's little unfortunate, it's little hit you, little made you pain – you have to face it. When you want delicious food, when you are cooking here is a chance your fingers will be burned. If it burns you never stops not cooking. Anybody stop the cooking? Anybody stop the cooking food? No, you keep moving even it's make a little burn, it makes little, but you're receiving delicious food. So, you have to do it. Little problems and little negativity, it's natural, you have to face it – ignore it. Step - day by day – reach the destiny. Any questions? Ganesh, any questions?

Student: How to catch the soul of the Master?

Swami: (Laughing) Ah! You want to catch me or my soul?

Student: Um. How do I catch the soul of a Master?

Swami: I gave a different type of prayers, different steps, categories of the meditation techniques. I taught the *Five Elements*, fundamental power creation elements: *earth, fire, sky, water, air*. Through these *Five Elements* you can connect to the Master. Once if you chanted that prayers, that prayers is the first time in the universe is given by Swami Kaleshwar -that prayers is the first time given in the universe by Swami Kaleshwar. That prayers it came from 1800 years back it came from the ancient Masters - we have the proof. Many people know about some manuscripts, they saw it. So once if you hooked that prayers, it automatic hooks the Master's soul. Praying is so important, it's like a telephone perfect number to dial to the God. If you want to dial to your friend, you have to dial like perfect number – 001-0049, something number you have to dial it then you can talk. That perfect prayer, the vibrations – once if you chanted it will started to flow. The telephone vibrations also going in the air – like the mantra vibrations started to flow in the air – then you can started to feel unbelievable fragrance from the nature, then you can started to heal many people, then you can started to see unbelievable miracle things - the angels energy, angels singing in the nature. Nature is the Big Boss - everything is around. We are living under the *sky*, one element, we are walking on the *earth*, we are breathing *air*, we are drinking the *water*, we have the temperature in our body (*fire*) – all elements is in us - we have to connect the elements.

In our body's little temperature high – you'll die. If the temperature is low, we will die – no more life. If you're stopping not to drink the water – good-by the life. If you're not breathing the air – good-by the life. Entire the Creations is happened with the *Five Elements*. Every vibration is proof of the *Five Elements*. Without the *Five Elements* in the

universe – nothing will be happening. Once if we develop the elements energy in you, once if you connected that your vibrations to some certain perfect formula, the prayers, then you can started to hook anything in your life – easy to hook the Master’s soul. Any question? Ok Martin – go ahead.

Martin: How can you keep from getting attached even to the Master?

Swami: Once again.

Martin: How can you love very deeply without getting attached even with the Master?

Swami: Attachment is no need, but you can love everybody. How is a simple, for example, today the Master’s very close to you, very dear, very friendly with you – hundreds of thousands of people started to come the Master – he can’t spend the time with you, he cannot talk to you. At the time you feel so terrible and bad, you feel, “Hey, everyday he’s going to talk to me but he’s not talking to me today, even since two months he’s not talking to me. He’s talking new people, but he’s talking with somebody” You feel so terrible, so painful. At the time you have to think, “Ok, that’s fine, he’s not talking, I’m happy but I’m sure his love is on me. The time is over when I’m talking, the period it’s six o’clock now it’s six PM – time is over, my time cycle is over. Whenever he wants talk to me, I’m happy, doing whatever his message – very important to follow that to getting control your back – step back, holding there practicing it. Everything is stepping back, self-satisfaction, self-satisfaction is very important. If you can’t satisfy yourself – it’s a horrible!!!!

For example, your girlfriend is talking with somebody – you can’t see it. If your wife is talking to somebody very friendly you go, “Wow, what’s going on there? Since morning to evening she’s talking and talking to that person!” You go crazy. Why I’m saying this, in your natural life whatever you really you try to get it, but it’s ok whatever’s happening – you have to really stay and hold there peacefully and relaxedly. You have to make self-satisfaction to stay there then everything will be fine. Once if you did like few times your soul will be adjust – compassion, patience, it’s so important. Once if you know how to hook the patience your life is so happy. If you have no patience, you’ll change (to) a patient. Finally, my message – patience is the best medicine for the patience/patient – good. Any questions? Herbert.

Herbert: What is the difference of my ego wanting to become a Master or my soul wants to become a Master and how can I distinguish between the two?

Swami: Hmmm – good question for you. I appreciate it, you’re asking really, beautiful question. What is mean by Master in your mind?

Herbert: What you show to me, what you represent to me - is Master.

Swami: What I showed you? I have big forgetting nature. Only I can think your name Herbert – ok. But I never remember what I told you, but I want listen now. Don't get heart attack – relax and tell me.

Herbert: You are connected I can see with the elements, you are connected with Shirdi Baba, you are connected with your soul, you are connected with God.

Swami: So? That's fine. Sorry go ahead.

Herbert: I would like to be where you are. I would like to travel to be where you are. I do not know whether the wish to be like you is my ego wish or my soul wish.

Swami: That is your soul wish. I will explain. Actually, everybody in our Germany should be so thankful to the Herbert, and to Karin and Babu, who was in America – the first persons who brought me to Germany. When I seen Herbert, he's so thin and he's not eating food, he's not, he's very strange position. I asked him, "Hey, what you doing?" "Oh, Swami, I'm channeling the cosmic energy." A big wind comes (Swami snaps his fingers) gone in the cosmic energy. (Everybody is laughing) I'm say hey what you're eat today? He say, "Only cosmic energy." Oh great, and I thought, "Ok, who feeded him?" He said, "Oh, the Master, some channels I'm practicing it." (Swami) "How long you did?" (Herbert) "Oh, for many years." Ok, then I made him to eat. That's not right, that's not true – eat! Then he started eating, the elements practice it. In history nobody didn't tell anything not eating food, but later I heard... actually, the King who was really so fat, so heavy body, many people told only you can eat three days, four days fast – only water. Such type of people fasting is good. To you – no way. Even I told today to Lothar. (everyone laughs) It's ok, I tolded him even today, "Hey man, lose..." I told Martin - ok Martin where, you have to tell. "Hey Swami, I have the back pain, can you heal me?" He wear the red shirt looking so funny, really stud and strong – he's so fat. Hey, he should lose weight! I tolded him before program starts. We are traveling in the mountains, in the caves in India for meditations – so it's better you lose the weight. He said, "Ok Swami."

Why I'm saying – to reaching the Master level it's really like a really, big inspiration, but you have to think how much really, you're practicing. Everyday eating and eating and eating – ok I want to become a Master, Master (eating food) Master. Impossible to become a Master, thinking to become a Master only staying there. Then after certain times later turns like a ego. Once if you're doing practicing and practicing and practicing – still you're thinking: "Ok, I want to become Master. I want to become Master. I want to become Master – practicing, practicing, practicing." (snaps his fingers) At the time, right, you really have unbelievable right to become a Master, it's very important - the thought to become a Master is really, good.

In my life, today I'm sitting in this position means I did unbelievable hard work. After January 8th, my birthday, later I'm traveling in India in the deepest forest in the caves. I'm sitting in the caves and meditating for days and days and months. Before six years back, five six years back... I want to share my terrible days with everybody. Is ok, my practicing stage, ok? I'm a university student of chemistry and biology and zoology. When I'm a student, it's God's gifts - somebody gave some unbelievable manuscripts, and I know some knowledge, some thousands of hundreds of thousands of years back goes - it's very interesting. At the same time, I have to study my class, my university course. Every day, I have to focus 15 hours on my education on my classes, but at the same time I want to study the ancient knowledge. I have to decide either one - I can't do both - completely crazy. Finally, I gave up my education, I started to study the ancient knowledge - chanting certain prayers in the caves and doing the meditations and on sitting on the rocks. When I'm doing it, I came out from the home. My father kicked (me) out from the house. I have no home, no hostel, no food, no enough clothes - no supporting. I have only two shirts, one pant. I lived with two dresses (for) one and one half years - always sitting on the rocks and meditating, meditating.

When I'm start to do my meditations, unbelievable experience time facing - started on seeing unbelievable things, the angels, spirits, souls. For example, who was coming to this Christmas program this month, coming Christmas program, I'm planning to show the angels, some spirits, some souls - what is inner mechanism. I want to make them experience. (Break in the tape)

In my childhood days also, when I'm doing practices, also lot of disturbances. In my classroom I'm the worst student - last bench, standing entire class. The masters (university teachers) is so mad at me - every four, five days once I visit the class. They makes me stand up on the bench - no lips to talk, simply smiling. Only I'm saying, "Hey, I don't want this degree." I came out from my home, my father is professor, he kicked me out of the home. I challenged him, "I'll get the degree. I can get my degree even if I didn't came the class." The masters saying, "Oh, you are undisciplined, you are not good student, you are crazy, you're always under the trees and meditating - what you're doing here? It's a crazy your life!"

So simply, I faced it. Some examinations I absented, but finally I made all classes - wrote the examinations, I got the, my degree. When I'm meditating on the rocks, some of my friends they're throwing rocks on me, hitted, even there there's a big scar (on his forehead), the blood coming from my face. They throw a rock, my bicycle is there, they makes the holes, they makes the air out - terrible punishments. In entire the classroom I'm the really, crazy student. Just you feel how that will be experienced, in the classroom you the only one person really strange and entire college, not only the class, but entire the college, (I'm) walking - everybody start to see, "Oh." After last year, my university last year, then they recognize my healing powers, then they seen my capacity. All of

sudden, I have two cars, hundreds of dresses – dazzling. Many people around me, many, many, sick people, many, many who wants help from me. Many people started to flow – help, help, help. Entire college is change. It's like a big talk of the college, "Hey, what's going on, hey." The period of the negativity, once if it started to flow – let it flow, face it, stay there, stand there - push it, ignore it. You can't run away - your win is important. At the time, patience is so important, and the practice is so important - if you lose either one, your failure.

So, if anybody want to read my life story, I think many books is available – how my life really a hard way, even though I am still now big hard worker - keeping on working and working and working. But I feel, one part, really, fun, great, sometime, much time I feel it's a great bless, sometimes I feel, "Ok, it's a big challenge to create masters. Let's see how much I can get success in my way."

From Holland... actually, this is my ninth day in Europe countries. In my life it's a big miracle to be me in western countries nine days. From Holland I gave a call to Martin, "Hey Martin, I have two questions for you." He said, "Well, what is that?" (Swami) "Ok, you had your dinner?" (Martin) "That is the question?" (Swami) "No, no, no, no, no. You had your dinner? Relax! I want talk to you." (Martin) "Hey, you're the only one person can protect me." (Swami) "Hey, why I give a talk? Why is necessary? Think that you and Clint and Martin – you will take care." I mentioned some few names) "Why again I gave a talk? Now I want to fly to India. I want to go back my home." He is really, terribly, angry, and sad on me. (Martin) "No way!" And immediately I want to call Astrid. Well, (looking up at the ceiling) then again, I start to think, "Wait a minute, how many people is coming? I'll wait. I'll fly on Sunday morning. I'll talk on Friday and Saturday, I'll push it – it's ok." Why I'm saying this, even to me, it's one type of really, huge tiredness – there is no perfect vibrations to me sit and meditate. I adjusted my energy completely with Ashram, with a beautiful nature fragrance, it's a pure air, powerful fire – it's a beautiful holy divine energy.

To be in western countries many days, then it's like a big magnetizing working on me. There is no enough discharge – thousands of people they're meditating on me, they're pulling the energy every day, it's very hard to me to make the balance the energy. It's very highly difficult for you to understand what I'm talking. Once if you start to begin a healer to work with dealing with the people, then (snaps his fingers) you know, hey, what Swami talking's exactly true. So, each person even though he's a Master, he need still practice to make it balance.

I hope many people is coming from Germany to Ashram – they'll get huge percentage success in their life. They'll really learn unbelievable knowledge. I hope, I'm expecting they're going to share the knowledge, the wisdom, and the energy, whatever they're receiving from Swami, they'll share unbelievably in western countries – it's really, great

luck to the western countries, I feel so proud of what they'll really going to do practicing in India. Ok, any questions? Ok.

Student: What kind of energy is manifesting in angels?

Swami: Are you coming India?

Student: No.

Swami: So, I will explain here. Manifestation means it's a transpiration and uh, angels means, through the angels we can do. Without angels we can do through elements, we can do through the Mother Divine Siddhis, we can do with your willpower, you can do with your sucking the high cosmic energy, you can do, there's a many different categories, the steps of the level to doing it.

Student: Are there negative angel energies? Are there any negative energies? Do they exist?

Swami: What? From what?

Lothar explaining: He is asking, you just said many people are meditating and sending their negative energy to you.

Swami: Um-hum.

Lothar: So, he's asking, "Are there angels who are negative? Or what is negative energy?"

Swami: Good question. Let me say this way. The healers nowadays in the world, all the healers is really healthy, ninety percent they are safe. Suppose I put my hand in the rose flower, and I made my hand few minutes in the rose flower, then I pull my hand, then I smell rose smell. I'm working with the sick people, keeping on working with sick people and I'm working with the stress people, I'm working with who was heartbroken people, I'm working with the who was really, disappointed in their life they don't know what they're doing. Each person like two percent, one percent each from the person is keeping on coming on me, it's automatic comes even though we're pulling the divine energy and you're sending on him. But you are still responsible for one or two percent. If you see a hundred people, hundredth person is already a hundred percent. We have to discharge, we have to send that, we have to send that negative energy to something – to the fire, or to the water, so I think you understand it.

Student: Once the Master has a relationship with the student, this relationship can be older than one lifetime, many lifetimes, so the student is drawn to the Master time and time again. Once the Master hooked the student, is this hooking eternal?

Swami: Yes, once if the Master and you connected – it's forever and ever.

Student: In the beginning when you started in the spiritual way, did you have a Master?

Swami: Yes.

Student: Who was it?

Swami: Shirdi Baba. I explained how he came in the personally in my life with physic (physical) body. What happened with him, what I shared with him, how he made a tricky way, tricky way – tricky. First time I didn't notice him, but later on I noticed him – he's that guy. I explained everything in the book.

Eva: Swami, I put this question to you now the first time and because you never answered me so - I'm channeling with some energies, maybe Master, angels, however I'm calling them, I feel the energy, of course I want to talk because I need the information for me for other people. The energy is here, and I try and translate the pulses of energy in words – how can I be sure the translation of the energy is correct, if I'm projecting my own experiences into the answer, or if I am mistaken in the energy itself even if I can feel it very strongly? Can you please give me advice on how I can handle the situation, but I'm not sure?

Swami: She talks very... (people coughing cannot here completely what he says.)

Clint: How does she know that the cosmic energy she experiences, if she can tell anyone else about it because words aren't so true as the experience?

Eva: That's not the point. I'm sorry Clint, it wasn't the point.

Swami: See, you have to be very careful, very careful – she's Eva Marie.

Eva: Perhaps I'm a psychiatric patient maybe, sometimes some level.

Clint: So, what is your question?

Eva: My point is, what I tried to communicate to Swami and to you is that when I am channeling the energy of a certain kind, maybe Swami, maybe Baba, maybe angel Rafael, however connecting this energy, it's not my normal state but I'm feeling it, it's hot energy,

it's here. How can I be sure when I try to connect to Shirdi Sai Baba that it's really him and not something that I called and put the mask of Shirdi Sai Baba, that it is really what I think it is and not that I am projecting myself to make it what I want it to be? Because I'm channeling sometimes for myself, for other people to help. I want some really, good advice now from you Swami – please. How can I be sure I'm talking to that exact energy that I wanted to call?

Clint: She doesn't trust the experience.

Swami: I got it. You can translate for me. (Lothar) I got it. Think – am I my soul?

Eva: No.

Swami: Yes, I am my soul.

Eva: Ok.

Swami: Swami's being here or not? Make decision and I let you know. What you know?

Eva: I know it. I don't have a fax so you can't send me a no fax as an answer, so I will come.

Swami: No problem, ok try. (to connect with him)

Eva: Give me some time.

Swami: Ok, I'm giving one minute.

Eva: Ok (closes her eyes) Ok, what I'm now hearing..... I'm honest now.

Swami: Go ahead.

Eva: I'm speaking loud enough I think (what she hears from Swami), "You can come to India if you change." I was in panic what should I change? What should I change? "You have to stand above it all – no attachment to any things, then you can come."

Swami: Attachment? Attachment to whom? Attachments to me?

Eva: Yes.

Swami: You have attachment to me? I don't think so.

Eva: I'm so sorry, I hope I can change that.

Swami: Well, I'm telling you one report now – so sorry but in the suspend list, the fax is first coming to you, it's already in the names list – you are the first name, in Penukonda is already is written. When I putted my pen to writing the names, all the invitations I seen first name my hand is written on the paper is your name. But still there is a chance when I go back India I can change.

Swami to the Eva: Connect Baba and ask him strongly. If you connect him, if you made him listen, ok he say you're approve, ok I'm going to India. If he said to you, it means and the fax is not coming to you, it means you are free – whatever your channels is perfect. If the fax came to you means channels is not wrong – sorry it is wrong, so then is not to Baba. What I'm saying, just connect on Baba, let him send the energy on me to change my mind. You understand?

Eva: I'm sorry, I'm so sad about it.

Swami: You're always sad. Sorry Eva, ok? But I have huge love for you.

Clint: I think she does not understand that you are giving her an opportunity to answer her own question.

Swami: Ya, it's there on the main list – many people are there. You can pray to Baba, channel to Baba – bring His energy, talk to him, "Please, Swami already mentioned my name, he's not inviting me to India. Try to change his mind not to send the fax, please Baba – talk to him, connect with his energy, feel his energy, Shirdi energy, send your energy." If the energy's worked, you are right. If it doesn't work – swaha. (throws his hand in the air) You understand? You understand Eva?

Eva: (Very upset and cannot understand) I got your point, but it is not exactly the answer to my question...

Swami: Hey, my answer it will come either fax,

Eva: But ...

Swami: Wait, wait, wait, I know you very well, wait, wait. I understand your point exactly. If you are coming India next, whatever you're channeling Baba, especially on Baba, for today onwards I'm here – you can send the energy from your room, from the window, through the Baba to change me – maybe I will change tomorrow, I'll give a report not wait until India ok? Try tomorrow then I will tell your report tomorrow answer to you, is your channels is right or not? Let you send first on me, I'm here - send on me,

change my mind with your energy, through Baba Grace. Then I can feel it, then I can give an answer easily, isn't it? Ya, it's fair isn't it? Great! I can believe your channels is right or not it's really working – my mind change in the night time – you came in my dreams, you're begging, "Hey Swami, please?" Show your energy, your channels, I'm happy. Anybody? Ganesh? Go ahead.

Ganesh: A question about energy.

Swami: What? Go ahead. (Students are talking) What they are saying backside people?

Lothar: They want him to speak Deutsch.

Swami: Ya, Deutsch.

Ganesh: I have a question about energy. My experience is that the energy in Penukonda is very strong. Can we hold the Penukonda energy in Germany? I could hold the energy of Penukonda for two months but that is the longest.

Swami: Great!

Ganesh: What can I do to keep that energy always?

Swami: How long?

Lothar: Infinite.

Swami: No ask.

Ganesh: Until I can see God.

Swami: From this Paramashiva Yoga, after this December program, later you can feel that energy forever and ever. Two months feeling that energy means it's a lot – really lot. Clint, can you feel Penukonda energy for more than two months intensely?

Clint: Yes, but it took three years to be able to do it.

Swami: Good. He's saying it took him for three years to hook that. It really one month the most unbelievable the most supreme information the ancient knowledge is teaching is happening in India. It covers A to Z all different types of techniques in the world whatever the tradition they're doing it, it covers in thirty days. Even though you can't able to come, still you can get that through the books and thru the cassettes, no need to feel bad. Who comes from Penukonda I'm giving permission to them to teach – many

people can come, and sit around them, learn the information, but that thirty days is really, so strict, and discipline – minimum fifteen to seventeen hours every day hard work – it's really like every day big horse riding. I hope everybody will enjoy it. Hey, at the same time I'm also in the huge work talking, talking, and giving healings and giving experience and bringing you to the forest to making to show the angels and souls and spirits, to make them to talk and communicate, showing the real unbelievable things in front of them – how to make it happen to the outside when you can't see it, you can't feel it, it's little strange. If you are not there everything is little natural. Once if you are there, once if you seen it – that's different.

I made a cobra, very powerful cobra near me. I made a lottery near Baba feet, yes or no. I want to do the cobra has to bite me – I promise I never use my energy for myself, anyhow it's not possible to use my energy for myself, ok. Who really can go heal me, we'll put up the lottery, who comes first putting yes or no. If it is coming yes, then writing the name few people, writing each person name putting near Baba feet – pick up on one slip. Any person comes he has to come he has to heal me. The cobra will putted there – everybody so nervous, I tolded if nobody who came the name, he can't heal it, he's that main person on my life who damaged. But everybody's working with me since many years learning from me – I want see your capacity, your energies what you learned from me, what type of channels you made it, how much you really healing energy is working – I need to see is the Master training. Then everybody's ready is a great good luck my life, in front of Baba feet it's came, "No, don't do that!" It means Baba is indirectly indicating, "Hey man, why you die unnecessary (with) crazy people? You're not enough ready. You're not enough ready yet. Still, they need more energy to suck it."

It feels little strange – what are these processes? I'm the Master for the Truth. It's not for the fun. My messages is not for the fun, my information is not for the normal status of the people. The beginning steps people it's very hard to understand, to believe, to recognize - its needs some time to them to experience it, to decide in your heart how much it is truthful or not. You need to experience it. If I'm biting the mango, if I say, "Hey, it's sweet," if you believe it, you're saying, "Oh yes, the Master's saying it. Ok, it's sweet." I'm not such type of Master - I bited, it sweet, I give the same mango to you, "Ok, you bite. What is that taste?" Then making to everybody taste it.

It means certain things some people only can do, some people cannot do, "Why is the mechanism?" My final point - everybody's equal, everybody (is) the childrens from the God. Every person have huge way they can demonstrate everything whatever the God does – but we are not a hundred percent God. I am not God, you are not God, but we are still students to understand his capacity to reach his abilities, the inner mechanisms. There's unbelievable knowledge, through that how we can demonstrate. Certain chapters I will explain in the Paramashiva Yoga. I will explain many, many, things in front of everybody eyes – we are going to demonstrating it, then everybody can experience it. It

will be so interesting and so beautiful but I'm sure by the God Grace, by the Baba Grace, there's no damages, no problem. Done? Good? Any questions? Sabeena.

Sabeena: I'm very confused right now.

Swami: Speak in German.

Sabeena: The difference between advaita and mantra teachings. I am confused.

Swami: You think your husband learned wrong there too?

Sabeena: He learned what? Not Vedanta, it's advaita.

Swami: Advaita.

Sabeena: Advaita.

Swami: Gustav studied that too?

Sabeena: Not sure, I started when he was already in India. Maybe he heard of it before.

Swami: What they're saying different process, different Masters, they're saying it, only I can do it - you can't do, only God can do - you can't do, only I'm the person to bless you - you can only receive the blessing. That process very different and crazy. Vaita and advaita there's a two channels in the universe. Generally, in the Vedanta they talks but it is only Vedanta, it is Vedanta means – limitless. It's very hard for everybody to understand. Ok, let me put it in this way for example, different religions says different traditions talks different funny way. My Master Shirdi Baba he tells, he never studied Vedanta, he never learned any mantras, he learned only few great bijaksharas. He been with his Master then he channeled, he sucked unbelievable energy then he started to see unbelievable things. When he started to seeing things - through the angels, through the spirits, through the divine souls, he's channeling, he's connecting, he's getting information and he's implementing it. You understand?

But my point here to you – it's very difficult to be understand Advaita, it makes you completely confused – that's my sincere advice to you. Just connecting the divine cosmic energy is very important. Something connecting subject, the object is very important. Just meditating on the universe, nothing, there's only you can receive the nothing... Before you jump in the car for driving, when you started the car, when you're driving it, you should know exactly where you're driving which place, you should have a thought in your mind, "Ok, now I'm going to Clint home, now I'm going to Tobias' home, now I'm going Agni's home." You have to have in your mind then you have the directions. When

you're starting car, then you're following exactly that direction - then you're reaching their home. That's called, one part of Vaita - you know where your thought and you're going there. Advaita, it's just a kind of just meditating – whatever it comes let it come, whatever it goes let it go. You're driving ok, wherever it go, let it go, wherever the car going - you're going. How long where you going to go? It's a little strange. Understand?

Sabeena: Yes. My experience was very good. It helped me to be so much more, clear and the experience was good. I had good experience with the mantras but now I'm having really good experience with Advaita – it is there's no difference. I feel so much more, clear, and free doing this, ya.

-

Swami: The energy's energy, the car driving is you're driving, it your destiny. The beginning step you can drive one day, two days, three days, five days – after you get the tired – what is the destiny? You're getting free, happy, relaxing, no jealousy, feeling great, the car is running very smooth – you're driving and you're driving and you're driving – how long? Where it ends? What is your destiny point, what is the purpose?

Sabeena: Peace.

Swami: What? Is there any limit for that? You're like a king ruling your country, you understand that king and master? You're like that.

Sabeena: I don't get it at all.

Swami: It's ok, my point here - peace is limitless, the peace you have to reach, and you have to stay there to develop it, to develop it otherwise it's a little strange. That destiny, the point is very important. Today you are so much peace, if something happened all of a sudden, then it started to disturb a lot – crazy, something little negativity attack, something little disturbance came – you can't follow that, it's really making fear, then you lose your path, then a lot of fear, the fear, unworthiness, guilty, these are all subconscious very badly in you – then you can't drive at all. If you're driving before, if you have aim, even a little fear comes – the aim is, "Hey, I have to reach there, I have to reach that point."

Sabeena: (inaudible)

Swami: To reach to God - good! Destiny.

Sabeena: What I want is peace.

Swami: Destiny, that's not called Advaita, that's called Vaita. You misunderstood. Advaita means little strange. If you have the Destiny, you are doing it – that's called pure what you know where you going your path, everything, a very, very, peaceful way and

your reaching there. Some students they want to become healer they come to me. Some students they want to experience unbelievable things, some students just they don't want experience – they want peace. For example, your husband Gustav, he's a beautiful singer, he enjoys in the singing and he's so happy, he's in the peace, he seeking something, then he stayed there and he's working on that. He's much clever than you – many questions he's keeping on pushing on. He's beautiful singer - he can make many people at a time through his music, he can put in the trance – nobody cannot think anything, everybody just listening his music, ok only certain period of time while he singing he in the peace, after he stopped the singing, again we are in the same position – hey the music is stop, peace is gone – something disturbance if it stops – you need the energy to go there. I am teaching the processes, something the basic is important to reach the destiny, otherwise is difficult. You understand? That why your husband exactly is doing the same process, even he's doing or not doing, if he doing he has to connect it like that. It's like a camera click, all the picture is in the camera - in a fractions of second he can play it, he can see it but it still there. Instead of painting for many years and years – taking the photo, I hope – go translate.

Sabeena: Right now, with this other process I feel better.

Lothar: But she knows that you know her better than she knows herself, and she trusts you – so whatever it is that you say to her she will trust.

Swami: Ok, whatever you're doing the process let it do that – feel the energy and we'll see how far and how distance it can bring it. But I can say one thing to you – your husband is sending from India long distance healing on you very strongly because of, I know there every day he sending love and peaceful, that is why you feeling much better, that is true. Maybe that's not your process – he's really missing your children. I think many people know what's going on with Gustav, so I putted him very strongly in meditation. He's sending distance healing – that's one hundred percent right. I can make him to hey stop the distance healing – you try that and experience that then fax to me, "Hey, it's good, I need to see your experience." No problem then you try, then you see if it is really it is there, then we'll talk about it, ok?

Sabeena: Starts in English, changes to German.

Swami: Ok, go ahead tell in English.

Sabeena: I have the feeling I'm going in a deep process. It is not that I'm feeling things don't exist – maybe it's illusion...

Swami: Hey, if anything is really great working there – how can I say it is illusion? But I need to understand, but I know you and I know Gustav very well from the beginning and I'm seeing it, I'm working on that – it's really took a lot of my energy to fix Gustav. It's a big job to me and he's working on many months sending on healing energy, the healing on you. But once there any healing energy started to working, it's really so deeper unbelievable experience, it's really unbelievable experience - before you never experience. Why the Gustav he standed there, because he really experience more than you very powerfully, that's why he stayed there and he's learning, you understand? More than you he's really going very deeper, but he's sending lot of energy to you. So, I will talk to you tomorrow personally and ah, I will explain to everybody in a clear way. Still little confusion there.

Ok guys we all late night? Everybody want to go on your beds? No? George – are you ready go bed?

See what's happening – some students they have no enough comfortables in their life to come India to study. Certain people my really advice – first fix your life, even though you're studying there to protecting something, your life, enough support background is around you. If there is no supportful, even though you are working there, you want to learn something. Your heart still ten to fifty percent bringing suffering for some comfortables, for money for getting back to your country to take caring your life. Many people they don't have enough things, they really want to come India, "Ok Swami will give permission to come India." They'll come India, they started to learn then again, the fear started to come in them, When I go back to my country what is my position, what is my life, what is my situation?" That fear is started to develop. My advice - stay your life, get success, get little support, then you can do anything. Few people I can give interviews with, tiny people. Tomorrow we're sitting the group healings, group meditations, and some bijaksharas, some little prayers – we'll talk tomorrow on that. Any questions?

Ganesh: Can I as a question concerning Paramashiva Yoga process?

Swami: Yes.

Ganesh: We learned to meditate between 1 and 3am and many people have difficulty getting up in the night and doing it and what other good time in the 24 hours?

Swami: I'm changing in Paramashiva Yoga once everybody comes there. I'm changing the timings. When I'm in the Tobias home, he's ah, I don't know how much he's really doing it, I doubt it. When I'm there, "Is always late night, Swami, I have to wake up at 1am and I have to meditate until to the 3!" He express his really, stress there. Of course, I know it is really very hard, but the beginning step once if you do hard way then you can adjust for peaceful way even though it's a normal timings - you can do it.

The Swami's process always the beginning – very hard. Who really can stand with the Swami is very pure. I know many people they are not doing at 1am, not wake upping for sure, I know that – the fax will reach to them. But many people so discipline – they are eating at 10, 10:30 the dinner, they're sleeping just two hours, they wake up in the 1am - they're doing until 3am and they sleep, again they wake up 7:30, 8. I'm really seeing how much they open their heart. They're watching my picture, they rakshasa, "Oh, you're told something I have to do it, ok I'm doing it." But it's a beautiful sleep, their killing it and they're doing it – they're offering their sleep process – is really, good. Entire my process, beginning steps really, hard, and tough, really strength then it started to come release – free, so it's natural. It's fine I'll change it. I don't want to say the hours now. Christmas program until to then – do it. It's only almost all one month. My sincere advice tonight - when you go back to your rooms try to think on the Gayatri mantra or Om lingastakam nidyam punyam yaha patay Shiva sanidow, that prayer. At least, om namo nama shivaiya because of, I'm sending tonight lot of distance healing. It will be really, great to receive the energy tonight through my prayers – open your hearts, it is also very useful to you tomorrow to receive the energy, at least one hour – ok?
