## *Dedication*

This book is humbly dedicated to Sri Kaleshwar

and all those who walked before

Thank you for gracing the world with your divine presence

And guiding us through the ocean of life

With our deepest love and gratitude

Pranams

*As told by Swami, the predictions of Veera Brahmendra Swamy,  
350 years ago:*

A young man will come at the turn of this millennium with a special relationship to Mother Divine. He will live by the holy mountain in Penukonda. The Mother, Adishakti Parashakti, will receive his worship and answer his prayers. He will be an incarnation of love, who will bring Her energy to the world. He will come to take care of the planet and bring extraordinary knowledge and light. To see him once will be a blessing for a person's whole lifetime.

If you have faith in him, you will automatically receive the shakti from him. He will spread the supernatural power channels to every soul who is interested and will bring Jivanmukti to the world. He wrote it in three hundred and fifty years back, Veera Brahmendra Swamy.

All the souls that have a human body on this planet are really so lucky. Try to make use of it as much as you can. Your life is a big book, a *Bible*. Your life is a *Bible*. It's your Soul *Bible* saying how you really enjoyed the God energy. ~ Sri Kaleshwar

The Guru Mantra

Guru Bramha, Guru Vishnuhu

Guru Devo Maheshvaraha

Guru Sakshat para Bramham

Tas Mai Sri Guru Veyna Namaha

This is the mantra for the Master. The Master is the light, the Master is the Bramha, the Master is the Vishnu, the Master is the Shiva - the Master is the bigger than, for all the three persons, Bramha, Vishnu, Maheshvaraha - He's a Masters of Master. That is the meaning of that sloka. He is extraordinary light. He is the man of light.

First of all, you're praying that Guru mantra means, you're inviting the Masters' light in your heart. You're inviting the master in front of your meditation. Whatever in your life you're doing mistakes, good things or bad things, when you are calling the Master heartfully, the Master can solve all your problems. He will show the right path in your life. He will remove all your darkness in your life. He will make up a good life - dazzling light in your heart. This is the sloka of the Master.

Every soul is a matter of a light, the energy. The doctors saying it's like a heart beating, some battery, the energy. But the spiritual people saying it's a light. The tantric people saying it's like one gas, some air. The Hinduism people saying it's a cosmic energy, it's a different forms. We can't see particular any form, that, but it is a huge energy. These are all things is true with their thoughts, whatever they are thinking on that, but one thing is true. Clearly, it's nothing but a huge light. It's like a candle flame or it's like a small star dazzling in the heart. A person who really got enlightenment or big soul like a holy man who calls the people like that, it means their soul capacity, their flame light is huge. It's like two hundred candles bulb, one thousand candles bulb, five thousand candles bulb, you understand what I'm saying? Voltage bulbs, like differences. How they charge that bulb it means nothing but they're sucking highest energy and to sharing huge love, to hooking with the huge love with some thousands of people - just huge love.

So, my Dear Divine Souls, opportunity came, opportunity is with us. Try to use it in a proper way. Don't see your Swami Kaleshwar, try to see what he's teaching. If you're seeing, "Oh, he's wearing a black coat. Is he really a Swami? We all look like Indians and Swami looks like a Westerner!" Don't give the marks with the dresses, the beard, hairstyle... The Master is a cow. It eats the grass, it eats the wall posters, it eats the branches, but it gives the beautiful tasting milk. The Master might drink the scotch, beer, everyday chicken, hookah, funny dress, no dress - accept it! Who cares what he wears, what he's doing himself?

Same thing happened to Shirdi Sai Baba. Once if he started to smoke... you saw in the Shirdi museum the chillums, smoking pipes? This big smoking pipe, sorry to say that, big smoking pipe - he takes off... And major his soma pot, taking soma. And his best students, they didn't like Baba smoking and drinking and eating. They didn't like that, one part, but he's curing many diseased people. He's doing some wonders. The students are staying with him.

My knowledge is always new production... it's only the new production in the world - is the first production - nobody haven't that, do you know what I'm saying? This is *Swami Kaleshwar Messages*, there's nobody else, there's no way to copy that person, *Swami Kaleshwar Messages*.

So, I'm preparing them to suck the negativity. When each student going like a greatest Masters in the universe, after when they become the Masters, I must give them to the, like bullet proofs. You know bullet proofs? Wherever they're walking in some thousands of people there is nothing, there is no way to bothering the negativity to them. Like that there is no way to failure. That's main intention.

The content today is tuning your mind system, your heart feelings. You want to know whatever it is, you want to know the reality. You want to know! Why we need to worship Hanuman? Feel it, see it, putting the water on the Shiva lingam, what is this? Whatever you are chanting, you want to know it. You're chanting this mantra, you want to know, to see it. To everything in the creation, action to reaction is there. It's true, action to reaction – that's Newton's third law. You cannot escape.

You cheated someone - you will be cheated. You created a heartbreak - you have to receive heartbreak. You ignore the reality - the reality will ignore you. It's the same for any construction, any concept... You are doing good karma - the good karma follows you. You are very egoistic - the nature is very egoistic to you. You are super humble to the nature then you are also becoming a humble person. Everything is how you are going to tune your mind. That's it.

## *January 6*

Everyday morning, majority of the time when I am sitting in the northeast, I have two friends - monkey kids. They come up sitting in the coconut tree. I really want to have a good relationship with the two monkeys. I go in the living room and get the bananas and I throw it. They enjoy it. At the same time, I am screaming at the downstairs people, "Hey! Monkeys came! Send it out!" He is inviting, giving the bananas and at the same time he is sending them out. These two monkeys won't go when I am in the northeast. They are all the time hanging around until I give the bananas. It is tuning. Do you understand? It is tuned.

If you start to wake up early morning, 5 o'clock, on two consecutive days, you don't need the alarm after that to fix it for 5 o'clock to wake up. Your mind, your thought system automatically makes you awaken, "It is 5 o'clock, wake up!" Sharply you wake up at that time. Energy is like that. If you start to put your consciousness tuning, "I want to know, want to know," you will win it. But you need to train to program it.

“I can play with the illusions very beautifully - that’s my speciality, special instrument, what I got trained how to play with illusions. The majority, what you need to know, to ask, to removing the... to cross this ocean in a peaceful way to reach the destiny to the reality. Once if you know the reality there’s nothing else you need to know. Even if I say the reality now, you can’t understand. Even if you understand, without you having the experience you cannot enjoy the Reality.

I’m biting an apple. I tell you it’s so sweet. You never tasted that. You have no idea what that sweetness is. Once you bite it then you can tell the sweetness. It means, you need to know the same with the bitterness, the lemonish, spicy – you need to know all things. Then after all comparisons, you can recognize the sweetness. Without knowing any tastes, only biting the sweetness, you cannot even decide it is sweet. You cannot decide that. As a brand, new person, you’re biting an apple, “Oh, it tastes good!” But you don’t know if it’s sweet, lemonish or spicy. You have to see every corner, every step, then decide, “Yes, this tastes good.

Your Swami is a part of the Almighty channels to giving the high healing abilities, the high, power channels, to giving to wash out the negativity in this planet. But even whatever I'm doing it, still the Big Boss Baba and Jesus, in an interesting way they're playing their channels on me, testing the illusions, playing on me. Heartfully I'm accepting it. They're doing their duty, but I'm doing my duty too.

Every day is my birthday. Every sunrise is my birthday. You don't have any particular birthday to me - every sunrise is my birthday. I came for the purpose of the duty. I'm doing my duty. The climax scenario came - I'm doing it. Pretty soon I have to fly... But every soul is so lucky... I'm lucky to be with everybody here. But I'm heartfully begging to Baba, Datta energy, to bless pure Truth to each person - to understand the life and death - the Immortal Nectar to understand in your soul. I pray... I did my maximum best - I blessed.

New millennium is very interesting. New millennium you can heal very easily the people. Even in the scientific terms, they are going to find unbelievable miracles - scientific formulas is coming but same level, unbelievable crazy diseases! Big craziness is coming, same is growing up. Such a time like big positive and negative - both of is coming. That is my prediction. We have to see in the universe.

I have a couple questions, guys. I'm coming to straight subject. You want to follow me, or I have to follow you?

You need to cross the river. You don't need to know how I am going to make you cross the river. Either I might take you in the boat or take you in the helicopter or maybe you're walking on the water, or I'm giving you the stamina to swim the river, even the water is flowing huge. You don't need to know the depth of the water, how much length the river is - you need to reach the edge. That's the concept.

You have to know the Satya, Dharma, Shanti, Prema - the four things. What is Satya? What is the truth? What is your Dharma? Where is the peace? How is the love? How the love looks? How it feels? How you have to experience that. These are the major four concepts. Out of these major four concepts, to these type of chocolates I'm giving to you. It's a chocolates. You should not stick on that chocolates. You should go in depth in the chocolate sweetness - that is the key point. If you're looking only at the chocolate...

ॐ

## *January 12*

The most amazing, unbelievable subject in the planet is spirituality. It's beyond the science. To know your capacity, to know your inner reality, to recognize the abilities what is in you, to bring those abilities out to demonstrate those abilities, it's not a joke every person so far, who got success.

Once you have to go success, it means you have to lose something. It's a standard law. You're gaining something it means you're losing something. You have to be prepared for all concepts, for all angles in your life, certain things you have to lose to make it gain. Period.

## *January 13*

This drama keeps running. Your life drama is running, but one day you have to drop your drama. That's the major thing. You need to make it confirmed to yourself and be able to be really thankful to be able to see what is happening in the globe - positive things and negative things. And you want to be a part of...in the drama you're like a kind of stick. You're offering yourself to burn and giving the light. Even you're holding for your own selfishness, you want to keep it, you're protecting yourself, name and fame and all stuffs - that's all temporary. He's (Baba) the person giving it and taking it back. But between that you're holding something - that is dangerous. That is the? Danger.

ॐ

## *January 14*

A master is necessary to guide you to know who you are. It should be the inner master. Every person is carrying in your inner self the great master. But it's a little hard to find out, inside, if it's your mind that's your master, or your heart that's your master, or your soul that's your master.

Mind is always monkey. There is no clarity, but some clarity picture is in front of you to show an amazing thing. Why can't you use that picture as a mirror to see about yourself. Why can't you ask? When you're asking you should be super clear and clever - get it done. Once you view the mirror in a beautiful way, then you can make a picture about yourself. "Okay, this is - I am." Then you can start to research the inner you. That's why since the ancient days a lot of gurus, a lot of great healers showed a lot of amazing things in this globe. They did one part to change the belief system, another part to open hearts. Opening your hearts means to knowing about yourself using the energy

ॐ

## January 15

You're all in the Sai Family. Take a duty as your responsibility. Once you did duty you're a free bird. If you want to escape it, it's a problem. Whatever is your duty, do it as an honor. The duty was given through Him. As a 'name' is coming – good, as a 'defame' is coming – good. Do your duty.

Your duty is only for doing your duty, not for expecting any results. Whenever you expect the results and you did the job - you're in trouble. Your job is only doing the duty. You expect the results, you're in the danger.

A doctor is doing heart surgery. Of course, he wants that operation to succeed. He doesn't have any bad intention to kill that patient. If the patient died, that's not his mistake. If it's a success and the patient is alive, it's not *you* doing that, divine did it through you. Whenever you're feeling, "I did it, I did it," you're in trouble.

ॐ

## *January 16*

When we really trust it to the Boss (Shirdi Baba), when we really surrender to Him, it's His job to take care. That's His job to protect that.

So, my Dear Divine Souls, life is short - make it sweet. Something you have to discover. Something amazing you have to research. You are in the forest, any king, any scientist, any emperor, any layman, finally the ultimate goal - what gives the real happiness and give the wisdom is the spirituality, the sadhana - that's the final goal. The final climax is to know the Almighty, to know the supernatural energy. You are in the climax process. You are in the discovery process. Don't lose your inspiration.

ॐ

## *January 17*

Temporarily I can make you happy, this and that, give a few chocolates. I can send you back - that's not your Swami's style. That's very easy, I'm not going that way. I'm drilling the bore-well in the desert finding for the beautiful sweet water. Our journey is very, quite amazing. Every person's heart is really open - true love is there. I saw each soul. I observed it. I notice it. You deserve the Divine Love... the Divine Love is flowing on you, it's very serious. Baba's love is purely with you no matter how much 'monkey' you are, how much you're driving me crazy. Yes, His love is totally with you.

ॐ

## *January 18*

Win the children's hearts, as much as you can make them happy, first point. Try to do as much as you can to make the kids happy throughout the globe. It doesn't matter what religion, it doesn't matter who it is - they're all divine. Then you can make the soul heartbeat throughout the entire people on the globe.

ॐ,

## *January 19*

Today you look so beauty, healthy, handsome, lot of good energy, lot of inspiration - that is not permanent. The permanent thing is what you think all the time for somebody's happiness. When you started starving for somebody's happiness, whatever you're carrying, the blocks, whatever blocks are disturbing you, it never, ever touches you. That's the strongest remedy.

Whenever you start to think on somebody's happiness, you're beyond the illusions. Even though the illusions are around you making you beating and punching - let it punch. You have only one principle - you think somebody happiness. You ignore about yourself, your happiness, you're always thinking of somebody's happiness. That concept is enough for your journey. It's not that easy but you have to train that. You have to make tuned all your mind set-up systems.

ॐ

*January 20*

The most powerful, good karma is filling the hunger. Once you feed somebody, after they ate, they completed it, even if you want to give them some more, they'll say after, "No. I'm full, thank you." That's only one thing on the planet they say, the humanity, "I'm done, I'm fine, no."

If you give the money - they still want some more. If you give them anything, they still want more. As a limit desire, is hunger. You know hunger?

So, try to ask the hunger out to win Him (Baba) that's the best way...the best way. Himself, He used to cook, and He is feeding in Dwarkamai. And whatever He got, the food, He distributed it to the dogs and birds. Dogs are eating, and He's also eating the same food. It's called bodhadaya - it's loving the hungry.

ॐ

## *January 21*

Today, I want to give the message of today - the reality of life in spirituality.

Who comes as a spiritual person on the planet - we have to go through. So far, taking any incarnation person, whoever we're going to worship, whoever we're worshipping, they've all been through, under amazing suffering – pain, pain, pain, pain, pain. Then later on the humanity, the globe, human society is worshipping them. It means, if they didn't go through pain and suffering, the human beings are not worshipping them.

Take Jesus Christ, Shirdi Baba, Pamahamsa, Babaji, Ramana Maharshi, it doesn't matter, take a lot of people. After a person went through a lot of suffering and pain, then there's coming the open heart to them because they went through pain and suffering.

It doesn't need to be in the future in spirituality, in the spiritual kingdom. We have to live happily - smile, smile, smile, smile and die. Give the message and die - take off.

ॐ,

*January 22*

So, my Divine Souls, Soul Mate as a path of to receive the unconditional love. Already God has given majority to everybody. Parents is the biggest Soul Mates, but a lot of childrens too, they have a lot of pain, lot of anger around their parents. Is it make sense?

Their childhood days is rough days, the, especially in the western countries. The children grown in a painful way what I seen it. Like mother have different boyfriend and divorces. And father is go different, and it's not healthy there, majority, what I noticed - that impact will effect on the soul.

Our childhood days' energy power, that behavior, that clarity mind, the vision, it keep continues until the rest of your life. Our childhood days is very powerful to play on our life goal - it's a golden statement.

Whatever your coming generation in future, how much you're really caring, protecting the kids in a beautiful loving way, upcoming generations in the globe will become less depression, more clarity - very, very important!

The depth, the fragrance... I'm giving a flower - smell is coming. Is the flower the greatness, or itself the flower brought the fragrance? Where is the smell coming from the flower? How is it coming? The leaves are not giving the smell. The branches are not giving the smell. The petals are not giving the smell. Certain part, certain place the fragrance is flowing.

How the fragrance is created? The tree created the fragrance in the flower - that, you need to know. That's only your job. If you want to know everything about the tree, it takes lifetimes. Don't waste the time - flower and fragrance, that's it. How the tree is producing the flower? That mechanism only you need it. If you start thinking from the seed how it's coming and growing - no time, absolutely no time - it takes lifetimes.

## *January 24*

You cannot stop what is going to happen tomorrow - earthquakes, disasters... I think everybody already got the message to chant the Earth Element Mantra. Then it got a little quiet, calmed down. If She really wants to do one tsunami - She'll do it. If She wants to do one big earthquake, even though we're strong masters on the Kala Chakra, if She decides She wants to do it - She'll do it.

But we can make Her nature to calm down. We can make Her to divert. Thousands of times I diverted Her, keep diverting Her - it's a big game. She's super loving, unbelievably loving. She's giving a kind of symptoms to us to be awake. Life is short, it's running. It keeps running, running, running... Be awake!

ॐ,

*January 25*

Number one, the ego – never, ever grow it up. It's the biggest illusion always waiting in us - negative illusion.

As much as can - be humble, even to your kids, your husband, your family, your business-people, your neighbors... How much humble you are - that much peace of mind you'll get. Whenever you start to get angry - be quiet for two, three minutes - don't talk - shut up! Wait! Walk out of your house - just get out from there. One, two hours later, again the energy changes, then go back again and take care of that problem.

ॐ .

## *January 26*

Your anger is your biggest enemy - biggest enemy!  
You should not give a chance to that - it disturbs,  
disturbs, disturbs horribly! Once you keep tuning  
that anger, giving a chance to the anger in your mind,  
it turns like kind of 'monkey'. For every small thing  
you get frustrated. For every small thing you get  
stressed out. You feel so tired. You don't need that!  
Simple things... you know that but take it as my  
order, as the master's order.

Whenever you're getting angry, think my name,  
think my name - just think my name, feel my face.  
It's enough. If you keep doing like that, you'll see  
how I'll really react with you, because I sprayed with  
the divine water on every soul.

I don't need anything from you guys, except your  
happiness. Your happiness is the most important to  
me. Then second, create that happiness around you.  
Third, bring the wisdom in the planet, this  
knowledge.

ॐ.

## *January 27*

Whenever the money is coming in your life, it won't tell you, it automatically comes. Whenever the money is going from you, it never tells you, it automatically goes away. You have good health, whenever the health is going out from you, it won't tell you, it starts going away. That's just His lila. That, we need to be little conscious on, to be careful, super careful with our blocks. We're acting in the nature, especially in the nature means, around the people.

For example, I'm sleeping in the northeast of the Jesus Temple. Generally, in the ashram the monkeys are a little wild. All small baby monkeys are coming, like six, seven monkeys are coming near my bed. I open my living room, I take the huge bananas with me, then keep throwing them to the monkeys. They start fighting very wildly. I'm screaming to secretaries downstairs, "What you're doing guys? You're not doing enough hard work. Look at these monkeys, all this wild!" They're looking at me very funny, "You're throwing a lot of bananas. That's why the baby monkeys are coming every day." I have the food in my living room. The monkeys know it will take care of their hunger. It's my duty to take care of their hunger. It's their duty to them to be wild. What can I do?

ॐ

## *January 28*

If your age is fifty, since from your childhood days until to your fifty years old - what you gained it? Eating, drinking, sleeping, eating, drinking, sleeping - routine. You are in the sixties - what you created? Nothing?

Your Swami is thirty-four. In the thirty-four I created something paradise. It is not a construction. Global wide - little awakens, awareness... If I really want to have a huge publicity, 'name and fame,' every year I should be here. I didn't come for the 'name and fame,' even years later I'm coming, six years.

So, life is short - make it sweet.

## *January 29*

To develop the peaceful mood, to develop in the peaceful atmosphere... Fear is contagious. If there are four hundred people, if two people are really fearful, they can spoil majority of people around them. I'm serious. Fear is contagious: you have fear of death, fear of losing something, fear of disappointment, fear of not getting success, fear of not being worth enough, fear of not being confident enough, fear, fear, fear...

Why you need to be afraid? No way, absolutely not! Be strong, do your duty, leave the results to God. Be strong, do your duty, leave the results to God! Let Him bring whatever He wants to bring in you. Even you try hard, with fear you're always doing the mistakes. Fear is such a dangerous disease we're carrying in our lives. The worst case, what will happen to you? What God can do with you? What maximum He can do? You're going to die. You know you have to be prepared. You're mentally prepared one day you have to take off. This is not permanent. It doesn't matter if you're with Jesus, with the Mother, with Shirdi Baba, with Swami Kaleshwar - you have to go. That's the bliss - in a peaceful way - not with a suffering way.

*January 30*

If it is God, is exists - learn how to pray to God. Learn how to pray to God - very important!

Be happy! I'm not creating anything in your lives. I'm giving a concept of Eastern Wisdom to the Western Minds. What is there, what you seeing it, what you had to know it - that's it! It's nothing new. It's nothing from me what is already there from before. That's we had to see it. Good luck

I made a deal, several thousands of years back, to the Boss, "Ok, I'll do something." With the Big Boss, whenever we're walking, at the time when he's in India the information was lost. That's one of my biggest mission - to bring back all the Jesus, whatever he done, the channels, to bring the Mother Divine available to have darshan, and to having abilities in a lot of students. I'm on the job, simple. I don't have any personal attachments, personal desires in my life - just to create. So, we'll go the depth.

Guru Brahma, Guru Vishnu-hu, Guru Devo Maheshwaraha. Brahma, Vishnu, Maheshwara - Generator, Creator, Operator - G O D. The destroyer is always with us. That's called Shiva energy. That is five elements: Na Ma Shi Va Ya, earth, fire, sky, air, water - that's five elements is linked in us.

Whenever you're not able to drink the water, you're dead. Whenever you're not able to breathing, three, four, five minutes, you're out. The flesh, the body, the heat – when the heat went up in the body you're sick, you're out. It means that five elements energies, it's completely linked with the Shiva. That is Nama Shivaya - that is Five Elements power. Whole cosmic Divine Channels is hidden in the five elements. Any miraculous healing powers is hidden in the five elements. If you want to produce a miraculous energy - you need the five elements.

How to find the five elements in you? Already I given that information.

Whenever you keep holding the 'not forgiving, not forgiving' then the remaining all blocks - anger, anxiety, excitement, unworthiness, the depression - everything is only comes because of, you're not able to forgive yourself, you're not forgiving somebody. You feel you got hurted, you been cheated - that is a crushing, that is squeezing your life.

Life is short... Life is short - make it sweet. You don't know what's going to happen tomorrow, ultimately, what She does it. Until to your last breath - try to be enjoy as much as you can the peace of mind. You can purchase anything, majority things - you cannot purchase the mental peace.

If you don't have the mental peace you are in the cage. No need to in the cage. It's over today, from today onwards - it's over. We'll sit ten to fifteen minutes meditation, very quietly - accepting your mistakes, you're forgiving everybody. You're promising to the Divine you'll be loyal and happy no matter what. Now we'll sit in the meditation. Turn off the lights, close your eyes, just keep relax.

But I know his bank account (laughter) so that's why he is giving, allowing me to do certain things. And I want the students, the globe needs to be a little awake with great love. Love is the most important.

I might be different incarnation, not like a Jesus, but I will declare whenever it is come the right time, but its my mission is to bring the ancient information, the ancient knowledge to the globe and to prepare the strongest healers to create the real, true love, peaceful atmosphere in the planet. That's my mission. Even though, whatever the little hurdles comes - it comes and goes.

Today you're here guys, just nothing but divine cosmic energy sucked you here. Without His order, without His invitation, today you wouldn't be here.

Even though in the beginning days it's a little harder time to you, then later on once you tasted the fragrance of the devotion, it's a nectar, unbelievable nectar keep tasting. It's an unbelievable taste.

So, no matter what the divine is giving testings in your life, what illusions are hitting in your life, even whatever you're going heartbroken and depression - don't lose this devotion fragrance. Don't lose the devotion fragrance. In the climax stage, every person needs to have that. If from your early days you're carrying this type of fragrance, before you take off from your body, you'll really enjoy the bliss, the really amazing bliss! You started the spirituality.

Focus what you cannot even imagine, what type of life you want to lead in a divine way. That's the most important. Until your last breath, problems are there, it will be there. One goes, another comes, otherwise it's not life! Happiness, unhappiness, unhappiness, happiness – it's equal, it comes and goes.

Like God gives you four children in your life. Only you have the right to give the birth to the kids, but you cannot decide their fate. You cannot write their fate. One can become a big scientist, one can become a big thief, one a spiritualist, a movie actor...

To the karmas you're not responsible. Think for yourself and pray for them - that's it. Don't fight for them that you want to fix their fate. But as a master I'm fighting with the Guru Parampara to fix your fate. That's the tricky - to fix your fate to be in the normal, pure divine way, total divine way. It's not an easy job.

You think you're responsible for your life - I disagree. Some divine energy is playing on you, to play and to give the consciousness to your actions. Again, you get to reflect to your Brahma Consciousness what you did. Whenever the reflection comes, action to reaction - whatever we do, again we'll get back. Even this life, last life, last life...

How we can discover that? We need to observe. You need to observe. You have to observe what's really going in your life. Why you're in this much emotion? Why you're carrying this much sadness? Why you're really carrying sorrow? Why you're in this much depression?

You think you're in depression but you're not. You're not losing anything - you're not. Whatever is playing, coming in your life - take it for granted, it's a challenge, it's a divine energy God is playing on you. You have to face it. You have to stand for it, then you'll become very strong. No matter what, simply accept it.

This is the place for the true love. If you start to fighting for small things, for the power, if you cannot learn something from here, (Penukonda) you cannot learn anywhere on the planet. This is the right place to wash all your blocks.

It's such a thrill to be with the Sadguru. He is your father, mother, brother, lover, sister, well-wisher, enemy, tricky man - everything he's covering, and protector - great protector. Only you think sometime to your master, but the master everyday thinking about you. His love and his fragrance all the time flowing with you, keep making to following what you are doing. A mother can handle maximum two, three kids in one house, but a master handling the students with the different, different crazy behaviors, with your blocks, with your emotions to making you really calm down. It's a big job.

A master and student relationship is immortal. The bond, not for this lifetime, the bond is forever and ever, for many lifetimes. Wherever you go, he is there. Having the Sadguru, you allow him to do whatever he wants to do in your life, but you have to allow, "He's my well-wisher. He is everything in my life. Let him do whatever he wants to do."

Whatever is given to me I should trust and accept it. Now, should I accept this? I have accepted it for eight years now, or is there something I can do to change the position, the situation?

**Swami:** You can do yourself too. Even there's a lot of problems you're going through, sickness, emotion, heartbreak, depression, there's a lot of proofs I've given to you guys – lot of processes, lot of channels. So, take any one, whatever channel you like - do it.

The enlightenment means, like one million years ahead you want your mind consciousness, your Brahma Consciousness, to be awake. Many people think, "What does it mean by enlightenment?" The far ahead you have the awareness. Right now, you're in the 2,000 years. If you got enlightened, you can go back 2,000 what Jesus Christ life he led. You can play that role. You can go 10,000 years ahead what this creation will be. You can leave your soul from your body and again you can come back after a few days later.

You're using this body as a kind of house. That's called enlightenment. To receive that enlightenment - the heart part is very important.

So, my Dear Divine Souls, pretty good our life is in our hands - how to avoid the problems, how to create the divinity in our life, how to come out from the problems.

Once you come out from the problems, once you come out from your blocks, you're eligible for divinity. Even though you're carrying a lot of problems, try to help as much as you can the people around you. Try to give as much love as you can. Try to take care of somebody. Try to share as much as you can, then it really helps you.

Whenever you're creating happiness in the people around you, their happiness will come back to you. Your life will become super happy. You'll become super happy. You know if you can help them. Help it - it's very, very important part of your life. You should do it!

Whenever your soul wants to go away from your body for a few minutes, then the soul will play a movie to your consciousness. The soul plays a beautiful illusion, a dream - it escapes. The next morning, you wake up a normal person and feel what a beautiful dream you got. It's the symptoms to the master your soul is moving out from your body. That's the time the master can give the enlightenment. It's beyond your belief system at the moment, but in the long term it will help to the senior-most students why I'm telling this point.

You can catch your soul through your Brahma Consciousness. You don't need to be a great meditator. Whenever the dream is happening, whatever your wishes are, it's the time to throw it. You're still sleeping, you're still dreaming, your consciousness recognized, "Oh, my master said my soul went out," but still the dream is running. Think your wishes at that time. That's the auspicious, precious time in your life. The most important thing what you should ask is to get rid of all your blocks, get rid of all your depression, get rid of all your heartbreak. If you're really worrying on somebody, try to bless them - that's the supreme supernatural time.

What I took, my students, for six months to one year I gave a process to them - do it. Those vibrations are helping to the mind, to the heart not to have unnecessary things, problems. Then I entered bringing you out what you cannot believe, to start making you believe it. Even I'm doing a spiritual magic there, even though I'm doing funny things there, but that's not your matter.

What you need, the glory of the beauty - the beauty of the glory then you start to feel such a divine. Once you start feeling the divine, divine, divine, divine, divine, putting you in the meditation in the light. Sending the light in you then making you as a light. That's the farthest point. But pulling you from the dark to put you under the light - that's a big job.

I won't tell you, you got enlightened. You're in the beautiful pure love, but you have to keep swimming it until you got tired, really tired, experienced in the beautiful tired. Then once if you're really tired, then the divine energy is there for you, even in that tiredness to come and stay and merge with you. Then you're free. Then you're a divine soul. Then you're capable. Then you're in the reality. Then every person in your life you have to be there. Am I boring you guys? Hello? Are you understanding?

Spirituality is a big evaporating subject. It's a big illusion - seeing the water and feeling the taste. Seeing the flower, smelling through the eyes - that is spirituality. You're seeing through the eyes, but you have to smell through the eyes. How is it possible? That is spirituality. You can see the beauty of the flower. You can describe the beauty of the flower. But whenever you can describe the beauty of the smell through your eyes - that smell it's very hard, very difficult to describe until you experience it. Even though you experienced it, it's difficult. That is Divinity.

You came, I helped it. "I" is the Brahma. "I" is the Brahma, the consciousness of the fragrance, the glory of the God. You're ready there. You're over there. Your soul is ready there. He made me too. Inside, what I have it, that is He. Whatever you have, that is also He. Just I'm cleaning your glass... candle is burning... A candle came, I'm lifting it, then you're done.

You understand, guys? Lot of inner meaning in it. So, my Dear Divine Souls, even we believe in Jesus, we believe in Baba, we believe in Paramahansa, we believe in Mother, we believe in your parents and the, the, the grandparents. It's ok to believe in it. What you need to do, what is your duty, what you need to make it, what you're really missing it, you're doing your regular duties perfectly. You have tons of headaches for unnecessary things. When you're really ready to fall in love with God?

But the real inner consciousness to make the inner happiness to grow - that's the real miracle if I'm really able to create it in your soul. That's what I'm waiting for. So far, I've done it with many students. Still needs lot of work. Whenever you come with an open heart, then I'll come with an open heart. Whenever you're holding it, I can't help it. You have to make your life like a kind of lotus leaf. The lotus leaf is always staying in the water in the mud, but water never touches that. Once you ignore the things, take only the positive things and release out the negative things.

In the spiritual law it does not say anything, you should do only this thing, you should not do this thing, you should not do this thing. Whenever you're in the diksha, I told you to be in the discipline, no alcohol, no smoking... It's to make your chakras vibrations in your body in a perfect way. It's like one big purification cycle.

I love the Big Boss Jesus Christ. I really love him. Every morning when I wake up, he's the first person I'm going to look at. After I take shower, I put the candle to him and say, "Thank you." He's a great soul like a Buddha, like all the Maharshis. Jesus Christ doesn't belong to one religion - he belongs to the pure love.

Of course, he traveled in India. There are already many books. Whatever statements Swami is giving, it might come little controversial. Then many people will want to attack in a beautiful way and a negative way too. I'm ready for that.

Like Buddha, he meditated and something he created. Jesus Christ meditated and received certain things and he told that his students, his followers, would become more powerful than him. But many obstacles stopped not to make that happen, so far, these past 2,000 years.

The major thing is the real Soul Mate. The real Soul Mate solves... its very, very clarity. How to create the real Soul Mate to the Kala Chakra?

I personally promised the Big Boss Jesus Christ in His life, on the day at that time, I put my hand on His hand and He made me promise five times, "Are you really going to bring this knowledge back to the globe?" I said, "Yes, I promise. Yes, I promise. Yes."

It took 2,000 years... A lot of my personal stuff is all done. Then, when I got enlightened, He came to me, "Do you remember me?" I told Him, "Of course I remember." I smiled, and I gave a kiss to His hand. When I'm giving a kiss, He's crying kind of tears, "You're having amazing knowledge what I already blessed to you, what I indirectly brought to you. You have to prepare the students to bring the bridge. You have to do this mission,"

In this small town, 365 temples are here. That guy, Krishna Devaraya, he built 365 temples here, and here in this earth, the first manifestation of the Mother, pulled the Mother and created the Mother in this Penukonda Fort. I'm not exaggerating it. It is there with evidence. The ancient scripture is there like a Mahakali form.

For example, Shiva is there, Brahma is there, Lakshmi is there, Durga is there, Saraswati is there, all angels are there, all rishis are there, every form gathered in one form – that is Kali.

On the days, thousands of years back, some Maharshis, they use to meditate in this mountain in the caves. There's amazing caves hidden in this mountain. For themselves to protect it, they created a strong Mother for several thousands of years. She need to protect this area.

Really, my book (Paramashiva Yoga) comes out there in L.A. The Big Boss, once it comes out, it's a great novel - put it that way. I'm taking the whole *Bible*, like fifty pages. This whole *Bible* message, taking fifty pages then remaining things... It'll be quite interesting to fixing to this right 'Age' to these human blocks. You understand what I'm saying?

We don't need to go 2,000 years back. Let's bring the 2,000 years to come now - that's a big difference. You don't need to go back 2,000 years. Bring back again, the 2,000 years in front of you. Let happen the same movie again, back in front of you.

Many layers of testings. The big changes in the Dwarkamai - Shiva lingam inside and outside of it, in the ground. He has to bring that information.

The coming days, also, once the power is available to everybody, whole groups getting splitting. You know what I'm saying? Fighting in the small groups and big groups, but I need to fix that, it's ok.

It's only possible who doesn't have the attachment to the body. Who has the attachment to the body you're really under the illusion. The illusions will play the maximum whatever it can. The body desires, the body attachments, the body stuff... Who doesn't care about the physical beauty, only they always care about the inner beauty, then eighty percent they escape from the illusions.

In this Kali Yuga, one mango is hanging in the beautiful tree. You're so hungry. You look at the mango - badly you want it. The mechanism is, whenever you want it badly, there's a huge chance you'll get it, some chance you might not get it, some chance even though it comes in your hand you're not able to eat it. Some chance somebody will steal it. You made all the way the effort to get to the tree. You picked the fruit. You came down. You want to sit and relaxly eat it. This is tiny example, when you're giving too much time and chances, you might lose it.

You want a mango. You don't care anything until you can bite it. You need to tune your system of your energy like that. Your desire, "You want it." At the same time, same force, same frequency of, "It's ok." Then the illusion cannot decide on your illusion which way you are, whether to give you or not to give you. It's true - one million percent it's true.

Did you know that Hanuman is still alive with the physical body? He's still alive with the physical body. This Penukonda is having around the fort is nine Hanuman temples. Anybody seen it, the main entrance big Hanuman? The main entrance there is one Hanuman. All angles the fort, even straight to the east the fort. Where is a Shiva temple? If we walk like five minutes, there's a Hanuman statue. The backside of the apartments there's a Hanuman. If you see from the garden, look at the mountain, there's a Hanuman Temple. Of course, my favorite person is Hanuman, I'm serious - you have to discover why I chose him. So, once his energy is there, there's no chance any negative vibrations can disturb you. Even Mother Divine doesn't have guts to disturb you. Even the Shiva vibrations want to disturb you - no chance.

One time I'm in my swing, that thread almost like three year's old. I'm in the swing. Gently I'm moving, enjoying. In the hut somebody's eating and all the cooks is there. The swing from this much height to under my feet, the thread got broken. If it really hitted like that, maybe some danger happened to my body. The swing, it came like gently. Impossible. That's impossible! After hitted the ground, it's like this, the swing then I have to really fall off. Then whenever it touched the ground I really jumped, like somebody's kicking me. Through his tail, protecting it. So, the unusual it's very... I looked at him, "Oh thanks - that's a beautiful experience."

Hanuman. One time I put my two feet there to His mace and just sleeping in the swing. Like early morning two thirty, three, chanting his markata markataaya swaha prayer, “Om hreem hari markata markataya swaha.” And within a seconds, layer by layer you’re in the trance. You’re in the trance itself, under the tree in His presence. That spot, it’s very powerful, interesting vibrations, more than in the temple. I’m not exaggerating it. Does it make sense? It’s the pleasant vibrations.

How many Catholic church people, whoever, even Christianity, can really implement and demonstrate the formulas in a beautiful way in the planet? Zero - lot of fear, disasters, fightings! Some people, they don't like their parents. That's the worst thing according the soul law. It says parents means, no matter what it is, they are parents. Do you know what I'm saying? Even though you have the bad childhood days, okay your mother left you, that's painful, your father left you, that's painful. Maybe they have pretty good, bad karma, bad fate. They also suffered, they dropped you and they left, but you should always respect and give your true love to them.

If they're really in the sick, if they're really in the helpless stage - don't take the revenge. Revenge means ignoring them, not sharing with them. They're kind of flowers ready to fall down. It is very important - they gave you to the birth and whatever they done it is their karma. As your duty before they take off from their body, make them happy - their blessings is very powerful. It is almost according it says in Indian tradition, equal to the God blessing. Do you know what I'm saying? First mother then the father, then the master, then the God, fourth person is the God. The mother is the first. She's teaching you how to grow, how to take care then the father played with you as a friendly. Then the master, he teaches you the knowledge to reach the God. Then the God, finally if you really did it, you got purity, you'll show them, He'll make you as an avatar. So, respecting the parents is super important!

Spirituality, God, all the stuff is fifty percent. Taking care directly of the humanity - that's directly taking care of the God and serving the God - who are really suffering the pain. But majority, ten percent who is really in the hospitals and the sicknesses. Eighty-five, ninety percent pretty good sick with the healthy bodies - they're *soul sick*.

All programs what I'm giving is preparing the soul doctors to become a soul powerful doctor. Just you walk in the street, take your neighborhood, write all your friend's names and family names. See who is really happy and not having a broken heart. You cannot find three people. Almost five, seven, eight people has the pain and the hysteria. That type of people really, need your help. You know what I'm saying? Hello?

You have to live your life for yourself, same time, the life why you came here, not only for yourself - you're born for a reason, for somebody else. For a great reason you're born here. Try to do your duty, the real duty. Ok? Good.

As a really, Guru Dakshina, what I'm expecting from you - help ever, hurt never. Try to create peace and as much as you can, any type of help around you, the people who is really under suffer and the pain, whatever you can do. From today onwards, forget, I, I, I, I... Whenever it became 'I,' the problem, the ego 'I' - your crashing time is starting. This whole place whatever is created - Baba used me as an instrument. I'm a small leaf in his huge gigantic tree. Without His grace I cannot put a small brick there - no chance. In your life, you have to remember this.

Today you are here, you learn this prayer, "I told this, do it." Whatever is coming near to you, any work - do with one hundred percent open heart, one hundred percent open heart - do it. Then you are free out of any illusions.

Somebody is super hungry. You having something, great food with you. You no need to take care the person. There is no law why you should take care. God is giving a chance to you! You're looking at a person - he's super hungry. How you going to react? Are you giving some food to the person or you simply ignoring and walking?

When you ignore and walk, the clock, the circle is round, it will come again back the same, and you will be in that position. That is karma. If you hurt somebody with this hand, in a fraction of months or days, you receive with interest – same, more hurt, same, much pain back - impossible to escape. Even I'm there, it's impossible to make to escape. Action to Reaction, so help ever, hurt never.

This is sandalwood, this is this, lotus this, you made us sankalpam - done deal.

Why you need ten types of ashes? You know what I'm saying? It's done. If I need you, I won't leave you. If you need divine - you can't escape. These are two different things. You have some responsibilities, you want to escape it, you can't escape. Of course, the process and everything is there. Whenever your master is pulling and make you to done the strokes, why you care about Mother Divine? Even if you're a super powerful master yourself, you can't heal it. You're just simple person, a symbol of the love and great meditator - just helping, helping, helping. Even though you're doing helping and amazing service to the globe - you have to, that's the order. Sometimes the testings are coming in your life.

Once if you understand it, it takes time to you, even if you got some strokes. Instead of me doing it, somebody will do it for you - no problem, it is not a big deal. But I had some special deals with Her, that's why it stopped. At Christmas time, many people are going to connect Big Boss, Jesus Christ, so I'm going to different channels. Even Shirdi Sai Baba, he's not linked with any religion - he's a man of True Love. He's a man of complete True Love.

If you read, try to read his life history - such a bliss person like a Jesus Christ. Of course, Jesus Christ, the Big Boss... Generally, wherever I sleep, I sleep in the mandir, in the church, top floor, in the northeast corner. After I wake up, straightly I come to Him. First, I see Him saying, "Good morning." going taking shower, coming back, putting one candle. Simply I say one thing, "Thank you so much for giving such a great life today. Let me to do whatever you want me to do. I'm here - use me. Done" Going down big Baba statue less than one minute - I go touch His feet, "Thank you so much. Bless me. Sometimes I tell this way, sometimes I tell that way. Just if you throw your thought you really want to talk to me, you can reach me. If I didn't reach you, it means still something I need to burn for you. Still I'm burning some things for you. Anybody who entered this Fort with open heart, it's my duty to take care of them - just think on your Swami every night three, four minutes. Try to feel his energy - automatically it comes, automatically helps.

Today where I went, the place, I don't want to leave. What I seen, certain things, I don't want to leave. But do your duties, guys. Do your dharma. If you're responsible in your house, take care, same time never, ever, feel left out from your Swami. The same time, I know you want to speak to me. I also want to speak to you, but don't force your energy. Let it happen whenever it happens. Freely. Who touches one time, Penukonda, Shiva Sai Mandir, and especially who has a power spot, it's done – soul commitment.

You need to charge for these healings. You should not do any healings free. Some dakshina you should take - depends on his open heart and your livelihood. Do it.

If you do it for free, then you're responsible for his negativity. If it's your relative, you can ask them to cook a beautiful food for you or do some seva. Some dakshina you need to receive from giving a healing to make it balance - that's the law. Without balance - no. This is for all healings.

Knowledge is only one abbreviation - life and death. That is the knowledge - life and death. That's it! There's no more knowledge. Once if you know the life, once if you know the death - that's the true knowledge. The remaining knowledge is just a waves.

You have to know how to create, you have to know how to take it - that is the knowledge. Then you're enlightened, then you're really Purna Avatar. Then you're always in the bliss, there is no real death to you, there's no real life to you. Until to that, you need to get struggle in between. You're just a ball between life and death. Until you understand that, you know what I'm saying, so that understanding to this program - you'll know it, by grace of Baba.

Nowadays I've seen in Europe, America, Japan and Singapore - the different countries there's a lot of healers. They're giving healings, but they don't know how to decharge it. Like you keep drinking the water but you're not going to toilet - decharging needs to be happening.

You're giving the high energy, some energy you'll receive from them too - that you need to find a way how to release it back again in the nature. You put your hand in the rose flowers, after certain time later your hand also has rose smell. Every full moon, even in your normal livelihood, we receive some energy, and same time, we receive some negative energy in our body too. We need some energy transmission in our life - we need to decharge in our life.

The real truthful thing is, when you are able to see whatever the normal people are not seeing. Whatever, with your eyes, whatever you're seeing when you close your eyes, when you open your third-eye, when you're able to see with your inner consciousness the inner huge energy, when you see in yourself, "Hey, the divine energy is working in me." That is the truthful. That is the truth. It is the reality of your hard work. That is, the symptoms of your hard work."

It's the coming days in the globe, the power spot is Penukonda, the secret Fort of Krishna Devaraya, the Emperorism of the secret who ruled as Emperor of Hampi - that same guy is here. He did amazing stuff here and he created that beautiful Badava lingam in Hampi, the big Shiva lingam. The amazing process of hundreds of saints, perfect supernatural saints, they practiced, again they came here, and they did their sadhana and they taught couple thousand students in the mountain, and they established that.

This area, Mother Earth, is natural born high frequency energy. You can't see this kind of vibrations anywhere in the world, this earth. I'm not exaggerating it. You will know it and one day you'll hear it - several thousands of people in Penukonda, everyday doing meditation and having darshan. It's like a second Shirdi, and a second Tirupati. It's not my statement, it's the Divine Statement - I'm also an instrument under the Mother.

Try to work union. Try to protect Swami's name. Try to go in a good way. Nobody's not... Like your friends, like a one person dominating on you, you're dominating on another person, another person dominating - don't go like that. You understand? Try to be friendly to understanding. When you do that, that really makes me so, so happy!

Otherwise, if you're doing like a crazy stuff, like fighting each other, "I'm the big healer, you have to follow me. I'm the very closest friend to Swami, you have to follow me. Oh, Swami is mine. Swami comes to my home. Swami lives with me." Bullshit. One crazy word I'm using. I can take gun and one trigger. *Everybody is equal*, especially in the working! Everybody's a good partners. Try to cooperate each others, love each others, help each others, like a union - spread the truth, spread the prayers, and meditation in a good way."

But one day this Fort, Penukonda Fort, it will wake up the whole globe. Something is interesting here. Have a look. Then millions of... any spiritual student in the globe, they'll show their interest to knowing, in the world, this information. It's a very simple, same time, it's very interesting.

We can change the planet through the love. Can change the planet through the forgiveness. But we have to, have to stand for the truth and love with the determination heart. If you don't have the determination heart, you will lose it. No matter how much you're carrying true love, if you don't have the determination heart, you'll lose it. You need to stand until your last breath for the truth and determination heart. You have to stand - do or die. Then only we can succeed. Then only we can get some fragrance in the planet.

It's a simple thing wife and husband, bad fortune coming in your life and making your life miserable. The God... It's not the God, it's you - what you released. Its waiting and again its coming back. Whatever you done, its keep coming back, keep coming back.

Even from now, even its not too late. Once if you're aware that, be on the strong on your duty. No matter how much you're facing, difficulties, focus on your duties, determine, find a good master, whoever you like it, take a prayer, sit, meditate - don't lose your inspiration.

God always loves you what you done it - He's really loving nature, He's a forgiving nature, He likes everybody - equally. Do you know what I'm saying? He likes everybody. You're innocent, okay you done it, you know now, you realized it, okay don't repeat that. If one time you repeat, okay make it very strong - don't go again!

**Student:** Swami, what happens when people die?

**Swami:** The burial grounds - that is the holy place to find the supernatural energy. The God has to come, and He has to take care from there to take them to the heaven. So, let's go there - that's the gateway the entrance to the heaven.

Different religions tells differently. The angels will come to the ghat, or the burial ground, they bring the soul. In Indian religion there's certain religion there, they talks, sorry for a little side track, but they talks - once if they carry the dead body, they buried it, all the family members crying and weeping and putting the flowers. Once they leave from the dead body, then the angels started to come, "Ok, now all your attachments - your friends, your family members are gone, you're alone, now we are ready to take you to heaven."

The angels will come, they'll bring you - they'll go. That's one type of tradition says, but it's like a similar - in the same burial ground the angels... angels means, always wherever the Shiva is there, the angels is automatically around there.

One day we have to drop the body - that's true. Everyday whenever we spent it, it's gone. It means were walking to the final destiny to drop the body. We're losing your lifespan calendar, day-by-day, drop-by-drop you're losing it.

But the human life is the most boon, gift, to come on Earth to find the God, to find the reality to who you are. It is the best life coming as a human and also, same time, having the terrible blocks and easily getting injured - the life is also human. And enjoying, same thing, human - everything is human. Do you know what I'm saying? Hello!

Once you see a lady or a man, once you see each other, it's a physical mind attraction. Same thing whenever you took a mantra, a prayer or look at a master's picture - something is pulling you. Once the divine energy starts pulling you, even if you want to escape it, you cannot. You cannot!

Like a tiger caught the flesh of meat - tiger won't release the meat. Like the master, once he got you, once you caught the master, like that's your duty first part. The master is a kind of cat, like a cat taking the babies, like each one, simply washing it. It won't believe to leave the babies in one place. It keeps watching them.

Second part, the master is a monkey. Even the monkey is jumping from one branch to another branch, the small baby monkey is catching the mother, holding it. The mother keeps walking and jumping. It won't care if the baby keeps falling off - the monkey keeps jumping.

The first part the master is taking care of you like a cat. The second part he turns as a monkey. That's your responsibility to get him. He's really jumping one branch to another branch. You need to be strong enough. If you start to feel, "Ok, he has to take care of me like a cat. No! My life with Baba, He's driving me sometimes unbelievably crazy - simply accepting it, "Do it, whatever you want." But same time I got well protected, super well protected. But even though He's jumping, He's protecting me, He's not like a cat. So, you need to fall in love. You need to know some divine energy is taking care of you.

You seen in the photographs, early morning, the really early morning they're wake-up and in front of river going and doing their meditations. That's really, they are - they are. They want to experience it. Once if you taste that nectar you don't want to leave it, you don't want to give up. You really want to keep develop it, keep develop it, keep develop it...

After you really developed it, then any person comes to you, then the supernatural mechanism you will understand. For example, his soul is super weak, he's stuck somewhere with the terrible blocks. Put your sankalpam no matter what he's having, crazy blocks. Use your third-eye power, lift him up. Whatever he requires, make him lift it then you can start to giving the healings, initiations with some prayers. Do you understand?

It takes a few hours to explain about taking the Five Elements, like taking a big course. Course? Course, yeah. It's like you can get it, contact somebody, but how it effects? For example, there is an egg. The hen hatching, you know hatching? Your English is little tough, my English is also tough. The hen is doing its own process, it is producing some heat to the egg and making it covering it. After certain days later, then started to small chicken is coming out. In the beginning, like kids, they don't know about the small chicken will come out from the egg. If you told it, "Okay, the small chicken will come out from this egg, from there, if the hen did the process." What the hen really doing the process there? And what is really happening in the mechanism there, and it's coming out. Do you know what I am saying?

The same thing in our body. You're sucking the energy, you're receiving step-by-step, drop-by-drop, drop-by-drop. At certain moment the doors will started to open it - you will started to feel such a great bliss. You start to feel such a great fragrance, satchitananda, chinmayananda...

It's quite interesting, the different Masters, different gurus, different philosophies, different belief systems - so confusing. Even to me to talk about it, I hate it. I'm not against any religion, any tradition, not against to any Master. You're here, you don't know how long you'll be here, so try to see the fragrance of yourself. You have to experience as much as you can, then come out, then stay in the reality. Two plus two is four. Five minus one is four. One plus three is four. But with some Masters - two plus two is four - that's it. They didn't trust anything, just two plus two is four. When will the belief systems change? And what we have to believe, and what we have to not believe - that's a big confusion. What is the magic, what is the miracle - it's a big confusion!

I'm giving a puzzle. Tomorrow you have to give the answer to me. The miracle is, I need a ghee. I'm giving a cow, and you can take the huge milk out from the cow. Without taking the milk out, I want ghee from the cow. How is it possible? *That is spirituality.* Taking the milk out, boiling it, taking the yogurt out, take the butter out then boil it and getting the ghee - those are all the processes. In the ancient days, all Masters, all gurus, they taught that way. That's natural to everybody. Without taking the milk out, the ghee is hidden in the cow - how to take that?

Win at least one good, true friend. Maybe you have a lot of fear. I know every person have personal life, I agree, shadow, personal life. The same time easily you can identify that person, they are really understandable or not. Yes - chtttt - get it. Get it! No matter what they are for you, they want to comfort you, they know how to handle you and take care you in any circumstance - in happy mood, in difficulties mood, yes, they are with you.

Whenever there is a lot of water in the pond, a lot of frogs will reach. Once the water evaporates, no more frogs. Like the friends, neighbors, relatives, these are all nonsense. They comes if you don't have anything in your life, if you are really in the difficulties they will stand for you - that is the person. That is the? Person you can rely. "Yes, I am with you. Don't worry. Let's go. Let's go. I will walk. I will stay, do or die, yes." Not in the words - to see in the actions - that is important. That is the way to test it. That is the way to test.

My Dear Divine Souls, illusions are natural. No need to be nervous about that. Let it come. It's clouds, it's not permanent. In front of the sun the clouds is temporary. The hurtles is natural, especially who jumped in the spiritual practices.

You're researching not for an ordinary formula - you're researching for the Almighty. You want to know God, you want to know who you are, you want to know where you came from, you want to know where you're going, you want to know what is between life and death - the creation. It's not the ordinary research - it's a little difficult to find out who you are. I'll give a technique. Try to find out who is with you. You know what I'm saying? Who is with you?

Look, once if you open your heart for the truth, Satya, Dharma, Shanthi, Prema, it will be with you. It will support you. It brings you to the Almighty. First catch either one, be truthful – Satya, or be a fair judge – Dharma, or be Shanti - whatever the anger, whatever the blocks, be quiet and calm or be accepting whatever it is. Be a loving person - Prema. First take one in your hand, practice that, the remaining things automatically will come to you, automatically it will come to you.

Swami's going little hard time. I'm going to deliver five Atma Lingams this year. Actually, I thought of nine, but I came down to five to give to the different countries' people.

The five is like the five elements, very supernatural powerful. And many months back I drank the mercury, and before five lingams, I owe to one beautiful soul one mercury lingam. In these two or three days I have to deliver that. The point here, the body is really shaking, of course it's like the same a pregnant woman delivering - the pain and suffering is natural.

Without the pain and suffering I can't produce any divinity - the suffering has to pay the bill to the universe for everybody. One day those Atma Lingams will show that capacity in the world - the top healing objects. But it will show, it will play its own play, beautiful character, as a powerful object in the world.

Ok, you did ten years spirituality, what did you really see? After you saw it, what you learned from that? After you learned it, how much you're teaching to the world - that's important. Even able to see that, that moments have to come in your life... The moments only come, the big chance comes once if you open your heart to the process, pure dedicated to the divinity.

The energy will do for you or the energy will make you to do it. That's the big step between the Master and you. The Master is always ready for you, but you have to think deeperly in your heart how much you're ready for the knowledge. It doesn't matter which religion you belong to - this is the religion for pure light, pure love. Knowledge is knowledge, we have to surrender to the knowledge

Telling truth or lies needs special talent. If you want to tell whatever is in your heart, even some people who carry a lot of happiness, they're not expressing the pain, and some carrying the pain, holding the happiness - not showing it but feeling it, hiding it - showing Stitha Pregnatatha stage.

Pain is pain... Once we lose one pain, another pain wants to attack. How far can you run? Pain is a big disease. Make it as a sport, as a fun to see how it's playing on you, then you'll win it. Of course, a little harder painful needs special talent. It comes how much you suck the inner peace.

So, the Kandhana Yoga and the Dhoti Yoga, what the Baba demonstrated, all the miracles, let's come to the point - the stages.

In your life - open your heart, open your third-eye to the guru, open your soul to the guru, at least you can experience it. You don't need to demonstrate in the world. You want to be as a powerful person in the planet, let it enjoy that fragrance, the systems. You know what I'm saying? But don't starve for it. You know starving? Don't get like you really want it, want it, want it - that's kind of nightmare. I know the Baba Datta energy - if I really like something, I will lose that. I'm serious...

My Dear Divine Souls, Satya, Dharma, Shanti, Prema is required. Nowadays the Mother's illusions you're seeing it. There are many big hospitals taking care of the physical pain, physical sicknesses, but ninety-nine percent of the globe is carrying the depression, heartbroken, unhappiness, unworthiness, pain, sadness. They're really lost. They're waking up eating, drinking, sleeping... making money, eating, drinking, sleeping... eating, drinking, sleeping. Wake up! Wake up!

We don't want you... don't want a normal simple life until you know who you are! What is the supernatural spirituality? What is the greatness of supernatural spirituality? What is the secrecy hidden in the nature? What is the secrecy of the consciousness? What is the secrecy of the avadhut consciousness? What is the birth? What is the death? Where is the beginning, where is the ending - you need to learn *that*, you have to learn *that*. In order to learn *that*, you need to kill your ego, and you need to stop your suspecting mind, and 'monkey mind,' "I did this. I created this. I'm the great." Stop that! Try to be humble. That is the Datta and avadhut will like it. There is no *you*. Even though you're a hero, if you don't have the divine grace on you - you're a zero. So, you need to learn that guys - life is short, make it sweet.

Swami: If you're not trying it, how come the guide will can help you? How long he can help you if you have the panic? The number one who will can command the Kala Chakra - who don't have the fear - a fear of the death, a fear of failure, a fear, fear, fear, fear, fear, fear...

When your consciousness level, heart level, mind level, and soul level, "No fear - I'm fine, ready to go whatever it is." Yes, the victory is with you. Victory is with you. But whenever you're handling a crazy fear, even though it's dangerous, but you have to be really talented (to) take the right guidance, right map. Right guidance is the most important, very most important, the guidance, without concentration, the meditation is a waste.

ॐ

*April 13*

In the Kala Chakra you have to decide the time, the time should not decide you. Another golden point - you need to command on the clock, the clock should not command on you. If you gave up to the clock, "Let it happen whenever it's going to be, happen." It might take one hundred years, two hundred years, five hundred years, one thousand years - your lifetime, maybe it can happen, maybe it cannot be happen.

Before you're going to do it, don't misunderstand here... it's art to make it Mahamaya to divert it. To diversion is in your consciousness, in your mind, your heart, your soul – everything is in one side. In somewhere, some point, you're in the different side - that only you know it. Next minute what I'm going to do it, I knew it, but I won't express it. If I'm expressing certain things, I'll implement it, but all of sudden I turn around, I hit it here, make this thing to be done.

Without their blessing it's impossible I'm sitting here today with you guys to talk. It's only with their permission today I'm here. Whatever it is, we'll see... There is no law fire has to burn, water needs to liquid, air needs to be like pleasant, sky is the limit, earth has only this type of limit - no law, hun-un. Excuse me. Everything is in you. You are the five elements but identify that five element and implement that five elements in a proper time, proper way. Yes, your target will be fulfilled. **Student:** If the consciousness is always right and the feelings are not right, why should we trust the feelings at all?

**Swami:** Research. How much you're maintaining your silence? How much you're dissecting your feelings and your consciousness layer-by-layer? You know dissecting? Put it on a slide, take the microscope - watch it, see it. What is the shape it really looks? I'm serious. You can see it. Once if you know how to see that, every feeling, every action of your life is a bliss, it's the bliss.

Learning the knowledge, yes, no problem, you can learn a lot of knowledge anytime. To investigate, to research yourself - that is the thrilling! Somebody says, "I have a fear!" Fear is a branch. What is the real root for that fear? Fear is a problem, good. What is the root?

Next year I'm personally certifying a lot of students with my signature, accepting they're a part of great teachers, great gurus in this globe. Lot of students deserve it, and they've been through a lot of experiences, they learned a lot of knowledge. From the next year I'm sending a lot of people to the globe to show your abilities, so don't think you're going to stay here for a long time for relaxation - rest is only after death. You have to work, work, work to help as much as you can in your life - that's the number one mission, your Swami's message.

In the Kali Yuga, we don't need to tell about complete violence. Even though you don't want, in the cosmic energy if you want to find the truth, if you're researching the truth, this vibrations will attach to your soul. The negativity won't attach to you. The simple method is to ignore it, asking the protection circles around you to the Guru Parampara - it will automatically take care.

Very shortly this Penukonda will get recognized whole worldwide. It's the Big Boss power spot. It's coming very shortly, and I'll make it prove. The world will recognize it. It's a great blessing to the world the coming days. The duties still I have to take care. I'm trying my maximum best, but the illusions still play. But I have one hundred percent confidence I'm going to win that. Few people can understand, few people cannot believe it. Very soon you'll recognize that, the truth.

ॐ

*April 21*

Maybe you have a little confusion and doubt on yourself. "How can I recognize, Swami, my soul is enough charged, I got enough blessed?" Can you see the electricity going in the wire? Can you see in the coconut the water is going inside? Can you see in the egg inside how the chicken is happening?

Always the inner mechanism is keeping on running but you have to accept to your soul whatever the Almighty wants to prepare you, whenever it's happening. Of course, you'll face a lot of headaches and troubles. Even after you reach a lot of abilities, Satan energy always wants to attack you - it will disturb. Whoever they take as a challenge, they'll achieve their goal. Of course, Jesus, he also went through a lot of sufferings. He doesn't need to with his abilities, he can survive from that but simply he accepted it.

ॐ

*April 22*

In this Yuga, untruth is on three legs, truth is on one leg - hardly it can walk, simply standing... So, it's very hard to understand the world and the human beings and the energy too. In Satya Yuga, everything is Brahma Consciousness - there's no incarnation of any God. In Treta Yuga there is a Rama. The Rama is also not one hundred percent fair. He's not fair at the time... Satya Yuga is four legs - Treta Yuga is three legs. If he's a God, why can't he sit under a tree if somebody kidnapped his wife Sita, to see in his third-eye his vision, to see where Sita is in so-and-so place? You know what I'm saying?

It means, whoever is born in a human body, the suffering is natural. You're under the net of the Mahamaya illusion. It has to run, but after it runs, you'll know the inner truth why it happened. Every person has to make a question mark in your heart, "Why this testing came in my life? What is the inner meaning there?" Every person is carrying a lot of unbelievable abilities. It's only possible through your inner calmness, deeper inner silence then you can recognize step-by-step way of charging your soul.

Shortcut in sense of, it doesn't matter how much you're going through, you can win through the love more than the sword power. Sword only can kill one or two, three, four, five persons.

Mahatma Gandhi took care in all angles through peace. Peace, once you develop that, is unbelievable nectar. To developing peace in your heart is not a joke. Mahatma Gandhi brought freedom to the Indian country. Every Indian currency, each Indian coin has Mahatma Gandhi's picture there. Peace has that much power. Peace will come through the love. Swami Kaleshwar created a new Yuga - Sai Yuga, so I have to give the new message to the world, the accurate message. I'm so sorry, four Yugas is over in Her hands. For sure She's playing on me too, very shortly. I know that. I gave permission to Her, "Ok, play."

That's why I'm putting the work, to giving little advance remedies. I know the remedies but in my personal life I figured out a lot. Let's say, like little, small Maharshi Vishvamitra - finding the ways, creating something new like a Gayatri mantra. To my life personally, whatever happens to me - no problem, I'm happy, 'White flag.' But certain things has to come up, it's the time. It's the time in this planet - by the grace of Her blessing I will do it!

Millions of years the Kala Chakra is keep running - billions of souls is coming and going. How many people is really recognizing what is the real Truth, Satya? "Ok Swami, you do have the, some palm leafs." Many people have the, some palm leafs. *Bible* says one thing, *Koran* says one thing, *Bhagavad Gita* says something, one great philosopher says something, but where is ultimate final the Truth?

Truth is nothing but to know the clarity, the awareness of your consciousness. Don't misunderstand here. The awareness... awareness is different, and consciousness is different. This, Maya loka, to win it you really need a knowledge. Knowledge is nothing but a boat. A boat you can drive yourself, or a professional teacher, a Master can guide you in a proper way and he can make you to reach your destiny. "Swami, where is my destiny?" Another question. Destiny is nothing but completely dissolving in the consciousness. Once you dissolved in the consciousness - that is the final merging, not with Mother, not with Father - beyond them.

ॐ

*April 28*

The time started - the energy is going, started to hitting it. Please, dissolve in your souls systematically and very carefully. Don't suck somebody's poison in your hearts, their own craziness - number one danger. The Mahamaya, there is a big chance, can hit you through somebody. It is their stuff their talking, but it is affecting on you. It is their face in the mirror - it is not your face in the mirror.

God is like a big mirror, whatever your face - it will show back to you same. If they describe beautifully - it is beautiful. If they describe horribly - it is horrible. If you learn in a horrible way - it will be horrible, you will go in a horrible way, it will turn as a horrible. You should go through both, understand, get it. But you have to stand in a positive, pure love, pure divine, it is most important, same time, you have to understand both sides.

**Student:** Swami, if I have Mother darshan, how much interest does She have for a student to fulfill their work in the world?

**Swami:** Mother Divine will decide, and my soul energy will decide. Even if you want to do much, if I don't want, you can't do it. You will be in the bliss, but if I didn't feel that much comfortable... be in bliss - that's my final message. Even if they don't want to do it, if I want to make him to do it, they will do it!

*April 30*

After you feel it, some deep love from somebody, somebody helped you, something you received, some sweetness, something you received, something amazing what you really expected. Then generally the heart started to open. Then how long the heart is open is a big question mark. You know what I'm saying?

For example, you're so thirsty. Just you walked from the desert, you are in the middle of desert. A person is going on the camel. He sees you. You ran out for your water, there's not water, you're really starving for the water. A person gave you a bottle of pure, cool water. You drank it. At the time, the tears start coming from your eyes.

Is really the tears coming from the eyes, or is it coming from the heart? But what we're seeing is on the surface. What is really in that, in you, it means the heart chakra is starting to opening, and its sucking high, high, high positive feelings on you.

At the time your vibrations from your body is incredible, incredible high energy. At the time, the best time you can heal, that's the type of, it's called, that's the time you can really give amazing energy to somebody.

Why I'm talking that? The human hearts in the nature... actually any souls, any hearts, once it started to open, when it's melting at the time, the melting stage, it will produce almost all one, two, three arrows in you. Almost produce three arrows - that energy in you. You're not seeing the Mother Divine - you're seeing the Mother Divine in their hearts in what they're giving you.

I told you from my personal life, even though I am so unbelievably dead tired, suddenly I have to go three hundred miles to take care one person who was in the hospital. My body doesn't accept to go, I'm so unbelievable tired but I'm doing it.

I never feel, "Oh, maybe I'm doing this processes, that's why this negativity is coming and bothering me, disturbing me, driving me crazy!" This world is this world... This world is this world... This world is this world!

**Student:** Swami, I think you have a good ability to talk to Mother Divine. What's your secret?

**Swami:** Who told you? Me and Her, we have a contract, certain things. We have certain deals.

**Student:** No really! What is your way of talking?

**Swami:** I'm sorry, no. Everybody's swimmers - try to find your own talent way. If you're really super, duper failure, come to my Samadhi - any person, sit, meditate, cry, weep, beg. Then I'll look after.

That day is also coming to many people in the future. You not only here, even entire in the world - thousands of people who wants to connect me and to Mother Divine, please, "Who comes to my Samadhi with open heart, certain processes, with my soul level, too, I'll help to them. This is my word! It's time to help the world!

One day, you'll recognize, "Hey, Swami is absolutely right. He's absolutely right person." The religions is different, the language is different, but the language of the heart is the same. My language is heart language, the love, simple five elements, the creation religion - that's it. I don't belong to any religion to be honest. I belong to the religion of the truth. That's it.

In the universe, the highest desire soul is the human being. That's why we are carrying unbelievable karmas in this planet. The birds can see the angels, the animals can see the angels, the fish can see the angels - except the human beings. The wild animals, even the tiger is a terrible, powerful, terror animal. Mother Divine chose that animal and She's traveling on that. It has only one desire - whenever it has hunger it will eat. Whenever it has the perfect combination, it wants to go with that, the less, less, less desire. Same time, the human life is unbelievable gift and boon, same time it is Mahamaya Loka.

We came in Mahamaya Loka. It means, once if we understand certain high abilities, then you are a creator - you can do some amazing stuff. The animals cannot do it, it will do it certain range. The nature will listen the prayers of the birds, the prayers of the whatever it is in the nature, but once if we started to pray for certain prayers, desires, if the nature is listening our desires and making it happen - then we are really connected. The real desires we are asking. Not for money, not for successful in the business life, whatever it is.

## May 5

Many people have seen amazing things. I don't think they really understood the purpose. Very few people they understood. Once if they understood the purpose, then you can understand who is with you. Once if you can understand who is with you, that soul, it's a kind of mirror. You bought a mirror, a mirror is with you, you can see in the mirror. It's a depth point here - you can see yourself in that mirror. Without mirror you can't see generally, isn't it?

A Master is necessary to guide you to know who you are. It should be the inner master. Every person is carrying in your inner self the great master. But it's a little hard to find out inside if your mind is your master, or your heart is your master, or your soul is master - mind is always monkey, bluzzy, there is no clarity.

But some clarity picture is in front of you to showing amazing thing. Why can't you use that picture as a mirror to see about yourself. Why can't you ask? When you're asking, you should be super clarity and clever - get it done. Once if you view the mirror in a beautiful way, then you can make a picture about yourself, "Ok, this is, I am." Then you can start to research the inner in you.

**Student:** What is Enlightenment?

**Swami:** Who completely removes their desires, having control on their mind thoughts, that person if he can sit under the tree, he's completely... When he is enjoying that energy, when he's in the deep trance, then the soul is talking to him - that's called Enlightenment, soul conversation talking the reality of the cosmic energy. He's not talking with the mind, he's talking with the soul. That's called Enlightenment Stage.

It means every soul, all the souls, came from the God. The Master is recognizing the student's soul, "Oh, he's mine. I'm waiting for you, boy, from long time. Now you are here!" It means, without the student's notice, he is talking to his soul. Even one person when he's sleeping, the real Master, he can talk to that person's soul - in the sleeping body he can touch.

Somebody who really can stand there, "Hello. Don't worry, I'm with you. Let's walk, we'll see, no matter what I'm with you." That person is real true friend. That person? Is real, true friend, true person. That type of truthful, royal and loyal friendship, who really cares about you, to have that - it's a boon, it's a gift, it's a gift.

Today you are here as a family. Here, you can share what is your problems, solve it, making a good communication - no ego problems. You no need to talk about your personal mantras and personal your processes. Really caring, some moral support, helping nature, begin with you're here, in your own Sai Community. Sai? Community.

Some people like lemonish, some people like spicy, some people like bitter, finally is the sweetness - the Reality. What more to know? That's it. Like with a guitar you can produce thousands of music depending on if you are using it. If you are not using it, you put it in the corner - it will get spoiled. Like that, you are a kind of guitar. You can make thousands of experiences, but you have to use your time, your energy, your channels. If you are not using it in a proper way, it gets wasted. You hurt it, it is not recognized.

Every minute, every hour you need to be under research understanding the consciousness. It's a kind of hypnotizing yourself but it's not hypnotizing. You're trying to understand the creation, the awareness of the creative. If you are not even thinking on it, you are not using your consciousness on that way - you can't get it. You really need to focus. You're working in the garden, good. At the same time, you are working in the garden - you have to know, you have to find out. You know what I am saying?

The human beings from 2000 onwards, are going to find unbelievable miraculous things in the universe. Its high vibrations enable people to really suck the knowledge. They can bring the vibrations of the knowledge and rapidly spread it. Same time, highest negativity is also taking off.

Negativity is also going to be hitting the people a lot - a lot of disasters, a lot of negativity. Both of these are going to take off like this. They are creating unbelievable miracles in the universe from the year 2000. People can bring back the souls to dead bodies. It's going to be happening in the future.

Even though he's a big drug addict, that's ok, give the first priority - don't run away from him. Stand for the love, stand for the relationship, stand for the attachment, stand for the affection, then through your affection - fight!

Bring your energy high then change him in your way. That is a good exercise program in your life to change the world. Through beating, through screaming, through putting him in the hospital, like giving him punishments, if you started to do, you are a big demon. We can't change the world with punishments! You can give only punishment to our body - not to our heart, not to our mind, not to our soul.

Like that, little... some stuff with the energy. Many, many things Swami did in his life, but everybody kept very privately, and many people got very huge benefits. But I didn't give permission them, not yet, they can show their abilities in the universe.

They're trying, many people, but still they're student, still they're students. Until to their wings completely, not finished not to come, it's a little too dangers to fly. So just I'm making them, ok let the wings can grow. When the wings is ready, you can fly wherever you want, you can handle any types of energy, anything very easily because of new millennium is completely, is in human being controls.

Because of, the love means Jesus - Jesus means love. Don't expect everybody here, "Ok, we'll go to Swami Kaleshwar. If we learn this mantra and that mantra, and that mantra, we can get the power. We can become big healer." No way! You have to improve your love, purity, divinity, big surrendering nature to the God, to understanding between you and your family members and your friends. Then only, you can successful entire your life.

Powers is not in your pocket. We can make the money. We can make the name and fame. We can get the beautiful husband. We can get the beautiful wife. But we can't get the God without love. There is no any power in you except the God. If you have the power, if you feel like that way, it means it's only coming from God - it's not coming from you!

ॐ

*May 14*

My message today - don't feel you have the problems, don't feel you are so happy, like, "I got money, I got a beautiful wife, I have children." Don't feel like yourself egoism. It's a big drama, it's a God drama.

One day if you're happy, next day there is unhappy. Even though for one year you are happy, next again for one month, again there is unhappy. It's a cycle, it's a chain - just you ignore it. Do your dharma. Do your process.

Your process is to find the God, to connect the God. Nobody have no idea when we're going to die, how long we are going to stay on His planet. We can enjoy as much as we can when we are here - that is temporary enjoyments. The real enjoyment, if you connected one time to the cosmic, to the God energy, God power - that is the real happiness. Drop-by-drop drinking the heaven. Drop-by-drop drinking like honey, tasting the honey.

It's already there. They also wrote helicopter, they wrote about flights, they wrote about rockets - everything they wrote in the *Vedas*.

They wrote positive, they wrote the disasters. What type of disasters is coming, they predicted like nine hundred years a thousand years back. If we started to read that, hey, amazing people they are. They're sitting on the simple mat. They're flying with the mat... they are flying with the mat.

When the reflect is coming from the nature, very deep meanings what I'm speaking, the reflect is coming from the nature, the blessings will come from the nature to make you to climb to the God. You know what I'm saying? That is the karma. Our activities, our reactions, our actions, our character, our mentality, our ability, our humanity, our divinity - these are all coming from Karma. And also, we can see another meaning about that, similar meaning.

Karma means big illusion - good karma, bad karma. Bad karma calls – illusion. Good karma called - it's a boon. Everybody's saying, "It's karma." What does it mean by karma? These are all things... Suppose our mind thoughts is very angry, crazy, then we'll do something, something reaction will come. Then we'll say, "It's Karma." It's not Karma - it's illusion. When the illusion step came our soul, soul means our energy, going down - again illusion coming - going down, again illusions coming - going down, again illusions coming - going down.

Once you believe, 'Aham Brahmasmi' God is everywhere, He is existing everywhere. He's in you, He is around you, He's all the time with you as a shadow. He knows what you're doing it, all your karmas, all your actions is recording, happening in you - the soul is recording. One day again, it will play back. If you do the good karma in this hand, immediately the results also a good karma will come another hand. If you done the bad karma, you no need to come for next lifetime unnecessarily, the bad will happen immediately too. If you hurted somebody, again you're going to be hurted too. You cheated somebody - you'll be cheated.

There's no way you can escape it. Even if you asked the forgiveness, forgiveness, forgiveness - until openly heartedly and yes, forgived it, and you're not repeating it, and just you rectified it in a beautiful way, then there is a chance you can escape it. Until to then, the karmic law, it will implement on you to face it, all this kind of funny blocks fragrances. The fragrance of the punches - good punch, bad punch, good punch, bad punch. So, don't give a chance my, Divine Souls, to unnecessarily to your karmas, your actions. The majority - control your ego. Control? Your ego!

Manasarova. If you go to Nepal to the Manasarova and Tibet, China border, there is one river there, and if you enter there, you know very well unbelievable saints, unbelievable. They're not attached to anything in the planet, make sure there is tons of people not attached to anything in this planet. They're only attached to the boss Shiva, purely concentrated.

They sacrifice their life, whatever it is, "Fine. If you want to make me die, ok die. Make me sick, ok sick." They're not worrying about powers, they're not worrying about anything - just they want the consciousness to be very clear out - who are you, where you came from, what is running in your life, where are you going out – the cycle.

Many people is coming in your life, they're going out, coming and going out, coming and going out... What is this illusions? What is this clouds? Need to figure out. Who is Swami Kaleshwar? He came out of the blue and he entered in London program. Everybody's discussing, what's going on - that you need to figure out.

Number one - Shiva Lingams carried from one master to another master. If you worship any Shiva Lingam more than twelve years, one Shiva Lingam - putting water, milk... automatically that Shiva Lingam started to become power object - high magnetic vibrations power - twelve years. If you really worship one hundred-one years, then it's the most powerful. If you worship like five hundred years - one hundred years, one hundred years, one hundred years, one hundred, one hundred years, like five times like in Hampi, the Badava Lingam, then you can't beat up with that power object, the Shiva Lingams.

If it's five hundred years old Shiva lingam, passing one saint to another saint, that saint to another saint, another saint to another saint, another saint to another, another saint to another... if it keeps coming more than five hundred years over, if you have it - just you don't need to do any sadhana to have experience. Just try to open your heart for Shiva, just all your mantras, japas is, 'Om Namashivaya.' That's enough. Then amazing experiences, amazing abilities automatically start to flow through that in you. Then you'll do automatically, it will make you to do the most powerful works if that Shiva lingam is five hundred years old.

If it's one thousand years old, you need to learn, you have to know the Mother Divine channels and the Shiva Shakti channels, and the Womb Process. If you really got trained, then only you can handle that, otherwise, it makes you completely avadhut.

Forget about the religions, please! Religion is not the fragrance. Religion is not the truth. The Creation of truth is real. Humans created religion for their own selfishness. There's no religion at all in the universe, there's only one religion. That is the religion of truth and love. That's it. Power, love, truth, faith, patience, surrendering, worshipping - these are all the fragrances for those who wants to reach certain things.

Without those things, no way, no way. Wherever you go there is a God. You have to reach that stage Aham Brahmasmi - everywhere is God. I am God, you are God. There in the flower there is God. In the dog there is God. In this entire Creation, moving in front of whatever you see, each electron and neutron, everything is completely powered with the God energy. Each molecule is the God energy. That's why the Vedas say, "Aham Brahmasmi."

The way of you look, how you look at the world, the world will look in front of you. First you need to change then you can be, expect, somebody need to be change. Doesn't matter it is a Master, doesn't matter whoever it is, your friends, your wife, whoever it is.

My Dear Divine Souls - win through love. First you be in love, then love will be in you, then you'll turn as a love, then you can create around you the love. If there is no love nectar in you, there is no use for your life. A body-to-body marriage is normal phenomena... A love - immortal...

**Student:** What is the hidden power, and how to access the Maha Mula Sri Chakra at Baba's feet?

**Swami:** It's pure Dattatreya - Brahma, Vishnu, Maheshwara - all three characters in one form. Whenever you had a really right deal, right deal, your life is dedicated to the divine, totally. It's called 'manasa wacha karmana' - Sattva, Tamo, Rajo Gunas - **G.O.D.** - Generator, Operator and Destroyer.

Yes, even if you call, you didn't call - he'll come to you. You need to be totally surrendered. Done. You need to make a right deal, "Yes, I'm here for entire your service to the humanity, the Mother Nature. I will be loyally, and honestly, I'm promising and I'm pledging. Yes, I'll be with you." You do your sadhanas - automatically it picks up that energy. You no need to go for His... You want to know, you want to know, you want to know, you want to see Jesus – He'll come to you. God is always real slave to the real devotee.

Another most important thing - you're living for yourself, and also, you're living for the society. If you're not worrying for the society, there's no difference between you and the animals. When you're really not worrying about somebody, when you're not taking care of somebody's feelings, when you're not respecting somebody's feelings, the divine cannot accept you as a divine student. The divine is nothing but caring.

In a month, for two days, take two hours and go to the old people's home and hospitals. Bring some bread, flowers, medicines, physical service and help them. Receive the love from them. When you go to an old age home every Sunday, take the bread. Then they're really waiting for the next Sunday - you're really coming for them. They automatically cry.

Do you know how thrilling that is? They really care. They're helpless. You're carrying some bread. You're really touching their heart. They're blessing you heartfully - that blessing is very powerful than Mother. That blessing is very powerful than any Master on the planet. I'm very, very serious - you should do that. You have to do that.

What is the content today I'm saying here? Leave the burden to Guru Parampara - don't hold it! Nothing matters. Whatever's happening - let it happen. Let's do whatever the process, no argumentative 'monkey mind.' You feel failure - that failure is given by Him. You feel sick - that is given by Him. You got the money, name and fame - that is given by Him. Everything is the action whatever you're doing - there's a spark playing by His cosmic energy. That's why Shiva, 99.9% all the time he's in the stitha pragnatata stage, with the vibhuti, bhasma sundara, wearing a lot of ash on his body and with the snakes and holding some tiger skin around his body and meditating in the Himalayas in pure silence. That silence, he really wants to hear the enjoyment of the silence.

Whenever you develop the silence, once you have the weapon of the silence in you, you can kill any violence. The violence is nothing but the blocks, whatever is creating in you.

Generally, working with students, that's not my nature... To be very quiet in the caves, under the trees, in the distance pleasantly working and happy. After I promised, He made a very strong commitment there, "Work, work to fulfill His mission." Then I took a few more saints as a strong, souls around me – Shirdi Baba, Paramahansa, Babaji, Ramana Maharshi. These saints helped some.

Of course, we respect all masters, all religions. We respect anybody's philosophy. We're not against anybody. In that philosophy, in that mechanism, in that miracle, in those experiences, in those energy channels, a healing, a miracle is happening. A healing is happening. What is in it?

Your heart automatically opens. You're listening to music through your ears but you're crying - your heart is touched. You're seeing a scenery - a kid is really starving, an old person is really suffering, you want to help but you can't help. Maybe you can help. Without your notice some tears come - that's where the mechanism starts. The love is the mechanism. Through love - fall in love - really caring, worrying, attachment, divine attachment. When you develop that - that's it, majorly you won it.

Who really knows how to play with negative vibrations very easily, only that person is a great master on the planet. Even Jesus Christ, he did amazing miracles. Buddha did amazing information, but Jesus Christ, he was not able to straightly give his techniques to his students' kingdom. That way of giving the techniques, only this century is very, very free.

In coming days, again it's getting tight. This is the time just the door is little bit open - I'm driving my maximum best. I'm taking these tracks extremely fast because the door is a tiny bit open. Once even it closes, it takes lifetimes, lifetimes.

We need to handle the Master in a very sensitive way. He really can solve any of your headaches, but you should not turn as a big headache to the Master with your karmic activities. Whatever you're doing, all your crazy stuff, even though you listened, listened, listened - you are in the family of the Sai Family, all your souls, you're just in the Sai Family on the tree as the birds. There's a huge difference between you and a normal person - don't forget that. You're something special - you connected to the Guru Parampara.

It's important always to remember yourself. Certain things you have to do, you should not do it - that's important. Once you keep remembering your dharma, your life is super happy. Don't starve for 'name and fame.' Don't struggle. Don't fight for the 'name and fame.' Don't fight for success. Try for success, not fight. Once you try it, if He wants to give you, He'll give you. If He doesn't want to give you, He won't give you.

Your dharma is, just ask, open your heart, ask. Try, try, try, try your maximum best, then peacefully relax. The life is nothing but huge satisfaction. Once you develop the satisfaction, it's the bliss.

You feel little stress, pushing it, you feel it like somebody's making you to run, forcing you, but you don't know the time - it goes like that.

It's completely a new paradise. Once you forget everything, just you offer here yourself voluntarily, it's nothing but bliss in all corners - Vaastu, energy levels, fixing systematically to the coming generations of my students, not only your generation, guys, your students' generations, and their students, and their students, and their students - need to have one hundred percent clear success with happiness and successful journey. We don't know about the tomorrow. You can believe anything in the planet except to the time - you cannot trust the clock! Clock is a cobra always around you.

Today is today... Today is today... So, whenever the opportunity comes, utilize it and make sure... One day we have to go, before going try to feel how much you're really satisfied in your life.

Today, in my life, I'm pretty good huge satisfied, but I have one work that I have to do. I hope I'll complete when I'm in this body as soon as possible. Same thing in your life - learn as much as you can the knowledge. Experience as much as you can. Be open hearted as much as you can. Help the society and the globe as much as you can.

No matter what, it's a thousand percent clear statement. You have to make sure to keep your life boundaries as much as you can. To live in a simple way is fine.

If He wants to bless to you a wealthy person, it will come, that wealth, wherever you are. If the luck is coming in your life, it will come to you. If the bad luck wants to flow on you, even though you're hiding and you're sitting in some dark place, the bad luck will come and touch you - you cannot escape that. That is Karmic Sadhanta, karmic principle. But this one, whatever we do action to reactions - that's for sure we have to face it.

If it is happening means the fire element is so low. Once the fire element is very less, it is really driving you crazy, then you have to pick up the Fire Element Mantra to charge as much as you can.

Somebody goes super anxiety, hyper-tense, super panic, air element is super high. At the time, try to chant the Water Element or Earth Element. It's always safe to charging the Fire Element or Earth Element, the first Earth Element. Even you don't have to remember the First Earth Element, chant the, Om Guru Guru Paramaguru. Who is really going in the depression and heartbroken, it's advisable to go Fire Element - keep chanting it, chanting it, chanting it. Within a week, ten days, again, you're normal position.

How that Shiva Lingam really will vibrate... Many people are going underground to the Shiva Cave. You are putting the water on it... You are not putting on Him - you are putting on your soul to wash it. You are not doing ahbishek to the Shiva - you are doing ahbishek to your soul. You are putting the Lotus flowers on the Shiva Lingam, the same thing how much you are really sucking the Cosmic Energy from Him without your noticing it.

Once if you know how to activate that, if you are holding a small little Shiva Lingam, any crystal, if you chant a little while, then if you gave it, it starts vibrating. That small crystal Shiva Lingam is enough to protect one life-time generations. For example, Clint's life, and his generations, five generations, his son and his son and his son... It will keep protecting - that small crystal. You might think, "What is in it? It's a fun, it's a joke." No - it's a Supernatural Cosmic Vibrations is vibrating in it.

Some crazy mistakes, some of your habits, addictions, harming anybody - that's not healthy, again you have to pay with interest. If you harm somebody, if you cheated somebody for your happiness, for your own selfishness, you have to pay back. The Mahamaya is in you, around you, with you as a shadow. It is all the time want to divert you not to recognize the inner consciousness. The inner consciousness is nothing but pure, divine bliss. But, as you personally, no matter what, make yourself strong determination, you personally know yourself how many layers of the illusions you've been through so far, how many waves has disturbed your journey, what major blunder mistakes you've done in your life. Your consciousness knows very clearly that.

At the time you cannot recognize that is the reality. After the damage has happened, then you started to feel guilty, then you're feeling, "Yes, that is a mistake." You no need to feel guilty that's you made the mistakes – that is a part of Her pure leela. Let it happen. You be very open. If any person is coming in your life or walking out from your life, let it be happy. Positive things coming in your life – good. Negative things is coming in your life – good. But your concept agenda - to always to create the happiness, to make somebody happy in your life. It is not that easy job to create the happiness.

Several thousands of the blind people is suffering, having no operations. We fixed a small hospital. It is really small and the doctors, six doctors, round the clock the bus and the car, they're bringing them from their village and they're fixing, their eyes operated, giving the free medicines, bringing them back to their houses. Giving them, providing the right medicines - they are all happy. They're really happy. How we call that? Cataracts operations.

Why I'm saying this? Even though you are doing your spiritual sadhana, once you started to thinking somebody's happiness - doesn't matter which way, a need is there - fulfill it. A need is there - fulfill it! Doesn't matter its spirituality, depression, heartbroken, and with carrying a lot of diseases, mentally retarded people. It's only possible how much sucked the divine, true love in you. As a true love, when you started to thinking on, you tuned in on somebody's life to make them happy, automatically the wheel will go. As much as can - be humble, even to your kids, your husband, your family, your business people, your neighbors... How much humble you are, that much peace of mind you'll get. Whenever you start to get angry - be quiet for two, three minutes. Don't talk! Shut up! Wait! Walk out of your house - just get out from there! **Student:** Where's the limit to the master promising?

**Swami:** Once the master has given the promise, of course it will happen, until you really got clarified, purified...

**Student:** So, every promise you made will happen?

**Swami:** Has to be. Has to be. I understand what you're talking. For example, many people have the concept, "Am I really going to receive the siddhis?" One person I promised, "Yes, you'll get the siddhis." When, which angle, what is the process - I make you to do it... I'm making you to doing one process this way, simultaneously, I'm doing little bijas for you and I completely cancel that process and I enter a different process there. Then it makes you hit it.

To connect the Mother Divine, a manifesting a physical form, a manifesting an illusion there, a manifesting an Atma Lingam from Baba, a manifesting some gems, somebody is dying with cobra bite, and sucking the poison – these are all Divine Illusions. You can't say this is... you can say it's an illusion but if you're really stuck, *that*, it's an illusion, you're thinking in a negative way, it'll stick as a negative way. If you read the Shirdi Baba history, he take care the leprosy person. The whole village kicked him out because of he's doing seva to the leprosy patient. Leprosy? patient. Then finally he healed that leprosy patient. Shirdi Baba is a big powerful doctor, Ayurvedic doctor. Before, he used to give the herbs, later on many people started to coming - only vibhuti, just ash - curing the diseases, then he's turned as Avatar, then he's a Bhagavan, then he's a really, incarnation of Datta - it's very important, very important.

That's why the souls, thousands of years the powerful the masters, they cannot able to come to in front of the society and to share the informations. They're little scared.

Master no need to cheat the student, the students is cheating the masters. I had a lot of experiences - some powerful books I given. I'm traveling, I'm going, again I'm coming back, "Please?" Kept it! Simply they're saying, "I lost it!" Why is that?

Not only like that, after they received certain abilities, certain 'name and fame' they're turning as a completely a business way. **Swami:** To be around suffering, to involve in suffering, receive suffering, recognize the suffering, decharge the suffering, then there is unconditional love.

**Student:** Do we have to go through that suffering ourselves? Is that why you told us, in the past, we have to taste it all, we have to taste the suffering?

**Swami:** Pretty good everybody's suffering in the globe. For example, you went to the Old Age Home. The person cannot walk, cannot talk - he's waiting to die. If you really spend everyday couple three, four hours-time with him, you'll see how much he's really suffering it – suffering, suffering, suffering... But one day you also know you need to go through the same thing. The same thing Buddha, Siddhartha he did it. Jesus' favorite philosophy is Buddha's philosophy, unbelievably favorite! So, to go through that pain, to be around that pain, be involved in that pain, digest in that pain, then decharge that pain, then there's no more pain in there left. There's true love left. That's it. If you cannot go through in it, you don't have the right to make a comment on the love.

Water is water, air is air - there is no taste. Once if you hear the music through your ears, the tears will start. What is happening there? It's nothing but the pure consciousness is melting with your heart. That type of sensitivity you need to learn it and create it - the caring nature. Don't even discuss with somebody, then you might take a nasty decisions - their influence will be on you very crazily.

You are the right judge for yourself. The biggest addiction is many people, they forget their brilliantness and they're always asking somebody's advices, then they'll get addicted to that. They always ignore their talent, then they ask to some of their friends, "Hey, I want to do this work. What is your suggestion?" Whatever the other person, whatever they're giving suggestion, this person is doing their job. It means, he depending on him. How long? How far? Either you lose it or you gain it - do it yourself. First you lost it. Second you lost it. Third you will gain it. Fourth you lost it. Fifth you lost it. Sixth you lost it. Seventh you gain it. Eighth you gain it, then you have your own confidence. I don't care about the body family, I care only about the soul family - that's important, that's immortal. That's the real fragrance. The body family is maximum 50, 80 years the worst. How to develop a belief system to wash skepticism? Skepticism is always the biggest block in spirituality, then unworthiness is another crazy thing, lack of faith on you, on the process, on the Master.

Faith is different - skepticism is different. You keep doubting each step, what activities you're doing. If you keep running like that the rest of your life, where can you really reach the enlightenment or how can you really reach your goal? That's why it's taking spirituality thousands of thousands of years so far. Why not even hundreds of people got real success to become real powerful masters? Just because of these main three blocks.

Having a Soul Mate is the most, most beauty thing. It's very essential. It's very necessary, like you totally, totally, one hundred percent True Love there. True Love there're no any selfishness. There's nothing there, just True Soul Mate. If you have that, your life is pretty good blissed as a human life. If you have the Sadguru in your life, who really guided you to reach your destiny - your life is done.

You need a Guardian Angel. You need a Guardian Angel. But you need to get it. You need to find it. You need to hold it, then it's done. You won't feel stress. You won't feel pain. You won't feel heartbroken. There's no way depression will come. There's no way heartbreak will come. You're totally free - out of everything. And whoever, the students from Swami, and Guru Parampara to send as my Guru Day Message - chanting as much as they can, the Earth Element. If they don't know the Earth Element mantra, at least chant: Om Guru Guru Paramaguru, rakshamam, rakshamam, rakshamam.

This is the time to need to implement the distance healing to the Mother Nature to make it calm down. It is like Mother Nature right now, Her energy is unpredictable right now, very unpredictable which angle she's diverting. Which angle means which country... But try to do as much as you can your love and affection prayers... How many hundreds of thousands of people is homeless right now and what type of panic is they're facing it?

Earth Element or Om Guru Guru Paramaguru is enough. This Fire Element, Earth Element, Water Element, Sky - everything, just it will transfer as much as, the doors opening the vibrations to make it calm down.

Let Her do Her job. Let's do your job. To action, reaction must be there. Without action, there is no reaction. Equal reaction will come, so some are power... like if we are not doing some sankalpam, some prayers sending in the globe, who will take care of this unbelievable crazy vibrations?

Like you chanting it with the power spot is equal to one million people chanting it. That much power you're releasing it. You are a big tower of the high signal.

Last night there are two birds on my front tree. They are so cute. Female bird is kissing the male bird. The male bird is a little egoistic. After few minutes, again the male bird is trying to kiss the female bird. She turned a little away from him. Again, the male bird is a little egoistic. Like it's a big... I am watching, and watching, and watching it until morning. It's so cute. In the beginning I am chanting my meditation prayers - the birds are completely so cute. Until seven a.m. they keep shouting... Love - the really true lovers in the planet are the birds, really true love, crystal clear, unbelievable, true love.

Majority, you see in my dress styles, like in night dresses I keep walking it. Today I am sitting outside of the Mandir. Somebody came in the car - five people. They asked, "Can we talk to Swami?" Then I said, "Why you came to see him? He is such a crazy man! From now you're very peaceful and happy, once you met him you lose your happiness, your freedom - your problems start. He's an unbelievable headache person. He's a virus," I said.

They're blinking their eyes and they're looking at me, "Who is this person?" Then everybody, the security guards, they're watching. Then I gave a little signal to them, "Let them go inside the temple." They came and had darshan of Baba. Then they look at my picture there. They came out, I'm sitting there... They're like... they have no words! "So, we talk next time - go." You can see the beauty there. The reality, the beauty is there.

Sometimes in my office, dazzling garlands and dazzling flowers, unbelievable beautiful smell - jasmine flowers. I entered, and I look at all the garlands and everything - so fragrance. I look at some flowers, even just I look at this flower - this flower it came for me. This flower, I need to touch it and feel the beauty of this flower because of, it born for me. There's a millions of flowers like this, but this flower, especially, it's for me, it came. The flower cannot escape it, I cannot escape it, I have to touch it.

An apple, somewhere in Bangalore, you need to eat tomorrow. That apple is waiting for you there. You cannot stay in Penukonda - that apple will suck you there to make you eat that apple. I'm serious. That apple will suck you there to make it eat it. And each, on rice, your name is written on it. Whatever you're eating it, your name is there – that, you need to enjoy that. You cannot escape it, cannot escape it. That's... that came for you, that fruit is came for you.

It's a Masjid Dwarkamai, Hindu name, but Masjid is the Muslim, that's why he only took the Muslim water. Then he told to Tatya, "Bring a big glass." Then he mixed everybody's water. Then he asked, "Can you divide this water who is the Muslim water, who is the Christian water, who is the Hindu water please? Then I will drink. We're all one. We are a family. We are a family.

You have to understand the knowledge - knowledge will remove your darkness. You have to find the right knowledge. Just talking about love, talking about relationships, that's good, but the knowledge, the real knowledge - that is important.

For example, first I started my basics - Five Elements - na ma shi va ya - earth element, fire, sky, water, air. These five elements are playing on our body - whole our chakras are linked with these five elements. This whole body is made of earth, flesh. We're drinking the water. We have the temperature in our body. If the temperature goes up, we're done. If the temperature goes down, we're out. We're breathing air. If you stop the air, you're done - over. After five minutes, ten minutes later - done, over. Even without your notice, you keep breathing. These five elements you keep balancing it.

Some people, directly, they are in the field in the cultivation. Today I am in the field, I am doing the field work. Fieldwork? Yes, right now I am in the fieldwork. Actually, I don't want to come to this fieldwork, but yes, again next lifetime I have to come. I cannot escape. I told where I am going to born next lifetime. So, Kruta Yuga is over. Treta Yuga is over. Dwarapa Yuga is over. Kali Yuga is over. Now Sai Yuga - Datta Yuga. Sai Yuga means Datta Yuga is entered, is also going very fast.

We are in the climax stage. Until your frequency of your soul to know, recognizing of your reality - Bimba Pratibimba Kriya, I mentioned it - mirrorism, Bimba Pratibimba Kriya - action to reaction. Even with your... even today in your lifetime, you no need to go to the hell. Heaven and hell - everything is here. Whenever you are here on this earth, in this lifetime majority you have to pay your bill here and go back. Good things, bad things whatever you have done. Good things with interest it will come. Bad things with more interest it will come back. I am not giving a fear, it's a reality. It is the? Reality.

The final ultimate - to come out of from the Maya and having enough strength with abilities to walk in your mission and keep continue your journey. Create the peace and heal around you. But the Datta energy... Sometimes, whenever our egoism going up, then He'll give the testings. Your ego, whenever it's going up, He'll give the testings.

Whenever you really surrender, "It's not me, it's you." You're eating a piece of bread, "Thank you, today you offered me this piece of bread." Today you're sleeping, there's no guarantee again you're going to wake up, no guarantee. "Thank you, I'm sleeping." You wake up. "Thank you. Lead my day whatever you like it." Today you helped a few people. "Thank you, you allowed me to help a few people." For every moment, the obedience, the humbleness, the open abundant love, once you carried in you on Him, He is with you.

He cannot touch you. Whatever testings is flowing on you, simply, "Thank you for your testings." There is no another alternative. "Please, I want to get out from this. I want to escape from this."

For temporarily, He might escape you, again it will come back. You understand? Again, it will come but let that chapter finish it.

Ego, you know? What do you mean by ego? "I did it. I created it. I'm the boss. I'm the hero." You're not a hero, without God's help, you're otherwise you're a zero. I told it, many times. Once we born as a human here in the society, until to our last breath we need to lead our life as much as we can, all angles and possibilities with grace of Guru Parampara, and good friends - with unity. Then, only, we can lead our journey very successfully and powerfully. That's it. Without true friends in your life, is a waste of life. Who really care you, you need to have them in your life. Who don't care about you - ten thousand people around you is a waste. Who really care, a simple, a small person - that's enough.

One day Baba and all his students are walking in the street. One goldsmith on the street is boiling the brass metal on the fire coals. Baba asked, "What is that?" "It's brass. I'm boiling it." Baba simply took that molten brass and he drank it, then all students are watching him. Then he cleared their doubts. "I'm drinking soma and I'm also drinking this super, hot brass liquid metal." "You'll die!" But he's simply smiling.

Why I'm saying this, I don't care what Baba does, his personal habits, I don't care your personal habits, only I care how is your behavior in the society, how much you're damaging your health, how much you're responsible in your life - that's only I care.

**Student:** I have a question about qualities like egoism, selfishness, pride, jealousy in an individual person. What is the connection between those qualities in me, or anybody and Mahamaya?

**Swami:** That's Mahamaya in you to destroying. She's not separated - she's in you. That's what I told. Fifty percent of your soul is with you the negativity, giving lot of strange... that's why I told, kindness, who has the kind heart, on the first point I told it, kind heart. Who has the kindness, there's no way to get the jealousy, pride, ego. Who has the love, there's no chance the ego and jealousy will come. You know what I'm saying?

For example, you love your wife so much, or you love your daughter so much. Your daughter has fallen in love with somebody. You can't be jealous, you can't get angry, because the love is huge born there making you stop from all this stuff. So, number one - developing the love is so important. Developing love will come through only when you start forgiving, "Take it easy, so what, who cares - fine." Give the explanation and forgive, forgive, forgive then the love seeds will develop hugely in you. The forgiving also is a huge art, a siddhi - you can gain it.

ॐ

July 30

Why I'm saying this now - we are a family to Bhagavan (Baba). We are a family. He will take care... He will take care. Please try to understand. Be unity - stop the egoism. No, '*you*' I, I did, I did, I did it. No, '*you*' did it! Without divine help, even though you are a hero - you are zero. Even though you are hero, you are zero. You are a zero! If the Divine help is there - you are a hero. Without Divine help - no chance - you are a zero!"

Be, each-others - hold the hands. Whenever one person... Try to be - if a person is in down and he lifted it, again another person is down - you lift him. Try to make it the wheel run fast. Wheel? Run fast - no flat tire, then only the universe, you can make it run.

**Student:** Sand.

**Swami:** You ate it?

**Student:** Yes.

**Swami:** How many seconds later, it changed as a sugar?

**Student:** Don't know, ten seconds.

**Swami:** So, the Earth element can be changeable, that's the concept. What I blessed and given to them, I didn't do it for a magic or fun. Whatever I do, it's to make their hearts open, same time, make the link. That's my theory - to put them in the bliss, not to worry on crazy things for silly things all the time. To giving a supernatural boosting to their soul, to keep carry the abilities forever and ever, for many lifetimes until they reach what I want in their life, and what they want in their life - that's the concept. Even whatever your monkey mind cannot believe, certain things is bleeding, certain things is happening, certain things is happening. I don't care your minds, but I always care your soul, how much you can receive it.

## *August 1*

Learn, learn, learn, learn! Learning is silence, silence is important - inner silence is important. How many people are really happy here? Really touch your heart and say, don't lie. How many people are really happy here, no pain, no problems? Not even one person.

This is the globe. Physical problems we can treat it, but this problem, this takes time. I'm here, I'm your Soul Doctor. I am? Soul Doctor. I know how to take care of your soul. Whenever you need help, just blink your eyes, think on me. My energy is there with you. I'm with you. Who believed in me - no problem, I'm not a God, but I know what is your problem, I know how to take care of it.

The Divine can dominate any type of illusions. Illusion has no guts to touch you when the divine energy is with you. If you know the truth of the divine channels, some prayers, you can protect yourself very strongly.

You cannot trust the time, Kalachakra. You can trust anything in the planet, but Kalachakra is the most, most dangerous - each minute is dangerous. So, you have to handle the 'time' in a proper way in your life. If you're aware of your time, then you're very successful.

ॐ,

## *August 3*

Everything is hidden in this cosmic nature with the vibrations and light. Your soul is nothing but light and vibration. You're sucking the illusion through vibrations. You're discharging all your stuff through the light and all your vibrations. The soul is nothing but vibrations and the light. The vibrations are a kind of electricity.

To develop the vibrations, it's only possible using certain perfect prayers, perfect way of chanting the prayers. Who knows the Vishwamitra, on the day he found the Gayatri Mantra, Om Bhur bhuvah suvaha, tat savitur varenyam... What's happening when you're chanting it? You're releasing... you're discharging amazing negativity, like a cobra, every month, two months, three months, like a skin, it's going out, releasing it - the peace, the silence, as much as you receive.

ॐ

## *August 4*

Never, ever, use for negativity for negative purpose. You understand? You gain some energy, you have some abilities, never spell unnecessarily, never hurt someone unnecessarily - it will again come back to you. With intentionally, even without unintentionally, you teased, you tortured somebody, you have to, you will receive back. You created a pain in somebody's heart, believe me, with interest your receiving back that.

You stole somebody's money, you have to lose, you will lose it with interest. You feel you are heartbroken, your girlfriend, somebody, did a heartbroken to you - you have no right to blame on her. You think yourself how many heart-brokens already you created in your life, to how many people you done it. That you're facing, paying back, then be satisfied with that - asking forgiving, just lead the life in a smooth way.

ॐ.

*August 5*

There is always action to reaction. You cannot escape from that. Not only to you, not only to me too, every person is equal in the nature - is equal. So, we need to be very careful if we do any mistake - asking for forgiveness, to be very open to that person, "Hey, I'm very sorry, extremely sorry. Not bad intention." Very loyal. Just clear out, clear out that gluttony - be free, not holding that pain and torturing yourself, and that person keep suffering with you. That will attack. No, that's not healthy. That's not? Healthy. Be healthy soul, healthy heart, healthy mind, healthy life, and God bless to everybody.

## *August 6*

Why you came on real purpose - that is first of all, the fundamentals about healing. Suppose one man is suffering with one problem. If you cured that, then he will get faith on you. He turns in front of you whatever you tell. "Ok, I will follow that," he says. First of all, you must make them to joy, to making them joy, then filling their happy in their life - giving one seed in their life - happy seed. That happy seed grows and it's making it grow up like a tree, then it's gives more seeds.

Doing to Baba 1,000 chapatis, 10 kilos of sweet, one gold crown, diamonds crown, He don't care.

When you are serving somebody, he will serve you. He will really serve you and protect you. All the time thinking about you, you, you, you – no! Even I did any powerful fire puja, it doesn't work. Sincerely I am saying, "It doesn't work." Think about yourself and think about others too. Be loyal to the society for the true love - that only comes with you forever. We're not taking with us anything. We're not taking? Anything with us.

Everybody must go one time to the God. Suppose if you think this car is ours, this car is mine, this house is mine, this is my wife, this is my son. No. These are all nothing - it's not yours. When after you, when you die, when we die, it never comes to with us. Just they will come up to burial ground, then they will say, "Bye." Who will come with us?

Whatever we do, good thing in the nature, that will only come. Whatever you deposit the good things, that only will come to the next life. The soul almost all - records everything, it knows everything. Whatever you're doing good things, whatever you are doing bad things, it's recording. Silently it records, it is secret recording. It's a very dangerous thing in your heart, it records everything.

When after, you again it dictates your life, either animal, as a bird, as an insect... If you do very, very good as a saint, human being - human life is a wonderful life in the nature. It's the greatest gift to find the God because of, God gave everything to the human being: thinking, power, showing the good directions - you can recognize what is the good and what is the bad.

Then all the way, again he moved that edge (*of Satya Sai Baba picture*). There is no place to him to go, it got blocked.

You can try, once if you fixed my picture in one place in the wall, if you moved it and you put it in a different place, I really drive you crazy. If you want to take away completely, that picture, I know how to reach it, again come back.

Once the person starts to getting addictions of lot of drugs and alcohol, lot of things, then his behavior is little wild. Once he's getting wild, his actions is wild, society is wild, town is wild, state is wild, country is wild - no more peace! Is it necessary?

Simple concept is what He blessed. Whoever believed and followed the message of any powerful saint, doesn't matter, especially the 'Big Boss' (Jesus) channels, His message of true love, just love, through the receiving the love you might chanting the Indian prayers, western prayers, whatever your soul prayers, any prayers ok, but you have to become powerful to Help the Globe.

Be sharing with each other, be loving each others - that's the bliss. That's the bliss. Does it make sense?

So, as much as you can in your life, try to do minimum charity works. Think on some people's life who needs help, any type of help. Spend some time, put a little attention on them. You'll receive tons of blessings from their soul. A person who is really thirsty, really thirsty and he comes in front of you, and you give a glass of water. How will that person feel? So, bliss. You cannot talk in front of a thirsty person about spirituality, about enlightenment - who cares? He's hungry and he's so thirsty. That's one of Vivekananda's concepts he always said.

Later on, you won't have it, it'll go away. Your own sankalpam, whatever you thought, the lie, or you release any negative thinking, you suck that - very danger in this - you need to be careful.

Never, ever, ever think negative – don't think negative, "Oh my God, maybe I'm going to get cancer. Maybe I'm going to get cancer. I'm going to get cancer." Big chance you're going to get a cancer. Your own sankalpam will hit you, "I'm going to lose my husband. I'm going to lose my husband." Yes, then it drives you crazy. So far, many people complaining on this person, "Swami, they're doing crazy. This person is doing this type of crazy." Okay, stop it. Stop. Listen. Nobody is one hundred percent perfect. In the planet, nowadays, no person is perfect. Be happy and create the happiness around you. If you want to be one hundred percent perfect, you better to go in the forest and sit under the tree. That's why Meher Baba he put a cloth over his mouth. He doesn't want to talk. He's complete in the silence. He's always statement, "Don't worry - be happy." If anybody has a question, just he writes it simple answer out.

Somebody got bit by a cobra, they're dying, they're suffering with a lot of pain. The love doesn't work there. Doesn't? Work. Even you're crying, you're hugging the person, kissing them – hun-un nope. The nature is that much stronger. You need straight weapon power. Either you cut it, take the blood out - some healing techniques you need to do that. The supernatural energy has no religion, the religion is only one - humanity. We're all one. We're all one but we're not recognizing each-others - that's the problem. To recognizing each-others, the most powerful being in the planet is the Boss (Jesus). There is a big statement, “Who is really practicing one bijakshara for twelve years with the silence, they’ll get enlightenment.”

After you’re not talking too much, maintaining less talk, less talk, less talk, then later on you can stop your human blocks, monkey blocks. It’s an art to be in the silence, less talking. And also, it will increase the lifespan. It’s true, it increases the lifespan. In Himalayas a lot of saints they’re enjoying majority time in the silence, alone, very quiet, meditating. Who’s maintaining the silence, that person’s sankalpam is one million percent strong, and whatever the sankalpam siddhi will become fulfilled. But majority in our time, fifty percent of the time we’re sleeping. That time we can make it as a silence through pure consciousness awareness. You’re sleeping, your body is sleeping, but your consciousness is enjoying the silence there.

I love all humankind. Humankind is a big religion. Your blood is red, my blood is red, you are breathing air, I am breathing air, He created you, He created me - we are all one. We are all Gods. We are all pieces of God. Might be we have the problems, blocks – we will solve that, but the knowledge is different - that you need to learn it. That you have to learn it. I can't teach you science... I don't know the science... with my soul level I can go to the moon, as the body level I cannot go to the moon. It's a mystery, try to understand something - it's a bliss.

I am like a Mother in the kitchen. I am cooking the food for you. Is the Mother great or is the food great? Which one? Hello? Without even cooking the food - I can fulfill your hunger, it's not a big deal. It's all chocolates. It's a kind of my manifestation chocolates to you. But anyhow, yes, you deserve it.

Once the movements are happening there, it settles the energy. They're pure, crystal clear love - kids are pure love. That's why Shirdi Baba always wants to play. Even hundreds of people are waiting for him, he's going in the street finding the kids and playing with the balls and tops and kids. Wherever the kids' movement, it's pure energy - pure energy.

**Swami:** It's painful but send your love wherever person's soul... Put your pure love, be happy. Whenever you're putting too much worrying - you'll disturb that soul. If you keep crying - you're disturbing that soul. It's very important. I told it in the many different, different chapters. Hun-un, never cry - be happy for them. Try to think, you're also going one day...has to go. Clear on this part?

**Swami:** His statements - the Almighty, the energy the Mother Divine only, is on him for two thousand years. Now he's walk out - he walked out. Now he's going to create within thousand years, less than three hundred years - like the Jesuses in the globe - easily couple million people - amazing healers. Point is, don't miss with your egoism the unity. With unity makes unbelievable fragrance. Every person is equal to me. It doesn't matter you're senior most, just they came as beginner - equal. Once they came to our umbrella, they're in our terretorium. Understand?

But take some expertise opinions, how they did before, and you learn from them too. Don't think Elephant Group is very important - no way. I like them but they're not like my peacock feathers. Everybody's equal, every person has a talent. Try to utilize that talent in a proper way. Make the process, make that, all, everybody make it happy.

Why some wars are happening? Because some evil spirits are playing there. Instead of changing the whole country, if you are able to change the king's mind to not create a war, then it's fine. Hitler was doing crazy way, big fighting. Instead of fighting - stopping huge war, you can change the mind of Hitler. That's only possible who really can handle are the Siddhas. The avadhuts can only do that, immediately stop his mind, change his mind. I'm not joking, it's very serious.

At least one person who really will die for you, and live for you forever, stay in difficulties timing and happy timings, "Yes, I'm with you, let's go." That is the true friendship. Whenever you're in happy times many people will be around you. When you have the money, many people will be around you. If you're a beauty, then many people will be around you. But whenever you don't have anything, you don't have no money, nothing - at the time somebody's at your back, "I'm with you. Let's go. I will walk with you, don't worry. Let's go." That's the person. If you laugh, the person has to laugh. If you're crying, he has to take that crying to give the encouragement - that you are required. Of course, Almighty is already taking care of you in different angles, but still, you're a human being. In your circumstance you're required.

Can you raise your hands who has a true friendship in your life? They know about you A to Z - you didn't hide anything to them. You never lied to them.

You have to create at least a few friends, true friends you can share, you can talk, speak openly with guts, telling all your mistakes. Who can really support you and promote you no matter what! No matter how bad or good you are - they love you, they take care of you, they know you, they'll be with you. The friendship is the power, it gives inspiration. If I tell somebody, “Southwest swimming pool is crazy and east mountain gives a lot of headaches,” you cannot trust, you cannot believe this with your suspicious ‘monkey mind.’ That’s natural. You have to get the experience of that, or you have to have huge respect for the person who is telling you that, and receive that experience, as your experience. It will only happen when you totally surrender and give your love to that soul. That’s called Guru Parampara.

Of course, we respect all masters, all religions. We respect anybody’s philosophy. We’re not against anybody. In that philosophy, in that mechanism, in that miracle, in those experiences, in those energy channel - a healing, a miracle is happening. A healing is happening. What is in it? Your heart automatically opens. You’re listening to music through your ears but you’re crying - your heart is touched.

You’re seeing a scenery, a kid is really starving, an old person is really suffering. You want to help but you can’t help. Maybe you *can* help. Without your notice some tears come. That’s where the mechanism starts. The love is the mechanism. Through love, fall in love, really caring, worrying, attachment, divine attachment – when you develop that, that’s it - majorly you won it.

## *September 18*

Divine Souls, the proofs and evidences they did it through certain perfect formulas. Any soul in this planet can really, can receive and reach unbelievable progress and greatness. The point and my little concerned the coming days to my students - how they're going to handle it with this knowledge what I'm going to give it? There's a little bit controversy will come, but I'm taking that controversy because of, I am creating this.

Creating means, not in bad way, whatever I'm having it, I'm giving to the globe. They are not at all responsible for anything. They came here to learn the Truth - I am here to giving what I know the Truth. From the thousands of years, I'm putting in front of them - the world and the Truth has to decide what is the Truth or the false.

Ok, once if you come back to Penukonda - this place is, belongs to lot of powerful saints, powerful kings - first the Mother Divine is birthplace entire in the globe, the creation started in the globe is huge - the vibrations started in Penukonda.

Somebody made one million dollars. He's pretty good egotistic, he's luxury, he feels he's a top success. You wait and see - he's losing that. After he lost that, again to rebuild that it takes a lot of time.

Once you have it, take it humble way, humble way - don't express it. As much as you're growing, that much you need to be more polite, humble, as much as you're growing - more, humble, more respectful. The life goes more, smooth and happy. Be sharing with each other, be loving each-others - that's the bliss.

Whose heart is holding the huge kindness, he can really reach unbelievable abilities. Your heart house has to be filled with kindness. That kindness brings the love. The love automatically brings a lot of abilities. The real human feeling, sensitive, kindness, love, affection, affinity... even though he's doing mistakes up and down, having a discipline to thinking what he's really doing... much times he's thinking... That person is called the real human. For example, you're seeing a tragedy scene in a movie, on the TV, without your notice just in the TV some tragedy moments is running. All the sudden the tears are running from your eyes. You can't hold it you can't bare it! You know what I'm saying? That person is called...he's the person who can really reach high, high, divine energy. It means his heart is holding huge kindness.

Whose heart is holding the huge kindness, his heart he can really reach unbelievable abilities. With a simple sadhanas he can take off. Your heart house has to be filled with a huge kindness. The kindness automatically brings the love. That love automatically brings a lot of abilities it opens lot of heart chakras. Automatically the cosmic energy will flow from you. Even though you're seeing someone who's really having a lot of pain, you can send lot of the love rays from your eyes, just you can heal them through you're looking. It's enough. The inner mechanism helping them a lot to purify, to make them relax - that person is called a Holy Human. We have to develop that.

So, whenever we really believed in it, Om Namashivaya, the five elements is sucking that energy in you. You really can do the wonders. You really can receive the power in you. You really can receive amazing healing abilities in you. You really can purify a lot of your blocks with the prayers. The letters are called, bijaksharas. Somebody is given the initiation 'hreem' somebody received 'kleem.' This is all energy words, energetic words, energetic letters to communicating to the divine - that is the words.

It's not today's - thousands of years back they proved it, they did it, they received it, they healed it, they manifested amazing things, they created amazing things just through the prayers. Just this, all the prayers came from the pure silence. After certain stages you reach, after certain enlightenment stages, you don't need any prayer. Your soul is a prayer. Your soul is connected completely with the deep silence. You know all connections of the cosmic - that's enough.

Once your daily activities are in a beautiful positive, your livelihood is super happy and peaceful. Once you started to be very peaceful, then heart started to feel very happy. Then you won't feel any pain at all in your heart. Then once you come in the soul level, every day is a bliss in your life - really, really bliss. That's today is the concept to the process.

You don't know one hundred percent Adi Shankaracharya life. Yes, they're really extraordinary powerful. They came for the purpose, but a part of we lost it. That's my mission! Spirituality, God, all the stuff is fifty percent. Taking care directly of the humanity, that's directly taking care of the God and serving the God, who are really suffering the pain. But majority, ten percent, who is really in the hospitals and the sicknesses...eighty-five, ninety percent pretty good sick with the healthy bodies - they're soul sick.

All programs what I'm giving is preparing the Soul Doctors to become a soul, powerful doctors. Just you walk in the street, take your neighborhood, write all your friend's names, and family names, see who is really happy and not having a broken heart. You cannot find three people. Almost, five, seven, eight people has the pain and the hysteria. That type of people really needs your help. You know what I'm saying? Hello? You have to live your life for yourself, same time, the life, why you came here, not only for yourself - you're born for a reason, for somebody else. For a great reason you're born here. Try to do your duty, the real duty. Ok? Good.

Go to old age home, take some fruits and bread, feed them. Make their hearts open for you. Make them to smile. That you need to do, otherwise it's meaningless of life - meaningless. I'm serious. Why all this process is coming is because of, in your life, sometimes you're too much selfishness. You're not seeing somebody's pain. Not only the inner side, the outside too. But you should remember one day you'll also become old. Any day there's a chance you'll get sick, never knows. Help them, then your heart goes really open.

So, what you require here is a spiritual gun to attack the fear. Once if you have no fear, there's no problem at all in spirituality. Any type of bliss, any type of wisdom, any type of love, any type of clarity, any type of Satchidananda is with you. When you're asking for experience you have to attack to the fear, is make sense?

Certain things can change, so try to see the reality. The real bliss is how much you love yourself. Whenever you start to love on yourself, you can love somebody. Whenever you're not loving on yourself, you can't love somebody honestly. Whenever you start worrying about yourself, you cannot solve somebody's problems, it's a standard golden statement. Stop worrying about you - let me worry about you. I will worry for you - that makes sense. Throw your weight on me - I'll take care.

Whatever you are not finding in the nature - *that* is covering with you and it is playing with you, "Find me. Find me." It is making the game with you. (snaps fingers) Understand?

God is everywhere, and He is saying, "Find me." If you find, 'I am in you,' you are a God! "There's a nothing different between you and me," He says finally. When you recognize yourself like that, you are a Para Bramha Swarupa. You know what a Para Bramha Swarupa means? You can see everywhere in the love, everywhere – love, love, love. Everywhere is the God. That is the God creation.

If I blessed you good health, good money, good house, good wife, good children, happy life - you'll really think about God?

That's why He's always playing with us. He personally has given to me everything. He's given the bungalows, cars, assistants, farmhouses, name, fame, money, jewelry, good health, but why I'm doing the hard work? I never cared about my own selfishness - never! Whenever my egoism is going up, whenever I look at my face every day early morning when I wake up, I look at my eyes and make a question, "Am I treating the people well or not? Am I ignoring the people or really caring for them? How much loving and friendly am I around the people? Is my egoism going up, or it's standard, or is it going less?"

If it's going up, immediately I make it come down. Then I go and stand in front of Baba, "Hey, no games. No games. Don't give the egoism. Who am I to receive all the things? You've given it. I know one day you'll take it out. I know you'll take it out. If my egoism is going up, that I'm doing everything, I'm making money, it's my car, my bungalow, this is my kingdom..." Disasters are starting there. I don't have anything here on Earth except your True Love. You're the father, my mother, my friend, you're my relative, you're samastha - everything. That's enough - be with me, just be with me. I don't want anything. Whatever you're giving to me, I'm happy. Whatever you're taking out from me, I'm happy. Be with me, please shower, please bless the high love - that's enough. Once you have that attachment, that love - that is the True Love. You can feel it, you're seeing it, He's really helping you, protecting you and taking care of you. You know, you can feel it - that's what you want.

Once you fall in love at that stage in your normal life - that falling in love only happens when you surrender.

If you really meditated, if you really developed the channeling to the five elements with a different prayers, you'll become strong yourself - you don't need another healer. Once you become strong yourself, you can take care of somebody else too.

To become the stronger, certain blocks you need to remove in you. Certain things you need to get balanced in you. Certain desires you need to step back. Once if you really step back, once if your mind and heart is in your control, yes, you don't need any healer. Whenever your mind and heart is not in your hands, you received already huge punches of heartbreak and you got super sensitive, then you need somebody to lift you for a little while. Then you can take care of yourself.

A few people, I had a process with them on the Baba stage. Like any process, whenever it's happening it's the right time all the energies is flowing from Him. Can hook it. Can make a deal, just make a commitment. Once if you started to make a deal, then He'll make you to work. He'll decide your duty. He'll decide your duty.

For example, if I made a deal with you guys, like I gave my word, "Ok, go ahead." Whenever I'm alone, I'm walking - you come in my thoughts. Whenever you come in my thoughts, again I'm releasing, "Let Him do this works." The works automatically it comes to you - then you can start working. That's the right duty, right judgement.

Without your notice you're starting to work. You know what I'm saying? Without your notice, the work is coming in front of you - you have to start working. From morning to evening you're so busy. Then evening you're taking sleep. Then you really have the inner peace in you. Whenever some people is around you happy, that makes you happy. You know what I'm saying? Even certain helps you want to do to some people, but you can't without His grace. You need a blessing from the Master, from the Almighty. Even you want to help one guy to lift him, only can possible through His grace you can lift him.

Dharma is a beautiful surrender. Once if you know your dharma, once if you made a commitment like a marriage, it's forever and ever, to the soul to the soul, to the Master to the student - Guruparampara you can't escape. Even if you want to run away, how far you can run? Where you can run? You can't run. Even if I don't want to do this job... Many times, I told to my students I have to go near the river side, somewhere, to a very isolated place where nobody can recognize me. I don't believe Baba He will leave me alone there too, until I do my job, I have to do it.

Deep thinking... It's pretty good climax moment in this globe, in this century, what I can give my students. So, it's a great opportunity and a great blessing to me to giving. The Almighty is giving to me to do this. After 2,000 years later, I'm happy giving the ancient knowledge to give back again to the world.

I'll prove the miraculous energies to the new students, what you choose it, you want to know it. How the miracle will happen in front of your eyes, I'll show it because you came from the West to the East. The East needs to show the light, isn't it? I'll do my job by grace of Baba, Jesus, and Mother. What you cannot believe - you'll see it. That's something special. You're witnessing that energy.

Forget about magicians, forget about magic, they have their own crazy style. Your Swami has his own style. You know what I'm saying? I don't want to say - wait and see. Try to open your heart to the energy, to the Baba. He'll show the guidelines. I'm just an instrument in His hands. I'm doing my duty. Then it's your luck. It's nothing my greatness, it's completely Baba's grace, Almighty grace. I came in this planet for a purpose. I'm doing that, my job. After my role is done, I have to get out. Every person is like that. Any questions

The vibration energy like level, it's really wonderful to who is going to live here and the coming students here, to the thousands of people here coming days - so high powerful vibrations.

So, I'm doing it just as my dharma. It means the inspiration coming from Him to create for whole my life for to do - the give it. How do I say? You know what I'm saying? So, your life is also - you have to be strong determined to give. "Ok, I'm here. Use me whatever you want." That one word is huge enough. I hope everybody is understanding this point. "I am here, just use me whatever you want." Who am I asking all the things, give this, give that, give this, give this? Ok, even if you ask, are you really can stay with that? Are you really can handle that?

Why I'm seeing that unity is going far down, whenever the unity falls down, I'm sorry, it's pretty big, heavy, like ten horses carrying chariot and one-horse carrying chariot - there's a difference isn't it, so lot of weight.

Once if you link with a group, it's always better to share the knowledge what I taught. "Ok, where are the blocks? What to do? What to do?" The information just what I told exactly. Not using your own craziness mixing it like a masala. It will destroy it. I'm very super keen and careful each step whatever I'm telling and teaching. Very carefully I'm giving the statements. Lot of people they're changing it and manipulating it - it'll get damaged! I'm telling the coming future, the precautions, how you have to handle it.

You are stepping in the great wisdom of Her amazing beautiness... She's amazingly beautiful, amazingly kind, an unbelievably strong mercy lady, unbelievable mercy. So, what you need to do, what is required with whatever She blesses, whatever She's giving to you, whatever She's showing to you, the best way you need to handle it - simply open your heart - accept it...

In each person there is a fire, a light - see that Light, that is She... She's infinite but you're also a part of that infinity. Mother Divine is the Mother to every soul in this universe - She doesn't belong to any religion at all. Then, certain stage later, you are in the silence of the bliss, you're completely merged with the light, you'll become the light, then you start to lighting the many candles in your life. That is the real purpose of your life you came on this Earth.

I'm making you a slave to God. Slave is a bad word maybe - you're a great servant. Your life, when you really get the bliss, is when you can help certain people around you, when you recognize the truth, when you spread the truth, when you lift certain souls from the pain, then your life is really fulfilled.

Buddha, he left, he sat under the tree, he meditated, then he discovered some amazing channels. If you read the Buddha history, if you read the Siddharta Buddha history life - you can find lot of things. He's not an ordinary person.

Same thing today. You might laugh what Swami talking to, like a kids you are so young and brilliant now. Once you start little old you can't able to walk, you're on the bed, you cannot lift your hands - then you start thinking on God. Then the time is too late, your memory power is super less - you're not able to chant any prayer. So, three things you cannot trust in the life I always says, "*Health* - your health, *time* - the illusions, *illusions* - this three is always very, need to be very careful. If you lost it, you cannot get it back."

Some of your blocks, you don't want that block but still, you keep carrying it since your whole lifetime. Like that person just he has fear, fear, fear. I'll give the root but again it comes to the same point - come to Sthita Pregnata.

You are the right person about yourself - don't waste the time. Don't think you're a bad person. Don't ever feel you're guilty. Whatever the actions are running in your life, that's nothing but supernatural divine force is making on you, through you. It's a divine force. In the beginning it's a divine force then after that we create tons of our own headaches. So, go one more step in depth.

Let's say, of the eighty percent depression and heartbroken people, come to the real, real heartbroken people, how much percentage will be there? Thirty percent easily... It's beyond any disease. The only medicine to the depression and heartbroken people is spirituality, to give them real bliss. There's no medicine at all to them in this world. There is little tiny, tiny, tiny bit things but my prescription as a spiritual doctor, I can recommend them to do meditation. That's the best way to change their behaviors and their character. In all aspects it really purifies, it really purifies.

So once if you become a supernatural master, as a supernatural healer, your life is really bliss, to really taking care lot of people in the world. The most, most number one honorable job is Spirituality.

When he is dying Baba said, "Who calls me strongly," like sitting one place, "Who have faith on me - hundred percent my rays, my protect comes even from my Samadhi. I will work my duties from my Samadhi, my bones will work, my bones talks to my devotees. Who comes in front of my Samadhi, my bones talks."

If you take your own personal life, individual personal life, from beginning until to now, if you took karmically the illusions, how many times it bit you... Even Rama has been through the illusions. Krishna also, even once he was born has also been in the illusions. He didn't need to do the whole battle and driving the chariot. Millions of people died. Simply he's saying, "You're the instrument, do the actions. Just you're the instrument, play the game."

Why this game? If you put a question mark, "Why? Why this game?" That game, so far, how much you've really run. You played this game so far. You can take lot of nectar from that. Whatever, every day, every year, every month what you've been through, the nectar is already hidden in what you've been through in your life, it's there, that is what. So, what you really can come with, overall as a great conclusion, the feelings of your real consciousness.

ॐ

*October 17*

**Student:** I don't know what the feelings of your consciousness means.

**Swami:** Feelings. In front of you a blind person, he lost his money purse. In that money purse there is a lot of money. That blind person he badly needs that money for his purpose. He dropped it on the floor and you know where it is, and you took it. You took it and you put it in your pocket. He's crying, he lost it.

Of course, the money is also necessary to you. The money is also necessary to him. At the time, what are your feelings saying to your consciousness? You want it, that is your strong feeling, but your consciousness is also saying something. It's always saying something, it never stops. It will keep saying something to you, no matter what, every moment, every action, the consciousness is always flowing in you. Feelings is separate, consciousness is separate. You got it?

You have to attack to your fear. Fear is not attacking you - you have to attack your fear. There's a difference. Whenever you attack the fear, of course the fear will also attack to you too, so how you going to handle that limit fear, maximum fear?

Once if you have no fear, there's no problem at all in spirituality. Any type of bliss, any type of wisdom, any type of love, any type of clarity, any type of Satchidananda is with you. When you're asking for experience, you have to attack to the fear. Is make sense?

Even the nature doesn't want to release, to accept certain information to come out. Always the divine needs to face the negative punch. The negative energy is always waiting for the divine. You need to deal with that negativity very, very clever way, as a Krishna. Whatever you want to do, you have to do, even you should not bring it in your thoughts until the climax - just do it. Same thing I'm doing with my students, what I want to do, what I want to give the experience - I never tell. If I'm telling it means, there's a slight different there, but I'm doing it.

ॐ

*October 20*

So, there are some unbelievable divine channels in the planet. The main thing is what you need to do is, how much your open heart and how much you have clear crystal clarity. That counts to the Master. Once if you're really clear and open hearted and you want to serve the globe, I'm with you. If you're behaving in your own selfishness, for your own 'name and fame,' making money and diverting the whole information in funny angles, I cannot come to you. Even though I'm very close and very friendly with you, I cannot give the information.

It's important to have a soul mate. No need to have a husband or a partner - soul mate is beyond any relationship. I know nowadays everybody has their own crazy ego and hiding nature and maintaining their personal secrets. Every person has their own shadow they don't want to share. Some layer of their personality they don't want to present, to show. Once you can show your layer of your personality, then even to your mother you can say she's your soul mate.

Namashivaya – na ya va vas hi doesn't work, absolutely doesn't work. The rhythm of the word, the fragrance of the letter, amazing, unbelievable letters - the vibrations is hidden in the nature.

The Buddha, the first person, he sat in the nature under the tree and kept meditating, keep meditation. He want to know - he want to know what is the reality. He is not an ordinary character. He knows the supreme, supernatural powers - supreme, supernatural powers. Then he went to the Kala Chakra. In Kala Chakra he went back. In Kala Chakra he went in front, then he started to discover everywhere a concept of pain, of desire. A pain of desire is hidden in Kala Chakra. It could be true desire, it could be normal desire, it could be physical desire, but pain of fragrance of the desire is hidden in Kala Chakra (time cycle).

ॐ

*October 23*

Master never expresses your egoistic, your not clarity, your not open hearted - that's not his job to tell you that. He'll smell you, taste you, hear you, then he's with you - all the Guruparampara is with you - done. Then your life is happy. He doesn't care about some of your personal, simple, funny habits, he'll see how much is your dedicated heart - that counts. Until then, it's difficult, it's not only to me, it's to you too, it applies to me too.

I always pray and beg to Baba, "Give me good thoughts, good heart, helping heart. Take my ego out. Don't play games with me, let me know what mistake I'm doing, but not in punishing way. You don't need to teach a lesson. It's enough what I've been given with the lessons. Heartfully, I'm begging." I'm serious, same trace you need to walk too.

ॐ

*October 24*

Who really knows how to play with negative vibrations very easily, only that person is a great master on the planet. Even Jesus Christ he did amazing miracles. Buddha did amazing information, but Jesus Christ, he was not able to straightly give his techniques to his students' kingdom.

That way of giving the techniques - only this Century is very, very free. In coming days, again it's getting tight. This is the time just the door is little bit open - I'm driving my maximum best. I'm taking these tracks extremely fast because the door is a tiny bit open. Once even it closes, it takes lifetimes...lifetimes...

ॐ

*October 25*

You understand what I mean – desires. There's a limit - one, two are enough. Desires are necessary to bring the joy and make us relaxed, whatever we like, but not too much – here is my meaning is - not too much.

Actually, the spiritual saints, whatever God gives to you, enjoy it and think on God. Enjoy it, but not too much - it makes destruction. Even if we're hungry, if we eat a lot of food - too much - we'll get sick. How much your desires make it comfortable, but don't make it too much.

Yes, He (Jesus) trained to his students and his friends. Still his friends is alive in Penukonda mountain with physical form. They will take off until the real truth come out, then they'll drop their bodies. Until the Almighty Mother Divine really merged with a lot of students who was doing the practices here, next having lot of amazing experiences during the death and life - life and death, understanding this illusions - really enlightenment with practical experiences. After everything is really clear, even I take Samadhi this, in this mountain, the Maharishis they won't take Samadhi - the heat, the vibrations is coming from the mountain. It's not only just my energy. It's their energy, their blessings too. One hundred percent it is on the rocks, lot of judgements, Krishna Deveraya himself he wrote it on a one big rock. When he's going in the mountain, he seen lot of Saints, they're amazing Siddhas, extremely Siddhas. They can appear, they can disappear with the physical forms, they can create physical forms, they can create Mother Divine in front of anybody with the physical, any form. Like a Baba, he turn as like a dog, as a cat. They're the Siddhas, purely Siddhas.

ॐ

*October 27*

The coming days to Penukonda, millions of people is coming. I know that souls too, and they're going to started to worshipping - worshipping. After three, four hundred years later, this place will become extremely supernatural powerful spot in the globe. It's a statement – one hundred percent. It's a new Devindra, new laws like a Kala Brahmha Veera Brahmhindra he already tolded in four hundred years back. So, that is - that is.

I really want to give one talk in the public, openly - that's my desire. One talk - this is, this is, this is, then bye. Even ten minutes, fifteen minutes in my Mother-tongue language - there is a good translators...

Try to be loyalty on your works, try to know how to receive the love, try to give love each others. Once if you know that – you're done. You really, you can create beautiful heaven in the world around you, you can create heaven. For you few people, how many years, how many months it takes to you come together, understanding each-others? Hello!

ॐ,

That Oneness - that is the most greatness. From that oneness you need to establish that great integrity, the fragrance to connect any soul whenever you want, wherever you want - Jesus Christ he did it.

If you want to connect to any soul, it doesn't matter wherever you are, he knows you. He knows you. Baba knows you. You no need to know him, but he knows you. To you to recognize him it takes time, but he recognizing you, it's easy. That is the greatness of the Avatars. That is the greatness of the spiritual saints - to know the oneness and to recognize where you are, what you are, what you're doing, what is your problem and what you require, when is the right time to give to you.

**Student:** They might not.

**Swami:** Might not, but even if I say – you, may not.

**Student:** No, but it's got taped, it's proof.

**Swami:** Doesn't matter.

**Student:** Ok.

**Swami:** May not. I had a lot of relationship with him - a friend in need a friend in a deed - that's how they know it. Life for friendship, live for friendship - do or die for the friendship. That's only I know it, for the Truth. That's only my statement in the globe - for the Truth. Die or live for the friendship. That's it.

**Student:** Why did Jesus' soul come to take care of this planet?

**Swami:** Whenever A-dharma is growing that's his forgiving nature - showing the mercy, kindness. You have no idea how much is there in the kindness! You know the forgiving and kindness? Forgiving is only final weapon, final shot - you can win victory part of. Krishna, he did using his chakra, Sudarshana Chakra killing. Rama uses arrows. So, they use all the weapons. Coming days only using the big weapon of the forgiving - just loving, that's all.

Doesn't matter how long you live the life - 70 years, 80 years, 90 years you live life... In a short time how much you made it - that's important! In your life something the globe has to learn from you. I don't know how your talent you can implement creativity, not going in the crazy illusions up and down with your own personal blocks unnecessarily.

Without power you cannot do anything. Without divine grace you cannot do anything. Without guidance you cannot do anything. Without devotion you cannot do anything. Without determination you cannot do anything. Without clear silence you cannot do anything. Once you develop that, you'll hit it.

Don't use the energy to harm the society, again to come back to you. It's a message to the whole globe, even to your kid, your wife - doesn't matter, whoever it is, no matter what - die for the truth for entire your student kingdom and I wish you all the best!

Every person is thinking about your own personal problems. Fine, but don't you have social responsibility? You're thinking, "I want to do my dharma. I want to do my dharma. I want to do my dharma." Good. Which way do you want to do your dharma? Are you ever thinking about what's going on the globe, how to take care of millions of souls weeping and crying? Have you ever thought about that?

For centuries there have been wars and different philosophers and healers putting their own masala and changing spirituality to build up their own ego. They talked pretty good, but they spoiled spirituality - they mixed it. Even my ideas of spirituality, I don't want to talk of, I just want to give the ancient information that has existed for thousands and thousands of years. I am putting that in front of you - go ahead, decide.

ॐ,

## *November 4*

After three hundred years later, even if you want enter in the Penukonda, this place, they have to wait for one year, I'm serious.

Today's like I'm telling the astrology. After three hundred years later, just you want get in, just to feel the energy and go out - it takes one year. You are under waiting list that much time. That's true - that knowledge, that information what I have, once if it is released it by Almighty Grace, it will take care. Absolutely it will take care.

Once you have some abilities, if you share them with people then more abilities will be gained. You have ten mango seeds. To make them grow, you have to fertilize them. Fertilize them? You have to make them grow into trees, then you'll get hundreds of seeds and fruits. From hundreds, it will grow to thousands, millions then it will develop and develop. Then you will be in the middle of Mahamaya - all the people will be your responsibility, then here you go!

You can really deal with it, learn, and work with it. But the first seed came from you, of course it came from India from your master. It also came from my big Master, Baba. Of course, you are connecting to your Master through his Master, he is connecting to his master, finally the channels will go there. You have to create these channels absolutely!

ॐ

## *November 6*

**Student:** In the future, what will people receive who visit Penukonda?

**Swami:** They'll get enlightenment. Mainly who comes here, there's two reasons they has to come. One is, once if they want to know them self and they want to experience amazing miraculous things - that's one. Once if they experience miraculous things, means, they'll know who they are. Second part, once if they did the processes, amazing powers, received the powers, and they'll know themselves too. There is a two ways, you are in the second category. Already each person got different type of experiences but it's not enough yet - that is only ten percent, ninety percent need to reach. So that ninety percent I am under waiting. So, the people, whoever they comes here will get amazing soul energy - high powerful blessings.

ॐ

## *November 7*

What I observe here since long time, is people's emotions. I'm not innocent, I'm watching everybody's face. I look in their eyes how they're doing. Their eyes will say how their mind is really thinking. Why the people have confusion? Life is life. You surrender one time, then if you really tasted in the spirituality, if you really want to do in this spiritual path - do it. The obstacles, problems, illusions, karmas, these are all natural in this spiritual path, any path. Even if you do business - illusions, problems, karma, the people, different type of the same energy, different angle of the same problems. Is it true?

Whatever subject you take, your life angle, wherever you go, whatever you follow, same obstacles, problems handling crazy mentality people, financial burdens, illusions, big confusions what you're doing. But my advice in everybody's life, the spiritual path is the best path in the world. Spiritual path – the best path - peaceful path, one level, not a hundred percent one level. The spiritual path, such a really happy and joyful path, that is, even the king and the emperors, after he enjoyed his life, finally everybody is hooking the spiritual path. If you hook before that, if your hands, your legs, your mind, your health, everything is in your control, at that time if you hook, then you can really enjoy the spiritual life.

ॐ

## *November 8*

**Student:** But you said not everybody has the clarity. Can you give some tips?

**Swami:** No. I told you what you want, what is your life, what you want to do. I can't do like a kind of Babaji, Paramahansa, Shirdi Baba, Vivekananda, Ramana Maharshi - not in my character.

I can do the same thing like a Jesus Christ, more than him. More than him I can do it, but I no need to do it. It's a wasting of the energy. No need to do that. Fish need to swim in the water - enjoy it. We are all fishes in the water not getting dying, not in the huge waves. We need to stop the waves of the illusions. The illusions is torturing the whole globe, whole planet, whole souls – terrible! That, we need to stop that. So, what I did, a big stuff, small stuff, it's not a big deal.

ॐ

*November 9*

We are not such a great persons like him (Jesus). We don't have that much patience. We don't have that much energy to even know somebody is torturing us, to accepting it. We need some protection circles - we need some divine blessing.

That, how to get it to able to receive divine blessings? How you had to turn as a divine? How you had to open your heart? How to ask, how to ask? Asking means, how to pray. Whole your Swami concept, different languages - how to pray to God... Doesn't matter any language, any religion - let's pray Him to get out of from these headaches, to know you are yourself, to recognize the reality.

ॐ

*November 10*

Why I'm all this things is saying it? Not only to you, even to me - the Mahamaya. You had to very carefully to watch whatever you're going bumpy and just come, drop your body in presence of Baba - spend as much time as can do. Don't take hasty decisions. Get out of from your room, come, sit, finding one nice place and just sit, just to be quiet. Go in Dwarkamai and just relax. The impact and the vibration, the vibrations' impact on your consciousness, very serious...

ॐ.

*November 11*

**Swami:** Then am I talked on their blocks?

**Student:** You said that their blocks were really huge and that they couldn't come out of them in order to receive the knowledge, and that the main problem that they had in their blocks was that they were not able to receive love nor were they able to give it.

**Swami:** Main block, you have to know how to receive the love, how to give the love. Once if you learned that, there's no block. Is it make sense? I don't want anything from you guys except, ask whatever you have the doubts. Doubts, not confusions, clarify- bring this Truth and Knowledge not having your own egoism.

ॐ

## *November 12*

Try to be loyalty on your works. Try to know how to receive the love. Try to give love each others. Once if you know that – you're done. You really you can create beautiful heaven in the world. Around you - you can create heaven.

For you few people, how many years, how many months it takes to you to come together, understanding each-others?

**Student:** So why did Jesus come? When he came back, he was brought back by the Maharishis, it was really their brilliance and their channeling that brought him back. His students played their role, but it was really them that brought him back. Then what did he do in Penukonda when he came back?

**Swami:** He blessed this ground. Whoever they comes here and practice the channels, His channels, whatever He's doing, part of, they has to have Mother Divine, they has to have darshan of Jesus, they has to communicate, they has to take part of in his mission to take care of globe. You understand what I'm saying?

ॐ

*November 14*

I really believe, one hundred percent, what I'm doing it. I'm carrying one million percent proofs and evidence - totally A to Z, and I'm bringing this knowledge, the ancient knowledge with a lot of proofs and evidence in the globe.

At the same time, I'm really expecting the whole globe will understand the hurdles every spiritual person - how much they really suffered and sacrificed their lives. Once if they dedicated for the Truth - how the negativity will impact on their lives and their souls. I'm not giving a fear in you here, but it is natural, it is normal - is Almighty law. Every person has to accept that.

But here I am to changing different angle not anymore to suffer, not anymore to sacrifice giving any chance to the negativity to play anybody's souls, to my Guruparampara, on my students coming days - the coming Spiritual Kingdom.

ॐ

*November 15*

From my first meeting with Baba, my life has been one of service for healing and teaching. I am an instrument in His hands. More knowledge about spirituality must be given. My mission, my ambition is to grow this knowledge fast. Why give it to one person only? I want to spread it -everybody can smell the fragrance of God.

ॐ.

## *November 16*

Even if you take any person, any saint in the universe - ninety-nine, point nine percent, all the saints they did their hard work. If one person got the enlightenment, if the person have some more information, if he has some information in his hand, in his brain, if he shares the God energy, the God information to any person without no idea if that one person, if you had any your friend, if you shared your knowledge to him, then it brings to you a lot of energy to bring up. If you keep yourself, "No, it's mine, it's private, I don't want to leak this idea - no."

If you make yourself selfishness, it's very difficult to grow up yourself. If you share with the different type of people, different people to telling the all God information, whatever you know in your life, it makes you much energy.

37,

*November 17*

So, the point is, try to be responsible for your actions. Don't hesitate to your feelings. Don't hurt yourself. You don't have a right to hurt your soul. Don't force your soul to do funny stuff, you don't have the right. That's why I told the story about the lady who wanted to hang herself.

You don't have the right to torture your soul - be in the positive. Try to see in every person the positive. If you don't like somebody's crazy negativity - don't talk, leave it. Be like that a few months, then you see how much you really turn. Never, ever give a chance - it really disturbs your mind, your heart and your soul.

ॐ

The love never failures in the universe. The love, it never failures in the universe - love is love, it's a huge energy. Through the love, only through the love - the huge universe in running... If there is no love - there is no creation. That love creates the faith, that faith the big wisdom. How we say the wisdom another word - good understanding nature.

ॐ.

## *November 19*

**Swami:** Is anybody can give the answer how to create the peace? You should not give the wrong answer. If you really have the idea, talk. Unnecessarily, don't throw the, don't waste the time. If you're really confident...

**Student:** You have to be able to very freely serve the world, to serve other people. That brings a kind of happiness and a kind of peace because you don't think about yourself. You're only thinking about the others, and when you're only thinking about them then their happiness is like a blessing on you.

**Swami:** Does it make sense? That's perfect answer. That is the perfect answer. Instead of seeing one person crying, try to see ninety-nine people's happiness. You know what I'm saying?

ॐ,

We can change the planet through the love, can change the planet through the forgiveness. But we have to have to stand for the Truth and Love with the determination heart.

If you don't have the determination heart - you will lose it. No matter how much you're carrying True Love, if you don't have the determination heart, you'll lose it. You need to stand until your last breath for the Truth and determination heart. You have to stand, 'do or die,' then only we can succeed. Then only we can get some fragrance in the planet.

The soul energy... Maybe you have a little confusion and doubt on yourself, "How can I recognize Swami? My soul is enough charged? I got enough blessed?"

Can you see the electricity going in the wire? Can you see in the coconut the water is going inside? Can you see in the egg inside how the chicken is happening? Always the inner mechanism is keeping on running, but you have to accept to your soul whatever the Almighty wants to prepare you whenever it's happening... Of course, you'll face a lot of headaches and troubles. Even after you reach a lot of abilities - Satan energy always wants to attack you, it will disturb. Whoever they take as a challenge - they'll achieve their goal.

So, find out what I've given today, the content, to be in Sthitapregnata, what you need to develop, what you cannot develop, what you already developed. Every sitting I'm giving hints to you guys lifting, lifting. You will find out.

Some of your blocks, you don't want that block but still you keep carrying it since your whole lifetime. Like that person, just he has fear, fear, fear... I'll give the root, but again it comes to the same point - come to Sthitapregnata. You are the right person about yourself - don't waste the time. Don't think you're a bad person. Don't ever feel you're guilty. Whatever the actions are running in your life, that's nothing but supernatural divine force is making on you, through you. It's a divine force. In the beginning it's a divine force then after that we create tons of our own headaches. So, go one more step in depth. This several weeks - be strong enough. You will come out. We will come out. Your Swami will discuss every corner of every problem. It's an unbelievable subject. This subject you have to learn no matter what. Clear?

## *November 23*

**Student:** Are these other worlds in this dimension, in this galaxy?

**Swami:** No, outside this galaxy. It takes one and a half minutes to cross this galaxy. In this galaxy, one to one and half minutes - no problem. In this galaxy we have huge control - we can go, we can come, we can laugh. This galaxy completely belongs to us. If we cross to another galaxy it means a new kingdom, completely a different kingdom - you have no rights. All the saints from the different, different galaxies gather there in another galaxy. I'm going to write a book on that, it's big interesting and everybody's, 'Oh, who-a, who-a!'

Like this planet, there's many, many planets outside of the galaxy. It's not believable even if I talked, "Oh Swami, talk about this planet." Who cares about that planet, In this planet (Earth), completely unhappy, unworthy, tension, depression with bad habits, negativity, confusions, struggling, fear, no faith - these are all big roots in this planet. All, this huge planet is standing in these roots. Ninety-eight percent, every soul is filled with these things nowadays. Huge work to work out to make it clear - really big, big, big, big donkey service for the saints to make it happen.

Hear my point, just I'm specifically mentioning Jesus and his Mother - the relationship - what he learned from the Mother. In the universe, every mother is very, very, capable, very powerful to rise up the children. When she's growing a baby in her womb, that is the best time to giving the shaktipat and enlightenment to every children in their life. They are the number one spiritual masters in their life to their children.

If every mother did in the universe, certain process, certain systems, every person who comes from her - they'll get the real spiritual knowledge. They're very glorious persons - they're so happy, they know what is the true, what is the false, what is the reality, how to handle the negativity, no much more go to depression, like high powerful will - commanding on the God. These are all abilities the mother can give when she's in pregnant and the baby's growing in her womb, whatever the Jesus mother did - so my point is specifically on that.

Today we can go to a doctor for a physical problem. You have stomachache, headache, eye problems – he'll take care you. What about if you got heartbroken, you're not happy, you lost it, you're not any more normal person? For a depression he'll put you under medication of psychiatric problems. But if you're really heart-broken the doctor cannot take care it. Only there is a spiritual doctor can take care that. That's why very few people only got succeed in the world like a Jesus Christ, Shirdi Baba, Paramahansa... only ten or fifteen or twenty or thirty they got succeed.

Once the sciences born, the spirituality got getting down. Still, the spiritual channels is existing, the healing powers is existing, the divine cosmic channels is existing. You can still have the great amazing experiences. Everybody is worshipping like kind of a slaves to the masters, the gurus. Are you hearing very well? I help lot of Europeans since seven, eight years, ten years... to me personally, learning the English language and understanding their soul pain, and to making them to understand the *Vedic* principles and able to experience quite amazing things - that many thousands of people is gathering in front of me. Some hundreds of Westerners, they are in the red saris and early morning, five o'clock, they're attending, and they want to do some process – it's not a joke. It's not a joke!

Don't worry about your problems. Try to think all the time positive. Try to help as much as you can around you, it helps you. As much as you can, try to help around you - that's why we are here. Don't be too much for *you*, only you, you, you, you, you - your selfishness. How long you can be selfish? Where is the limit for your selfish?

You ate the food - you have no hungry. Whenever you have no hungry, try to think whoever hungry people around you. Take care of them - that is humanity. Whenever you take care hunger somebody, that soul automatically blesses you. Whenever a person really thirsty, starving for water, if you give a glass of water to the person, after he drank, you are the God to him at the moment. He really cares for you. He really blesses you from heartfully - that you need to do.

Few points - be loving, be strong enough. I know your problems - that's simple clouds. I'm not talking spirituality, put the spirituality the next. This mantras, yantras, this prayers, sadhana - you cannot do it - you're tired, fed up. If you have the time, whenever in your lifetime you can join. If you don't have the time, no need to do, just observe it, just look at that. Point one - try to be very loving.

Point two: Any problem comes - don't get shaky. You feel some divine energy is protecting you. I'm not hypnotizing here, is a true, a divine energy is protecting you no matter what. Don't get shaky.

Point three: Be forgiving nature to yourself, to somebody - just forgive it not even to again re-think it. Somebody cheated you, your girlfriend is left you, little bit harassing happened - don't go for fight, simply loving and forgive it. You practice these three techniques, three to five months. You see how your life will be. You see how much you're going to melt with love. That's enough, you no need anything.

Jesus Christ, he mentioned in his life, 'My students will become very powerful than me. My students will become very powerful than me.'

What is that mean he mentioned? The day is coming, that again after two thousand years later, again the channels started. That link is happening. That *Vedic* information is having the link again back. It needs open-heartly, accepting nature. Doesn't matter which religion is belongs to, doesn't matter which language is belongs to, doesn't matter which country person it belongs to. What you're receiving, what you're experiencing, what you're seeing, what you're tasting... if I'm eating the mango and I'm telling you, 'It's a sweet - you no need to bite.' That is a big spiritual crime!

Today many, many gurus, masters, whatever they're called, they saying, 'Ok, just you follow me. I'm your father, mother, brother, sister – everything!' They're not saying what type of process they've done it and they want to give to the students. Whatever they have, the information, they had to share it. How much people in the globe they really had the perfect information on the *Bible*? How much people had the perfect information on the *Vedas*? It's lost. That's my feeling. If it is really the channels is still alive, there is thousands, hundreds of thousands of healers - should be the globe is happy and peaceful. Today I interviewed hundred and ten people. I talked with them, hundred and ten people in usual small groups. Not two persons is happy - heart pain, heartbroken, depression, they lost it, they're crying.

My Dear Divine Souls, just I'm making you to awake, is a little wake-up call. Your Swami attendance is a wake-up call. God is in you - you are a piece of God. You are a part of God. Whatever the God have, abilities, whatever His divine channels - everything is hidden in you. You need a process, you need a guidelines to create, to bring that out, to pull that out. You cannot see the electricity in the water, you cannot see the sugar in the sugarcane - it needs a process. Once you do that process, even any scientist, some person gave a formula - you need to research on it. On the days some Vedic mantras is there, prayers - same prayers I given.

Right now, the globe - unbelievable depression. Out of one hundred people, ninety-five percent people, ninety-five people depression, heartbroken, sadness, worries, stuck... They are swimming in a big ocean, they cannot stop, you cannot stop - you have to swim.

One day you stop, then you go crazy struggling for the existence - existence for the struggle. You have to face it. You need... you already had it - the divine spark is with you. Nothing will happen to you. Today I am promising you, no matter what - in the worst case you are really falling off, you really felt, "Oh my God, I am really falling off!" You have beautiful net waiting for you to hold it for you - again it brings you back - that is Guruparampara's duty.

Try to live happily and make the people around you happily.

That is - *loka samasta sukhino bhavantu.*

You're blessing the whole world to be happy like you. You wish the whole globe: be happy, around be happy.

That is only possible whenever you keep loving, loving, loving. The loving heart - such a bliss heart, such a bliss. We need that. We need to develop that, then our lives is very immortal.

**Student:** Okay, if one of your students really wants to become a master, but is unable to spend much time here at the ashram, is it still possible to become a master?

**Swami:** Absolutely. My physical presence is not necessary. If I want to train you and to make it as a master, even in your country - thinking on me and taking the formulas and doing it, I'm there with you. I'm serious! I'll come, and I'll give you shaktipat when you're sleeping in your dreams. I might even appear in your bedroom, too. It's not a big deal. If you're in the globe I'm easy to connect - anywhere.

If they look at my picture, "Who is he?" Once they know my name, that's it. Just looking at picture - it's done - click - it's over.

A depression never comes to you once if you have no ego - depression is always linked with the ego. Whenever you have no ego, no depression, no heartbroken, no pain, you give up, fine, thanks. It's true. Try it. Try that to come out from that ego. You have to feel you're a water bubble in this flowing water. One day you have to say goodbye. There's nothing permanent what you're carrying with you. You're carrying the people's love with you. The globe has to recognize, even after you left, they have to take your life as an example. The globe has to learn what is your great qualities. Whenever you're holding the ego, you cannot forgive anybody - that is the biggest enemy. You don't have any enemies, but you to yourself, you're a big enemy.

You guys will do amazing things in the globe. It's my word. The time is coming, the globe is ready.

To help whenever you have the heart, helping nature around you, to make people happy around you. Like you have five friends and you're making them happy. Once you start to make them happy, automatically the happiness will come back to you. Whenever you're disturbing a few people around you, you receive the disturbance very crazily.

So, to create the happiness around you, it's a talent. There's no need to have a talent just to hear what their problem is. Give a little support. Give your love. Give a hug. Just you tell them you're with them, that's enough to start to create the happiness then your life will also start to become very happy - practically try it.

The person next to where you're sitting is crying. You're noticing your friend is in pain. Your minimum courtesy, is there anything you can do for that person? As a human being to a human being, a person is crying and under heartbreak and depression - send your love to counsel them, to support them, to share in their pain. It's such a great relief you're giving them. There's no medicine for the heartbroken. You can have the medicine for any type of diseases, but for inner feelings - eighty percent of the globe is under suffering with heartbreak, disturbed hearts. They're living but they don't know why they're living. They're carrying their body, but they don't know what's going on next. They're lost. You can receive what you lost only through spirituality - finally ultimate goal.

Who Buddhism, the philosophy, Lord Siddhartha - Buddha, he went under the tree to discover that. He was an emperor, he had a lot of money and stuff he had, but he wants to know what it is, what's going on - what's really going on...

Some souls, some people, some patients, some people, they're really tough, they're really strong. Even if you keep sending the energy, their soul turns like completely addiction to drugs, for example, alcohol. Their mind, heart, soul, their Brahma Consciousness, third-eye is like boom - they don't care. They're not ready to observe anybody's energy. Do you know what I'm saying?

They did pretty good, they did like seven years addiction means, they did pretty good kind of addiction meditation. Do you know what I'm saying? Like big boozing, boozing, ten years, fifteen years, twenty years... You can't make them to just stop like that, unless, you have to give kind of very gentle counseling to them step-by-step. Let them also to meditate the same time with you, sit same time and meditation. Let them also put in meditation. Gradually, without their notice, they'll calm down. I've seen many cases, thousands of people. Even if you give with big boozing, after, if he started to meditating very powerfully, they don't want it drink, its fine. With a big Valium person addiction, you can stop any time, it's okay, get out. I've seen it - I helped.

You have to recognize yourself you're a part of God. You're a part of beauty, you're a part of creation - whole creation is in you. Today is the beautiful sunshine. Tomorrow it might be snowing. The next day is a big wind. The next day is really horrible wind. It's like a season. The next of dark is light - the whole creation is in us. Whatever is coming, whatever problem is coming - be one minute strong enough.

Your daughter is driving you crazy - heartfully you bless her. That's not your mistake your daughter is driving you crazy. You like her, but everyday she's going to the bar and pubs. She got addicted to a lot of drugs. You want to pull her from that. It's really disturbing your life. It's really disturbing your happiness. At the moment, what you have to do? Give your one hundred percent True Love. Give True Sincere Love to her - that's only thing you can do. Try to pull her out as much as you can from all the bad habits.

## *December 9*

Everybody wants to know, what is the truth? There is no limit for the truth. This moment is the truth. Ten minutes later you don't know the truth. One hour later you don't know the truth. Tomorrow you don't know the truth - that is the nature. We are here, a part of in the nature, to experience whatever on the moment it's given. That type of person is only eligible is able to receive certain divinity in your soul.

We can have a hope for tomorrow. We can have a hope by next year you'll get enlightenment. You can have a hope you'll see the Jesus Christ, but one hundred percent, once if you have the hope then it draws you in illusion. Whenever I'm working with the students, I'll tell one thing here, I do another thing there. I put them confused, again I pull them to the reality. Whenever I started working with you mind-to-mind, I'm not able to give it.

## *December 10*

You want to connect the cosmic supernatural channels, but we came on earth, make sure, make sure - one day you have to take off. Before you take off, try to experience True Love, Divine Love - Satya, Dharma, Shanti, Prema.

Whenever you did Satya... you know Satya? Truth. The truth will come whenever you've done your duty. For example, Veemala I'm telling, "You have to do this." She doesn't need to, but I gave the work to her, "It's your job. Morning you go 8 a.m. until 6 p.m. stay in the hospital with the patients and help them. That's your duty. That's your dharma."

"Ok, the master said it. Swami said it. My friend Swami said it." She's doing her duty. After she's doing her duty heartfully, she's starting to get Shanti, inner satisfaction, real inner satisfaction - doing the duty very heartfully. When you're not doing your duty heartfully, you're not getting satisfaction. Whatever you do in your duties, do them heartfully.

ॐ

## *December 11*

You have to remember your life, your glory, your capabilities, your hobbies, your habits, your greatness, your duty, your dharma - how loving you are. Once you're ignoring that, even though there are a thousand people around you, you're hypnotizing yourself you're bad, you're heartbroken...

She had heartbreak in her mind, maybe little bit time, it's painful. Why you need to think back on painful things? You already got little punches. Be careful not to come same punches back again. You know what I'm saying? It's enough. It's done. You've been six relationships - don't expect seventh relationship will be happy. Water is water; bitter is bitter - that's your mind setup. You have a problem in you - don't think the problem is outside. You're throwing the problem and again the problem is coming back to you. If you really know how to solve the problem, you can do it.

## *December 12*

If you took the Shiva character, ash burning, the smell, never takes shower like ten days, fifteen days, His total hands is muddy - crazy smell, you don't care but you are very... both is ok. But that way of Shiva character means they are pretty super careful with illusions. Even Baba, he chose small little Dwarkamai. Still the people started beating him, throwing the rocks, not feeding him, treating him as a black magician - tortures, tortures.

Why he took that? Whenever he wanted to do sadhana, he didn't want to get disturbed. You know what I'm saying? Like you guys are all sitting there, each person I take like five, ten minutes time, my day is finished. One month is gone. In my life span one month is gone means - that's a lot. That's a lot. I cannot purchase again the time - they chose that way.

The lucky is, this fort is pretty powerful protection circle. Who is really doing in the fort the sadhana, it's pretty good trigger on. Unnecessarily the illusions can't come and disturb, already some protection circles are there. So, it's not that easy outside illusions can come and disturb. Does it make sense?

It's the time to change the globe, to the belief system, to the coming new generations to know the ancient formulas what already exists. To know the ancient sculptures, the power stones, power objects - belief systems thousands of years back. They researched and wrote many books, what is hidden in the truth. Jesus Christ is a beautiful soul. Like that soul, there's hundreds, thousands. You know what I'm saying? Hello? So, it needs to go beyond. We like Shirdi Baba - good. His message is 'practice and patience.' Good. But what do you mean by 'practice and patience?' What did he practice? That's what we want to know. If I'm in your position, that's what I do. Where he got the abilities? Today he has thousands of temples. Wonderful. Today he's helping tremendously through his Samadhi.

Why can't you become like that? Why can't you create, at least in some people, happiness in the globe? Why only Buddha, Jesus Christ, Paramahansa Ramakrishna, Ramana Maharshi, why only some souls? Why not everybody? What they learned that we're not able to learn? That's my message to the globe - to practice that. Baba simply he said indirectly, "Practice and patience."

## *December 14*

You can see once if you're entering the fort - Mahakali is attacking the tiger with trishula, and one cobra is also attacking on the tiger. On the days, they put powerful yantras under the rocks in the fort. They fixed the bhandana so for thousands of years no illusions can come and touch it. The fort has itself - huge fragrance.

ॐ.

*December 15*

For example, even though Baba he's a little bit angry person, but same time he's unbelievably, loving. Jesus Christ - just Jesus Christ means pure love and forgiveness. Whenever the love is there, automatically you'll start forgiving. You won't the tiny problem in a big lens. Whenever there's no love, a small problem you're seeing with a huge lens then it's really bigger. Then the big problems start.

So today my suggestion and advice - practice pure, divine love. Then you see the results. That love, that energy is the supreme love you can gain. Good luck!

ॐ .

## *December 16*

Try to do as much as you can to take care of the human hearts, and the charity, whatever the angles, whatever you can do. Once to win the true love... once how much you love yourself... If you are loving somebody around you the same equal amount, the sharing of that love, that is the pure sathya, that is your dharma, then automatically your inner peace will develop. Once your inner peace will develop, automatically you will start a peace of mind, peace of heart, and peace of soul. Peace - completely peace, quietness, stithapregnatha will start to grow in you.

ॐ

## *December 17*

Right now, whatever we see, the human beings, it's only one percent - ninety-nine percent they're hanging around in different angles with the different planets. So, this is one of tough planet. I told it before, same like you, there are several. If something is happening from here, it means it's like some good is happening is there, also operating. They know very well, then you know what it's really about... the, the, the, the Soul Mates.

That's why the Saptarishis came from one Rishi. Mahakali is created of all energies in one form. Mahakali means everything is there - Brahma, Vishnu, Maheswara, Parvati, Lakshmi and Saraswati, all Rishis, all Devatas, all Angels - everything is one soul - that is Mahakali. Once you're worshipping Mahakali then you're worshipping everybody. That's why I always say to you guys, "Chant Mahakali prayer, try to chant Mahakali prayer 1,008 times - five hours, ten hours, fifteen hours - keep go chanting it.

ॐ

## *December 18*

After you got the Shanti, you start getting (to) loving the people around you, the love - Prema. Once if the love is around you - that is Satya, that is the truth. You don't need to find for the Truth anywhere. Satya, Dharma, Shanti, Prema. Dharma - do it, you'll receive the Shanti. Once if you receive Shanti then all the loving people, huge love is flowing around you, True Love - that is reality, that is Satya. That is enough.

Truthful friends are around you. Loving friends are around you. You have the job satisfaction. You're doing your meditation perfectly. You're satisfied - that's your duty. Understand guys? Whatever you do, remember you're a doctor, a business person... whatever you do today - do it heartfully. Don't do it with dissatisfaction, that's hell. No need to torture yourself unnecessarily, not having satisfaction. Clear?

You might have the huge question mark, “What is the consciousness? Where is the consciousness?” I’ll teach that. Once the consciousness picture, the layers of the consciousness - putting it step-by-step the different consciousness, then we’re in this stage of consciousness now. You’re in different stage right now of consciousness. It’s like an onion, layer-by-layer, layer-by-layer but it’s not linked with, to each layer. It has its own individual layer.

Having a desire - one consciousness. You’re very close to be with the desire - one consciousness. You’re involved in the desire - different consciousness. You’re enjoying the desire - different consciousness. You’re closing the desire - different consciousness. You’re completely finished your desire - different consciousness. Then you really had a desire, you want to run away from that place! Still you have a link there. You wanted that too, somewhere very strongly too, but you’re asking a break there. You’re asking a break.

Never know what tomorrow will happen, even to me. Five times I planned for going to Samadhi, real Samadhi. Three times I left with my soul, came back in three days. Then everything I prepared - let's go. Then Big Boss JC, he put a huge work. "Try. If you're able to do it, good, otherwise do whatever you want." Just he said, "Try." Ok. Doesn't matter even I go back, again I need to come.

If you hang with this body, it's ok. So, try to see the reality. The real bliss is how much you love yourself. Whenever you start to love on yourself, you can love somebody. Whenever you're not loving on yourself, you can't love somebody honestly. Whenever you start worrying about yourself, you cannot solve somebody's problems. It's a standard golden statement, stop worrying about you, let me worry about you. I will worry for you, that makes sense - throw your weight on me, I'll take care. Send a message by cosmic or write whatever you can, big letter. Believe me, I read every person's letter. So, and so person, I know what's story is there. Just write it and leave it. I'll take care. Stop worrying about yourself. Ok? Super.

Today, what I did the fire puja, what I really asked of Shiva and Mother Mary, and Lakshmi, Durga, Saraswati - to bless all the souls to get out from all the blocks, fulfill their wishes, to give them strength enough to lead your life happily and peacefully.

Happiness and peaceful, joyful life is priceless. The knowledge is different. Your sadhana is different. Your practice with the Divine Channels is different. You might have tons of your own headaches, natural problems, family problems, financial difficulties. You have to do hard work. You have to lead your life. Without doing hard work you can't survive. You have your house rent, health insurance, car, gas, food, all your normal life. You need prosperity. Once you have enough certain comforts... I blessed today, the majority what you need in your life. What's happening is, whenever you have enough comfort then you're going for the addictions, you're not going to God. You ignore. Does it make sense? Hello?

Jesus, he said, "My students will become very powerful than me!" That's my ambition! I want to become, to make you healers. I want you to be strong healers to help the globe around you. Each student who was here, helping at least ten people around you - your family members, your friends, your circle, then it keeps spreading it. Keep? Spreading it.

So, spirituality, God never says, "Don't do this - do this. Do not - do this." He's given everything. Don't waste the time. Don't lose the health - be disciplined. Discipline is the most important.

## *December 23*

Once Master and you work together, then you can see results. Even you are doing a lot of your responsibilities, it is ok, but spend little time for your spiritual growth. This is the final ultimate happy and peace. To searching, to finding the God, to finding the true love, it is easy. Once you did hard work, that is always Sathya, Dharma, Shanti, Prema - these four concepts are most important.

First try to live in your dharma. Your Dharma means your duty. Who decides your duty? You have a family. Good. You have friends. Good. I am telling that simple way. God and any spiritual person's duty - first you be happy and then you make around you happy. If you are a candlelight flaming - try to create more candles around you.

ॐ

## *December 24*

Try to spread, whatever you know the knowledge, around you. That is Dharma. Once, if you keep doing your duty... for example, if I had the desire, I want to learn on the doctorism for the operation on the heart, it is good, but I have to think and see if I really want to learn as a doctorism. I have to go to college like six, seven years then I have to test, then I have to prove. That is one category of service. As a doctor you can do the operation to the heart, you can cure some sickness.

But the real doctor is, who really heal the heartbroken, who has really painful heart, to take care them. Being specialized on the soul - that is the most powerful job in the globe, eighty percent of the globe is like that. A simple doctor profession to learn to be, six, seven years it takes it, it takes it. To be a master on the soul, how much time it takes it? May be a lifetime, maybe many lifetimes - I am talking very logic here. Why I am saying this? You need patience. That's why I said, determination, devotion, dedication - the most important.

ॐ

## *December 25*

Christmas means bringing the light to every person in their heart - to remove the darkness. The great soul came on earth to remove the darkness in each person. It's good and wonderful, but there's a lot of saints like a Jesus Christ from many, many thousands of years they came, and they've gone, but the top, most powerful soul is Jesus Christ.

You're really dedicated, surrendered and fall in love with no matter what, whoever it is, either Jesus Christ, or Baba, or Buddha, any Maharshis, moon energy, sun energy, all elements, Shiva, Shakti, Mother, Babaji, Guruji, whoever you like - fine.

That spark of the love, a spark of inspiration of the love - that you need to create it, that needs to come out. That thunder, a spark - that needs to come out. It means two clouds very badly needs to hit it, then the thunder needs to come down to the ground. Then you need it to stay there and it hits it on your third-eye. It's not a big deal to me. It's not a, big deal to me, I'm not overconfident, but I'm confident.

Then knowing the Jesus Christ life, that's secondary. To understand the mechanism of the Divine Channels - that is the first priority. You know what I'm saying? A scorpion bite happened. The poison is there in the body and a person is in pain. Doesn't matter you're a Buddhism, a Hinduism, a Christianity, which religion you are - how to take the poison out, that's the concept. That is the, concept.

Aham Brahmasmi - everywhere is Brahma Consciousness. We're all one – it's a unity. We are one.

It doesn't matter if you're born in a different country, different city, different village – whatever your religion, whatever your belief system – we're all one. But where are you in one? Where are you in one? That, you need to identify which place you are in that one. You understand?

That oneness...that is the most greatness. From that oneness you need to establish the great integrity, the fragrance, to connect to any soul whenever you want, wherever you want. Jesus Christ did it.

Whenever you sacrificed, when you offer your soul to the Almighty with pure open heart, of course the Almighty will accept you. Incredible amazing genius energy will start to flow in you. Whenever the energy is flowing, then you can taste that nectar of the energy, then you can feel it. That's a part of Satya. That energy will make you do your duties in a proper way - that's called Dharma. Whenever you're doing your duties perfectly, you'll get automatically inner bliss - that's called Shanti. Whenever you did your works, after you got satisfaction, again the reflection back, the affection... For example, a dog is so hungry. You have a piece of bread, you feed the dog, after he ate it of course he will be very happy. That reflection back is so happy that you receive the Prema. Satya, Dharma, Shanti, Prema. Whoever follows the four principles with open determined heart - each person is Jesus. You can become more than Jesus. Does it make sense?

So, what every person has to do? You have to offer your soul to use to the Almighty. You have to put your sankalpam there, Yat bhava tat bhavati, that's very, very important. Without sankalpam it's impossible to happen. That's called Sankalpam Siddhi. I explained it before, Jesus is the symbol for love. Love is Jesus, Jesus is the love - he doesn't care about himself, he cares about others. Whenever he's caring about others, but Almighty will care about him. Of course, his body suffered, but his soul didn't suffer. He's a huge amazing unbelievable top number one magnet soul in this planet - until now, the leading. He really wanted to prepare like him, powerful healers and powerful miraculous persons in this planet. Now it's started, two thousand years is over - it's started.

The most top supernatural subject is spirituality. Certain things we can proof to the science, but it is beyond the science. The scientists, they really can explain your heart feelings? The scientists can really talk about your true love what is in you? The scientists can explain how much faith you have on the God? There is no answer to the scientists. This is completely the feelings. Once if you have the great fall in love, really deep fall in love with spirituality, every minute, every day is the bliss - the nectar keeps flowing in you. If you're doing it as a kind of a duty, it is ok, slowly you jumping it, but you have to the duty, the process, whatever the meditation, with an open heart.
