# Christmas Program 1999

Angels, Jesus and High Divine Power

Teaching at the Ashram

December 16, 1999

**Swami:** Welcome my Dear Divine Souls. This program is very interesting, very deep and very high-energy process. Today I'm going to discussion about the supernatural energy: How did Jesus, the ancient saints, powerful divine souls, how they became very, very successful in the universe like a top ten - one, two, three, four, five, like in a finger we can count, how they went in the energy process, how they success. Even including Shirdi Baba. If everybody, why certain people only who came as a human form, they're getting very, very high successful in spiritual power...the remaining people why they can't. Is it hard work, or their good luck, or their past life meditation power, or their master is helping?

Even though certain students doing really hard work, they're getting failure. They're not receiving anything. Why the energy mechanism is giving such a huge, little strange problems in the human beings not to success to reach the Gods? Suppose if you want to repair your watch. There are certain fundamentals. If you're trying how to fix the watch easily, you can fix it with the same formula. For to spiritually, there is no any perfect one formula. If you do this formula, you can contact the angel, you can contact this one, you can do this miracle, there is no anyone perfect formula there, because of, it's a God big creation.

We can't see our similar faces anywhere in the universe, like two, three, four - only very few. Some billions of people is in the universe, in the planet. We can't see like a similar faces, same printing like that, is it possible? Like a hundred percent similar? That is God's mechanism. Why Shirdi Baba can demonstrate miracles? Why Jesus can do miracles? Why Buddha can do miracles? Why can't we, can't do that? Because of their hard work, their master's help, their previous good karma? Today we are going to talk on that subject.

These are all my talking. These are all my personal experience what I went through, the door. It is my experience what I research. I have thousands of Indian saints friends, I have in my life. Very old saints, thin saints, middle aged saints, different people. After seeing all their experiences and their feelings, I got one big conclusion, one big statement, one theory - that theory I'm going to talk. Jesus, he came India. When he is in a very early age he came to India to research on the God. He traveled almost all India. He studied, means he did a conversation with many, many different saints in India. Finally, he got power in India. The power... first beginning stage every person in the life, it starts with the angels.

We can't see directly God, the power? God, he creates some angels. If you reach one highest stage, a saint can create some angels - his own workers. He can create some spirits, good divine spirits. That spirits, when the holy man he created like a... suppose hundred spirits, hundred divine angels, after his soul died, not soul... after his body died then all the angel power comes back again to the soul, his soul. You understand here? No? Yes? Gosh, Ok, suppose me, I reach one stage. As in my person, thousands of people here, devotees came. Each person has one problem. I can't talk to them what is their problem. There is a high process there in the universe in the Indian Tradition. One soul, a powerful soul can cultivate some angels. He can create some angels. He's a power he can make it around him.

That angels, if he saw them one time with his eyes, God bless you. In his mind, one fraction of one thought, "No problem, I will solve your problem. Don't worry, I can solve your problem." Connecting to one of his angel to giving the responsibility to take care of that person to solve that problem to make him happy. Then he walks.

That one word, that blessing, his meditation powers part of in the form of the angels - it continuationally until it solves that man's problem, it works and it makes him happy. When that work is done, then again it comes back to him. Like that in India, many, many saints, hundreds of thousands of saints, they meditated in India very high powerfully. They created incredible power to themselves. Then they're dying, they're not receiving back their power - just they throw it out to the universe to help.

Suppose, I am... I created like six hundred angels to telling to take care of my students...certain people very carefully. I take off my soul.

I died. After I died, that angels never comes back because of it is on the duty to take care on their students. Then the person died. He stays in his samadhi his soul, or he goes back to the next life, or he stays in his samadhi to producing to getting channeling with the super cosmic energy. When he is connecting... ninety percent saints in India, they never circle back again their power. Whatever they produce, whatever they cultivated in the universe, they never circle back again into them - just they offer to the universe to help. Such type of power is a huge in India. Still is there, it's not never went back again to them. That type of power like a angels with the divine soul, whatever they cultivated - huge power is there in India right now, even now.

That formula, whatever a person, a saint he teach to his students, that student learn from another, again to their student, again their student, from their student through the palm leaves. Like the mantras, who keeping on practicing that, indirectly they're hooking the angel power. But a person, a master need to a little push the divine power to them in their souls. If a master push them to little bit in the power process, then they can easily connect. Then they can connect easily. You understand? It seems a little bit crazy but it's absolutely one hundred percent true. Jesus, he never do directly...my experience he never do directly all his works by personally.

Suppose me, I never do my works directly going each persons - some hundreds of thousands I have my students entire in India, different global wise. They're getting benefits. I never do directly to them. Whatever I created my power, it helps them. Like the Jesus, he created - he's the number one man in the universe, number one powerful person in the universe who created high powerful angels in the universe. He's only his soul, big powerful soul for to sacrifice to the universe for to helpful. His complete focus, his duty is to cultivate the angels to create the power in the universe, the love, and to spreading highest healing capability. Who he prays like that on him - the healing energy, they can suck it. Even sometimes me, I'm a little selfish sometimes, ok, talking with Martin, flirting with him like making jokes, like a making some boundaries and going in the little happiness. Happy with him, then again come back.

The Jesus energy, Jesus, his complete whole life dedicated to the process of creating high power. That's why in entire the universe, whole planet, in many planets, he got the number one priority. He

who sucks the highest negativity, who came as a human body - he's the number one. Who got the, the unbelievable painful result, unbelievable painful bad reflect - number one person is the Jesus. Number one hard worker to creating power is the Jesus. He did this work, again same level from the people he got the negativity. He can, he can easily, can wash out that. A person when they are whipping him, beating with whip, with his power he can change like a garland, like a flower garland, that one like that (*Swami snaps fingers*). When they're making the nails, beating him, he can make a rose flower. The hammer can change like a flower's petal. He's the man of power, God, but he's in the universe - he came as a human body. He has to, whatever he cultivated, the same process, he had accept the negativity also.

My message today - don't feel you have the problems, don't feel you are so happy like, "I got money, I got a beautiful wife, I have children." Don't feel like yourself egoism. It's a big drama, it's a God drama. One day if you're happy, next day there is unhappy. Even though for one year you are happy, next again for one month, again there is unhappy - it's a cycle, it's a chain...just you ignore it. Do your dharma. Do your process. Your process is to find the God, to connect the God. Nobody have no idea when we're going to die. How long we are going to stay on his planet. We can enjoy as much as we can when we are here. That is temporary enjoyments. The real enjoyment, if you connected one time to the cosmic, to the God energy, God power - that is the real happiness, drop by drop drinking the heaven. Drop by drop drinking like honey, tasting the honey.

My experience, since ten days, I went really, really, really, hard time. I never went through like that in my life. I'm doing the Jesus energy process. I'm a... sometimes I'm a little stupid, seriously. When I connected to the Jesus meditation, with the Jesus, "Hey, I want to take your energy, a little bit your painful." (*snaps finger*) Period. I took all of my student's crosses, just I lay down here, I connected. I sucked him in my heart. It's not painful, just I took his energy to processing how it is like. Like a taking a one person's motorbike to drive, "Ok, give me motor bike to drive. Ok, give me motorbike. I want to drive like two kilometers, then I will give it back to you." His motor-bike is a little new, "Where is the gear? Where is the accelerator? Where is..." completely wild, like his energy, way of his channeling to controlling the universe... He have his own channel, I have my own channel, Baba have own channel, but all channels finally it reaches the God.

I took his energy. Energy means negative energy, what he suffered. One person immediately fall down from the roof. His head is completely broke. I took him in my hands. The blood, the blood is bleeding like a tap water. He's complete out of trance and he's getting hands...my worker, like two weeks back, he's like shaking his hands and his eyes is complete... He fall down from top of the roof, fall down exact on the rock. He have no idea how he fall down. His eyes is completely watching, and crying, and he closing his eyes. That blood, its came like a huge... whole his body - just I watch, "Oh God." It's better to follow my channel, this is completely little scared and weird.

That poor man getting bleeding, ready to die - then immediately I changed my channel. I gave as much as I can the first number one healing not to injuring any his brain. The next day, early morning - no brain damage! The blood, every things done...he's happy, he's eating like twenty idlys! Then next early morning I took shower. Just I say I came and I sat here. I thought that night, next night I had to give back that Jesus channel, his painful channel back to him.

Before the evening I got again, one news by the phone. Your mother is fall down from the motorbike. Your brother did accident, again, same problem. My mother next day morning, she got head injured, blood is cracked in the brain. She can't tolerate her pain. I got the phone message. I decided, "Oh my God! The biggest stupid work I did to take the Jesus channel to his painful..." I can enjoy it, I can see that.

Immediately calling the helicopter, I did as much of healing on her...but it's my dharma to check up with her the doctor. I started my car. I'm going to pick up her to go Bangalore. It's a brand new car, Ford. That car radiator broke. Whole engine is getting vapping, like hot. The vehicle is not moving. At the time there is no car at the ashram. It's a small village, you can't get any, another car. Is it really weird? Then what can I do? She is like a...just I saw her. She came in like a big van. That van is like a very old, like thirty years old van. She is watching me, "Who are you?" First beginning, like she went out of trance like, like little crying, big painful like, "What is this?" Then I call the helicopter.

When before I'm calling, I have no number helicopter persons, only Anya have. Anya is not here, she's in the Bangalore; everybody went

to the Bangalore. Here the local doctor came. He saying, "I can't give guarantee, maybe in a few hours she will be die the blood is not going to the brain, no doubt, in two or three hours I can't give guarantee no more."

I have to protect my mother. She's the first lady I have to give priority in the universe, "Oh my God what is this?" Then simply I came, just I stand near Baba. Complete I commanded on the Jesus, "Don't play tricks, no games," like very strongly focusing. Then I called to Oberoi, the hotel Oberoi. Luckily there is the one girl who is really crazy on Swami, like a big student. She picked up the phone, then she is shouting on the phone, "Oh you are on the phone? You are calling me? What I'm lucky." I'm like, "Stop it! I need your help. I want your help. Contact immediately to the helicopter person. Land the helicopter here."

Then the helicopter came in time. We went to hospital. The doctor checked. They give some injections, whatever it is. Next day in a two, three hours she's fine. Next day morning she came back to the home. Why I'm saying this? Taking over-weight, not over-weight, getting practicing one channel. Suppose one horse... suppose my horse, she can't ride it. She need practice how to control that horse. Her horse, if I'm so expert, huge expert, we can ride it but even though riding it can make a little shake for one or two miles. Like one or two miles little shaking. Like this happening...heart broken, like giving, pulling out my attention.

It is not the Jesus testing on me. Whatever the testings came to the Jesus - that testings little bit it came to me. How horrible. Why I'm saying this - every person after the 2000, your hearts and your body will become very powerful healers. When you're starting giving the healing, when you are washing certain people karmas, that karmas where it go? It goes to you, or it goes to God, or it goes to your master - to whom? If your master is not taking, if your God is not taking, if it comes to you, what is your position? Definitely, suppose there is some dirt. They're putting some water and cleaning it. That dust is going into the water. Something it has to take. One percent karma you're washing and you're receiving it. After you receiving you have to discharge.

In this program I'm giving to some channels. No need to depend on the God. No need to depend on the master. Yourself, you're a master.

From the 2000, it's a big boon. Everybody can heal any...like thousands of people right away. That karma you can burn in a one minute. After you burn the karma, again you can send to your master. Again, after you send to the master, again if you feel little uncomfortable you can send to the God (*snap*) like that immediately. You're completely free. That how to purify through the using angels? There's a big one strong faith Indian tradition. When God's sending each person on this planet, God is sending each person one angel. Until to they die, one angel is completely following them. I don't know what we call it in Western terms...

Student: Guardian Angel.

**Swami:** Like that, something, Indian tradition also same, like one angel. Like using your guardian angel. Using your guardian angel to creating many angels around complete your life, taking caring that angels. How to create your own angels around you? That angels, without your notice, it brings the God in front of you. How to do the process? Like a guardian angel, God gave to you through that seed, seed of the guardian angel. How to cultivate to bring many angels around you? When there is many angels around you, then you'll become automatically, very powerful healer. Without your notice, even though you don't know what you're doing, if you're touching and your praying, lot of healing benefits is going there.

It means, yourself soul power is increasing, the angels is attracting around you, it's helping you a lot. Your soul magnet power is increasing high, powerfully. It sucks a lot. So, everybody four to five minutes pray to Baba, five minutes deeply till your guardian angel stands with you to create more angels. Now I'm going to start to give the shaktipats, again we have to talk. A, I'm giving certain personal mantras to everybody.

*(Short meditation)*

Heavy energy... everybody sleepy? Awake? How many people sleepy, sleepy like ready to go sleeping? I think already Ramakrishna slept one hour, he didn't meditate just he's sleeping. Ok. How to create, everyday our program will be like minimum fifteen hours. Like every day, like practicing, meditating. Swami's talking and your practicing and meditating, it's like for a day like a fifteen hours program. No compromising...must.

How to create the angel power? I told already previous about by what is meant by the angel? Anybody have any idea, Ramakrishna, about angel?

Ramakrishna: The energy is a pot in nature, a pot of energy.

**Swami:** Why the pot of energy gather? How it created?

Jonathan: By the desire, the intention of the person to do something good.

**Swami:** No. Anybody? How the angel created? If the angel is a pot of the energy; how it possible to fix like in the form of the power? What is in the deepest secret mechanism is there in the power of the angel?

Student: Light?

**Swami:** There is a lot of light in the universe.

Student: Willpower?

**Swami:** Pot of, ok listen. When we are reading Baba history... Baba story we can see in the history, Baba's history, his meditation power, his meditation energy... his soul battery, high charged battery soul, he pulled out, he made in the form of the four flames. He made under the ground and he buried it. He buried it, that four flames: Satya, Dharma, Shanti, Prema. That four lights, even now if we dig in the gurusthan in Shirdi place where the Baba lives, we can see the lights.

At the Shirdi village at the time, the people they saw, hundreds of people when they dig there's a four flames. No oil, nothing is there. The candles is flaming there in a vessel, like a four vessels. There is no oil, nothing is there candles is burning. That is Baba's... Baba's charged without their notice, high. But we don't know how much he charge your soul. How to recognize your soul is getting higher, and powerful, and bigger, and it is getting high enlightenment? That soul power, how it possible you can pull out? How to fulfill back? If you pull out that energy, how to implement whatever you want in the form of...to create your desire. The, generally in the form of angels means... here I'm talking just little different subject, not different, same subject with a different angle. I gave different idea before. The angel you use means - is saint, a person's soul power a part of a

divine soul, it's came from a divine master.

Like a male, female making the love, producing a baby. Your soul, connecting that God, making hooking, producing an angel - that angel making you grow up. Growing up means training that, training whatever you want to do your works. Putting in your control until to your body take off, your soul take off back to direct next life...that soul, that angel continuously starting to helping you. We are making, producing babies, the divine masters producing the angel, connecting the God. Even though they're connecting the God, they don't know how to produce the angels. That is in this program I'm going to explain in the higher, deeper level stages.

If a man and female when they're making love, automatically baby they're getting. That is the God nature. Then you're starting to connecting to the God. If you go right path, you can create the new power, you can create the God power through the angels, the form of the angels. It's not big deal. Here, how to connect the God. Is the God means...I already told, even though whoever comes in the form of the physical form, not only Shirdi Baba, not only Jesus, not only Buddha, anybody, they're in control of the five elements. They have to surrender to the five elements. They have to accept the five element's energy. They can't go beyond the five elements. Sometime some part, they can command on the five elements, but complete whole their body made from the five elements.

If they understand, if they can suck the secrecy of the five element's power inside of the, whatever the five elements, then they can become the powerful souls. Wherever we go in entire the universe, any temple, any church, we're using the flame, we're using the water... holy flame, holy water, the air, all - we're using the five elements. If you can understand the elements, if you can suck the power in the five elements...suck means, to connect that, then you can connect anywhere in the universe.

We're talking the phone. In the wind the wireless is going to London, wherever to America, to Germany. We are using the air element that, waves is going like that - zzzssttt. If your soul connected with the air, from here you can heal your friend wherever he is...the sick, heart problem, painful, heartbroken, whatever it is there. From here you're prayers if you do, through the air that energy can go, it affects on him and he can heal.

The God energy... the God means whatever the energy, have the five elements. It's like a sugar cane. If you want the juggery, sugar, if you want like a raw material sugar from the sugar cane, you have to make the sugar cane to juice it. You have to make the some process, then you can get the raw material, or like a milk hidden in the ghee. We can't take from the milk directly, ghee. You have to make the curd, then make the butter, then butter you have to boil, then you can taste the real taste of the ghee.

Like that in the five elements, if you started to connect that, you can suck the energy. That is the God...first God, when he is starting to create all the universe, he took the five pillars - that five pillars is the five elements. Using that five basic pillars, then he built entire this planet. If any one pillar lost, there is no planet. There is not creation at all - nothing, everything empty. In the emptiness, using of these five elements, then he built up.

What I recommend, if you started to do all the practicing, the Five Elements Channels, even though your mind thinks little crazy, "Hey, Swami, what is that? If I am chanting the Earth mantra, is it like I'm connecting to the earth?" "Yes." Like saying, Om Aim Kleem Saoum... (*Earth Mantra*) But if you're going on saying the mantra, you're connecting to the earth, to the beginners it is a little crazy. Of course, it is crazy, but it's not crazy. Like a making, like a making like a machine perfect fixing... that you in your mind, you have strong intention you are charging Earth Mantra.

That mantra, like a powerful vibration mantra, you are pulling out, then you are chanting it and you are chanting it. In your body, complete your flesh and all your meat, everything, it's one part called earth. When you keeping on chanting and chanting, certain vibrations starts from your body, then the vibrations will connect you to the earth. Without your notice, your body and the earth vibrations started to... the earth have incredible vibrations in the universe. In earth certain parts of all places, certain rocks, certain sand, certain mud... like a electric vibrations. I have a one special stone. In my entire my life I showed only two persons. It's not a magnet. It's not like a metal, it's a pure stone rock. If you hold it, your hands starting to like a nervous disease, like a bluzzing. Beginning stage to me, holding that, I can't, little... like an electric shock. In the universe there is only like one stone... in the universe like only one - it is too heavy just I kept it. Definitely in this group, two or three, like three or

four people I'm showing in this trip. It's not for everybody. We'll see who is the lucky guys. Like the earth ground have certain vibrations. When you started your body like chanting and chanting, whole in the universe the people is walking on the earth. When you connected the earth energy your body is high capable to heal any person to any problem because of, that energy already you bring it up, high charge...then you're giving it. So first try to suck the power in the five elements.

When your body completely fulfilled with the vibrations of the five elements, then automatically your mind and your thoughts, your heart, it means your soul started to like a bud, to opening like a flower. When your starting to your soul like blooming up, even when you are sleeping, somebody coming and talking to your ears, your intuition telling to you before, something is running the future, what is going on there?

Some diseases even if you touch it will heals. Any heartbroken people if they come to you, just if you're touching them, "Don't worry, be happy," just hugging them, like in a few minutes complete like heartbroken, like a craziness, it will go away. What is the mechanism running there? The energy flowing from you to that person and you're sucking that. That pain you're sucking. Without your notice, it is dissolving in your high powerful energy. Then the person is getting relief and better, and happy, and big smiling face. This all is coming from not you, you are just a part of a doll in front of the God hands.

If we feel, "I'm the healer, I'm the big man," it means you're the biggest stupid in the universe. Completely it's God energy. When it's flowing, when you're starting to helping the people, when is a result when you're seeing is growing up, it means God energy flowing through you. At the time you have to be very honor, respectful, humbleness, complete surrendering nature like a big open heart. You have to become as a man of the love. When your heart is completely changing with the huge love, God is your big servant. God is not like a big man, powerful like wearing a big crown and diamonds and like... God is our slave. God is our servant.

When is that? When your heart is completely open - no egoism, no jealousy, complete surrendering to him. There is the divine powers in you, he is with you. That's why Jesus became the supreme number

one powerful master in the universe. Even though whatever the children, whatever the students, whatever the human beings giving the trouble to him, his action is simply smiling and accepting. Simply smiling, “Ok, do it. My father making you to do like this way, I’m so happy,” because of, he tasted the God power. He did the unbelievable miracles. He knows the God power. That same God, again, he’s giving different testings to the people. He no need to command on the God. He no need to be angry on the people. He never use for his power for his selfishness. Simply just his heart is open and smiling and accepting. That is why he became entire in the universe the highest, powerful master.

Because of the love mean Jesus, Jesus means love. Don’t expect everybody here, “Ok, we’ll go to Swami Kaleshwar. If we learn this mantra and that mantra, and that mantra we can get the power, we can become big healer.” No way! You have to improve your love, purity, divinity, big surrendering nature to the God, to understanding between you and your family members, and your friends, then only you can successful entire your life. Powers is not in your pocket. We can make the money. We can make the name and fame. We can get the beautiful husband. We can get the beautiful wife. But we can’t get the God without love. There is no any power in you except the God. If you have the power, if you feel like that way, it means it’s only coming from God, it’s not coming from you.

Suppose I’m coming outside every day. I’m surrendering to the master’s feet, taking permission and sitting here. Like if I’m feeling myself, “Ok, I, myself, I have thousands and thousands of students, I no need to surrender to that statue, that Baba. Why I sit here? Why I surrender to him? No need.” Me is nothing. Without him, there is no Swami Kaleshwar. With Baba there is Swami Kaleshwar. With God everybody can do anything. Even any big hero, without God help, he’s a big zero. Even a big hero, if there is no God grace, he is a big zero. So, we need God grace, God love, God blessing. We no need to be huge hungry to find Him. He is in us. In us means that five elements, whatever we are purifying, we need to purify that. We need to charge that.

In this program, I am completely charging everybody the Five Elements. But everybody’ duty is you have to remember all the mantras. You no need to chanting like forty-one days, twenty-one days, hundred days—no need. If you can remember all the mantras

perfectly, Swami's charging each person powerfully the five elements vibrations. But my sincere advice, when I'm charging any one person, after I gave the shaktipat, within that five, six, seven minutes, don't touch somebody else. Don't go immediately to the toilet, like a pee. Don't go away like five minutes. There after you can go wherever you want, walk and come back, walk and come back and lay down. You can touch.

Maybe you're thinking, "Oh, Swami touching... what happens, simply like it's a little warm, hard, cool?" That's fine. No. You can see, you can feel that day by day, the energy how it is growing in you. There is a nine energy treasures in our body. There is a nine big pots in our body. When I'm giving the shaktipat, the people in the Indian tradition, they goes talking different chakras.

Lothar: Can you repeat Swami?

**Swami:** If we started... I'm sorry, can you give one-minute time to me - little emergency.

*(Swami returns)*

**Swami:** So, in the five elements, Swami will charge to each person. When I gave the shaktipat, that five minutes don't touch anybody, don't touch to the ground, don't go to the toilet. When you are sitting in the meditation, make sure you're not sitting on the floor. Something you have to sit on, a mat. It's very important and another advice, if anybody have a smoking habit, must stop it. Somebody gave a promise, again they're continuing it. I know some of my students, they promised me, again they're smoking, they're...

If you're smoking it means you're losing your energy. One time if you breathe, when you release the smoke some of your energy your... Don't think, "Oh Swami, Baba smokes." Don't compare with high category people. A person who is expert a motorbike, he can drive without no hands on the steering. He can drive like that his self. The beginners if he go like that, in a few hours we can see him in the hospital. Same way when you have a highest, highest connecting channels, talking same spirits, talking the angels, seeing some divine powers, understanding the illusions, understanding of your own reality life, truth of the big universe, truth of this universe... these are all big stuff when you reach that stages. The world is this part...you are this part. You are complete different from the world even though

you are in the world, but it is not touched to you. You are completely away from the world. When you are away from the world, like such type of feelings when you started come from you, then your spiritual real life starting growing up. This is saying by words, simple. Practically experiencing that stage, practically experiencing that thoughts, coming creating that thoughts in your heart, that is very, very difficult. That is very, very important. Generally, it never comes like that.

For example, Shirdi Baba in his village, he's a very simple man. Thousands of students came to him, hundreds of thousands of students came to getting healing and going back. But he never attached to anybody. He never attached for anything in the universe. Like sometimes he never take shower for two months...the dirty clothes. Some of his best student, Tatya like a he stands in front of Baba, "No, you have to take shower. You have to change that dress, otherwise I never eat the food. I never drink the water." In front of Baba temple, he sits like that. Like one day, two days, three days. Baba is in the deepest, in his meditation somewhere in the deep avadhuta stage. Then Baba goes, "Hey, why you torturing me? Go away. Get out from my ashram. Get out from my temple. I no need to change my dress. I no need to wash my outer outside of my body. If my body is getting smelling, you go away from me."

But he's saying, "Baba you have to take shower. There is a beautiful dress. You have to wear this, otherwise I never eat food." Actually, he did for two days, three days—no food. After seeing Baba, him, sometimes Baba he goes away from the mosque from his temple under the trees like from morning to next day morning. Baba is meditating in a trance like a three days, four days like in a trance, again, he comes back to the temple. His student Tatya, is still there sitting. He have to take a shower, change the dress. Then, Baba goes, "Oh my boy. Ok, I will change my dress. I will take the shower." Then he makes to sit the Baba on the rock, taking a big water drum and making him to clean, and putting a beautiful dress on him. That his dress, old dress he puts in the fire, otherwise, again Baba will change his mind, again wearing that - just burning it.

Why I'm saying this story means, he never care about himself, he never care. Even though the people, his students, bringing in front of him the food, like a delicious food, his nature... taking the begging bowl, going in the street, asking one or two houses some food. At the

moment, whatever they have in the house, even though in India, like one day food, two days food, three days food no hot, like no taste, they will offer him. Then he brings the food back under the trees for into his temple. Then started to throw to the dogs, and himself eating with the begging bowl that he puts there. At the same time, dogs eating, birds eating and he's also eating. Whole village people in the beginning like twenty, thirty years they're thinking Baba is a hysteria patient. He's crazy.

By later on day-by-day, he's curing incredible diseases. He's blessing is a high powerful, his miracles is incredible. After seeing the experiences, the villagers they recognize he is the man of the power. Even the divine powers how we can suck? When your desires is going up, our divine powers is coming down. When your desires is coming down, your divine power is going up. It's ok having desires for one limit. If it is growing high, it is very danger...sucking our own hell. This is one hundred percent true.

"Swami, I'm meditating since forty years. I didn't get anything. How come?" You are the man of the desires. You are the man of big egoism, big angry, big jealousy, big inferiority, these is all stuff is in you. There is no place to God to come to sit in your heart, there is a lot of enemies is around you. You can't win from that enemies - first we have to destroy that enemies, then taking certain beautiful part from the master, some prayers, some mantras, some slokas, then you have to meditate. Then God is our servant. Then He comes. Even he's ready to do anything for you. God is a big servant. He never care even though whatever you're offering to him, even though if you offer like a diamonds, a gold, and jewelry. Love! Some persons in front of Swami they brings lot of flowers, fruit, lot of money, whatever the stuff. Some persons come with a big smile face with a pure, like open heart, complete pure open heart - that is I need. Inner side love is very important to suck the God, to suck the power, to suck the God energy.

Some people thinks, my students, "Oh, I give a lot of things to Swami ashram, oh, to build his rooms, to whatever it is, but he always ignoring me, he never teach me anything," it's nothing, it is nothing. Even his donating like a ten billion dollars, if there is no love, power is not in my pocket to give him. I have to bring from my master to suck the power and to spread him even though I have the love on him, if he have no pure heart, even my recommendation go like

down.

To helping nature, ok, but certain persons in my students, even Indians and Westerners, they have huge egoism. Oh, I'm the big name and fame person. Oh, I'm wealthy person. The name and fame, it's like the waves on the ocean. The wealthy, prosperity, it's not permanent. A poor person can immediately he can become a billionaire. His name and fame like everything two days, three days it can go down. For example, what happened President Clinton? What happened – zzzsshhttt. Name and fame, wealthy, like a huge money, one day it can go. These are all... why I'm telling, this are all, this is like a fundamentals. All my stories saying of this all stuff, what is importance of to suck the divine energy is this, is all fundamentals. Is it make sense, yes, no? Absolutely yes, otherwise, even though you are in the spirituality for thirty years, forty years, I'm so sorry, I can't help. It's completely wasting of your time, wasting of my time. This is one hundred percent true completely, otherwise wasting of your time. You have to start develop, we can't make like at a time but you have to try.

Suppose Martin started to screaming on me, yelling on me, suddenly I grow very angry, "Why he's angry, why he's screaming on me?" Suppose even though I did a small mistake, he's seeing that small mistake in a big lens, that big lens, and he's screaming is a big and he's starting... If I started to again screaming on him, what is the benefit? What is the result there? He's screaming, again I'm screaming. What is my greatness? What is his greatness? Even though if I did a mistake, if he smiled, "Ok Swami, I forgive you, God bless you, I love you," his love, his power, his energy growing up. Even though if he is screaming on me, if I stop myself not to screaming on him, even though he is screaming on me, if I still love on him, my power, my soul power, my happiness, my good fortune, it go up. Simply just closing, "Ok, I love you Martin, I'm so sorry." Even though you know that's not mistake, "Ok, I'm accepting, I'm so sorry." That is your greatness.

If you play that illusion mechanism, if you can handle the illusion mechanism, very important illusion handling mechanism, there is your good life with you, there is God power in your hand. You can win anything. You can get successful anything in your life. It's very important understanding the God tricks, your mind, emotions. Every person thinking before, after they did a mistake... Suppose a woman,

she have a one boyfriend. It is not a good way to say, but it is necessary. She had a beautiful love with him. After one hour later, she feeling very guilty, "I never do again that mistake anymore." Again, the next day, again she is doing the same mistake, again thinking, "Oh my God, I am a big stupid, I never do again this mistake; I never talk again to this guy. I never do this bad habit anymore." After four, five days later, again you are doing the mistake with a different person. Whole your life you are keeping on doing that. Where is the end? Where is the end? Where is the end? So beginning when you did a first mistake...after you, yourself, if you recognize you did a mistake... take a shower, put a candle, watch the flame, talk yourself, pray yourself to ask the God to give the resistance power to me, no more next chance to play illusion tricks on me to do it anymore - beg, beg, beg, beg, then strongly confirm in your heart.

You have to sit like fifteen to twenty minutes to stick on that to control your desire not to do anymore that mistake. Not like a one-minute thinking, "Ok, I'm not doing anymore. Oh, I did a big mistake," and then jumping on the other works. Not like that. After you did that mistake, then you take a shower, put candle, sit in front of that, close the doors, turn out the lights, make the candle light flame and then you think on the God to stop not to do anymore the same mistake in the future. Keeping on, keeping on, keeping on thinking on that God to please give the resistance power. "Please, please." Then your soul will charge a little bit for the good thought and the good capability to stand for the good habit. When the position came again next time to do the mistake, your soul it never goes like such magnetically to attack to do the mistake. It diverts. There is a big chance it can divert. It is very, very, very important because of every person doing that, it is the same process going in your life...the mistakes. Not only, suppose you are angry, big egoism, big inferiority, if you hurted somebody...that nature, whatever you have as your bad habit, if you did that...

**Student:** Does the same thing work if you do it before the mistake? Not having to make the mistake but sitting and thinking, "I don't want to do that again."

**Swami:** If you identify your mistake, if you identify your weakness, then you have to become control, you have to focus on that same point. You have to identify where is the mistake is running in your

life. Then you have to seal it. For example, like a car tire if it punctured, they will check where is the hole and they will make it fix it. The same in the car tire as in your human life... like an angry is like a puncture. Big proudness is like a puncture. Certain character, bad habits are like a puncture like a holes to destroying your life, to making down your life. Then you have to recognize that. Then you have to work on that. Then you have to fix on that. If you are not fixing, if you ignore that, our lives is just like animals. It is useless, wasting of complete our life. From the childhood until to our die, there is no speciality in your life... even though the animals is eating and taking sleep and it is same qualities whatever we have same.

We are human beings. We have the beautiful heart, we can connect, we can do wonders. Nowadays the human beings they are going to another planet. The human beings is creating wonders. We can suck the highest divine power, we can connect divine angels, every person can become unbelievable strong healer in the universe. It is very easy if you identify your mistakes. If you take your life under your control in your hands very strongly, then your life is great success. Very important!

For to listening is so interesting, putting and implementing it is difficult. That's ok...start, practice it five months, six months, one year. You are the man of very good habits. You are the man of very beautiful, glorious life. Exactly you know what you are doing. You can help thousands, hundreds of thousands of people like that (snap). Your soul can suck huge people around you. Without your notice, your soul have that power, it is very important.

So, tomorrow onwards we will jump deeper level program, to create...how to create your own angels, how to see the angels, how to connect the Jesus, how to connect any God like that (*snaps fingers*) immediately, how to purify yourself. This is all stuff we can discussion tomorrow. Then in the universe, whatever there are the high powerful healing techniques, I am teaching all the techniques, putting all the techniques in one pot, creating new healing techniques - Sai Healing Techniques. Very powerfully, very simple, interesting techniques, healing techniques I will teach in this program. It is the most powerful than any healing techniques in the universe. We'll see, we'll pray to Baba it goes to very smooth and good, no more any obstacles.

My big weakness is I can't maintain time. It means it's not my fault you have to understand. Second one, if I'm starting to talk like one subject, very deeply going one subject, it diverts to the north to the south... but you have to make the point there, when I'm teaching, just taking the paper and pen and making the notes, like some points there. The points again, when I am starting to teach or the same time or next time, when I am finishing, you have pinch that, "Swami, what is the meaning?" It's like spirituality is like a big ocean, I can cover all the information, but each person has some clarification. That clarification, don't keep like same not clarify, keeping that same doubt, same question in your heart, it's a very bad habit. When the question time comes every day I ask, "What is the question?" Then you have to ask the question. If you keep the question it means it is very, very bad. Clarify it. Be free. OK?

Student: I have a question.

**Swami:** What is that?

Student: I didn't receive shaktipat and I'm wondering what that means.

Lothar: When you were walking around, touching people, you didn't touch him and now his mind is going crazy and he is wondering why.

**Swami:** Don't worry - I didn't forget you. Certain people when I am going to touch them, if the energy still in the heart is coming up, then I will touch, otherwise coming back. Can you understand?

Student: No

**Swami:** Some people, they are very sleeping. To the sleeping person, if their attention is not focused on the God, or if my attention...if I'm going to start, my intuition it is not right their time to give the shaktipat...if my intuition is not very strong on him to ok to him, if it's not good I didn't touch him. When I feel comfortable, then if I touch, it is of most benefit. Do you understand?

Student: Yes

**Swami:** It is like a... how I tell example? If the horse is very thirsty, if you put the water it drinks. If the horse is not thirsty, even if you put the water, just if it tastes it, it throws away. Here it means, if my intuition, "Ok my energy is helping him very strongly," I feel my

heartfully, "Ok it's helping him." If my heart is a little unbalanced, it is not good, comfortable...not touching. Each person when I am touching, I'm chanting one bijakshara.

One day, this is a real story. I told to Nancy, "Ok, I'm coming" to Nancy, Myuri, Anya - everybody's room. I told before, "On the door, I'm coming and I'm giving shaktipat." I told before, "Please open the door, I'm coming." They are very good guys, they opened the door until to that good. I enter into the room, I gave shaktipat while Anya is sleeping. Just I gave shaktipat then I went to Nancy. Just I touched her third-eye. She felt like a cobra came on her body. She shock, but luckily she had egg in her hand sleeping. She is screaming, shouting, she jumped on the bed and she went in one corner like shaking, like ooh! (laughter)

My position at the time escaping...maybe she throw the egg on me. (laughter) Escaping. I can't control my laughing myself. "Hey guys, I told I am coming into the room at this time." She said, "Oh, I am so sorry. I am so sorry." That day I can't control my laughing, even I lay down myself, "Oh my God!" Whole day I never anybody made me like shock five seconds. She really made me shock. So, don't worry. Next trip I'll give shaktipat.

Lothar: And you don't need an egg?

Student: What is the secret sleeping with an egg?

**Swami:** They are doing some process, some egg process. They are holding and doing.

Student: (*Inaudible*)

**Swami:** Hey, what are you saying?

Lothar: It's an egg process. I'm saying what you said.

**Swami:** Hey, the egg connecting the baby inside. Egg means new world, new creation inside - their soul like a magnet pulling out. I told a beautiful channel program using the egg. So they are doing the process. Anyhow, I made them to stop everybody. (*laughter*) Like huge all ashram, the children are going crazy - everybody catching the egg, not knowing what they're doing. Everybody's egg is bleeding. (*Swami laughing*) My boys are complaining, "Swami, what you give this program to them. It is really crazy." (*more laughter*) Ok, I

gave up - no more.

So... I think it's already near, near 1am. I let everybody go to take sleep. Is anyone is interested to sit in meditation here? I am so sorry I can't provide more comfortable the toilets or whatever it is. I did my maximum best. When you are sleeping, make sure lock the door inside. For anybody knock the door, make sure who is outside, then open the door. When you are going out of the door, make lock, put it in your pocket, ok?

Jonathan: What time tomorrow?

**Swami:** He's a big troublemaker. (laughing) Tomorrow onwards, everybody, nighttime they have to come and sit and meditate here. I am giving mantras and channeling to bringing up the energy tomorrow night but daytime again, there's a big talk tomorrow. So tomorrow onwards real hard work is starting to come. These are all what I teach, these are all regular information how to be in your life. To be friendly to each other, to understanding, no more anger, no more jealousy, egoism, big friendship, helping each other, big adjusting. Ok? Good night

Everyone: Thank you so much Swami!

End of Talk
