Christmas Program 1999

Moon Yantra – Shiva - Angels

Teaching at Ashram

December 29, 1999

Swami is talking about the moon yantra symbolism behind the lines as he is pointing to the yantra.

Swami: Three lines and three circles - Brahma, Vishnu, Maheshvara. Two lines Shiva and Shakti, three circles within each Mantra, Tantra, Yantra. Anybody seen the tortoise in the main temple (in Shirdi) somewhere on the floors the tortoise, one of the high, powerful animals to carrying this entire planet. In the *Vedic* tradition when this planet is going in the water, whole this planet, the Earth is going in the water, the tortoise came by Maha Vishnu, he pushed it up, he carried it. You know that story?

Maheshvara is one of the main creator of discharging person in the universe - his energy most powerful in the universe, Maheshvara - Shiva energy. Why he's like that? Because he's directly connected to the souls. When we die, he's the only main person taking care of our souls. Even though you have the huge painful in your heart, after you die you are like a spirit hanging in the cosmic. The negative spirits can see the Shiva in the burial ground, some spirits, very holy spirits. You understand?

Students: Asking if only negative spirits?

Swami: Wait! Let me talk. This point everybody understand? No? If we die, if you change a spirit, generally if you die you are going to next life. In Shiva energy, when we die, you are hanging in the nature,

it means you are the spirit. If you are not hanging in the nature means you are going back to your life. When you die, a spirit, the main person the Shiva, is handling the spirits. He's the father to all the souls entire in the universe. Anybody seen the Katmandu Hashpatanal Temple, Nepal?

Student: In the city the main temple?

Swami: Yes. You've seen inside the temple? They never allow the Westerners. That's ok. Maybe you made it. There is a real *Vedic*, powerful tradition is there. In front of the river a lot of dead bodies they're burning. They are taking that ash, going to the temple, they're putting to Shiva. The dead bodies they burned that ash. The significance of Shiva energy here - when you burn in that ash your soul is hidden. That ash, when you touch the Shiva energy, whatever, even though you did the crazy, negative works in your entire lives, you are getting very holy, you are connecting Shiva energy. Your next life is so marvelous and wonderful.

Student: Are you saying it burns...that when the ash is put on Shiva it burns all your negative things that you did?

Swami: No. (example) I died, the people making me to burn. After burn, they are taking some ash, they are going to do abhishek vibhutti - bhasma abhishek, ash abhishek to the Shiva. They are taking the water and they're doing with the holy tradition. They are putting your body ash, they are putting the water with holy prayers - thousands of prayers they are chanting on your name. Whatever, even though whatever you did crazy activities you in your life, entire your many lives, you got the beautiful chance somebody doing prayers on your soul.

That soul is completely hidden in your body. That body is you're burning. You are taking ash. It means indirectly your still soul is there. They are sucking the soul back in the ash and they are connecting to Shiva. With the holy water they are chanting and they're doing washing. Your whole body is turning in a liquid, is going out from the Shiva. You are getting the huge connected to your soul. Your soul is sucking highest positive, cosmic - you are coming to your next life as a holy man. There is no chance your soul can turn any spirit, even though you die in an accident, even though somebody kill you, whatever strange negativity happens to you. That is one part of Indian tradition. Understand?

Students: Yes.

Swami: That's why Shiva got highest priority, number one priority in the universe. He can dissolve anyone's soul very easily. Next, he can give highest positive energy at a time right (snaps his fingers), in a seconds he can change whatever you are in the huge negativity, he can change that energy very easily in you. How is that same that bijakshara, the person has to use as a mantra, Om and the bijakshara, pronouncing it very exactly. Anyone know how to pronounce that?

Student: Hreem

Swami: (*Checks out people's pronunciation*) Ok. In Shiva temple, wherever you go, even Baba temple, it's very advisable, you have to take the ash, you have to put, you understand? You have to put on your forehead, third-eye place. In the universe we can see very clearly Shiva is only main person having third eye. You seen any pictures, Malika?

Student: Yes, but I didn't realize he was the only one who had a third eye.

Swami: Hey, we went in a Hampi, in the big Shiva statue we can see his face, two eyes and big third eye. You seen that?

Students: Yes

Swami: (*The construction noise is interfering*) So, the knowledge we started to talk, entire the Shiva, this planet different angels connecting Shiva, it's a beautiful, every person connecting the angels.

(*Swami breaks for dinner*)

(*Later that night in the temple.*)

Swami: Let's come to our subject, Hreem - Hreem bijakshara. Can anyone give the moon bijakshara to me? I told about the characteristic of the Shiva. He is the main person of the take caring of the souls. Why especially he got that power? It means he's such a strong, high powerful soul being in the creation. When we came in human body, the physical desires of the person who was taking caring in our lives was Krishna, which means - Brahma, Vishnu, Maheshvara - Vishnu character. When we are alive in the planet, he is the main person to take caring our desires, fulfilling our happiness

and everything. Brahma means, he is the sending person, the creator of, in your mother's womb - he is the main person character creating the soul. The Shiva means, after you die from your body, it's only related to your body and your soul. One level he is connected with both, with your soul and with your body. After you die, your body is going to bury in a certain places or with a group. Especially Shiva is favorite place, one of his favorite places is staying where your bodies is buried. That's why most of the aghora people...now we are coming to the point. The aghora people, they are sits in the middle of the cemetery. There is only, this is very fundamental - in the cemetery, in a graveyards, only the male energy is flowing there. Highest souls weeping, crying, lot of painful, different energy is flowing in the graveyards. In the places, the aghora who was doing the people, they sits... they're sucking such a huge, painful energy in their heart, and they are calling the female energy, Mother Divine, and they are using Mother Divine energy, they are sending to the people for to hurt. You got it?

Students: What?

Swami: To hurt some people. If you seen any person who was in the graveyard meditating, you can easily, we can say he is a black magician, he has black magic power, he's doing black magic power in a graveyards. Does it make you sense? Martin?

Jonathan: Why are they calling in Mother Divine energy to hurt people?

Swami: Shiva never helps. He never admits you to take the pain of a person. Suppose Martin, he wants to experience the painful energy there what is in the graveyard. Normally, after some person's accidents, some people even though they are so attached to their bodies, if they die they are burying in the graveyard. Their souls surrounding around their body for a certain period, and different souls, different bodies are again surrounding - their souls and souls are getting friendship. Like a soul's union, it makes like a small village there. A graveyard means like a soul's village. I'm not kidding, it's true, spirits' village. In that village, Shiva is the big boss, he is the leader. They don't want to go sometimes, they don't want to go their next life. They want to be hanging in like a union, the spirits they want to be like a union.

My personal experience when I am studying in Naylur, the college, is

very close to the graveyard. On the top of the roof if I climb, we can see a lot of dead bodies they're burning, a lot of dead bodies they are burying - every day minimum two, three - little crazy smell there. I am so interested, and I am sitting on top of my roof watching. One day, it's new moon day, I climbed on top of the roof. I am studying. There is a light. I got really sleepy. Just I slept there. It is summer season, very beautiful wind, it is like 1:30, 2am. Beautiful drums and singing, like a big gathering, they're making like a party. It's coming. Who is playing the tape recorder cassette? If my principal, if he watches - definitely he's kicking (me) out. From which room it's coming? I confuse. Ok, then again, I slept.

Hey, wait a minute. There is no chance. It's a very strict college this is. Then I observed. I didn't see anything at the beginning stage at that time of my meditation practices. From the graveyard the music was coming. At that time, I know some techniques to connect with that. So interesting to me to walk in the graveyard to experience that, just to see what was going on...such a... like a dare and dash. Then so clearly, it's coming from the graveyard. There is no people, they're playing any music. Then I connected to Mother Divine, "Please tell me what is the truth is running there. Please let me know the energy." Just I chanted some Mother Divine prayers. The negative spirits, they're making a party. Whatever they want they can create there at the time, they can play - huge union.

A person, any holy man want to dissolve a negative soul to bring back... suppose a person came to me, "Swami, my son's soul is still I think hanging in the cosmic. Can you check?" If I start to see his soul where he is, if I enter to bring him back to make him be born again in a beautiful life, I have to struggle with whole, that graveyard, whatever how many souls is staying there. I have to fight and I have to bring back him to me. They are like the thickest group bond. You understand, like a huge, strong relationships their souls.

You can't see... even the snakes. One snake came in the garden it means, there is a hundred percent chance there is a few snakes around there. You can't see one bird flying in the sky. Can you see? Most-ofly, always go in a groupism, like the souls. That is the God energy in the universe, that is the God mechanism. It's ok, but Shiva is the big person to giving the judgment to take care of the souls. Here, what I am mentioning here, I don't want to create fear. What I am talking is my personal experiencing, what I experience in my life.

When we connect with the Shiva, what I teach in the elements

Sky Mantra

Om Lingastakam Needum puunyum

Yaha patey Shiva sannidow

Shiva loka mavopnoti

Shiveyna saha mogatay.

That is one of the highest most powerful Shiva prayers in the universe. I told, "You have to do only that mantra for your personal, don't heal to anybody." Did I mention that? How many people can remember that mantra, guys? (*Swami repeats the mantra*) I recommend please try to learn that mantra.

If you chanted this mantra, you have strongest will-power, automatically it develops in your heart the Shiva energy huge flowing in you. Suppose one million people died. There is only like two, three people chances to go, like hanging in the cosmic to be like a negative spirits. Since like a hundreds of thousands of years the people, the souls is getting like hanging and hanging and hanging. They're getting like a union, a groupism there. In my personal life, I dissolve, I send back to them again to the next life many, many, many, many souls. Here in this Penukonda premises, we can't see any negative souls except highest Mother Divine energy in this King palace.

In this king palace, I think I told the story, I used to stay in the village. One night I took a shower. The workers are starting building the ashram here; they are breaking the ground. All the workers are sleeping. I took my scarf, long scarf I am wearing, I'm carrying my small Baba statue what one present right now here, that's one of my power objects, highest one of power objects. That small statue it stayed in Baba's samadhi like five, six days, five nights near, near. Sixth day I got it back. Then I bring back and I charge huge energy. I am bringing that statue, with my silver plate, where Baba is sitting right now; I am carrying.

The night watchman, first he came watching nighttime; he's watching with the little street. At the time, light moon, there are no

streetlights. Most people in the village can't see the streetlights. Nobody have any experience in the streets. First experience he is walking straight to me. I am wearing a scarf and I am walking. He got into shock, "Who is this guy walking in the streets at 1:30, 2 a.m.?" "Who are you? Where are you going?" Just simply I look at him. He is a new guard here in the village, a police officer. Then just I smiled. He wanted to stop me while walking. Just I sent a little fear in his heart, it grow like a huge. He go, "Oh my God, something energy!" There are a lot of stories here – 365 temples, there is a lot of holy people, a lot of huge strong people. He got shocked. There is some energies walking the in the street. He started to run. I walked... I came near the Gagan Mahal.

First time I am bringing the Baba statue in this place. The Krishnadevaraya, that big king, he used to always stay with Mother Divine energy. Always everyday nighttime asking about what is the security going around here in his kingdom, what are the main weakness points. Sometimes he used to stay on top of the hill and then he comes to stay here when he wants to see people, then one of the wives stays here. Then sometimes he stays and he walks, and then he goes to Hampi, his favorite places too.

He fixed beautiful Mother Divine energy here. No any holy person, no any powerful person can come enter into his fort to break that energy. Only he and his master only, can handle her. If anybody came, powerful man, she is kicking them out, one hundred percent she is kicking out. I'm walking in the street with the Baba statue. She came in front of me as a woman, then she is talking, "To you no permission to come and to stay near my place."

"Hey, who you are?" At that time I am in the highest powerful stage. I reached my level. "Come on, who you are?" It's a crazy in my hands, Baba statue is getting heavier, "Hey, wait a minute." I got a little shock, heavier! Then I surprise, "Who is this lady? What's going on? Where I am? Maybe I'm in danger? Hmmm." Then she started to grown...Just I stepped a little back, "Wait a minute. Here she is." Now my first obstacle started. It is huge energy. I thought first she is a devil, huge negative spirit who was in this King's palace protecting entire this fort. No doubt she is a big huge demon. Then, I didn't talk anything.

She grown and grown and grown. "Hmm, my God." This guy, this

power statue, this Baba, he is getting heavier. I feel so uncomfortable I can't carry him. I can't handle her. It's a big testing my capacity – "hmm..." I started to begging her, to chanting beautiful prayers on her, "Hey, Mother Divine, I am your son. Why you are attacking on me? I didn't do any mistake." Like that meaning, "You are such a loving person, such a loving lady of our entire universe. You are the mother for the entire creation. I am really begging you, please get away from my way - let me go. I have to do my duty. My duty is to spread my master's message." Like that pronunciation the *Vedas* I'm chanting the prayers.

She is listening, "I am on my duty. There is no permission anyone can come and stay here in this fort." I asked, "Where I can stay, where I can build my master's place?" "You go outside of the fort." This fort they built it like forty feet. You can see it when you come inside the village. Have you seen it? Big rocks you have to go like this, and like this, they fixed the walls. Well, then I started to chant on Baba, Dattatreya, "Hey, please, where you are?" Heavy... I want to throw the statue on the floor. So exhausted, like about forty-five minutes attacking the energy, huge.

Then Baba energy started to grow in me, huge. I heard a big voice, a male person's voice. I am big confused. I am sure that is Baba but a little confused. Then he is screaming on her, "Get away from my path, get away from my path." He's talking in Telugu, "Takapo takapu," like a big voice, like a thunder! In a seconds she disappeared, then I entered, I putted Baba's statue in the first time in the hut. Whole that night until to morning my heart beating is like little high. The next day I got morning temperature. That next day night I am also in big confused. I have big uncomfortable, "Is it ok I can stay here, or I have to go away?" Then I ask really begging on Baba, "Please give me permission, really I want to catch her."

I figured out certain channels to catch. There is a system there, I went there chanting the prayers. She appeared. I changed her energy in my way. She only works for the good. Does it make you good sense guys? Are you thinking, "Ah, Swami is making this up." it is one hundred percent true.

A person and a person, they can create any soul. Is it possible the human beings can create any soul? I am going into a deeper subject. Like a hybrid flowers you can create. Like nowadays the scientists are

taking a cell from a sheep, they are making another new sheep. There's only one cell, they're making another sheep. They are taking a small part of the soul energy and they can create new different souls. They can release it. When we are talking about angels, it's coming... how can we create our own angels? We don't need to depend on different angels. You can create your own angels. How? Innocently we can make it. With notice or without notice, if we do some process, like scientific chemicals making, like a reaction how it comes. You have to do some process. I will explain that, it's a deeper knowledge. Here like that, the saints, the priests at the time, they created. The only one main, the Tanali Ramakrishna, I told the story; he's a very funny guy. I told the story about how Mother Divine appeared to him?

Student: You told very few people.

Swami: Ok. To this king, one of the most, dearest friend is Tanali Ramakrishna. He is a big, powerful healer. One day he is very big broke. He have no job. He's coming to Penukonda to see the king to asking, "Please can you give any job for me?" he and his wife and children. One day, it's too late at night, big rain is coming, he slept in an old temple outside of Penukonda, in an old Mother Divine temple. Still we can see that temple.

On that day evening, night, the villagers brought the sheeps and the lambs to cut the heads to sacrificing, to do some blood sacrifice offerings to the Mother Divine. He is a Brahman priest. In India Brahmins, the priests, they are pure vegetarians. They are like sattvic. Sattvic means very strict diet, very strict - no harm, like perfect channeling their works. He is sleeping in one side of the corner with his wife and children. The villagers came with fifty, sixty lambs, they are cutting the heads, the lambs are crying, "Baaa" making noise; huge blood like a big rivers there. Hmm.

Then after everybody left he woke up and walked in front of her statue. He looked the blood and watched her face. He made, "pooh" spitting. "You are a mother? You're crazy!" Then he started screaming on her in a beautiful poetry...he's screaming on her in a beautiful way making her so impressed with his beautiful voice. He screamed and screamed and screamed and screamed millions of prayers. She was so impressed she came out from the statue, "Hey, Ramakrishna, stop, stop, stop, stop. I didn't ask the people to sacrifice

the animals. Why are you screaming on me? Stop it you devil.”

“Pure, innocent like many lambs they are killing. If your energy is there, why can’t you change their minds not to do this?” Ramakrishna says to her,

“Even if I am stopping their minds, definitely they’re killing in their home for to eat for themselves. Selfishness, you have to understand,” she talked. He is now satisfied, “Ok, what can I give for you? Ok, I am giving two objects to you, one is wealthy and one is knowledge. I am sure you have no knowledge, that’s why you are misunderstanding me.” Then, “Ok, I understand.”

“Then in the two small vessels. In one vessel there is curd, in one vessel pure milk...this milk significance, of this knowledge - this curd significance of the wealthy. If you drink this milk you will get such a beautiful knowledge. If you drink this yogurt you will get incredible wealthy person in the universe,” she said, “Only you have to choose one.” Then he said, “Ok please give the two. I want to watch, I want to smell which one is a little good.”

Then she laughed, “Ok, funny guy. You take, then you smell it, then you choose one.” Then he take both of, looking this, looking this, like five minutes. “Go hurry up, choose.” “Let me think one minute, why you hurry? Anyhow you came, wait.” Then she’s little watching on him. He put them both in one vessel and drink both. “Now I get both wealthy and knowledge?” Then she laughed and laughed and laughed, “Hey, Ramakrishna, you are so lucky guy, funny guy too. Today onwards your name is Vikatakavi... even if you read this way and this way - same. vikatakavi, vikatakavi, vikatakavi...the word, letters, if you go this way and this way... today your name is Vikatakavi. Your knowledge is not completely fulfilled, you are not so wealthy, but you can handle any person in the universe. If you want whatever the wealth, you want you can get it, but you can’t keep wealthy forever and ever with you. It comes and it goes.”

“It’s enough Mother, thank you so much you can go. I can handle right now the universe.” Then he came to the King. When he’s coming to the King, in the King’s palace, one of the most dearest assistant...you know assistant? Advisor. He’s the number one advisor. In this village, he has only one small bad habit, and that bad habit is he has a beautiful wife and another girlfriend. Nobody had no idea he had another girlfriend. Every day nighttime he use to go, sneak in

to go to her home, and to coming back early morning to back to his home. That was his regular duty sometimes. Then Ramakrishna walking in the street with his wife early morning hours, he watched, "Hey wait a minute. I hope he's the big assistant of the King. He is the main advisor to the King, why is he doing this work? Hmm, I have to catch this guy." Then one day he is sitting outside of her door. The assistant of the King, he entered into her home. Then he's coming out. Then simply he (Ramakrishna) came, "Hi, Himarasu. Hello, how are you? Where are you coming from?"

"Who are you, man, what are you doing here?" Then, he opened his energy, "You have to help me." He is also the assistant, huge incredible powerful soul being. He can also connect lot of angels, lot of different stuff. Himarasu say, "You have to help me. I can't bring to you at the time, to go and to meet the king, is not simple. It's not like simple you can go and get a job – no chance." Himarasu says to Ramakrishna, "When the right time comes, I will let you know. Please don't leak out my weaknesses to somebody." It means, he got his, he entered into the little king family. He sneaked in and caught the king's family. He is staying in this Penukonda village.

One day a big poetry man came to this kingdom. You know poetry man, a big knowledge person. He challenging to all kings, "Whatever I say my word, they have to write on a piece of paper. If they can't write or whatever, the people can ask the questions to him, he's happy to give the answers. If he wins, they have to give their kingdom to him. If he is lost his challenge, they can cut his head. India is like that. Many people die like that with a big challenge, seriously.

Then he came... many, many kings already their kingdoms he occupied. He came to Penukonda. The most, wealthiest king in the universe at that time is Krishnadeva Raya, this Penukonda king - huge wealthy. The country, if you read the history, is unbelievable. He sells jewelry and diamonds like a big, and the elephants that he carries in the markets they're sold like two kgs. Unfortunately, the King's enemies they stole all the stuff from India...these are a different stories.

When he came, big challenging... all the poetries with the King, they're getting very nervous because of he's so intelligent. In the big open auditorium in Penukonda Village, it's still there, we can see

that...all the villagers, all the people entire the kingdom came. The knowledge person, the poetry men came. The King's assistant they are asking the questions to him different in the knowledge in the *Vedas*. He is giving answers there - period, one hundred questions they have to ask. Kanali Ramakrishna is also sitting in the villagers like a normal man. Ninety-nine questions from the King's people they ask to the poetry man. He gave perfect answers. There is only one question left. At the time the King's assistant, Himarasu, who was the girlfriend person, he recommended, "Look, I'm watching a person there. He's so shining and glorious, I think he can handle him. Why can't you give the one question to him."

The King was watching him also, "I felt so, why can't he bring to us in front of...let him ask? Anyhow, there is no hopes we're winning, no hopes to winning." Then Himarasu shouted, "Ramakrishna, come out." And he came. When he came, he watched the poetry man, "Hey how are you?" Like with eyes, like disrespectful, "You're like a nut in front of me, but you have huge egoism." Then he came, "I have one word that you have to write on a piece of paper. You have to write on the leaf."

"Oh, come on, what language? Is it Sanskrit, Kannada, Telugu, Tamil, what language? Tell me, I am happy to write it for you." Then he put his finger in his mouth and made a little funny noise, "oolllwww," like that. "Can you write it for me?" "What?" he said, "Whatever I say you have to write."

"Are you crazy? What is this voice? Like, 'Oolllwww.' No, it's not fair." "It's fair, it is also a voice." Then he said, "Oh, my God." The whole kingdom they had to protect their kingdom. "Yes, you have to write that. He can't write like jig jog something. They can fight, "Hey no maybe this way." Then he connected Mother Divine, Ramakrishna, "Please help this kingdom, a crazy guy came. He's a big demon with huge egoism. Please, Mother Divine, please protect this kingdom!"

That energy through his eyes he sended to him. He completely opened his heart, he fell down on Ramakrishna's feet, "Oh, I am so sorry. I have huge egoism. I can write anything, I can do a lot of stuff, so finally you made me to realize. I am so thankful to you." Then the King came with a big open heart and he hugged Ramakrishna. Then he entered into his kingdom to take caring. Then he created Mother Divine energy, the soul, and he gave it as a gift to the King. "You can

take care. She is your personal angel in your life. I am giving her as my gift to you. She can protect you. If there are any enemies coming in your life she will inform to you. What's going on around you she is like the detector in your life, please use her in a good way - nobody can't stay here in this fort, powerful persons, nobody can't stay here." Then he was the main person who created her soul here. Do you understand?

Students: Yes.

Swami: We didn't get in the subject yet but...huge. Ok, here. The Shiva is the only main person in the universe to connecting with the different souls. In the graveyards some thousands, some hundreds of souls are meditating with the Shiva energy. Sometimes when the Shiva energy is so high, there is a big chance that souls can go back to be born again. He is also one of the main persons sending back one level to the Brahma. Then Brahma takes the souls, he sends back again to the new lives. They are like three brothers in the universe. The Indian tradition is a little funny and crazy, but it makes huge sense. There is a lot of results we can see in the universe. In your personal lives also, you can experience a lot. Whole *Veda* was written depending on these three characters: Brahma, Vishnu, Maheshwara, Lakshmi, Durga, Saraswati.

Finally, my point here, whatever the negativity is in us, if we chant the Shiva prayers we can handle the negativity very easily. He stays always in the white color. His favorite color is white. That is why he is always staying in Mt. Kailash. The Himalayas are the big snow mountains like the normal mountains white color. In the graveyards in the ash...ash is also white color. His inner definition, "Hey, there is nothing in the universe except ash." Ash is the favorite to the Shiva.

He is the Bhasmasura dhara. The *bhasmasura dhara* means – *bhasma* means ash; *dhara* means, asura means Bhasma ash; *asura* means, who wears that; *dhara* means the character person is the Shiva.

(*Swami sings bhasmasura dhara mantra.*)

Bhasmasura dhara, Bhasmasura dhara,

Bhasmasura dhara nama ho Bhasmasura dhara,

Bhasmasura dhara Namō Namō Namashivaya.

Oh, Bhasmasura dhara, oh my dear Namashivaya, oh my dear Shiva, I am chanting right now to you. I am using your holy ash on my third-eye. Try to waken up my third-eye energy. You have to come and stay in me.

(Swami sings another mantra.)

Ishvara sanbutara dhara Shankara
 amrutha amrutha priamrutha Pahi rupam
 rutay bhasmasura dhara Sankalpam
 pahi rupa pitham Bhasmasura dhara
 mama wan char sankalpam
 Raksha, Raksha.

This is, "I am innocently believing you. My tradition, my masters and masters and masters and masters from the *Vedas* is coming. Your name you're hidden in the ash, in your holy ash. I am wearing you - I am using you. You're only one person to take caring my soul after left from my body. Advancely, I am praying to you. You have to take care of me. You have to give promotion to my soul to go in next life in a higher level. You have to take care of my soul even though whatever I did in my past and past and past, previous karmas, whatever I did with my soul, complete I am asking forgiveness.

There is big forgiveness it only comes from you. You have only raksha, raksha. You are the only one person to take care of my soul. Please protect me. Bring me on higher level. Please dissolve my soul in you. I am happy to do that. I don't want again next life to hanging in this nature, to come in this planet to face all attachments, weeping and crying and happiness, different crazy illusions. Please make me to stop no more lives. Please dissolve me in you. Show the real energy what you have."

Such a deepest meaning it comes in the Shiva prayers. When you started to sing those songs, the prayers in the mantra slokas, it's so funny and so deep meaning. At least that is ok, we are dividing the God into three parts. It's not wrong. The Indian tradition they made it, they divided three characters like three brothers. It's fine. One

brother duty is one, one brother duty is one, one brother duty is one to make feel so comfortable and easy.

If your work is not working properly, and you are not feeling connecting with one brother, you can connect with another person. You can beg another, "Hey." That's why in Indian tradition they created Subramanyam, Ganesh, lot of gods and goddess names they created huge. Mukoti devata, Mukoti devata means, there are hundreds of thousands of Gods' names in the universe in the Indian tradition. So, they putted in the different forms the same energy, it makes the people's heart easy to hook. Like the prayers is the main hidden what I give the prayer to you in the elements. (*Swami chants the Sky Mantra.*)

When we start to chant that prayers, that prayer without our notice, we can feel, we have to do...there is no limit for that. There is no beginning - there is no end for that. You have to go and go and go and go very deeper level. Even if you stop, even though you are doing something work, your inner heart repeatedly chanting that. Sometimes you can notice, "Hey, my soul still is praying in you." Does it make you sense? Anybody happen in their lives?

Students: Yes.

Swami: Even to me, sometimes I am talking on the phone if I turn off the phone immediately the inside my soul is chanting the prayers. Without my notice my mind is talking to somebody, it's going innerly, the cassette is running innerly. That is highest positive symptoms in your spiritual growth. One hundred percent your spiritual light is turn on, it's dazzling. You have to make that your soul to chant it forever and ever. Just you put the work to your mind focus, vibrate it certain period. Then even the mind goes to different, the soul takes that, then it repeats. Try to use this mantra and your personal mantra. Definitely, I am giving you a personal mantra for connecting to Shiva. That two, entire you have to chant like your personal prayers in your life, favorite prayers. The language is different - the energy is the same from the God. Are you feeling ok, Gary's son? Are you feeling ok? Thinking something different I think. Can you explain me little bit. May I help you? Be honest.

Will: (inaudible).

Swami: That's fine. Please let me know if you need any help. So, with

using the Shiva energy is it any possible we can create the souls? If it's possible to create the souls, is the universe, the human beings they went how many galaxies? Only to the moon or any galaxies? How many planets they went?

Lothar: Many

Swami: Human beings?

Lothar: You mean our physical form?

Swami: Yes.

Lothar: Well, in our physical form only to the moon, but in inner travel there is no limit.

Swami: No. In physical form, which planet they can go?

Student: Moon.

Swami: Are there plans to go to any other planets?

Student: Mars is next.

Swami: They plan it?

Student: Yes, pretty successful.

Swami: When will it be?

Student: Shortly. It's easier to live there than to live on some other planets. In the universities they already have many different plans for how to live on mars, viable.

Swami: How big the planet is?

Student: I think it's two-thirds the size of earth. It's not so terrible of an environment. Except for the earth it's the next best, next easiest in this solar system. Everything else is either very hot or very freezing cold. Mars isn't so bad. They found signs of life on mars, little organisms in the soil.

Swami: The human beings from 2000 onwards are going to find unbelievable miraculous things in the universe. Its high vibrations enable people to really suck the knowledge. They can bring the

vibrations of the knowledge and rapidly spread it. Same time highest negativity is also taking off. Negativity is also going to be hitting the people a lot, a lot of disasters, a lot of negativity. Both of these are going to take off like this. They are creating unbelievable miracles in the universe from the year 2000. People can bring back the souls to dead bodies. It's going to be happening in the future.

Student: Swami, since we are all here and you are teaching us all this, and when you talk about what we will do in the future, we all want to do the positive good work.

Swami: I don't want to reveal the trouble... but very few students here are getting one hundred percent highest success in the spiritual path, no doubt on that. I am seeing their progress, I am seeing the capacities, I am pretty confident sure on myself on them, they can get unbelievable success. They can do such a strong wonders in the universe. They don't need to do miracles. It's not necessary. Just touching their hands on somebody's head, their negativity burns - the highest spiritual energy will wake up - huge shaktipat! An innocent guy who has no idea how to sit on meditation can sit for hours in meditation. He can enjoy such the deepest peace in his life. That is the real miracle in the universe - to waken up the God energy in him. My few students one thousand percent they are doing it. On my birthday I am giving special angels for them like a group - one by one, one by one, one by one - especially choosing.

So, how can we create the souls? The human beings, how is it possible to create the souls? It is pretty interesting. Listen, no need to write. Ok? When we die our soul energy, how much when we get out from our body, is it growing or is it getting lesser with natural vibrations? Is it getting higher, stronger? Even a normal soul, he dies normally. He has to go to his next life. He died. This complete talk is depending on faith. If you have no faith it will make no sense to you. If you have faith it makes huge sense.

If we die, we are giving up our body, "Hey, I've done my life. What is my next life?" Who is bringing you to your next life? Where are you going? Are you born again somewhere on this planet? When you're going somewhere to be born this planet, how you're going from here to certain place? I die here. I want to be born in next country. Does it mean my soul is traveling there to choosing so and so home, so and so mother to entering there, or somebody bringing

my soul to putting there? After I die, I close my eyes, I come out, somebody is carrying me, again they are putting me somewhere place. Again, I opened my eyes, I came out, I had no idea, I am completely blocked where I came, where I am now. Again, I had to walk as an innocent guy to grow in this universe. Where was my first life? Where I am now? Where is my next life? Who is doing this mechanism? What is inside the secrecy, or is it make crazy? We are thinking, "Maybe there is just this life we are coming, we are going, we are dying, that's it."

To our soul there is no life. Only the people, the healers, they made it themselves with their craziness to hook the people to create such a fear to attract all the people to get some massage (laughter) – ah, to getting service? To using them to getting their name, fame and success they are creating this mess? When we deeply think on this subject, we can see hundreds of proofs your soul can be born again. We can see... I think everybody heard that, many stories, when they are grown small child they are told, "Hey, born so and so place. My mommy, my husband's name is that, I have my children, their names is there...please bring me back to my country, please bring me back my home." You heard that?

Small kids are telling beautiful supernatural formulas of mathematics like that. In the music they are telling which frequency that, "Hey where you trained? What is that you are playing?" they know all that, everything. They know so completely, their hearts are open for certain things, even they came back, they winned. The God have also no power, the guardian angel, your guardian angel has no power to cover you with the darkness. Even if it came out, it's God's gift to you - you winned that channel and next life, and next life you are carrying that. Your spiritual life as a healer, as a master of the knowledge, if you die this life, next life if you're so attached to the God energy, the guardian angel cannot cover the darkness in your soul, even if you go next life. Wherever you are, you are a diamond.

In our personal lives there is a guardian angel. Your personal energy protector is taking care of you until many, many lives. Ok, that is your guardian angel's duty to bring you to your next life after you die, bringing you next life, throwing you completely... One level it's protecting you, one level it's covering you in the darkness to recognizing who you are. One level it's doing good, another level it's doing a little mystery in your life.

Every person has to understand. You have to really think when you are alone, peaceful, when you are very alone in the nature, you have to open your heart, you have to talk to yourself, "Please, thankful to God and my mother and father. I came on this planet with a beautiful body, with a so-and-so gifts, it's ok, but please let me know who I am, where I came from." You have to really, really, really, you have to open your heart and you have to ask. It is only possible when you are in the deepest silence, pure nature. Nobody is not around you - you are only alone. You bring your energy out, you talk, talk, talk a few moments, just you touch your heart yourself.

Even though you are crying yourself, fine, cry. Ask the God, "Please, show me who I am. Who is my protector? Please let me know where I was born last life. What is my life going now?" I don't want my students to make psychiatric patients. This is not psychiatric patient's problem, hum-un, no chance. Every person is so brilliance. You have to talk with your heart. When you talk in peaceful nature, you can feel such a joy and happiness. You feel so like a feather, you feel so light in your heart, it is a feeling, it is the symptoms. You feel so lightly, so energetic, so huge charge, you feel so confident on yourself, no fear at all. A person has to spend at least a couple of hours in the beautiful nature. Go in front of ocean peacefully.

Sometimes me, I take my car starting and go to my farmhouse. At my farmhouse there are little hills, I go myself walking until I am tired. I climbs on top of rocks, I sit, I lay down, I sleep, like small buses, cars going on... small, peaceful. Then I bring my heart talking to myself. I don't need to talk to myself, but I talk to keep as a human body my heart's feelings that my mind's putting in one settled down. When I open some channels that's different. I also want to test as a human body nature to keep my mind peaceful. When you started to talk to yourself. Yourself means to inner your energy, inner your God. This is the big temple. Inside the charging of the soul, the light, that is the God. We have to see in ourselves, in your temple which person is there. One level we no need to go any churches, we no need to go any temples, it's the big temple. God gave a big temple. There's a big mechanism is running in you. The God is in you - find him.

When it is possible through your Brahma consciousness, talk to your heart. When you are starting to talk to your heart, your mind at the time shuts up. Seriously, when you bring those emotions at that time it goes in huge fear, it shuts up. No more crazy thoughts come to you,

mostly. Then, talk, talk, peacefully you talk. Then you see how much progress you are gaining in your life. When you are going and sleeping such a peace of mind comes in your heart then somebody is starting to talk to your ears. Then it shows what's going to happen tomorrow, little bit psychic power starting to improve in you. It is only possible when you started to suck high peace in you. When you experience such a great heaven in you, then the vibrations, the angel's power is coming in you. Then it's letting you know what's going on in the nature, what's going on with your friend.

Then you're walking in the group of the people. Then the people started to see you, they feel such a peace in you. They feel such a holy person to you. Even though they can't feel it if you touch them, after a little while they are getting huge benefits. Such a strong, positive good fortune brings in your life, is only possible when you started to talk to your inner heart. In your inner heart is only the way of praying. You talk whatever you like there is no any perfect prayers for that. They told in Sanskrit different crazy - no needed, "Please, who I am? Let me know," complete open heart. Every person I recommend in a month once, or twice, I always mention this process, I hope I am - am I? Go in the open nature, be peaceful, talk. Wife and husband, like true good friends, go in the nature sit one direction. Each person go, and sit one direction - don't look at each other. Even though you are not looking at each other the magnet is pulling each other. The attention is a little diverted. I never recommend it, but it's ok.

This life, suppose Lothar and me, master and student, next life, who knows, maybe he is my master and next life maybe he is my wife. And next life maybe he is my enemy. The relationship between the bodies is not permanent. The relationship between the bodies, "Oh he's my child," This life your child is, next life maybe your best friend, or maybe your husband. No guarantee in the universe that soul again coming back in your life as a same character. It is a God's fun. He is giving you with a different relationships in your life, with a different illusions. You have to understand that everybody is God's children - understand? So, my point here, don't buy surface attachments, don't create illusions in your heart, surface illusions, you understand?

Students: Yes.

Swami: I love Lothar so much. I am so grateful he is my best

translator, but I am happy to hear his voice but not attachment, strong attachment. It is God bringing him as a translator. He is doing his role, character. He is doing his character, his role. To God and to Lothar my heart is open, I am thankful to him. Tomorrow, who knows the God is bringing another translator more expert than him. Is there any guarantee for that? No chance. It is the God drama, God games. Anybody expect that everybody coming here two years back? Somebody a big, a big crazy Swami coming in your life, like really he can torture in your life, shaking your mind, putting you in big confusion, very tired. Spirituality means, oh my God, no way. Like that feelings you can create? Did you expect it?

Students: No.

Swami: Is the same thing happening?

Students: Yes.

Swami: How many people in the confusion here, be honest? How many people confused with spirituality? Be honest. I want to see their faces.

Student: What do you mean confused?

Swami: Confused means having no faith on God, having no faith on tradition, having no faith on the mantra, having no faith on what you are doing, having no faith on yourself. If you have no faith on yourself, you are confused. You can't trust somebody. Who is that guy? Please, you, good, you, you? No doubt he is a bad person. You have to think, why are you confused?

Student: (inaudible)

Swami: It's ok I got it. Can I ask you one question, guy? There is no any perfect prayer on the God in the universe. That's my personal experience but I'm checking all the prayers once more when I am giving personal interviews, once more I am checking. There is no one perfect prayer to the God in the universe. I told already, even though you learn one million mantras, prayers, if your heart is not open...like taking spiritual power, like taking fragrance and putting it in the ash, it's useless, like throwing it in the bushes. You understand?

I think already I told, is it true? I am putting all my points not to

confuse anybody. I am coming with all directions different people talks. That's why I told, you have to listen minimum ten times, my one-hour talk, ten times listen. I told my personal experience. Some mantras I personally taking this bijakshara, taking this bijakshara, adding it, making it in a beautiful sentence, channeling it. Understand? Like making a new hybrid, hybrid seed. It's not my own craziness, what I learn exactly I'm teaching.

Without rice I can't make powder. If the rice is there, I can make very smooth powder, little, like a sandy powder, more sandy powder like half of rice, like that. Understand? The rice is very important. The knowledge is very important. Then I can put it in the proper way to make you understand. If you want to learn the Sanskrit there are millions and millions of prayers in Sanskrit form. Then the mind really goes crazy. The, it starts to really go crazy. No doubt, huge confusion there. What is your confusion, son of Gary?

Will: I have a lot of questions. I've only been a student for five days and it's a lot to take in and a lot to study.

Swami: Tell me one or two percent.

Will: Questions? I've been a rational thinker for so long. Why now? Why you?

Swami: What is he saying?

Anya: He says for so many years he's thought very logically, very clearly, very rational about things, and now he says, "Why now, why you, why all this?"

Swami: Second Vivekananda. (Laughter) That is why I'm talking to you, "Who is this guy? Why he come to home? What is this energy? Why I connect to your family? Oh my God, what am I supposed to do with this guy? Why my master brought everybody here? Why I travel to America? Why I travel Germany? Why does all these people come here? Why are they really torturing me until 3a.m.?" (Laughter) "What is really going on in my life? Hey, what is this? Who is Tobias, who is Tatyana, who is RK, who is Anya, who is Jonathan? Who are these guys? Who are these rakshasas torturing me? (Laughter) What is my life?"

Same feelings to me, I simply surrender to my duty. Ok, it's my work

I will do it. Suppose I listen some beautiful saints they talk. Some thought if I interest, hey it's beautiful. If there is anything beautiful there, I am so happy, I received in my heart. If it makes sense to me I follow it. If it not makes sense, "Oh, thank you so much. I love you my own way." You understand? That is very important in our lives. There is no any one hundred percent law in my process you have to do this, you have to do this, you have to trust this. Never. If your heart's happy, follow this. If your heart is not satisfied, fine. Whatever tradition you like, whatever prayers you like, choose it, do it.

What I am expecting from you, you have to trust the love, you have to trust the God, you have to give the respect to the truth. You have to see around you everyone is children of the God, human beings. There is no permanence here in the universe. There is a big illusion running around in the universe. Try to figure out what it is. A wealthy man today, next day he is huge broke. A healthy man today, next day he attacks with a huge cancer. Huge cancer man is becoming a big healthy man - in front of our eyes a lot of changings. A beautiful, glorious, happy person, next day he's a huge sad. We can't see the huge pain in his heart. You are so close a friend of his, "Hey, what is this?" If you think deeply why this negativity is attacking, what is inner secrecy?

Then the God is coming. God. We are just throwing the God. It is the God energy. Let's figure out the God, jumping on him, watching, searching. Then these traditions come out, different theories come out from different saints, different peoples. If we impress one tradition I told yesterday, we can't understand entire the God energies - highly difficult, then our mind go really crazy. Taking one small drop of the ocean, testing that. Whatever the minerals, whatever is there, everything is there in the ocean. We no need to test each drop of the ocean waters, testing the minerals. One drop is enough, one small process of the God, experience the real love, it's enough. That experiencing means you have to complete open the heart. Whatever you trust the person what he gave advice, certain prayers, entire the traditions he's hidden in the prayers. Just you pray - they say pray. When we started to pray and pray and pray, in ourselves, our heart, automatically inner the God started listen you what you want, then he'll try to fulfill your desire.

What I mentioning here, going the open nature and talk yourself, talk

your inner heart bringing that feelings up - be free. Then you see what happens in your life. Let's see your personal experience. Is it ok, are you understand? Making you sense? Be honest.

Student: (Inaudible)

Swami: Gary's son, I'm pretty confident on you, definitely I will help you. No doubt. Think your mom explained to you a little bit. Are you Victoria?

Victoria: That I explained to him?

Swami: Yes, I think you can help him. Your mom, really beautiful energy, she impressed me a lot what she's going to do, her job, the babies working with the babies, talking about new world. Like, she put me in like two hours in the trance listening to her talking. Seriously. Ok, let's talk. I'm sitting and watching her. She's talking and talking, oh my God. Then, immediately I gave my word, "I'm coming to your home. I'm putting my program to your home." So, it's important. We'll talk personally.

So is one part of creating our own energy. You're bringing up your energy with the deep silence. We completely, we cross differences when we felt such a heaven, peace in you, when you're sleeping, somebody's talking to you, the psychic power improving in you. When you see somebody, you're feeling something, either positive or negative. In their face expressions, very easily their emotions, their intention why they came what is in their heart, something you can read. There are such qualities, capabilities improves in you. When you're implementing that, when you're seeing the result, huge confidence is growing in you, huge confidence is growing in you. What is the psychic said, what he told the person is exactly right, your confidence is growing high.

You can't psychically understand everything so there is, depending on the energy processes, until it is God permission to you to let you know that. When our psychic power improves, you have to develop that. You have to create very strongly that, in a positive way, not in negative way. When you start, you have to think very deeply what is positive and negative. There is, again, the processes running there. Suppose your girlfriend came a little late. I already told this joke. Her lipstick is a little gone smeared?

Students: Smearred.

Swami: Speared? Smearred. Her lipstick is a little smearred. The boyfriend is waiting in the garden, "Hey, where is she?" She came one, and one half hour late. He watching her face, her hairs a little. . . lipstick is gone. Then his psychic powers say, "Hey, maybe she have another boyfriend. She came a little late, that's why." When you improve such types of feelings, those negative vibrations in you, you are in the hell. You are in the hell! Whole life you are in the hell. You have to always think positive, always live with positive, always die with positive. If you're going to start to see with the negative, huge negative will suck you, it'll come, just come, then it kills you like a pieces, pieces. It can fry you with the masala. Seriously, it will fry with you like a masala, with a beautiful taste. The world, the people, they're saying, "Hi be there," nobody can't help you. You'll pass on... It's very important.

You have to live with positive, you have to die with positive, you have to think positive. There is a big, bad habit nowadays in the people, if anybody comes in front of you, immediately you are thinking, "What are his negative points?" You never think, "What are his great points?" You have to figure out what is his greatness, what is his ungreatness.

When you started to see ungreatness, you can't get greatness from him. Definitely you are losing him. Every person, every object, everything in the universe one day will be useful to your life. There is nothing waste. There is no waste in the universe, not useful to your life. Everything is useful to your life. Even a crazy guy, one day he is useful to your life. In somewhere he is useful to you - don't lose anybody. It's very important advice. Even if you don't like him, don't create negative feelings on him. Shut up your mind (snaps fingers), turn back, go your life.

Don't think too much negatively. If you started to think negativity, there is a big masala. Your life is a big masala. Even if anybody talking little negative on somebody, it's not your business to hear, that's not his business. Suppose Nancy, she wear today so red sari, very pretty and she's talking with another person, very too much friendly. You observe they, you're talking with somebody, "Hey, what's doing, what both you doing there?" Sssh... that's your business? This example, tell guys, is it your business?

Students: No.

Swami: Nowadays people doing same, exactly. You have to be very careful. If it's not your business, shut-up, turn your mind (snaps fingers) think your life. Only you, spirituality, what is useful to you, go that way. If you can help to somebody some advices, if they're really in the problem enter in their life. You figure out what you can help, you done your job, come back. Don't melt with their energy, then again there's masala, again there is masala. Is it true, Ramakrishna?

Ramakrishna: Very true.

Swami: Unnecessarily you are receiving negativity from them, unnecessary. You do in your limits. Take care your limits that's it, come back, sensitively back, that's all. Come to point. When the psychic power is improving in you do practical in the positive way. Just you tested your psychic power, inner power, your soul power, it takes some long time, five months, six months, one year, couple year maximum. In a couple years... you have to maintain your soul diary. I'm giving this program.

Student: Soul what?

Swami: Soul diary, your progress in your psychic powers, supernatural healing... Take a pen, a piece of paper, just you no need to write, "I just met Swami Kaleshwar, da, da, da. No, no, please!" Take pen, piece of paper, "Today I felt such a strong feeling on one person." After later... suppose if you saw a person, definitely he's getting attacking with the cancer, he's dying in two months, your psychic intuition said. You tested that. Two months later he died. You're writing yourself, "I thought this - it happened." Making like... two years later you figure out how much your psychic power is growing high, when it's growing high, then you seen it's really happening. Somebody just walking, they can feel. When you wake up early morning, some every person they can felt almost exactly what's time now, approximately, maybe 7:10, maybe 8:15, maybe 8:30, maybe 8, 8:15 in-between. Then they wake up and they watch the watch - almost exactly. How many people did like that? Be honest. How many people exactly, you predicted your time like that exactly, most of times?

If you predict ten times, six times exactly right. How many people?

Like ten people here? Ok. It is very good symptoms. Why it is happening like that means, whole night you are in the huge peace. Your mind took huge rest. You wake up with huge fresh. Your psychic watch, you are predicting, taking off, exactly hitting the point. It's 8:10 a.m. it's the moment. You understand?

So, what is the next stage of your progress? You have to sit yourself to channeling some prayers, deep chanting and doing meditation. Immediately you have to choose some *Vedic* prayers to channeling and chanting, chanting and chanting. Then your soul vibrations start very higher, higher, higher level, your mind starting to like huge giving the magnetic power. Your heart gives a really huge magnet sucking. Then you become a very, very powerful soul.

When you become very powerful soul, certain some point, without you never expect it, you're starting to hear some noises, some beautiful musics. Sometimes you're able to see some angels automatically starting to come. You understand? Automatically started to come. That generating your magnetic power in your soul is so important. That magnetic power automatic sucks the divine energy what is going around, surround you, your soul automatic sucks that.

It's depending on what you choosing the prayers, what you doing the prayers, how powerful prayers you're doing, that prayer who give that to you. Is it good, real direct path or not? Choosing your master. Everything is depending on the background. It's not good prayer, it not really perfect prayer, even the master is a big confusing master himself. Just he gave like that, practically testing on you. When you got result, then he want to do that for himself. You understand? Some doctors, before they're giving the medicines they never tested for themselves. First, they tested on the patients. When he getting better, then he'll take for himself. Is it true, Clint Thompson?

Clint: Yes Swami.

Swami: Like that, you have to choose good master, then the good prayers. It's very important there. Good path, perfect path. If there is no perfect path... even if perfect path, if you have no faith, don't do that - simply wasting of your time. Simply you're wasting of your master's time. Period. Please don't do that. Be happy in your life. If your heart is open for to do that... Suppose you're in confusion, go

the master, "Please, make my heart is open for you." If you try, it's not work, the master can say directly to you, "I'm so sorry, go your way." I'm talking with my open heart, it's very important. I don't want to do crime in the people, wasting of their time five years, six years, ten years unnecessary for to working with nothing. Of course they'll get some beneficial with the meditation power... working for the nothing, meditation for the nothing, just that time they can spend with the children and their family, they can share their huge love. You understand? Please, you're doing big crime, you're making to your master doing big crime. You have to be aware of that, my statement. Think yourself, you figure out what is your life you want to do. You try to understand the master. The master is like high level, you can't understand him so much distance, then you ask master, "Please, can you come down to my level to understand me?" Then the master can come down.

Sometimes small kids will come to me, the Indian kids. They know about *Ramayana*, *Mahabharata*, even the kids they know very well Indian guys. When they comes they're talking very clearly, very brilliantly like ten, twelve years kids - so attraction, like making me really tempting, like talking with them. When they come I never talk like a big guy, "Ok go. Ok guys, big boss, sit." They come, like four, five people childrens, they're talking with like a fish, you know fish? Very interesting, then I have to come down like their age, come down their age like both - everybody's eating chocolates and talking to them like...with their energy melting, teaching to them. Sometimes, I know I'm doing mistake, I'm going very higher level talking, again immediately I'm coming back.

If you're not understanding some points, why does Swami deep meaning, it seems so simple. It's not simple. Entire my talks, it seems to very, it makes sense, it's natural, we know Swami. Everything what you know I talking in the deep, in the background there, there's huge meaning there. You have to catch that. You have to implement that knowledge where is exactly it's useful to you there. Or suppose I gave a hundred points. There is only two, three points perfected fixed to you. You have to figure out the three points then you have to understand the ninety-seven points, don't ignore that points. You understand? Then you choose the real master and the real prayers. The prayers, one to five times you have to check with master when you're doing. You have to catch master when you're giving master interview to you. Even if you learn the mantra, when you are with

the master I'm checking every person the mantras, prayers, no doubt on that. You have huge time. I'm preparing for something and it's a little private. Wait and see, but I am checking each person the prayers and I'm recommending very few prayers, very strongly in their life, and I'm checking once more. Can you repeat for me? Can you repeat? Repeat. Done. Go. Different prayers, whatever you learn, it's not my business. Even what I teach, if you mispronounce, you learn, that's ok, still energy's there one level.

But if you use perfect personal mantra, it maintains the balanced energy, it brings you back you no need to worry on that. Your heart is open that mantra, you did it, you're maintaining your results but your personal mantra and what's your master is giving you, recommending you certain prayers, you have to maintain that forever and ever. Very careful - if you mispronounce that, master's not responsible, one hundred percent.

So, when after when you're doing these processes, just I'm giving only two, three prayers very strongly each person this trip. The remaining prayers you can do whatever you want, you can learn but two, three prayers for sure I'm giving. Just, I'm making sure you learn or not. If you not learn, it really makes your master's feelings hurt. Before you're going, take off from India, I'm checking, I'm getting back answer from you, exact what I'm expecting, the prayers exact pronunciation. Simple not like too much big.

When you're keeping on doing that, your soul automatically sucks highest to you. Then the master, here the real mechanism is running. If the mention the master one personal mantra to you, the real master, then his meditation power, each student is sucking. The door, like hollows, like big milk pots - holes, the milk is coming, everyone's receiving. The master is sucking and he's giving - everybody's receiving and receiving and receiving. When you really doing the processes, then you felt such a huge connection with your master and to the God. Certain moments, the energy comes with the different forms as your master, as your wife, as your children. In your bedroom you're sleeping, coming in your dreams or coming in your bedroom, talking to you.

There is no any perfect example for that. Comes any way, different moments, different processes, it makes you experiencing that. It comes as an angel giving you darshan, making in front of you

appearing. You're waking up at midnight, you're seeing some light and it's disappearing. It's not your illusion. Don't go in the illusions. I told already be in positive, live in positive, die in positive, then such type of the energy definitely is making an experience somewhere in some point. When it happens, when you're doing sincerely honest your duty what the master gave you program, what you're doing, it has to be in a clear, then only you can maintain that channel forever and ever.

Once you break that channel, so difficult to bring back again. You can't catch the master, he's so fast, he's moving, his energy... You can't bring back you in your life. You understand. So, what the master give you program, when you starting to do that, whatever the angels, whatever the energies making to you, at that point, easily when you seen some evidence, some proofs in your life experiencing. Some days it's coming and coming and giving you, appearing and disappearing. Then very, very turning point in your life. You have to be very attention - real spiritual turning point is running from there. You understand?

Lothar: Can you please repeat it?

Swami: Really, very, very, very turning point in your life. You have to be very big attention what is coming in you, in front of you, what is energy something is following you. You have to be very careful and you have to open your heart. Please, I know my master is helping me, the energy's coming and the angels is coming in your life. Then you have to open your heart to beg, "Please come, just talk to me. Don't go away, you're coming for me. How come you're going far away? You have to talk to me. You have to help me." Do your prayers, open your heart, really you talk with your heart. Sleep, lie down, or do your duties, then when your heart is open, you really want to talk, your soul magnet is making that angel to talk to you. It can't go away. It can't ignore your meditation power. There's no chance. If it is ignore your meditational power, it means there is no God in the universe. The God always, he respect your hard work, you are really wanting this, if you're so hungry, his duty - to feed you, that is the real father duty. That is... you understanding, this man? There is no, any expressions in your face.

It is so, so important turning point in your life. You have to talk with your heart, with your heart you really want to talk. You really want

experience that angels. Just you're doing prayers and opening your heart, you want to talk. Bring that desire in your mind. Then there's a big chance it comes and makes it appear a little long time, then you're experiencing that, at the time, one hundred percent I can give guarantee there's no energy - you have to talk. Your head's going a little high, a little straight, some people, my Indian devotees, after I shown, they're telling with a huge buttering before, "Oh, I'm so grateful Swami, no problem, you made me to I can handle it." After they seen like this, seen like that - done. (Students laugh) Like five hours, six hours when I wake up, their clothes is very dirty, you know this?

Student: They pee.

Swami: Pee. Huge shock. You have to be very careful. You have bring... Of course, when your heart is open, that magnetic power, by even your heart is beating a little high, but you're able to seeing that, you can see that, at a time making to show huge fear. When the master gives something energy to you with the different whatever he likes processes, giving energy, make you very strong, can show you that, can bring you back. A normal person he can't see that. If he see that, there's a big chance... many people died in the universe. It's one hundred percent true. Something new forms they see (snaps fingers) like a flash, like they go heart attack. Their blood like huge, huge nervous, like big electric shock. I don't want to make the fear, what is there, truthful I'm talking openly. No need to hide something, just talk openly. Then, when it comes to you, there is a big chance you can't talk. That's ok, be relaxed, be humble, you watch, experience that energy.

Definitely it is coming again next day to you, or two days later it's coming, or three days later it is coming. When it comes again, then you have some resistance power. You are talking with your mind, "I want that, I want this." Then you have to ask the energy, "Please bless me to talk to you." The people is mainly...many people they are forgetting that. Please ask, "Please give that energy to me to talk to you." Then you have to ask, "Please give the right thoughts in my mind to ask to you, in a good things."

When you ask for the bad things, one time for the something, entire your spirituality is going crashing. You understand? Never ask the bad things for any moment at any costs. Be open heart, always be

positive, asking positive, for the good in the universe. Understand? Very important! Actually, according to Indian tradition, the process is like twelve years, the spiritual, you reaching to talking the angels, to connecting to the divine souls, minimum twelve years - twelve to fifteen years (snaps fingers). The Indian tradition is giving guarantee, no doubt you can get the Indian people, the saints what I talked personally, what I seen. You can see in the Ramakrishna Paramahansa story, in his life history, how many years it takes to him. Many, many saints how many years it takes to him to reach that stage. What my feeling, my students, I have so pretty confident on them. Everybody they reach like six years, already six years' meditation power. But you have to be very carefully you have to handle that, to take off. Then the angels can easily connect to you to talk, exchanging your feelings and energy - back and forth. Then you'll become the master. Then you know exactly what you doing with the help of the divine souls.

We can start until to here, the subject, after you're connecting the angels, the new mechanism how you can create using that angel's power, taking that. How you can create another angels in your life for yourself. When you left from your body that angels not permanently staying in this planet until to you give permission to stay. Then that angel's power again you can bring back to your soul, you can go to next life. How that mechanism it goes, we can talk tomorrow. That entire powers with the angels, is based on the one level with the Shiva, how he connected to the moon. We can jump to that, it's pretty interesting, big, crazy tradition?

Students: Oh, yes.

Swami: I'm doing my best guys, so we'll see tomorrow. Already it's like 12:10. I think I want to listen to guitar music for a little while. I think we talk near, near two hours. If that crazy noise in upstairs evening before, this feelings you can suck? No chance.

End of Talk
